35	Juvenile Justice Coordinating Council • Members serve a term at the discretion of the BOS. • Membership on the Commission is established by the Juvenile Justice Crime Prevention Act. • The Commission is subject to AB 1234 Ethics Training compliance.	BOS • Staff by Probation Agency	8/06/1997	• WIC 749.2-749.24 • Board Letter, December 2000		The JJCC was created to comply with the requirements of the Schiff-Cardenas Crime Prevention Act of 2000, Section 749.2 WIC. The Schiff-Cardenas Crime Prevention Act allocated funds from the Supplemental Law Enforcement Services Fund to counties on a per capita basis to implement a comprehensive multi-agency juvenile justice plan. It required that each county's plan developed by a juvenile justice coordinating council and approved by the Board of Supervisors and Board of Corrections. The Schiff-Cardenas Crime Prevention Act was later replaced by the Juvenile Justice Crime Prevention Act, which has a similar requirement for the JJCC role in approving the development and approval of the multi-agency plan for expenditure of the funds authorized by the JJCPA.	6 times a year	Achieves meeting quorum. 57	Ventura County Resource Conservation District Board of Directors • 9-member Board of Directors governs the RCD, with 3 director positions for each of the three Divisions. • Director terms are four years commencing on the last Friday of November in even-numbered calendar years.	BOS	1979	• PRC 9314 • VC Ord 4066 VC Ordinance 4066 was adopted in 1994 as an alternative to the election of directors. The Ordinance authorizes the BOS the authority to appoint directors to a Resource Conservation District.		Pursuant to PRC 9314, as an alternative to the election of directors, the Board of Supervisors may, by a resolution presented to the Board, request the Board of Supervisors to appoint directors. The Resource Conservation District was formed as a result of the consolidation of the former Ojai and South Ventura County Resource Conservation Districts, and the annexation of all remaining unincorporated land in the County. The Districts' objectives are control of run-off, prevention/control of soil erosion, water development/distribution and land improvement. The three Divisions are Division 1 (Ojai Valley), Division 2 (Santa Clara Valley) and Division 3 (South Ventura County: Somis, Simi Valley, Hidden Valley, Santa Susanna and Santa Monica Mountains)			Independent Special District

BOARD OF SUPERVISORS
COUNTY OF VENTURA
3855-F ALAMO STREET
SIMI VALLEY, CALIFORNIA 93063

June 11, 1996

Board of Supervisors
County of Ventura
800 S. Victoria Ave.
Ventura, CA 93009

SUBJECT: Approve the reestablishment of the Agricultural Policy Advisory Committee and their new mission (responsibilities and by-laws), and modifications and to the existing "Right to Farm" section of the County Zoning Ordinance, and responsibilities of the Agricultural Commissioner.

RECOMMENDATIONS:

1. Approve reestablishment of the Agricultural Policy Advisory Committee with updated responsibilities and by-laws (Attachments A & B).

2. Direct staff to begin finalizing a modified and updated Ventura County "Right to Farm" ordinance as shown in Attachment C.

3. Assign the responsibility for staff support to the Agricultural Advisory Policy Committee to the Ventura County Agricultural Commissioner effective July 1.1996.

4. Establish one (Agricultural) Planner IV position in Agricultural Commissioner, with the salary range indicated, effective July 15, 1996:

Classification Title	Bi-weekly Salary Range	Annual Salary
Planner IV (05223)	$1,533 - $2,052	$39,870- $53,365

Revenues:	$ (21, 200)
Costs:	
Direct Operations	$ 42, 400
Indirect Department	$ -0-
Total Net County Cost	$ 21, 200

DISCUSSION:

On March 26, 1996, the Board gave conceptual approval to a staff evaluation and review of existing regulations, policies and procedures relating to the Agriculture Industry. Your Board also directed staff to review the issues and to return to your Board by May 7, 1996 with specific findings and recommendations. Unfortunately, resolution of some unforeseen issues delayed returning until today.

Until a few years ago, a ten-member county Agricultural Policy Advisory Committee met monthly to advise the Board and Local Area Formation Commission (LAFCO) on discretionary land use entitlements affecting and affected by agriculture, to review Land Conservation Act (LCA) contracts, and generally represent the agricultural viewpoint. As part of the Fiscal Year 93/94 Budget reductions, the Resource Management Agency-Planning Division staff position that had supported the Agricultural Policy Advisory Committee was eliminated, this virtually eliminated the Committee. Its function has been reduced to an annual meeting to review proposed LCA contracts.

It is proposed that a formal mechanism for the agricultural community to advise the Board of Supervisors be reestablished, by recreating an advisory body that meets at least monthly to advise on all issues of interest to agriculture. This new body would carry out all of the functions of the former agricultural advisory committee, with the addition of the general charge of reviewing any proposed county actions that may affect, or be affected by, agriculture. A listing of proposed responsibilities and by-laws for the new Agricultural Policy Advisory Committee is included in Attachment A.

The former Agricultural Policy Advisory Committee's have had varying numbers and mixes of members. Based on past experience, it is recommended the new Agricultural Policy Advisory Committee consists of five public members, one appointed by each of the five members of the Board of Supervisors. In addition, it is recommended the Agricultural Commissioner and the Farm Advisor each be included as {non-voting} ex-officio members, to assure professional, technical feedback is always available to the committee members during their deliberations.

To further emphasize the importance of and to assure appropriate portrayal of agriculture's viewpoint, it is recommended that responsibility for staffing the Agriculture Policy Advisory Committee be assigned to the Agricultural Commissioner's Office. Thus, just as now occurs in line departments such as Public Works Agency - Transportation and Flood Control, Fire and Sheriff who make recommendations in their areas of responsibility and expertise, the County Agricultural Department would have the same role for agricultural issues. A position of Agricultural Planner (at the Planner IV) level is recommended to staff these new functions. The Agricultural Commissioner feels sufficient funding is available through the application of existing fees to fund 50% of the $42.4 ($ 39.9 for Planner IV and $2.5 in service & supply costs). Establishing this new allocation will impact the general fund as department revenue will only cover 50% ($21.2) of total direct costs of $42.4.

Current references to a basic "Right To Farm" are contained in a few lines of the County Zoning Ordinance. A model "Right To Farm" ordinance (Attachment C) has been adopted by approximately 30 (thirty) Counties across the State of California. Staff would be requested to finalize and update the model, follow normal procedures and return to the Board for final approval. Several County agencies and staff have already examined the proposed ordinance, but the normal process including publication, public review and input, etc. needs to be followed. One of the first tasks to be undertaken, after the "Right To Farm" ordinance by the proposed new Agricultural Policy Advisory Committee would be a review of existing county ordinances as they relate to agriculture. While various positive changes have already been effected or proposed in county ordinances, additional streamlining and improvements may be worthwhile. In terms of the existing County Zoning Ordinance, this assessment would include consideration of existing agricultural land uses now categorized as discretionary for possible reclassification as ministerial, assessment of existing standards for agricultural uses, and analysis of related permit processing issues. Although most Building & Safety and Fire Protection District regulations are set in State law, the locally adopted Fire and Building Code provisions, and local procedures to implement state law, are also worthy of review. Other applicable county codes also be reviewed from the agricultural perspective.

The above mentioned actions have been reviewed by various County agencies (Chief Administrative Office, Agricultural Commissioner, Resource Management Agency, County Counsel, Fire Protection District, Personnel etc.) and is generally supported by the agricultural community.

If you have any questions or need more information, please call Supervisor Mikels, or her Administrative Assistant Keith Jayko, at (805) 582-8010.

RESOLUTION NO. 201/208.103

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA RECONSTITUTING THE AGRICULTURAL POLICY ADVISORY COMMITTEE AND REDEFINING ITS RESPONSIBILITIES AND BY-LAWS

Whereas, The Board of Supervisors adopted Resolution No. 610.100 on August 31, 1976, establishing the County's Agricultural Policy Advisory Committee to review, process and make recommendation to the Planning Commission and Board of Supervisors relative to agricultural matters, specifically applications for Land Conservation Act Contracts and attendant permits; and

Whereas, The Board of Supervisors has periodically authorized changes to the committee's composition, and changing circumstances suggest a redefinition of the Committee's role and responsibilities;

Now, Therefore, Be It Resolved, that this Resolution Repeals and Replaces, the Resolution of April 19,1988. The Committee will be comprised of one member from each supervisorial district. The members shall be appointed by the Board of Supervisors and shall be from the County's agricultural/farming community. Members shall serve at the pleasure of the Supervisor's from the District they represent. The Agricultural Commissioner and the Director of the University of California Extension Service for Ventura County shall serve as Ex-Officio Members of the Committee; and

Be It Further Resolved, that staff support for the Committee shall be provided from the County Agricultural Commissioner. The Committee shall serve in an advisory capacity to the Board of Supervisors, County advisory commissions and committees, such as the Planning Commission , the Local Agency Formation Commission (LAFCO), and County Staff.

Be It Further Resolved, that the Committee's power shall specifically include review and advice on the County Land-Conservation Act (LCA) Program, proposed zoning and building regulations effecting agriculture, and all matters having direct, indirect and cumulative impact on the County's agricultural economy. Said matters may include, but are not limited to, entitlements, plans, policies, programs, studies and legislation originating at the local, state and federal levels.

APPROVED AND ADOPTED THIS ELEVENTH DAY OF JUNE, 1996

By the following vote:

AYES: Supervisors Kildee, Mikels, Flynn and Schillo.

NOES: None.

ABSENT: Supervisor Lacey

Chair, Board of Supervisors

ATTEST:

RICHARD D. DEAN
County of Ventura, State of California, and ex officio Clerk of the Board of Supervisors thereof.

By Roberta Rodriguez
Deputy Clerk

Attachment A

BY-LAWS

VENTURA COUNTY
AGRICULTURAL ADVISORY COMMITTEE

I. DUTIES AND RESPONSIBILITIES

It shall be the duty of the Agricultural Policy Advisory Committee to: (a) advise and assist the Board of Supervisors by providing information on the County's agricultural industry; (b) evaluate matters referred to the Committee by the Board; (c) review, in cooperation with the Planning Department, proposed development projects having the potential to affect agricultural lands, as designated on the County's Agricultural Resources Map. Such review could consist of buffer setback determinations, recommendations regarding land division proposals for Type AE:40,0S20 Agricultural Land, and recommendations regarding proposed amendments to the Agricultural Land Type Designations as shown on the Agricultural Resources Map (as required by County Code _____). The Committee shall also perform the functions specified in Chapter _____ of this code.

II. MEETINGS

A. Regular meetings of the Agricultural Policy Advisory Committee shall be held on the fourth Thursday of each month, convening at 1:30 p.m. at a location/s yet to be determined. Should the meeting date, time and/or place be in conflict with a holiday or at a time when the regular meeting site is not available, the Committee shall fix an alternate meeting time and/or place at the meeting preceding the anticipated conflict.

B. No meeting of this Committee shall be held in any facility that prohibits the admittance of any person, or persons, on the basis of race, religious creed, color, national origin, ancestry, or sex (Government Code Section 54961). Meetings shall be held within a facility which is functionally for, usable and accessible to physically handicapped persons.

C. Special meetings may be called by the Chairperson, or by a majority vote of the Committee during any regular or special meeting.

D. The public shall be notified in advance of the time and place of regular and special meetings.

E. At least seventy-two (72) hours prior to each regular meeting, an agenda for the regular meeting shall be mailed to each Committee member, and to each representative of the news media and to each other person who has submitted a written request to the Committee for notification of meetings, and shall be posted at least seventy-two (72) hours prior to the regular meeting at a location that is freely accessible to the public. The agenda shall contain a brief general description of each meeting. No action or discussion shall be undertaken on any item not appearing on the posted agenda except that members of the Committee may briefly respond to statements made or questions posed by persons exercising their public testimony rights or ask a question for clarification, refer the matter to staff or to other resources for factual information, or request staff to report back at a subsequent meeting concerning any matter. Notwithstanding the foregoing, action may be taken on any item of business not appearing on the posted agenda upon a determination by two-thirds vote of the membership of the Committee, or if less than two-thirds vote of the membership of the Committee, or if less than two-thirds of the members are present, by unanimous vote of those members present, that there is a need to take immediate action and that the need for action came to the attention of the County subsequent to the agenda being posted.

F. At least twenty-four (24) hours prior to each special meeting, an agenda for the special meeting shall be mailed to each Committee member and to each representative of the news media and to each other person who has submitted written request to the Committee for notification of meetings; and shall be posted at least twenty-four (24) hours prior to the special meeting at a location that is freely accessible to members of the public. No business other than that listed on the agenda shall be considered at a special meeting.

G. A person shall not be required to register his or her name or fulfill any other obligation as a condition to attendance at any meeting of this Committee (Government Code Section 54953.3).

H. Any person wishing to speak before the Committee shall fill out a speaker card and hand it to the secretary of the Committee.

III. VOTING

A. Quorum. A majority of the members of the Committee shall constitute a quorum for the purposes of conducting all business.

B. All official acts of the Committee shall comply with existing regulations, policies and procedures.

C. Committee members qualified to vote to approve minutes are those Committee members who were present at the subject meeting.

D. Motions shall be carried by a majority vote of Committee members.

IV. MEMBERSHIP

A. The Committee shall consist of five members, residents of the County, appointed by the Board of Supervisors. Each supervisor shall nominate one person to serve on the Committee. Membership on the Committee shall be open to those who are active in the production of agricultural commodities or a related agricultural industry.

B. There shall be, in addition, two liaison members appointed: the County Director of Agricultural Extension Service, and the County Agricultural Commissioner who shall be non-voting members of the Committee.

C. Committee members will serve without compensation, except if requested/ directed to travel on official business by the Board of Supervisors.

V. TERMS OF OFFICE

Each Committee member shall serve for a term of four years, commencing on April 1st of the year in which such Committee member's nominating supervisor begins a full term or at the pleasure of the nominating supervisor.

VI. OFFICERS

A. The officers of the Committee are the Chairperson and the Vice-Chairperson.

B. The Agricultural Commissioner shall serve as Committee Executive Secretary.

C. Each Committee shall elect its Chairperson and Vice-Chairperson. Committee officers shall be elected during the first meeting in April of each year at which there are a majority of the Committee members present.

D. The duties of the Chairperson are to preside over meetings, determine agenda items and prepare agendas in cooperation with the Agricultural Commissioner's Department, represent the Committee, and be responsible for communication with the County Departments, Board or Commissions as directed by a majority of the members of the Agricultural Policy Advisory Committee. The Vice-Chairperson shall assume these same duties in the absence of the Chairperson.

E. The duties of the Committee's Executive Secretary shall be to provide staff support for the Committee. The Agricultural Commissioner or his designee, shall serve as administrative secretary to the Committee, and shall receive copies of all minutes, reports and recommendations submitted to the Board of Supervisors by the Committee.

F. The Agricultural Commissioner's Department shall cooperate in providing staff support for the Committee. Such support shall consist of application receipt and processing, staff report preparation, and presentation of appeals of Agricultural Policy Advisory Committee decisions to the Board of Supervisors.

G. Attendance by Committee members. Every Committee members must notify the Agricultural Committee members 48 hours in advance of any Agricultural Policy Advisory Committee meeting he or she is unable to attend. If any Committee members is absent from three consecutive meetings without legitimate reason, the Agricultural Policy Advisory Committee shall request the Board of Supervisors to remove said Committee members from the Committee and request that a replacement Committee members be appointed.

VII. AGENDA

A. Committee members who wish to place items on the agenda shall give those items to the Agricultural Commissioner's Department staff at least fifteen (15) working days in advance of the meeting.

B. Public participation in Committee meeting shall be allowed as follows:

1. An opportunity for members of the public to directly address the Committee on any item on the agenda of interest to the public shall be provided before or during the Committee's consideration of the item.

2. In addition, the agenda will provide for community oral communications on items not on the agenda which are within the subject matter jurisdiction of the Committee at the beginning of each regular meeting agenda.

3. The Chairperson of the Committee may establish reasonable limits on the amount of time allotted to each speaker on a particular item, and the Committee may establish reasonable limits on the total amount of time allotted for public testimony on a particular item or the total amount of time allotted for community oral communications. When

further discussion is required, the Committee members may vote to allot time in the agenda of the following meeting.

C. All subcommittees shall comply with the notice and agenda requirements otherwise applicable to the Committee in these by-laws, except for subcommittees composed solely of less than a quorum of the members of the Committee which are not standing subcommittees of the Committee with either a continuing subject matter jurisdiction or a meeting schedule fixed by resolution or other formal action of the Committee.

D. Minute orders. At the earliest practical opportunity after each Board of Supervisors meeting, the Committee Executive Secretary or designee shall furnish each Committee members with either a written summary or copies of newly adopted rules or regulations affecting Agricultural Lands adopted by the Board of Supervisors and the brief statement of the Board of Supervisors.

E. The business of the Agricultural Policy Advisory Committee shall be conducted according to Sturgis Rules of Parliamentary Procedure.

VIII. MINUTES OF MEETING

Official minutes recording the motions entertained and actions taken at each Committee meeting shall be prepared by the Committee's Executive Secretary and submitted to the Committee for their approval at the subsequent meeting. Approved minutes are to be submitted by the Executive Secretary to the Board of Supervisors, the Clerk of the Board and the County Administrative Office (as required).

IX. SUBCOMMITTEES

Subcommittees may be established as needed by the Chairperson with the majority approval of the Committee. Subcommittees shall be terminated when their functions are no longer necessary.

X. APPROVAL OF BY-LAWS

Amendments to these By-Laws may be recommended to the Board of Supervisors by a majority vote of the Committee.

RIGHT TO FARM ORDINANCE

Section 1. Definitions

As used in this Ordinance No. _____:

(a) "Agricultural Land" shall mean all that real property within the boundaries of Ventura County currently used for agricultural operations or upon which agricultural operations may in the future be established.

(b) "Agricultural Operation" shall mean and include, but not be limited to, the cultivation and tillage of the soil; dairying; the production, irrigation, frost protection, cultivation, growing, harvesting and processing of any agricultural commodity, including viticulture, horticulture, timber or apiculture; the raising of livestock, fur bearing animals, fish or poultry; and any commercial agricultural practices performed as incident to or in conjunction with such operations, including preparation for market, delivery to storage or to market, or to carriers for transportation to market.

Section 2. Findings and Policy

(a) It is the declared policy of this County to enhance and encourage agricultural operations within the County. It is the further intent of this County to provide to the residents of this County proper notification of the County's recognition and support through this ordinance of those persons' and/or entities' right to farm.

(b) Where non-agricultural land uses extend into agricultural areas or exist side by side, agricultural operations frequently become the subjects of nuisance complaints due to lack of information about such operations. As a result agricultural operators are forced to cease or curtail their operations. Such actions discourage investments in farm improvements to the detriment of adjacent agricultural uses and the economic viability of the County's agricultural industry as a whole. It is the purpose and intent of this section to reduce the loss to the County of its agricultural resources by clarifying the circumstances under which agricultural

operations may be considered a nuisance. This ordinance is not to be construed as in any way modifying or abridging state law as set out in the California Civil Code, Health and Safety Code, Fish and Game Code, Food and Agricultural Code, Division 7 of the Water Code, or any other applicable provision of State law relative to nuisances, rather it is only to be utilized in the interpretation and enforcement of the provisions of this code and County regulations.

© An additional purpose of this ordinance is to promote a good neighbor policy by advising purchasers and users of property adjacent to or near agricultural operations of the inherent potential problems associated with such purchase or residence. Such concerns may include, but are not limited to, the noises, odors, dust, chemicals, smoke and hours of operation that may accompany agricultural operations. It is intended that, through mandatory disclosures, purchasers and users will better understand the impact of living near agricultural operations and be prepared to accept attendant conditions as the natural result of living in or near rural areas.

Section 3. Nuisance.

No agricultural activity, operation, or facility or appurtenances thereof, conducted or maintained for commercial purposes, and in a manner consistent with proper and accepted customs and standards and with all chapters of the Ventura County Code, as established and followed by similar agricultural operations, shall be or become a nuisance, public or private, pursuant to the Ventura County Code, if it was not a nuisance when it began.

Section 4. Disclosure.

(a) The disclosure statement required by this chapter shall be used under the following circumstances and in the following manners:

(1) The County of Ventura shall mail a copy of the disclosure set out at subpart (b) I to all owners of real property in Ventura County with the annual tax bill.

(2) Upon any transfer of real property by sale, exchange, installment land sale contract, lease with an option to purchase, any other option to purchase, or ground lease coupled with improvements, or

residential stock cooperative improved with dwelling units, the transferor shall require that a statement containing the language set forth in subpart (b) shall be signed by the purchaser or lessee and recorded with the County Recorder in conjunction with the deed or lease conveying the interest in real property.

(3) Upon the issuance of a discretionary development permit, including but not limited to subdivision permits and use permits, for use on or adjacent to lands zoned for agricultural operations. The discretionary development permit shall include a condition that the owners of the property shall be required to sign a statement of acknowledgment containing the Disclosure set out in subpart (b) I, on forms provided by the Planning Department, which form shall then be recorded with the County Recorder.

(b) The disclosure required by Section 4(a) (2) is set forth herein, and shall be made on a copy of, the following disclosure form:

REAL ESTATE TRANSFER DISCLOSURE STATEMENT

THIS DISCLOSURE STATEMENT CONCERNS THE REAL PROPERTY SITUATED IN THE COUNTY OF VENTURA, STATE OF CALIFORNIA, DESCRIBED AS _____. THIS STATEMENT IS A DISCLOSURE OF THE CONDITION OF THE ABOVE DESCRIBED PROPERTY IN COMPLIANCE WITH ORDINANCE NO. _____ OF THE COUNTY CODE AS OF _____, 199_. IT IS NOT A WARRANTY OF ANY KIND BY THE SELLER(S) OR ANY AGENT(S) REPRESENTING ANY PRINCIPAL(S) IN THIS TRANSACTION, AND IS NOT A SUBSTITUTE FOR ANY INSPECTIONS OR WARRANTIES THE PRINCIPAL(S) MAY WISH TO OBTAIN.

I

SELLERS INFORMATION

The Seller discloses the following information with the knowledge that even though this is not a warranty, prospective Buyers may rely on this information in deciding whether and on what terms to purchase the subject property. Seller hereby authorizes any agent(s) representing any principal(s) in this transaction to provide a copy of this statement to any person or entity in connection with any actual or anticipated sale of the property;

THE FOLLOWING ARE REPRESENTATIONS MADE BY THE SELLER(S) AS

REQUIRED BY THE COUNTY OF VENTURA AND ARE NOT THE REPRESENTATIONS OF THE AGENT(S), IF ANY. THIS INFORMATION IS A DISCLOSURE AND IS NOT INTENDED TO BE PART OF ANY CONTRACT BETWEEN THE BUYER AND SELLER.

1. The County of Ventura permits operation of properly conducted agricultural operations within the County. If the property you are purchasing is located near agricultural lands or operations or included within an area zoned for agricultural purposes, you may be subject to inconveniences or discomfort arising from such operations. Such discomfort or inconveniences may include, but are not limited to: noise, odors, fumes, dust, smoke, insects, operation of machinery (including aircraft) during any 24 hour period, storage and disposal of manure, and the application by spraying or otherwise of chemical fertilizers, soil amendments, herbicides and pesticides. One or more of the inconveniences described may occur as a result of any agricultural operation which is in conformance with existing laws and regulations and accepted customs and standards. If you live near an agricultural area, you should be prepared to accept such inconveniences or discomfort as a normal and necessary aspect of living in a county was a strong rural character and an active agricultural sector. Ventura County has established a grievance committee to assist in the resolution of any disputes which might arrive between residents of the County regarding agricultural operations.

VENTURA COUNTY ORDINANCE TO PROTECT COMMERCIAL AGRICULTURE FROM NUISANCE CLAIMS, TO REQUIRE NOTIFICATION OF SUCH PROTECTION, AND TO PROVIDE FOR MEDIATION OF DISPUTES REGARDING THE RIGHT TO FARM - PROTECT COMMERICAL AGRICULTURE FROM NUISANCE CLAIMS

Comments

ORDINANCE NO. 4151

AN ORDINANCE OF THE VENTURA COUNTY BOARD OF SUPERVISORS TO PROTECT COMMERCIAL AGRICULTURE FROM NUISANCE CLAIMS, TO REQUIRE NOTIFICATION OF SUCH PROTECTION, AND TO PROVIDE FOR MEDIATION OF DISPUTES

The Board of Supervisors of the County of Ventura ordains as follows:

1. The following findings and policy statements are hereby adopted:

   (a) It is the policy of this County to enhance and encourage agricultural operations within the County. It is the further intent of this County to provide to the residents of this County proper notification of the County's recognition and support through this Ordinance of persons' and entities' rights to farm.

   (b) Where non-agricultural land uses extend into agricultural areas or exist side by side, agricultural operations frequently become the subjects of nuisance complaints due to lack of information about such operations. As a result, agricultural operators are forced to cease or curtail their operations. Such actions discourage investments in farm improvements to the detriment of adjacent agricultural uses and the economic viability of the County's agricultural industry as a whole. It is the purpose and intent of this Ordinance to reduce the loss to the County of its agricultural

resources by clarifying the circumstances in which agricultural operations may be considered a nuisance.

(c) This ordinance shall not be construed as in any way modifying or abridging state law as set forth in the California Civil Code, Health and Safety Code, Fish & Game Code, Food and Agricultural Code, Water Code (Division 7) or any other applicable provision of state law relative to nuisances, other than those portions of Civil Code sections 3482.5 and 3482.6 that address the length of time a properly conducted commercial agricultural operation must have been in existence to be protected from a nuisance claim, and the definition of "agricultural activity, operation, or facility."

(d) An additional purpose of this Ordinance is to promote a good-neighbor policy by advising purchasers and users of property adjacent to or near agricultural operations of the inherent potential problems associated with such purchase or residence. Such concerns may include, but are not limited to, the noises, odors, dust, chemicals, smoke and hours of operation that may accompany agricultural operations. It is intended that, through mandatory disclosures, purchasers and users will better understand the impact of living near agricultural operations and be prepared to accept

attendant conditions as the natural result of living in or near rural areas.

2. Section 8114-2.1.1 of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8114-2.1.1 - Exception - Agricultural Operations Protection - No agricultural activity, operation, or facility that is consistent with this Chapter and the General Plan, and is conducted or maintained for commercial purposes in a manner consistent with proper and accepted customs and standards as established and followed by similar agricultural operations in the same locality, shall be or become a nuisance, private or public, due to any changed condition in or about the locality, after it has been in operation for more than one year if it was not a nuisance at the time it began.

a. Exception - This section shall not apply if the agricultural activity, operation, or facility, obstructs the free passage or use, in the customary manner, of any navigable lake, river, bay, stream, canal, or basin, or any public park, square, street, or highway.

b. Definition - For purposes of this section, the term "agricultural activity, operation, or facility" shall include, but not be limited to, the cultivation and tillage of the soils, dairying, the production, irrigation, frost protection, cultivation, growing, pest and disease management, harvesting and field processing of any agricultural commodity including timber, viticulture, apiculture, or horticulture, the raising of livestock, fish, or poultry, and any practices performed by a farmer or on a farm as incident to or in conjunction with such farming operations, including preparation for market, delivery to storage or market, or delivery to carriers for transportation to market.

3. Section 8183-4.1 of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 8183-4.1 - Exception - Agricultural Operations Protection -
No agricultural activity, operation, or facility that is consistent with this Chapter and the General Plan, and is conducted or maintained for commercial purposes in a manner consistent with proper and accepted customs and standards as established and followed by similar agricultural operations in the same locality, shall be or become a nuisance, private or public, due to any changed condition in or about the locality, after it has been in operation for more than one year if it was not a nuisance at the time it began.

a. This exception shall not apply if the agricultural activity, operation, or facility, obstructs the free passage or use, in the customary manner, of any navigable lake, river, bay, stream, canal, or basin, or any public park, square, street, or highway.

b. For the purposes of Section 8183-4.1, the term "agricultural activity, operation, or facility" shall include, but not be limited to, the cultivation and tillage of the soils, dairying, the production, irrigation, frost protection, cultivation, growing, pest and disease management, harvesting and field processing of any agricultural commodity including timber, viticulture, apiculture, or horticulture, the raising of livestock, fish, or poultry, and any practices performed by a farmer or on a farm as incident to or in conjunction with such farming operations, including preparation for market, delivery to storage or market, or delivery to carriers for transportation to market.

4. Section 9112 of the Ventura County Ordinance Code is hereby amended to read as follows:

Sec. 9112 - FEE SCHEDULE - The Commissioner may, upon making such inspections or issuing such certificates and permits or providing such services as are authorized or permitted by the California Food and Agricultural Code or this Chapter, charge a fee therefor in accordance with fee schedules which may from time to time be adopted by resolution of the Board of Supervisors and made available for public inspection during regular working hours on scheduled working days in the office of the Commissioner.

5. A new Article 2 is hereby added to Chapter 1 of Division 9 of the Ventura County Ordinance Code to read as follows:

ARTICLE 2 - RIGHT-TO-FARM

Sec. 9121 - AGRICULTURAL OPERATIONS PROTECTED -
Sections 8114-2.1.1 and 8183-4.1 of this Code, and section 3482.5 of the Civil Code, protect certain agricultural operations against claims that they constitute a nuisance.

Sec. 9122 - REAL ESTATE TRANSFER DISCLOSURE STATEMENT -
In addition to those disclosures required by section 1102.6 of the Civil Code, a disclosure on the form set forth below is required in connection with all transactions that are subject to the disclosure requirements of section 1102.6 of the Civil Code and that pertain to real property located in the unincorporated portion of Ventura County.

REAL ESTATE TRANSFER DISCLOSURE STATEMENT

THIS DISCLOSURE STATEMENT CONCERNS THE REAL PROPERTY SITUATED IN THE COUNTY OF VENTURA, STATE OF CALIFORNIA, DESCRIBED AS _____. THIS STATEMENT IS A DISCLOSURE OF THE CONDITION OF THE ABOVE-DESCRIBED PROPERTY IN COMPLIANCE WITH SECTION 9122 OF THE VENTURA COUNTY ORDINANCE CODE AS OF _____, 19__. IT IS NOT A WARRANTY OF ANY KIND BY THE SELLER(S) OR ANY AGENT(S) REPRESENTING ANY PRINCIPAL(S) IN THIS TRANSACTION, AND IS NOT A SUBSTITUTE FOR ANY INSPECTIONS OR WARRANTIES THE PRINCIPAL(S) MAY WISH TO OBTAIN.

I

SELLER'S INFORMATION

The Seller discloses the following information with the knowledge that even though this is not a warranty, prospective Buyers may rely on this information in deciding whether and on what terms to purchase the subject property. Seller hereby authorizes any agent(s) representing any principal(s) in this transaction to provide a copy of this statement to any person or entity in connection with any actual or anticipated sale of the property.

THE FOLLOWING ARE REPRESENTATIONS MADE BY THE SELLER(S) AS REQUIRED BY THE COUNTY OF VENTURA AND ARE NOT THE REPRESENTATIONS OF THE AGENT(S), IF ANY. THIS INFORMATION IS A DISCLOSURE AND IS NOT INTENDED TO BE PART OF ANY CONTRACT BETWEEN THE BUYER AND SELLER.

Section 3482.5 of the Civil Code, and sections 8114-2.1.1 and 8183-4.1 of the Ventura County Ordinance Code protect properly conducted commercial agricultural operations against claims that they constitute a nuisance. If the property you are purchasing is located near or adjacent to agricultural lands or agricultural operations, or is included within areas used for agricultural purposes, you may be subject to inconveniences or discomfort arising from agricultural operations. Such discomfort or inconven-

iences may include, but are not limited to: frost protection measures, noise, odors, fumes, dust, smoke, insects, operation of machinery (including aircraft), at any hour of the day or night, storage of equipment and materials necessary for normal agricultural practices, slow moving farm implements, and the application by spraying or otherwise of chemical fertilizers, soil amendments (such as manures, compost materials and mulches), and pesticides (such as herbicides, insecticides and fumigants). If you live near an agricultural area, you should be prepared to accept such inconveniences or discomfort as a normal and necessary aspect of living in a county with a strong rural character and an active agricultural sector. Ventura County Ordinance Code sections 9131 through 9137 provide a procedure for mediating disputes concerning agricultural operations.

Substantial pesticide drift is illegal under section 12972 of the Food and Agricultural Code. Any concerns regarding substantial pesticide drift should be referred to the office of the Agricultural Commissioner.

Seller certifies that the information herein is true and correct to the best of the Seller's knowledge as of the date signed by the Seller.

6. A new Article 3 is hereby added to Chapter 1 of Division 9 of the Ventura County Ordinance Code to read as follows:

ARTICLE 3 - MEDIATION SERVICES

Sec. 9131 - PURPOSE - The purpose of this Article is to provide for mediation by the office of the Commissioner of disputes, between persons conducting agricultural operations in the unincorporated territory of the County and persons owning or occupying property affected by such operations, respecting any and all of the issues listed in Section 9132.

Sec. 9132 - ISSUES - The following issues are subject to mediation under this Article:

a. Whether the operation that is the subject of the dispute --

(1) is an "agricultural activity, operation, or facility";

(2) is "conducted or maintained for commercial purposes"; or

(3) is conducted or maintained "in a manner consistent with proper and accepted customs and standards, as established and followed by similar agricultural operations in the same locality" --

within the meaning of section 3482.5 of the Civil Code and Sections 8114-2.1.1 and 8183-4.1 of this Code.

b. Such other and related issues as may be within the special expertise of the office of the Commissioner.

Sec. 9133 - APPLICATION - Any two or more parties to a dispute respecting one or more issues listed in Section 9132 may apply to the Commissioner for mediation of the dispute between and amongst the applicants. The application shall be made on such form as the Commis-

sioner may prescribe; provided, however, that the application shall include a partial waiver of confidentiality, signed by all the applicants, in the form specified in Section 9134. The Commissioner shall grant an application only if, in his or her judgment, the dispute appears to include one or more of the issues listed in Section 9132 and the office of the Commissioner has adequate resources to provide the requested mediation services.

Sec. 9134 - PARTIAL WAIVER OF CONFIDENTIALITY - The application form shall be signed by all the applicants and shall contain the following statement:

> "The applicants understand that the Agricultural Commissioner has responsibility for the enforcement of various laws, regulations and ordinances pertaining to agricultural operations and that such responsibility may be inconsistent with the maintenance of full confidentiality with respect to matters disclosed in mediation. Accordingly, the applicants agree that the Agricultural Commissioner and any other employee of the office of the Agricultural Commissioner may, notwithstanding the provisions of sections 703.5, 1152.5 and 1152.6 of the Evidence Code, testify in any subsequent civil proceeding about, and otherwise disclose to any person, any communication or document obtained in the course of the mediation to the extent such testimony or other disclosure is reasonably necessary for the proper performance of the Agricultural Commissioner's duties."

Sec. 9135 - MEDIATOR - The mediator shall be the Commissioner or an employee of the office of the Commissioner who is acceptable to the applicants and, in the opinion of the Commissioner, available and competent to provide the requested mediation services.

Sec. 9136 - MEDIATION PROCESS - Mediation is a process in which a neutral mediator facilitates communication between disputants to assist them in reaching a mutually acceptable resolution of the dispute. The mediation shall be conducted in such manner as the mediator deems efficacious. The applicants are expected to cooperate in the exchange and presentation of pertinent information. If jointly requested by all the applicants, the mediator shall, within 15 calendar days of the joint request, render a written opinion as to how the issues in dispute should be resolved. Any written opinion rendered by the mediator shall be nonbinding upon any applicant

who does not consent to be bound by it. The applicants may mutually agree to enter into a written settlement agreement respecting the dispute. If a written settlement agreement so provides, it shall be binding on the parties and be enforceable in a court of law.

Sec. 9137 - FEES - For services rendered by the office of the Commissioner pursuant to this Article, the Commissioner shall charge the applicable fee, if any, adopted by the Board of Supervisors pursuant to Section 9112.

7. Section 3 of this Ordinance shall become operative 30 days after certification by the California Coastal Commission pursuant to section 30514 of the Public Resources Code. All other sections of this Ordinance shall become operative 30 days after adoption by the Board of Supervisors.

PASSED AND ADOPTED this 7th day of October, 1997, by the following vote:

AYES: Supervisors Schillo, Long, Mikels and Flynn

NOES: None

ABSENT: Supervisor Lacey

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

OCTOBER 7, 1997 AT 8:30 A.M.

ORD.#4151/201

ORDINANCE REGARDING THE RIGHT TO FARM

An Ordinance of the Ventura County Board of Supervisors to Protect Commercial Agriculture from nuisance claims, to require notification of such protection, and to provide for mediation of disputes is presented to the Board at this time, and upon motion of Supervisor Mikels, seconded by Supervisor Schillo, and duly carried, it is ordered that the same be passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 4151.

Board members vote as follows:

Ayes: Supervisors Schillo, Long, Mikels and Flynn

Noes: None

Absent: Supervisor Lacey

All members of the Board present voting on the passage and adoption of said Ordinance, it is hereby declared and ordered that said Ordinance is hereby passed and adopted as an Ordinance of the County of Ventura, to be known as Ordinance No. 4151.

It is further ordered that said ordinance shall take effect and be enforce at the expiration of thirty (30) days from the date hereof, except Section 3 of the Ordinance shall become operative 30 days after certification by the California Coastal Commission pursuant to section 30514 of the Public Resources Code, and before the expiration of fifteen (15) days the entire Ordinance shall be published, with the names of the members of the Board of Supervisors voting for and against the same, at least once in the Santa Paula Times a newspaper of general circulation printed and published in the County of Ventura, State of California.

SUMMARY
ORDINANCE NO. 4151

The Ventura County Agricultural Policy advisory Committee filed amendments to the Ventura County Ordinance Code, sometimes referred to as the "Right-to-Farm Ordinance". The ordinance results in the following changes: (1) revises existing zoning provisions so as to further protect properly conducted commercial agricultural operations from lawsuits claiming the operations to be nuisances; (2) adds provisions requiring disclosure to persons acquiring real property that agricultural operations are so protected from lawsuits and that such persons may experience inconveniences and discomforts associated with agricultural operations; and (3) adds provisions providing for optional mediation by the Ventura County Office of the Agricultural Commissioner of certain disputes involving agricultural operations.

PASSED AND ADOPTED this 7th day of Oct. 1997, by the following vote:

FOR: Supervisors Schillo, Long, Mikels, and Flynn

AGAINST: Supervisors None

ABSTAIN: Supervisor Lacey

RICHARD D. DEAN,
County Clerk
By Faye Willard,

September 23, 1997 (Agenda)

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: Proposed Revised "Right-to-Farm" Ordinance

RECOMMENDED ACTION:

On September 23, 1997:

1. CONDUCT a public hearing on the proposed revised "Right-to-Farm" Ordinance, as presented in Exhibit "1" to this Board letter; and

2. INTRODUCE AND READ the proposed ordinance in title only, waive further reading by majority vote, and continue the matter for final action until September 30, 1997.

On ~~September 30~~ OCTOBER 7, 1997:

1. RECEIVE public testimony;

2. FIND that the proposed amendments to the Ventura County Non-Coastal and Coastal Zoning Ordinances (Sections 8114-2.1.1 and 8183-4.1, respectively) and Division 9 of the Ventura County Ordinance Code (generally referred to as the "Right-to-Farm" Ordinance) are exempt from the California Environmental Quality Act (CEQA), under Section 15061(b)(3) of the *State CEQA Guidelines*, and direct staff to file a Notice of Exemption;

3. FIND that the proposed amendments to the Ventura County Ordinance Code are consistent with the Ventura County General Plan and Coastal Plan, and are justifiable in terms of general welfare, public convenience and good zoning practice pursuant to Ventura County Code Section 8115-0;

4. ADOPT the proposed revised "Right-to-Farm" Ordinance (Exhibit "1") and attached Resolution 222 (Exhibit "2");

5. DIRECT staff to forward the amendment to Section 8183-4.1 of the Coastal Zoning Ordinance to the California Coastal Commission with a recommendation that it be certified and /or otherwise approved;

6. DIRECT the Chair of the Board of Supervisors to sign the letter included as Exhibit "3" to this letter requesting that each of the ten cities in the county adopt an ordinance requiring a disclosure statement similar to that in Section 5 of the "Right-to-Farm" Ordinance. The purpose of this statement would be to alert purchasers of property within the cities of the protection afforded by state law and the County Non-Coastal and Coastal Zoning Ordinances to properly conducted commercial agricultural operations against nuisance claims, and the potential inconveniences and discomforts associated with agricultural operations; and

7. CONSIDER the concerns of the Planning Commission expressed in Resolution 8684 (Exhibit "12" to the July 15, 1997 Board letter) regarding the potential impacts of pesticide drift on urban uses and biologically-based/organically-based farming operations, and the potential conflicts between biologically-based/organically-based farming operations and conventional farming practices.

FISCAL/MANDATES IMPACT;

See discussion in July 15, 1997 Board letter.

STATEMENT OF MATTER FOR BOARD CONSIDERATION;

Revised Proposed "Right-to-Farm" Ordinance. The public hearing on the proposed "Right-to-Farm" Ordinance was originally scheduled for your meeting of July 15, 1997. Due to the absence of Supervisor Flynn, your Board continued the hearing to September 23, 1997. As a result of the concerns that have been raised by the public regarding the use of pesticides and the effects of pesticide drift, the Agricultural Policy Advisory Committee (APAC) revisited the draft ordinance to reaffirm that the text as written is acceptable, or to revise the text as necessary before it was heard by your Board. At its meeting on July 23, 1997, the APAC revised the preamble to the ordinance, which includes the non-codified purpose and policy statements of the ordinance, to include language from an earlier working draft of the ordinance that was omitted from the current draft document. This language states that with the exception of Civil Code Sections 3482.5 and 3482.6, the ordinance would not modify or abridge provisions in the State Civil Code, Health and Safety Code, Fish and Game Code, Food and Agricultural Code, Water Code or any other provision of State law that regulate agricultural activities (such as the use of pesticides). In other words, the statement clarifies that the ordinance does not make legal any farming activities that are currently illegal. The new text has been added to the preamble (Section 1 of the proposed ordinance) as subsection (c), and previous subsection (c) has been changed to (d) (see Exhibit "1" to this letter).

State Civil Code Sections 3482.5 and 3482.6 address the length of time a properly conducted commercial agricultural operation must have been in existence to be protected from a nuisance claim, and the definition of "agricultural activity, operation or facility", respectively. Since at least 1985, Section 8114-2.1.1 of the Non-Coastal Zoning Ordinance and Section 8183-4.1 of the Coastal Zoning Ordinance have provided that a properly conducted commercial agricultural activity, operation or facility must have been in operation for more than one year to be protected from nuisance claims; the State Civil Code specifies that the activity, operation or facility must have existed for three years before the nuisance protection applies. County Counsel advises that the County can adopt more restrictive language than the State Civil Code to limit the potential for nuisance complaints to be made against properly conducted commercial agricultural operations. The current wording of the zoning ordinances reflects this additional protection, and would not be

modified by the proposed ordinance. However, the proposed ordinance would amend the County Zoning Ordinances to make the current definition of agricultural activities, operations and facilities more encompassing, and include irrigation, frost protection, pest and disease management, and field processing (see Exhibit "3" to the July 15, 1997 Board letter and "Exhibit "4" to this letter).

Responses to Public Comments on the Draft Ordinance. Exhibit "10" to the July 15, 1997 Board letter summarizes the written and oral testimony on the proposed "Right-to-Farm" Ordinance received by the Planning Commission at their June 26, 1997 public hearing, and provides responses to these comments. Additional written comments were received prior to your Board's scheduled July 15 hearing on the proposed ordinance, and are attached as Exhibits "5" through "12" to this letter. A summary of and responses to these comments are provided in Exhibit "13" to this letter.

Major Points Emphasized by the APAC At their meeting on July 23, the APAC re-emphasized the following points concerning the proposed ordinance:

- As addressed in the preamble, the purpose of the "Right-to-Farm" Ordinance is to enhance and encourage agricultural operations and to reduce the loss of agricultural resources in the County through (a) the continuation and expansion of existing protection afforded by the County Ordinance Code to properly conducted commercial operations against nuisance claims; (b) the promotion of a good-neighbor policy by notifying purchasers of unincorporated property that properly conducted commercial agricultural operations are protected from nuisance claims, and that agricultural operations may generate inconveniences or discomforts that potentially may impact non-agricultural uses; and (c) the provision of optional mediation services by the Office of the Agricultural Commissioner for disputes involving agricultural operations;

- The proposed "Right-to-Farm" Ordinance does not obligate any aggrieved individual to use the Office of the Agricultural Commissioner to mediate disputes involving agricultural operations. The ordinance also does not abridge any person's legal rights to redress problems associated with nearby agricultural activities. The mediation services of the Office of the Agricultural Commissioner would be voluntary. A disputant may seek an alternative mediation service, such as the Ventura Center for Dispute Settlement, or may pursue litigation;

- The proposed "Right-to-Farm" Ordinance does not make legal any agricultural activity that is currently illegal. State regulations concerning unlawful agricultural activities (such as substantial pesticide drift) would not be modified by the ordinance. The use of pesticides (including herbicides, insecticides, and fumigants) and fertilizers is strictly regulated by the State, and these regulations can only be changed by the State legislature. The regulations are outside of the purview of the APAC and your Board; and

- The real estate disclosure statement provisions of the proposed "Right-to-Farm" Ordinance would be applicable solely to purchasers of property located in the unincorporated area of the County, and not to property transfers within the cities. The "Recommended Action" described above recommends that your Board send a letter to each of the ten cities in the County requesting that they adopt an ordinance requiring a disclosure statement for purchasers of properties within the city limits that may be affected by agricultural activities.

The revised proposed "Right-to-Farm" Ordinance and this Board letter has been reviewed by County Counsel, and a copy provided to the Chief Administrative Office.

If you have any questions on this item, please contact any of the members of the APAC, or the Agricultural Commissioner at (805) 647-5931.

Charles Schwabauer, Chairman
Agricultural Policy Advisory Committee

W. Earl McPhail
Agricultural Commissioner

IV. Minutes

The minutes of the April 25, 1995 meeting were approved, as mailed.

V. Chairman's Report

There was no Chairman's report.

VI. Election of Officers

It was moved (Irigoyen), and seconded (McCarthy), that Michael Kuhn be nominated as Chair. The election of Michael Kuhn as Chair was passed by voice vote.

It was moved (Turner), and seconded (Irigoyen), that Maxine Dewbury be nominated as Vice Chair. The election of Maxine Dewbury as Vice Chair was passed by voice vote.

VII. Public Comment

There was no Public Comment.

VIII. Old Business

There was no Old Business.

IX. New Business

A. Proposed New Rule 74.29, Soil Decontamination; related revisions to Rule 44, Exemption Evaluation; and Rule 23, Exemptions from Permit.

David Martinez of District staff summarized the requirements of proposed new Rule 74.29 and discussed the extensive public input process for the rule. Mr. Martinez also discussed the proposed revisions to Rules 23 and 44.

The committee and staff discussed the proposed exemption for agricultural operations. Committee member Moore asked how the 65 ton per year emission reduction estimate was calculated. Mr. Martinez responded that it was based on quarterly reports from some existing sites and information provided from consultants. Mr. Martinez stated that the estimate is based on an assumption of an emission reduction of 5,000 to 10,000 pounds of ROC per site. The

committee and staff discussed the relation of the 65 ton per year emission reduction to the total ROC inventory for the county. The committee and staff agreed that the 65 ton per year reduction was small compared to the total inventory. Vice Chair Dewbury asked if having less stringent emission limitations in the rule would improve cost-effectiveness. David Martinez explained that the cost-effectiveness data was based on three sites and stated that monitoring costs had driven up the costs. Committee member Vander Pluym stated that because a site was not generating a ROC stream with a concentration that would make combustion cost-effective, does not necessarily mean the site will not pose a health risk. Committee member Thompson asked how the District is handling these sites at this time. Staff described the existing permitting practices, the existing soil aeration policy and the new source review toxics policy.

Michael Klancher, representing Cal Resources, stated that he would like to see the rule changed to specify that the measurement of organic compounds from soil be done at a level of three inches above undisturbed soil. Mr. Klancher also stated that this rule could discourage some bioremediation projects and asked the committee and staff to consider the total environmental impacts of the rule. Donna Nowland, representing Western States Petroleum Association, stated that she also would like to have sampling performed at three inches above the undisturbed soil. Ms. Nowland also asked how the $450 exemption evaluation fee was determined.

Mike Villegas of District staff stated that it would be reasonable to perform the measurement of organic compounds from soil at a level of three inches above undisturbed soil for in situ remediation projects. Mr. Villegas also stated that the proposed method of disturbing the soil to obtain a representative sample was still best to determine the emissions from recently excavated soil. Karl Krause of District staff stated that the $450 fee was based on the average amount of time that District spent on exemption evaluations.

It was moved (Greene), seconded (McCarthy), and passed by a vote of 9 to 5 that the proposed revisions to Rule 74.29, as proposed and modified by Mike Villegas of staff, be recommended to the Air Pollution Control Board for adoption.

It was moved (Greene), seconded (Figueroa), and passed by a vote of 11 to 3 that the proposed revisions to Rules 44 and 23, as proposed and modified by the committee, be recommended to the Air Pollution Control Board for adoption. As part of the motion, staff was directed to change the proposed exemption evaluation fee so that the minimum fee would be $250 and the maximum would be $450.

B. Proposed New Rule 76, Federally Enforceable Limits on Potential to Emit.

Karl Krause of District staff gave an overview of Title V of the federal Clean Air Act and the concept of "potential to emit." Mr. Krause also summarized the rule negotiation with EPA that resulted in this proposed new rule. Mr. Krause stated that a workshop was not held because EPA would not approve any revisions to the rule in a timely manner. Further, Mr. Krause stated that the districts had agreed to present this rule as negotiated to their governing Boards. Mr. Krause then summarized the proposed rule and the recordkeeping requirements contained in the rule. Mr. Krause stated that of the approximately 1,400 sources on permit in Ventura County over 1,200 would be exempt from Title V under this rule. Mr. Krause also discussed the proposed changes to the draft rule that were made in response to EPA comments and the memo that detailed the changes.

The Committee and staff discussed the purpose of the Title V permit program and whether or not the District's new source review program could be used to set federally enforceable permit limits. Vice Chair Dewbury asked if Rule 76 should have a delay before the rule requirements became effective (some number of months after adoption). Mr. Krause agreed that this would be appropriate.

It was moved (Head), seconded (Turner), and passed unanimously that proposed new Rule 76, as proposed and revised by staff, be recommended to the Air Pollution Control Board for adoption. As part of the motion, staff was directed to make the rule effective six months after adoption.

C. Proposed Revisions to the Advisory Committee Bylaws

Don Price of District staff gave an overview of the revised bylaws and stated that these proposed revisions had been reviewed by County Counsel. Mr. Price also stated that the proposed bylaws reflected the new composition of the committee.

The committee and staff briefly discussed the proposed revisions to the bylaws. Committee member Logan asked if the committee would follow Roberts Rules of Order. It was the consensus of the committee that they would loosely follow Roberts Rules of Order. Committee member Turner asked if the agendas could be set so that the meetings would not run too late. Staff agreed to try to do this and will place an estimate of the time required for each item on the agenda.

It was moved (Dewbury), seconded (Vander Pluym), and unanimously voted that proposed revisions to the Advisory Committee Bylaws be adopted as proposed and revised by staff.

X. Adjournment

The meeting was adjourned at approximately 10:50 p.m.

ADVISORY COMMITTEE

BYLAWS

INTRODUCTION

The bylaws of the Air Pollution Control District (APCD) Advisory Committee contain information on purpose and objectives, committee functions, time and location of meetings, officers duties, elections, meeting contents, agendas, minutes, subcommittees, and the bylaws.

PURPOSE AND OBJECTIVES

The APCD Advisory Committee (Committee) was created by, and its members are individually appointed by, the Ventura County Air Pollution Control Board (Board). The Committee provides the Board with recommendations on APCD rule actions, general APCD issues, and general air pollution issues.

The Board created the Committee, in part, to ensure that all parties, including private citizens, health and environmental organizations, government agencies and industry, have a forum for the discussion of APCD rule development activities and other air pollution concerns. An appearance before the Committee is recommended for parties planning a presentation before the Board. Therefore, on matters either under consideration or air pollution related, the Committee will hear and consider input from any source.

The Committee endeavors to conduct its business openly, fairly, quickly, and effectively. The guidelines for this objective are the bylaws.

Article 1

COMMITTEE FUNCTIONS

Section 1. COMMITTEE RECOMMENDATIONS TO THE BOARD

A. Requests for recommendations arrive before the Committee as follows:

1. From the Air Pollution Control Officer and APCD Staff (Staff), working primarily from a Rule Development Calendar approved annually by the Board. Staff may request recommendations on other issues as needed.

2. From the Board, by direction.

B. In its recommendations, the Committee should, to the extent feasible, consider factors related to the general welfare of Ventura County. These factors include, but are not limited to, the health, social, economic, political, legislative, legal and employment effects of an

issue on both the public and industry. Recommendations should advance efforts to meet health based state and federal clean air standards.

1. Recommendations should be made within a reasonable amount of time, after a reasonable amount of effort, and within the ability of the Committee.

C. Recommendations shall be transmitted to the Board by the Staff; recommendations are discussed in the text of a Board transmittal letter with the Committee voting record attached. Transmittal may be supplemented in any or all of the following ways: attachment of the minutes of Committee meeting, a letter from the Committee Chair, or a presentation from the Committee (per Article 1, Section 2.G).

1. Committee work is conducted in cooperation and partnership with Staff, who work with the Committee to create and find agreement on the best possible recommendation. Therefore, Staff and Committee recommendations may often closely coincide. However, it is correct and proper for Staff recommendations and Committee recommendations to differ.

2. The form and content of supplemental transmittal information shall be determined by the Committee.

D. Committee members may express an opinion on a recommendation, either supporting or dissenting, in the following ways:

1. Express a personal opinion directly to the Board, per Article 1, Section 2.G.

2. Have an opinion placed on the record in the meeting minutes and transmitted to the Board. The committee member is responsible for providing the statement to the Secretary and is solely responsible for its content.

Section 2. MEMBERSHIP

A. The Committee is composed of twenty members. The Ventura County Board of Supervisors nominate two Committee members each, for a total of ten. The ten Ventura County cities (Camarillo, Fillmore, Moorpark, Ojai, Oxnard, Port Hueneme, San Buenaventura, Santa Paula, Simi Valley and Thousand Oaks) nominate one Committee member each, for a total of ten. All appointments are made by the Board.

1. A quorum shall be a majority of the appointed members.

B. Committee members serve as follows:

1. Committee members nominated by the Board of Supervisors serve a four (4) year term coinciding with the term of the nominating supervisor.

2. Committee members nominated by the cities of Ojai, Port Hueneme, Simi Valley and San Buenaventura serve an initial term of two (2) years (1995-1997); terms thereafter shall be four (4) years. Committee members nominated by the remaining cities serve four (4) year terms.

3. Committee members serve until replacement or removal by the Board, or resignation. Members may serve past the term of office of the nominating entity until either replaced or reappointed.

C. The Secretary shall notify the Committee of new and renewed appointments by the Board.

D. Committee members represent their communities, professions, and industries, and are appointed with the specific purpose of providing input from these sectors, in both discussion and voting. This is not a conflict of interest.

1. Despite issues that are often of a technical nature, committee members require no special technical background. Since technical knowledge from some members is essential during Committee deliberations, and non-technical members can become expert with increasing experience, a certain level of continuity in membership is encouraged. Although not required, a good mix of new and seasoned members provides for optimum Committee operation.

E. If a committee member's actions are deemed by vote of the Committee to be improper or unacceptable, the committee chair shall notify the Board. No further action may be taken by the Committee.

F. Committee members shall provide a completed and signed conflict of interest statement to the Secretary annually by April 1. An additional statement is required at both the start and termination of appointment to the Committee. The Secretary shall arrange for Ventura County Counsel to answer questions on conflict of interest issues and statements.

G. Committee members may appear and testify before the Board or elsewhere on Committee or air pollution issues. However, members must, during every appearance, state for the record that they are expressing either an approved Committee position or their own position. Presentation of majority and/or minority opinions and reports require the same clarification.

Section 3. BROWN ACT REQUIREMENTS

A. The Committee is a permanent, advisory committee created by the Board. As such, Brown Act requirements apply to the Committee.

B. General Requirements

1. All regular and special meetings of the Committee shall be open and public and all persons must be permitted to attend the meetings. Any person attending shall have the right to record the meeting.

2. The Committee must designate by formal action the time and place for the holding of regular meetings. See Article 2, Section 1.A.

3. At least 72 hours before a regular meeting, an agenda must be posted in a freely accessible area. The agenda must contain a brief description of each item of business to be transacted or discussed at the meeting.

C. Special Meetings

1. A meeting notice shall be delivered to the Committee members and to each local newspaper of general circulation, radio or television station requesting notice in writing. The notice must be received at least 24 hours before the time of the meeting and must specify the time and place of the meeting and the business to be transacted. The notice must be posted at the location freely accessible to the public at least 24 hours before the meeting.

D. Subcommittee Requirements

1. Subcommittee meetings must meet the same Brown Act requirements as Committee meetings.

Article 2

TIME AND LOCATION OF MEETINGS

Section 1. REGULAR MEETINGS

A. The Committee meets regularly on the fourth Tuesday of each month at 7:30 P.M. Meetings are held at the offices of the Air Pollution Control District, 669 County Square Drive, Ventura, CA, 93003, except under special circumstances or as determined by the Committee.

1. Regular meetings need not be scheduled every month; meetings shall be scheduled only when recommendations are requested.

2. Regular meetings shall occur at least once each quarter to review APCD and air pollution status and to provide a public forum for non-agenda subjects.

B. A quorum must be present by 8:00 P.M. If a quorum is not present at that time, the meeting shall be either adjourned or continued, by order of the Chair. Subcommittees may meet if provided for in the agenda.

Section 2. SPECIAL MEETINGS

A. Special meetings may be held at any time or location in Ventura County. Special meetings are scheduled as follows:

1. The Committee may call for the meeting during a regular meeting, or

2. The Chair may call for the meeting in consultation with staff. Scheduling is contingent upon the indication, by phone survey conducted by the Secretary, that a quorum will be present.

B. The agenda for special meetings shall be limited to special issues unless a regular meeting agenda is planned by Committee vote. Normal informational, administrative and scheduling activities may be conducted as well.

Section 3. VOTING

A. A motion by any Committee member is required to request a vote on an issue. The motion shall describe the action to be taken.

B. A second is required to place the motion before the Committee for a vote. After a motion and a second, all Committee members present shall be polled for a voice vote by the Secretary. The results of the vote are reported in the minutes and provided to the Board.

1. Each Committee member present has one vote.

2. Voting by proxy is not allowed.

3. Secret ballots are not allowed.

4. The Chair may vote on any issue.

C. Abstentions

1. Committee members may abstain from voting on an issue for any reason. Members shall announce any economic conflict of interest which requires disqualification. Beyond that, members may note the reason for an abstention in the minutes if desired.

2. Abstentions shall be recorded and reported by the Secretary during the vote.

Section 4. ADJOURNMENT AND CONTINUANCES

A. Meetings at which business is incomplete or a quorum is not present may be adjourned to a time and place designated by the Committee or, in the absence of a quorum, the Chair.

1. An adjourned regular meeting is the continuation of an original meeting and operates in the same manner as a regular meeting.

2. A copy of the order of adjournment must be posted on or near the door of the meeting place within 24 hours of the adjournment to a stated time and place.

B. Action on specific issues may be continued to a subsequent meeting by direction of the Committee or, in the absence of a quorum, the Chair.

1. If the continuance is for less than 24 hours, a copy of the order must be posted on or near the door of the meeting place immediately following the meeting at which the continuance occurred.

OFFICERS - DUTIES AND ELECTIONS

Section 1. OFFICERS

The Officers of the Advisory Committee shall include a Chair, a Vice-Chair, and a Secretary. Officers are elected from the Committee membership except the Secretary, who is the Air Pollution Control Officer.

Section 2. TERM OF OFFICE - ELECTIONS

A. Officers serve for one year, from January to January, unless changed by Committee vote. There is no limit on the number of terms.

    1. When an officer relinquishes Committee membership for any reason, the Committee shall hold an election for that office as soon as possible.

B. Officer elections are held during the regular January Committee meeting, or as soon thereafter as the Committee's schedule provides. If elections are delayed, existing officers serve through the election.

    1. Election votes follow the same rules as regular votes.

Section 3. DUTIES OF THE CHAIR

A. Primary duties of the Chair:

    1. Conduct Committee meetings by presiding over discussions, deliberations, and voting. In addition, the Chair shall moderate public discussion and presentations. The Chair shall attempt to provide equal time to all sides and factors.

        a. The chair shall verify that all members understand the issue under discussion, the motion, and the vote results.

    2. Verify that a quorum is present prior to the start of official meetings.

    3. Verify that both role and minutes are taken by the Secretary.

    4. Poll the public audience for issues of discussion not on the agenda during the public comment portion of the meeting.

    5. Insure that meeting minutes, as prepared by the Secretary, are reviewed, corrected if necessary, and approved.

    6. Decide questions of order or procedure. Decisions may be appealed to the Committee, which may vote on the issue.

B. Secondary issues:

1. Although not forbidden, the Chair should refrain from making either a motion or a second.

2. If a sufficient number of meetings lack a quorum, the Chair shall inform the Board. The chair shall request replacements for departing members.

3. The Chair shall represent the Committee on other committees and organizations unless an alternate is designated by the Chair or the Committee.

4. The Chair shall write letters and make personal appearances and presentations to the Board and other persons, agencies, and entitles on behalf of the Committee, unless an alternate is designated by the Chair or the Committee.

5. The APCO and the Board may call upon the Chair to go to outside meetings (i.e. with ARB, PUC, legislatures, EPA, sister counties and districts) as their representative from the Committee, as an expert, or representing the Committee prestige and expertise.

Section 4. DUTIES OF THE VICE-CHAIR

A. Primary duties of the Vice-Chair:

1. Perform all of the primary duties of the Chair when the Chair is absent.

2. Aid the Chair in the efficient conduct of the meeting and, at the Chair's request, coordinate side issues while the chair is running the meeting. These side issues may include interactions with the audience, public, staff, or Committee members, answering questions, or making other arrangements to keep the meeting moving efficiently and undisturbed.

3. Monitor the proceedings and plans of the Committee, notifying the Chair of potential problems.

4. Assume Chair duties when the position becomes vacant. Chair duties shall cease when the Committee elects a new Chair.

5. Represent the Committee when needed if the Chair is unable to fulfill this obligation.

Section 5. DUTIES OF THE SECRETARY

A. Primary duties of the Secretary:

1. Prepare and distribute the agenda and meeting packet, arrange for meeting rooms and facilities, make Brown Act notifications, and prepare documentation to support this effort.

2. Take meeting minutes, prepare a draft of those minutes, and send the draft to Committee members with the next regular meeting packet.

3. Prepare and send meeting notices and make phone inquiries as needed for all meetings. This includes distribution of material to the public, transmission of recommendations and other material to the Board on behalf of the Committee, and any other aspect of Committee work.

4. Advise the Committee of upcoming events, schedules, and situations.

5. Know, appreciate, and convey the desires, actions, and problems of the Board.

6. Bring to the Committee a perspective on the activities of state agencies, federal agencies and adjacent APCDs, including legal proceedings and court decisions, regarding air pollution issues.

7. Take part in discussions during meetings and deliberations, assisting Committee members in understanding and appreciating all pertinent facts and factors from both the District and the Board.

Article 4

MEETINGS AND AGENDAS

Section 1. PREPARATION OF THE AGENDA.

A. The Agenda for regular meetings is prepared by the Secretary early in the month. Meeting notices and Committee member packets are assembled and mailed to committee members two weeks before the meeting date. This means that reports, communications, resolutions, documents, and other material for distribution to the Committee must be submitted to the Secretary by the first Wednesday of the month of a meeting.

1. Agenda items that come up after the first Wednesday of the month, or arise unexpectedly at the meeting, may be heard by the Committee if Brown Act requirements for "Off Agenda Items" are met.

Section 2. ATTENDANCE AT MEETINGS

A. Committee members unable to attend a meeting shall notify the Secretary no later than the day before the meeting. An excused absence shall be noted for members who notify the Secretary in advance.

B. When member notifications or a phone poll reveals enough absences to prevent a quorum, the meeting shall be cancelled. The Secretary shall inform the Committee by phone as soon as possible; the public shall be informed as well if possible. The Secretary shall re-schedule the meeting.

C. Unexcused absences shall be recorded by the Secretary and reported to the Board for every meeting on the Attendance and Voting Record.

Section 3. ORDER OF BUSINESS

A. Regular meetings are conducted as follows:

1. Director's report
2. Call to order
3. Roll call
4. Minutes; minutes from previous meeting are discussed, modified and approved.
5. Chair report
6. Public comment; discussion of items not on the agenda.
7. Old business; items continued from previous meetings.
8. New business
9. Subcommittee report
10. Committee business
11. Adjournment

B. The order of presentation for action items is as follows:

1. District Staff overview
2. Subcommittee report
3. Staff recommendation
4. Committee questions
5. Public comments and presentations
6. Committee discussion and deliberation
7. Action on the issue

Section 4. RECORDING MEETINGS

The Secretary shall make an audio recording of each meeting to ensure the accuracy of the minutes. Recordings shall be maintained on file for two years. Recordings shall be available for review by the public and copies shall be available for the cost of reproduction.

Article 5

SUBCOMMITTEES

Section 1. APPOINTING SUBCOMMITTEES

Subcommittees are created by the Committee as needed to provide additional information on an issue.

A. Subcommittee members shall be appointed by the Chair, along with a temporary subcommittee Chair. The Chair is an ex-officio member of each subcommittee.

1. At the first subcommittee meeting, members may affirm or change the subcommittee Chair.

a) The subcommittee Chair shall schedule Subcommittee meetings, take minutes, provide a subcommittee report to the Committee, and work with the Secretary to make the necessary notifications.

2. Subcommittee attendance must not exceed a Committee quorum unless approved in advance by the Chair.

B. Subcommittees may obtain outside expert advice and take additional information as needed to develop a report on their subject. However, subcommittees shall not incur expenses to be paid without prior approval from the Secretary.

C. Dissenting or multiple subcommittee reports or recommendations are permissible if differing or competing solutions exist.

D. When presenting subcommittee reports, the Subcommittee Chair or a delegate shall inform the Chair of the report at the start of the committee meeting, along with the subject of the report and the associated agenda item.

E. Written subcommittee reports may be either distributed to members as part of a meeting packet or mailed, faxed or electronic mailed directly to members before the meeting.

Article 6

BYLAWS

Section 1. AMENDING THE BYLAWS

A. Temporary amendment: The bylaws may be changed or amended at any regular meeting by two-thirds vote; the change is active for that meeting only.

B. Permanent amendment: The bylaws may be permanently changed or amended at any regular meeting by two-thirds vote. The proposed changes must be submitted in writing to each committee member before the meeting, either in the meeting packet or in a presentation to the Committee at a previous meeting.

Section 2. AVAILABILITY OF THE BYLAWS

The Bylaws shall be maintained by the Secretary. Copies shall be available upon request.

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: APPROVE ALCOHOL AND DRUG ADVISORY BOARD REVISED BYLAWS (COPY OF BYLAWS ATTACHED).

RECOMMENDATION:

It is recommended that the County Board of Supervisors approve and authorize the Chair of the Board to sign the Alcohol and Drug Advisory Board Bylaws (attached).

FISCAL/MANDATES IMPACT: None

DISCUSSION:

The Ventura County Alcohol and Drug Advisory Board (ADAB) has requested that the Behavioral Health Department, Alcohol and Drug Programs (BHD/ADP) present to your Board the ADAB Bylaws (attached) for your approval.

Background:
In 1990, state legislation was enacted (AB 3383, Stats. 1990, Ch. 296) which permitted a county the option of consolidating alcohol and drug advisory boards into one body, and specified how that was to be accomplished. On January 8, 1991, pursuant to the 1990 legislation, the Board of Supervisors approved a recommendation to consolidate the County's alcohol and drug advisory boards into one board. In researching the history of the existing ADAB Bylaws, staff has found no documents indicating (1) whether or not the Bylaws or some prior version ever received Board approval, or (2) whether there is a Board resolution requiring that the Bylaws be approved by the Board.

Bylaws Summary:

In brief, the Bylaws presented for Board approval today outline the responsibilities of the ADAB as follows:

- Review and evaluate the community's alcohol and drug services, facilities, and special problems.
- Advise the Behavioral Health Director on policies and goals of the County Alcohol and Drug Programs division and other related matters.
- Review and approve the planning process to ensure citizen and professional involvement at all stages.
- Assess the level of knowledge, attitude and behavior regarding drug and alcohol programs among the Ventura County public. Encourage and educate the public to understand the nature of drug and alcohol problems and encourage support throughout the County for development and implementation of effective drug and alcohol programs.
- Prepare an annual report on the status of alcohol and drug program services in Ventura County.
- Review and evaluate proposals seeking public funds for local alcohol and drug programs. Conclude the review with a formal resolution addressed to the Behavioral Health Director and Board of Supervisors noting ADAB's position on each proposal.
- Study pending legislation on matters regarding alcohol and drug use and abuse and make recommendations to the Board of Supervisors.
- ADAB shall submit minutes of its general or special meetings to the Board of Supervisors.

Meetings shall be monthly, or as deemed necessary by the ADAB Executive Committee, and open to the public subject to the Brown Act.

Membership of ADAB shall consist of twenty-three (23) persons, four (4) persons selected from each of the five supervisory districts, two (2) youth-at-large, and one (1) member-at-large. The Board of Supervisors will make all ADAB member appointments. The term of each member shall be three years and the appointing Supervisor may reappoint members.

Members of ADAB shall have a professional interest in, or a personal commitment to, alleviating problems relating to drug abuse and inappropriate alcohol use in the community. To the extent practical, the membership shall include representatives from various economic, social and occupational groups and shall be broadly representative of demographic characteristics of the County.

The Bylaws also include guidelines for meetings, membership terms, elections, officers, and committees. For more detail, please refer to the attachment.

Subject to subsequent approval by the Board of Supervisors, the Bylaws may be amended at any meeting by a two-thirds vote of the membership existing at any time, provided notice of the proposed amendment was given, in advance, with the call for the meeting.

The ADAB approved the Bylaws at their general meeting held June 27, 2005. This Board letter has also been reviewed by the County Executive Office and County Counsel.

If you have questions regarding this item, please contact Linda Shulman at 652-6737.

Sincerely,

LINDA SHULMAN, M.F.T.

VENTURA COUNTY ALCOHOL AND DRUG ADVISORY BOARD

BYLAWS

ARTICLE I

NAME

The name of this Board shall be the Ventura County Alcohol and Drug Advisory Board, hereafter referred to in these Bylaws as "ADAB".

ARTICLE II

RESPONSIBILITIES OF THE BOARD

A. Review and evaluate the community's alcohol and drug services, facilities, and special problems.

B. Advise the Behavioral Health Director on policies and goals of the County Alcohol and Drug Programs division and other related matters.

C. Review and approve the planning process to ensure citizen and professional involvement at all stages.

D. Assess the level of knowledge, attitude and behavior regarding drug and alcohol programs among the Ventura County public. Encourage and educate the public to understand the nature of drug and alcohol problems and encourage support throughout the County for development and implementation of effective drug and alcohol programs.

E. Prepare an annual report on the status of alcohol and drug program services in Ventura County.

F. Review and Evaluate proposals seeking public funds for local alcohol and drug programs. Conclude the review with a formal resolution addressed to the Behavioral Health Director and Board of Supervisors noting ADAB's position on each proposal.

G. Study pending legislation on matters regarding alcohol and drug use and abuse and make recommendations to the Board of Supervisors.

H. ADAB shall submit minutes of its general or special meetings to the Board of Supervisors.

ARTICLE III

MEETINGS

A. ADAB shall meet monthly, and may meet other times as may be deemed necessary by the Executive Committee, the Alcohol and Drug Programs Administrator or the Director of the Ventura County Health Care Agency.

B. The members of ADAB shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with their duties under this article. However, members may receive compensation from County funds at the option of the Board of Supervisors.

C. All meetings of ADAB shall be open to the public and shall be subject to Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code relating to meetings of local agencies (The Brown Act).

D. Cancellation - The Chairperson, with a 72-hour advance notice, may cancel any meeting, which at least a quorum cannot attend, or for which there is no agenda item requiring ADAB action.

E. A quorum shall be defined as one person more than half of the appointed members. For purpose of this paragraph, "appointed members" excludes unfilled positions and those vacated by resignation or removal. A quorum shall be required for any ADAB action.

ARTICLE IV

MEMBERSHIP

A. Membership of ADAB shall consist of twenty-three (23) persons, four (4) persons selected from each of the five supervisory districts, two (2) youth-at-large, and one (1) member-at-large.

B. Members of ADAB shall have a professional interest in, or a personal commitment to, alleviating problems relating to drug abuse and inappropriate alcohol use in the community. To the extent practical, the membership shall include representatives from various economic, social and occupational groups and shall be broadly representative of demographic characteristics of the County.

1. The Board of Supervisors will make all ADAB member appointments.

2. Members must serve on at least one ADAB committee each year.

C. The ADAB shall not include any person, or his or her spouse, who is any of the following:

1. A member of a board of directors or advisory body, or employee of, any County-operated alcohol or drug program or provider of alcohol or drug services operating under a contract with the County.

2. A member of any advisory body, or a person who holds any similar position or title on a compensated or non-compensated basis, in a program which possesses or seeks to or possess a license pursuant to Chapter 9 (commencing with Section 11836) of Part 2 of Division 10.5 of the Health and Safety Code.

3. A direct recipient of any state funds allocated pursuant to a contract with the State Department of Alcohol and Drug Programs. For purposes of this paragraph, a "direct recipient" shall include any person who receives compensation for contracted services from, or who is a member of any advisory body or board of directors of, the entity that receives funds.

4. An employee of the Behavioral Health Department.

D. In the event of a medical absence, military active status or other extenuating circumstances of a member, the Executive Committee shall determine whether or not it is appropriate to continue the active status of that member.

E. In the event that prior to the expiration of his or her term, a member ceases to retain the status that qualified him or her for appointment to ADAB, his or her membership on ADAB shall terminate and there shall be a vacancy on ADAB to be filled by the Board of Supervisors.

F. The term of each member shall be three years and the appointing Supervisor may reappoint members. Upon expiration or termination of a member's term, ADAB may recommend appointees from the pool of available applicants to the Board of Supervisors for a new three-year term. The Supervisor representing the departing member's Supervisory District shall have the right to recommend to the Board of Supervisors a new ADAB member to fill the vacancy. ADAB may recommend termination of a member by the Board of Supervisors for the following:

1. Unexcused absences from two (2) ADAB meetings and a total of more than three absences for any reason in any 12-month period. Prior notification of absence to the Alcohol and Drug Programs division or the ADAB Chairperson shall constitute an excused absence.

2. Behavior that consistently interferes with the normal business of ADAB and/or the Alcohol and Drug Programs division, or behavior or activities which bring discredit to the ADAB and/or the Alcohol and Drug Programs division.

3. Conflict of interest, as specified in Article IV, Section C.

4. Lack of participation on committees, subcommittees and/or special projects found necessary to complete the responsibilities, goals and objectives of ADAB.

G. Termination procedures are as follows:

1. The member shall be notified of the infraction and will be asked to submit a letter of resignation to the appointing Supervisor and/or to the Chairperson of ADAB.

2. If a member does not submit a letter of resignation within 30 days, the Board will request the appointing Supervisor to remove the member from ADAB, describing the reasons for the recommendation, and requesting that the Supervisor fill the vacancy for the residual term as soon as possible.

ARTICLE V

ELECTIONS AND OFFICERS

Section 1. Procedures

A. The officers of ADAB shall be a Chairperson, a 1st Vice-Chairperson, and a Secretary.

B. The officers shall be elected at the June meeting to serve for a term of one year or until their successors has been duly elected.

C. No individual shall serve more than two consecutive years in any of the officer positions.

Section 2. Qualifications of Officers

To qualify as an officer, a member:

A. Should have been a member of ADAB for at least one year, or, if a member for less than a year, must be elected by a two-thirds vote of the ADAB.

B. Must have a broad knowledge of the alcohol and drug programs and/or possess good leadership skills.

C. Must be able to devote at least 3 to 5 hours per week to ADAB.

Section 3. Election

A. During the April meeting, the Chairperson shall appoint and ADAB shall confirm a Nominating Committee of not less than three (3) members.

B. The Nominating Committee shall place in nomination the candidates selected and accept nominations from the floor during the May meeting.

C. During the June meeting, the Nominating Committee shall conduct the election by secret ballot.

D. The officers elected at the June meeting will take their respective offices on July 1st.

E. Notwithstanding the election process detailed in paragraphs 3A- 3D above, when circumstances warrant it, a majority of ADAB may vote to hold an election at any time during the year. Circumstances which may warrant a special election include: one or more of the officers wishes to resign as an officer; one or more of the officers' ADAB membership is terminated.

Section 4. Duties

A. The Chairperson shall:

1. Preside at meetings of ADAB.

2. Establish committees and appoint members to such committees. ADAB shall ratify committee members by majority vote.

3. Preside over the Executive Committee.

4. Establish the agenda for ADAB executive and general meetings.

5. Be responsible for seeing that all actions of ADAB are implemented.

6. Maintain consultation with the Behavioral Health Director.

7. As authorized by a majority of ADAB, represent ADAB and present ADAB recommendations at Board of Supervisors meetings.

8. Perform other duties ordinarily performed by a Chairperson.

B. The Vice Chairperson shall:

1. Exercise all the responsibilities of the Chairperson in the absence of the Chairperson.

2. By mutual agreement with the Chairperson, assume other duties as determined to be necessary and appropriate.

C. The Secretary shall:

1. Perform the usual duties pertaining to secretaries.

2. Cause to be kept a full and true record of all meetings of ADAB, of its committees, and of such special meetings as may be requested.

3. Cause to be issued notices of regular and special meetings of the ADAB.

4. Maintain a record of attendance of ADAB members and promptly report to the Board of Supervisors regarding any ADAB member whose position has been vacated.

5. In the absence of the Chairperson and 1st Vice-Chairperson, the Secretary will call the meeting to order and function as the Chairperson Pro Tem.

ARTICLE VI

PARLIAMENTARY AUTHORITY

A. Except where state law or regulations, County ordinances, County Counsel opinions or these Bylaws apply, the current edition of Robert's Rules of Order shall govern the procedures of ADAB.

ARTICLE VII

COMMITTEES

Section 1. Executive Committee

A. The Executive Committee shall be comprised of the Chairperson, 1stVice-Chairperson, the Secretary, and one member of ADAB designated as member at large and selected by the Chairperson on a rotating basis. Each member is entitled to one vote.

B. The Executive Committee shall:

1. Carry out any responsibilities delegated to it by ADAB.

2. Act in emergencies in any way it deems necessary when there is not time for the entire ADAB to act. Any such action taken will be consistent with the Brown Act.

Section 2. Nominating Committee

A. The Chairperson shall appoint and ADAB shall confirm a Nominating Committee of not less than three (3) members.

B. The Nominating Committee shall select a slate of officers for the coming year, secure the verbal consent of those selected, present the slate of officers for nomination and conduct the elections.

Section 3. Other Committees

A. Unless the ADAB chooses to elect committees or individual members to carry out specifically defined responsibilities, the Chairperson may, with the agreement of the members concerned, allocate to committees or individual members specific responsibilities.

ARTICLE VIII

AMENDMENT OF BYLAWS

Subject to subsequent approval by the Board of Supervisors, these Bylaws may be amended at any meeting by a two-thirds vote of the membership existing at any time, provided notice of the proposed amendment was given, in advance, with the call for the meeting.

Approved by the Ventura County Board of Supervisors on July 26, 2005.

Kathy I. Long

County of Ventura
Chair, Board of Supervisors

CALIFORNIA CODES
HEALTH AND **SAFETY CODE**
SECTION **11805**

11805. Each county may have an advisory board on alcohol and other drug problems appointed by the board of supervisors. The advisory board may be independent, be under the jurisdiction of another health-related or human services advisory board established pursuant to any provision of state law, or have the same membership as that other advisory board.

Ventura County
Animal Regulation Commission

By-Laws

Article 1 Name: This Commission shall be known as the Ventura County Animal Regulation Commission.

Article 2 Object: To serve as a policy level Commission to the cities of Ventura County, and the Ventura County Board of Supervisors in matters pertaining to Ventura County's Animal Regulation Program;

In planning for Animal Regulation programs, resources or legislation to meet the needs of the County and cities;

In formulating plans for a cooperative effort of Animal Regulation resources within the County and among State, Federal, and other agencies.

Article 3 Officers: The Commission shall elect annually from it's members, a chairman and vice-chairman to serve for one year, provided in the first year of organization that the County representative will serve as chairman. The election shall be held at the first meeting after July 1 each year;

A Recording Secretary shall be provided by the Animal Regulation Department; and

The Manager of Animal Regulation and designated city representation shall be the staff support to the Commission.

Article 4 Membership: The Commission shall consist of one member appointed from the Board of Supervisors and one from the City Council of each of the participating incorporated cities.

Each member shall serve at the pleasure of the authority making his/her appointment.

Article 5 Duties of the Chairman: It shall be the duty of the chairman to preside at all meetings of the Commission, sign all documents of an official character pertaining to the Commission and appoint all subcommittees unless otherwise ordered. The chairman shall be a voting member. The chairman shall enforce the observance of the by-laws and to decide on all disputed points of order. The chairman shall attempt to preserve a quorum when members request permission to depart before adjournment of the meeting.

The chairman shall have the power to call special meetings. Business at special meetings shall be limited to the subject mentioned in the call.

Article 6 Duties of the Vice-Chairman: It shall be the duty of the vice-chairman to act in the absence or disability of the chairman or when requested by the chairman.

Article 7 Quorum: The quorum shall consist of more than 50% of the membership of the Commission.

Article 8 Subcommittees: All subcommittees shall be appointed during the course of a regular or special meeting. All members shall have the right to report on any issues referred to that subcommittee.

Article 9 Expenses: The members of the Commission shall recommend a per diem allowance for approval by the Board of Supervisors.

Article 10 Neglect of Duty: Should any member of the Commission be absent from two successive regular meetings, unless excused by the chairman, the appointing authority may be asked to replace the member.

Article 11 Meetings: The regular meeting of this Commission shall be held quarterly on the second Thursday of that month. The place and time shall be specified in the notice sent to the members by the secretary. (Amended 10/11/79)

Article 12 Rules of Order: The chairman having called the meeting to order shall conduct business as follows: (1) Roll Call; (2) Reading the Minutes of last regular/special meeting; (3) Subcommittee Reports; (4) Unfinished business; (5) New business; (6) Adjournment.

The usual rules of parliamentary procedure as used by the Ventura County Board of Supervisors/City Council will be used as a guide in conduct of meetings.

No fiscal or policy decisions shall be adopted unless a majority of the Commission members concur.

Article 13 By-Laws: The offical by-laws shall be distributed to all committee members and a copy shall be filed with the Clerk of the Board of Supervisors and the Clerk of each city. All propositions to repeal or amend any part of these by-laws shall be in writing stating the reason why the change should be adopted. Such changes can be recommended only at a regular meeting with a quorum of the Commission members present and voting in the affirmative. All changes in by-laws will be forwarded to the Board of Supervisors and City Councils for information. (Amended February 14, 1980)

Article 14 Dissolution: This Commission shall remain in operation until July 1, 1980 unless the term is reduced or extended by action of the Ventura County Board of Supervisors with the concurrence of participating City Councils.

Approved by the Animal Regulation Commission May 31, 1979.
Amended by the Animal Regulation Commission October 11, 1979.

Approved and Amended by the Animal Regulation Commission February 14, 1980.

December 5, 1978 (Agenda)

Board of Supervisors
County of Ventura
Government Center
800 South Victoria Avenue
Ventura, California 93009

Subject: City/County Animal Regulation Program Status - Policy Direction

Gentlemen:

RECOMMENDED ACTION:

1. That your Board establish as policy the responsibility of the County to conduct a basic "Public Health Program" in animal regulation, which shall include bite quarantine and rabies suppression on a Countywide basis.

2. That the County notify cities that provisions for following animal regulation services beyond those defined as public health mandates will need to be developed through the Ad Hoc Committee mechanism and are open for discussion and conclusion prior to April 30, 1979.

    1) Use of shelter facilities will require participation in improvement or replacement of facilities for extended continued use;

    2) Operation and maintenance of satelite holding facilities;

    3) Leash law enforcement and other specified field services.

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

In February of 1977, your Board directed Animal Regulation to meet with the cities in hopes of bringing about a self-supporting budget. Pursuant to that direction, a number of meetings were held between County and City staffs in an attempt to define Animal Regulation's program and revenue potential. Frequently in the course of those meetings it was stated that if all unlicensed dogs could be licensed, Animal Regulation could, indeed, produce a self-supporting budget. An Animal Survey was conducted to provide data which will be useful in determining program needs and revenue potential.

In early 1978, your Board requested the formation of a City/County Ad Hoc Animal Regulation Committee composed of elected officials. During the three meetings of that Committee, the following areas of cooperation were discussed:

1. Selling of licenses at city halls.
2. Picking up of dead animals within the cities.
3. Handling noisy animal complaints in the cities.
4. Port Hueneme, Oxnard, Ventura and County to share cost of beach patrol.
5. Offering space in all city newsletters to Animal Regulation.
6. Handling stray animal complaints where the animal's owner can be identified.
7. City Animal Control Ordinances to comply with County's (as per General Service Agreement).
8. Providing a bank of locking cages in the cities.
9. Simi Valley and Thousand Oaks to assist in the operation and maintenance of the East County Holding Facility.
10. City participation in a new Central Animal Regulation Facility.

On November 13, 1978, and on November 20, 1978, study sessions were held with your Board relative to Animal Regulation, its programs and funding. These study sessions were of interest to the cities, therefore, agendas were sent to all mayors and city managers. During the study sessions a review of the progress with the cities was discussed.

For these study sessions, a general staff position paper was developed and, by your direction it was sent to all city counselpersons and managers (Attachment A). Due to an assessment of both the program and the County's general fiscal condition, this position essentially states the County's inability to continue the provision of countywide animal regulation services beyond public health mandates. This position thus requires an adjustment to the present contractual obligations for animal regulation services. Input on this subject has been solicited and encouraged from the cities.

Sincerely,

ENVIRONMENTAL RESOURCE AGENCY

Subject: Animal Regulation Ad Hoc Committee

Gentlemen:

RECOMMENDED ACTION:

1. That your Board delegate one of your members to serve on and Chair the Animal Regulation Ad Hoc Committee; and
2. Authorize staff to prepare the attached sample letter, for the Chairman's signature to the Mayors so the respective Councils may appoint one member to serve on the Ad Hoc Committee.

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

On December 5, 1978, your Board conducted a public hearing relative to the County continuing a County-wide Animal Regulation Program. For that hearing invitations were sent to all city council members in our County. Each of the nine cities were represented and provided input to your Board.

One of the key recommendations made by staff, at that time, was for the County to put the cities on notice, as per the existing General Service Agreement, effective July 1, 1979, Animal Regulation Services now provided to the cities would be modified. The cities reaction to the recommendation was fairly unanimous. They felt animal regulation could best be provided by the County and they were opposed to assuming the responsibility for animal regulation within their respective jurisdictions.

Your Board directed an Animal Regulation Ad Hoc Committee, comprised of a city council member from each of the nine cities and a member of your Board, be reactivated. This Ad Hoc Committee is to meet for the purpose of providing input to your Board with respect to bringing about a self-supporting budget for Animal Regulation and to find ways to fund a new central facility, as well as possible satelite animal regulation facilities. This Committee is to develop, conclude and report their final recommendation to your Board prior to April 30, 1979.

Sincerely,

ENVIRONMENTAL RESOURCE AGENCY

BOARD OF SUPERVISORS
COUNTY OF VENTURA

2220 VENTURA BOULEVARD, CAMARILLO, CALIFORNIA 93010

December 12 , 1978

Mayor Harriet Kosmo-Henson
City of San Buenaventura
P.O. Box 99
Ventura, CA 93001

Dear Mayor Kosmo-Henson:

Subject: County-wide Animal Regulation Program

On December 5, 1978, the Ventura County Board of Supervisors conducted a public hearing relative to the County continuing to provide County-wide animal regulation services. Valuable input was received from the city representatives in attendance.

One of the key recommendations made by County staff, at that time, was for the County to put the cities on notice, per the existing General Service Agreement, that effective July 1, 1979, animal regulation services now provided to the cities would be modified. It appeared that most of the cities felt animal regulation could best be provided by the County and they were opposed to assuming the responsiblity for animal regulation within their respective jurisdictions.

The Board of Supervisors directed an Animal Regulation Ad Hoc Committee, comprised of a city council member from each of the nine cities, and a member of the Board of Supervisors, be reactivated. This Ad Hoc Committee is to meet for the purpose of providing input to the Board of Supervisors with respect to bringing about a self-supporting budget for Animal Regulation and to find ways to fund a new central facility as well as possible satellite animal regulation facilities. This committee is to report back to the Board of Supervisors with final recommendations prior to April 30, 1979.

The Board of Supervisors would like your Council to discuss this request and select one member from your City Council to serve with Supervisor-Elect Dougherty.

Please notify Mr. Lin Koester at 654-2661 in regard to your city's representative prior to January 2, 1979, so we can activate the committee in early January.

Sincerely,

Ed Jones

Edwin A. Jones
Chairman

CALIFORNIA CODES
WELFARE AND **INSTITUTIONS CODE**
SECTION **9400**-9404

9400. (a) The Legislature hereby declares and recognizes the area agencies on aging to be the local units on aging in California that are supported from an array of sources, including federal funding largely through the federal Older Americans Act (42 U.S.C. Sec. 3001, et seq.), state and local government assistance, the private sector, and individual contributions for services.

(b) Area agencies on aging shall operate in compliance with the Older Americans Act and applicable regulations.

(c) Each area agency on aging shall maintain a professional staff that is supplemented by volunteers, governed by a board of directors or elected officials, and whose activities are reviewed by an advisory council consisting primarily of older individuals from the community.

(d) Each area agency on aging shall create a plan that considers available data and population trends, assesses the needs for services provided under this division reflective of the community needs, identifies sources for funding those services, and develops and implements a plan for delivery of those services based on those needs. Each plan shall include developing area home- and community-based systems of care that maintain individuals in their own homes or least restrictive environment, providing better access to these services through information and referral, outreach, and transportation, and advocating for the elderly on local, state, and national levels.

(e) Area agencies on aging shall function as the community link at the local level for development of home- and community-based services provided under the department's programs.

(f) The area agencies on aging shall implement subdivision (b) of Section 9100 at the local level, with particular emphasis on coordinating with the local systems to enable individuals to live out their lives with maximum independence and dignity in their own homes and communities through the development of comprehensive and coordinated systems of home- and community-based care. Nothing in this division shall preclude local determination and designation of service coordinators other than area agencies on aging, for

development and implementation of the long-term care integration pilot projects set forth in Article 4.05 (commencing with Section 14139.05) of Chapter 7 of Part 3 of Division 9.

(g) In fulfilling their mission, area agencies on aging shall build upon the resources and the commitment unique to each community and shall be guided by a 10-point description of a community-based system that shall do all of the following:

(1) Have a visible focal point of contact where anyone can go or call for help, information, or referral on any aging issue.

(2) Provide a range of service options.

(3) Ensure that these options are readily accessible to all older individuals, whether independent, semi-independent, or totally dependent, no matter what their income.

(4) Include a commitment of public, private, and voluntary resources committed to supporting the system.

(5) Involve collaborative decisionmaking among public, private, voluntary, religious, and fraternal organizations, as well as older individuals and consumers in the community.

(6) Offer special help or targeted resources for the most vulnerable older individuals, those in danger of losing their independence.

(7) Provide effective referral from agency to agency to ensure that information or assistance is received, no matter how or where contact is made in the community.

(8) Evidence sufficient flexibility to respond with appropriate individualized assistance, especially for the vulnerable older individuals.

(9) Have a unique character that is tailored to the specific nature of the community.

(10) Be directed by leaders in the community who have the respect, capacity, and authority necessary to convene all interested persons to assess needs, design solutions, track overall success, stimulate change, and plan community responses for the present and for the future.

9401. Area agencies on aging and other county agencies that provide services to older adults through an established multidisciplinary team, including the county departments of public social services, health, mental health, alcohol and drug abuse, and the public guardian, may provide information regarding older adult clients only to other county agencies with staff designated as members of a multidisciplinary team that are, or may be, providing services to the

same individuals for purposes of identifying and coordinating the treatment of individuals served by more than one agency. The county patients' rights advocate shall report any negative consequences of the implementation of this exception to confidentiality requirements to the local mental health director.

9402. The Legislature hereby declares and recognizes each area agency on aging advisory council as a principal advocate body on behalf of older individuals within a planning and service area. Area agency on aging advisory councils shall operate in conformance with applicable federal requirements. The local advisory councils shall meet regularly and provide advice and consultation on issues affecting the provision of services provided locally to older individuals.

9403. To the extent provided for in paragraph (2) of subdivision (a) of Section 18773 of the Revenue and Taxation **Code**, the Legislature hereby recognizes the Area Agency on Aging Advisory Council of California, comprised of the chairs of the local advisory councils.

9404. An individual's receipt of services under the In-Home Supportive Services Program (Article 7 (commencing with Section 12300), Part 3, Division 9) shall not be the sole cause for denial of any services provided by area agencies on aging or their contractors.

VENTURA COUNTY
AREA AGENCY ON AGING

BY-LAWS

ARTICLE I – AUTHORITY

Section 1 – The name of this organization is the Ventura County Area Agency on Aging (VCAAA), otherwise known as VCAAA, and its jurisdictional region is the County of Ventura.

Section 2 –The VCAAA is a public agency established in accordance with and having the authority defined in the Comprehensive Older Americans Act Amendment of 1978 (PL 95-478) for the purpose of the development, implementation and evaluation of a comprehensive and coordinated service delivery system for persons aged 60 and over in Ventura County.

Section 3 – The VCAAA consists of the Ventura County Board of Supervisors, as policy makers, and Advisory Council and staff.

ARTICLE II – OBJECTIVE

Section 1 – The objectives of the VCAAA include, but are not limited to:

A. Providing leadership, advocacy and visibility for persons aged 60 and over within Ventura County.

B. Integrating and consolidating the Older Americans Act Programs as an intrinsic part of the VCAAA's responsibility to contract, monitor, evaluate and give technical assistance to subgrantees funded by the VCAAA.

C. Conducting comprehensive planning, which includes the identification and prioritization of goals and related performance objectives as well as program costs projections.

D. Developing the Ventura County Area Plan based on the above planning process.

E. Developing the Plan with full knowledge of other public and private planners who are concerned with programs and services for persons aged 60 and over.

F. Designing a service delivery system which is expressed in the Area Plan to meet the wide range and needs of persons aged 60 and over in Ventura County and which is consistent with, and implements, the Amended Older Americans Act at the local level.

G. Evaluating the product, process, resource allocation and effect of total program, anticipated and actual.

H. Through program development activities, coordinating and pooling existing public and private resources toward establishing or expanding services identified by the planning process as priority needs of persons aged 60 and over in Ventura County.

I. Developing an evaluation procedure and conducting evaluations to monitor performance of sub-grantees.

J. Disseminating information to persons aged 60 and over in Ventura County. This shall include providing information regarding available services as well as providing reports on the activities of the VCAAA.

K. Providing service to and advocating for persons under the age of 60 as required by the amended Older Americans Act and/or the Older Californians Act.

ARTICLE III - POLICY

Section 1 – The Ventura County Board of Supervisors shall be the policy making body of the VCAAA.

Section 2 – Comments and recommendations by the Advisory Council on policy matters shall be submitted to the Board of Supervisors by the Director of the VCAAA.

Section 3 – The Director and staff of the VCAAA shall provide the Advisory Council with sufficient background material and information submitted in reasonable time to enable the Advisory Council to study and comment upon all matters requiring its input which is to be brought before the Board of Supervisors. Staff shall be required to apprise the Advisory Council of all other Agency matters brought before the Board of Supervisors at regularly scheduled Advisory Council meetings.

ARTICLE IV – ADVISORY COUNCIL

Section 1 – The Advisory Council is a principal advocate body on behalf of all persons aged 60 and over within the Planning and Service Area (PSA).

Section 2 – The duties and powers of the Advisory Council shall be to:

A. Serve as advisor to the VCAAA;

B. Act as an independent advocate for persons aged 60 and older, taking positions on matters pertaining to federal, state and local policies, programs and procedures, and any legislation affecting older persons;

C. Actively seek advice from community Councils on Aging, senior advocacy organizations, local aging commissions, elected officials, and the general public for the purpose of advocating for and making formal presentations on issues of concern to persons aged 60 and older and other interested parties.

D. Inform local senior advocates and organizations on specific legislation pending before local, state and federal governments;

E. Disseminate information of interest and concern to persons aged 60 and older;

F. Be actively involved in the development, implementation and monitoring of the Area Plan. The Area Plan shall include recommendations gathered from surveys of senior service providers, community leaders and seniors themselves on the services needed to improve the lives of persons aged 60 and older. Programs recommended and developed will fall within the scope of the VCAAA. The Area Plan shall be made available to the Department of Aging (CDA), the California Commission on Aging (CCOA), and, insofar as resources permit, to all other interested parties that seek a copy of the report.

G. Hold public hearings on the Area Plan with no less than 30-day notification to the general public and the senior constituency regarding dates, time and location;

H. Review, comment on, and make recommendations on proposals submitted to VCAAA for funding;

I. Act as a two-way communication link between the VCAAA and its communities and/or organizations.

Section 3 – The Advisory Council shall be non-partisan in the conduct of its duties and functions.

Section 4 – Advisory Council members shall be reimbursed by the VCAAA for all authorized actual necessary expenses (Advisory Council meetings, authorized committee meetings and authorized taskforces) and incurred while carrying out the duties of such Advisory Council within the Planning and Service Area (PSA). Provision for such reimbursement shall be made in the Area Plan budget at formally established rates.

Section 5 – The VCAAA shall provide staff assistance to the Advisory Council to assist in carrying out specified duties.

ARTICLE V - ADVISORY COUNCIL MEMBERSHIP

Section 1 -

A. Total membership on the Advisory Council shall be no less than 20 persons and shall reflect compliance with federal and state guidelines.

B. Membership shall be selected through a process designed by the local governing bodies and the Planning and Service Area (PSA) within which the Area Agency on Aging operates. No more than fifty percent (50%) of the Advisory Council's membership shall be appointed by one official or body of officials.

C. Membership shall be composed of:

1. A majority of persons 60 years of age or older;

2. At least one service provider;

3. Members who reflect the geographic, racial, economic and social complexion of the Planning and Service Area they represent;

4. At least one disabled person to represent the interests of the disabled.

D. Advisory Council composition requirements shall be complied with as vacancies occur.

Section 2 - The process for membership selection to the Advisory Council shall be as follows:

A. 1. Each local Council on Aging, at a regularly scheduled meeting of its membership, shall elect two (2) members to the Advisory Council.

2. The local Council on Aging shall recommend two (2) members to the City Council. The City Council shall then ratify or deny the recommendation.

3. When ratified, the two (2) members shall be seated on the Advisory Council.

4. If denied, the local Council on Aging shall elect another member using the same process. This shall continue until such time as the City Council approves the local Council on Aging's designation.

5. This process will seat twenty (20) Advisory Council members.

B. The Board of Supervisors will appoint six (6) to the Advisory Council and in those appointments will ensure that the Agency requirements for minority and disabled representation are met. One (1) of these appointments will be from the unincorporated areas whenever possible. Supervisorial appointments will be made after ratification of members elected by the local Council on Aging.

C. 1. The twenty six (26) Advisory Council members thus seated will elect two (2) Service Provider members by democratic process.

D. 1. The immediate past chairperson of the Advisory Council will sit as a member of the Advisory Council.

Section 3 – All members have a duty to inform the Advisory Council, committee and/or taskforce if they have a conflict of interest. They are prohibited from casting a vote on any matter which has a direct bearing on the services to be provided by that member or by the entity which that member represents on the Council.

Section 4 – Names and required information about Supervisorial Advisory Council members shall be submitted to the Ventura County Board of Supervisors for review to ensure compliance with federal and state mandates concerning composition of the Advisory Council. In the event of non-compliance for any reason, the Advisory Council shall identify the cause of the non-compliance and shall make recommendations to the appropriate sponsoring authorities to attempt to correct the non-compliance. The VCAAA shall receive the recommendation, review it and adopt or alter the recommendation to achieve compliance. The Director of the VCAAA shall implement the action of the Board of Supervisors.

Section 5 – The term of membership for individuals on the Advisory Council shall be two years. At the conclusion of a two-year term, an Advisory Council member may be re-elected or re-appointed for a second or third two-year term. No individual may serve more than six consecutive years on the Advisory Council, but an individual may serve again after at least a one-year absence. Exceptions may be made at the discretion of the appointing authority and for the member seated under Article V, Section 2D.

Due to the elimination of the separate delegate and alternate positions and the different rules regarding term limits, all members elected or appointed to serve on the VCAAA Advisory Council during FY 2007-2008 will start their first term. They will then be eligible to serve a second or third two-year term.

Section 6 – Each member of the Advisory Council is entitled to one vote on each matter submitted to a vote of the Advisory Council. Proxy voting and absentee ballot voting is not permitted.

Section 7 – Responsibilities of members of the Advisory Council:

Members shall:

A. Attend the duly called meetings of the Advisory Council;

B. Read and study, in advance, all written material provided them in preparation for duly called meetings of the Advisory Council;

C. Serve on at least one committee of the Advisory Council;

D. Become knowledgeable about the problems and needs of the persons aged 60 and older;

E. Become knowledgeable about the various service delivery systems which impact the elderly at the federal, state and local levels;

F. Have the dual responsibility to accurately report facts and conditions of their constituency to the Advisory Council as well as the actions of the Advisory Council to their constituency and the general public.

Section 8 – Public statements on behalf of VCAAA shall reflect official positions of the Advisory Council and shall be issued through proper channels. Members who violate this provision shall be subject to removal by a majority vote of the Advisory Council subject to approval of the Board of Supervisors.

Section 9 – Members who have been absent from three consecutive meetings (excused or unexcused) shall be automatically removed from the Council. The sponsoring authority shall elect/appoint another person. Members shall apprise the Director of the VCAAA of anticipated absences.

Section 10 – In the event of death or resignation of a member the sponsoring authority shall elect/appoint another member. A member may resign by addressing a written resignation to the Chairperson of the Advisory Council or the Director.

ARTICLE VI – OFFICERS OF THE ADVISORY COUNCIL

Section 1 – The officers of the Advisory Council shall be Chairperson, Vice-Chairperson and Secretary.

Section 2 –

A. Officers shall be elected at the regular June meeting each year by Advisory Council members. Nominations shall be made in two ways: (1) by a nominating committee,

who will develop and present a proposed slate of officers, and (2) from the floor. Election shall be by simple majority.

B. The Chairperson of the Advisory Council shall be 55 years of age or older.

Section 3 – The officers of the Advisory Council shall be elected for a one-year term. An officer may be re-elected for a second or third one-year term. No individual shall serve more than three full consecutive terms in the same office. No member shall hold more than one office at a time.

Section 4 – The Chairperson shall preside at all meetings of the Advisory Council, sign all letters, reports, and other communications of the Advisory Council, and perform any and all other duties prescribed by the Advisory Council from time to time. The Chairperson may serve as an ex-officio member of all committees.

Section 5 – The Vice-Chairperson shall represent the Chairperson and/or substitute in the performance of the Chairperson during his/her absence.

Section 6 – The Secretary shall have the responsibility for assuring that the minutes of all meetings of the Advisory Council are properly recorded, filed and disseminated. The Secretary shall also serve as Chair of the Nominating Committee.

ARTICLE VII – MEETINGS OF THE ADVISORY COUNCIL

Section 1 – The Advisory Council shall meet at least seven (7) times a year.

Section 2 – The Advisory Council shall meet at a designated time and place. There shall be public notification of all meetings. Procedures for notification of regular meetings and special meetings shall be determined by the Advisory Council.

Section 3 – Special meetings may be called in the following ways:

A. By the Chairperson;

B. By any two officers upon written request of five or more Advisory Council members;

C. By the Board of Supervisors.

Section 4 – A quorum shall consist of a simple majority of the total required number of members. A quorum must be present at any meeting at which business is transacted that requires a vote to be taken for any proposal or action. A majority of members present, once a quorum is established, shall be required to approve, disapprove or act on any proposal. Without a quorum, meetings may be held at which informational items are presented and discussed.

ARTICLE VIII – COMMITTEES

Section 1 – The Chairperson of the Advisory Council shall appoint such standing or temporary committees as he/she deems appropriate with the approval of the Advisory Council. He/she shall appoint, with the advice and consent of the Advisory Council, Chairpersons from among the members. Committee members may be Council members. All Committee members may vote on that Committee's business. All members have a duty to inform the Advisory Council, committee and/or taskforce if they have a conflict of Interest.

Section 2 – A five (5) member Nominating Committee will be selected in April of each year in conformance with adopted Advisory Council procedures. Each year this Nominating Committee shall bring a slate of names (to serve as officers) before the full Advisory Council for their consideration and vote at the June meeting. Additionally, the Nominating Committee shall inform the appointing and nominating authorities for all Advisory Council members of requirements for the nominees in compliance with the criteria established by the Older Americans Act, as amended, for representation in the VCAAA, including ethnic composition, disability and income levels. The Nominating Committee shall notify the appointing authorities in sufficient time to allow the seating of Advisory Council members at the July meeting of the Advisory Council.

ARTICLE IX – APPOINTMENT OF DIRECTOR

Section 1 – The Director shall be selected in accordance with County Personnel policies and shall meet the minimum qualifications as established in conformity with the personnel specifications outlined by California Department of Aging (CDA) policy statements and the Older Americans Act, as amended.

Section 2 – The Advisory Council shall elect representatives to participate in the oral interviews of the finalists conducted by County Personnel, and the names of the top applicants shall be submitted to the Board of Supervisors, ranked in order of preference.

Section 3 – The Board of Supervisors has final appointment and termination authority after consideration of the recommendations of the Advisory Council representatives and County Personnel.

ARTICLE X – DUTIES OF EXECUTIVE DIRECTOR

Section 1 – The duties of the Director shall include the administration of the daily operation of the VCAAA; selection and supervision of staff; preparation, implementation and monitoring of the annual budget and the Area Plan. The Director shall represent the VCAAA before public bodies and shall perform such other duties as required by the Board of Supervisors, the Advisory Council and state and federal laws.

Section 2 – The Director shall employ such other employees as are necessary to carry out the required program and policies of the VCAAA and the California Department of Aging (CDA) ; shall develop requests for proposals; shall monitor contracts and evaluate performance of sub-grantees; shall develop an Area Plan and budget; shall complete required state and federal reports; shall provide technical assistance to organizations seeking or providing services to the elderly; and shall perform all other such duties as appropriate to the operation of the VCAAA.

ARTICLE XI – RESPONSIBILITIES OF THE BOARD OF SUPERVISORS

Section 1 – The Board of Supervisors shall be the policy-making body of the VCAAA and shall be responsible for seeing that its policies are being carried out.

Section 2 – The Board of Supervisors shall select the Director to carry out the Agency's policies.

Section 3 – The Board of Supervisors shall ensure that the provisions of the California Department of Aging (CDA), Older Americans Act, as amended, and all other federal, state and county regulations are carried out.

Section 4 – The Board of Supervisors shall review and approve the preliminary and final annual agency budget and the Area Plan.

ARTICLE XII – RESPONSIBILITIES OF THE COUNTY

Section 1 – the County shall provide the following supportive services to the VCAAA:

A. Administration of the budget shall be by the CEO's office and processing of revenue and expenditures shall be by the Auditor/Controller's office;

B. Facility, services and supplies – this will include office equipment, county telephone system, and brown mail system;

ARTICLE XIII – APPEALS

An appeal by any person (including senior services providers or applicants for VCAAA grants) of any decision of the Board of Supervisors shall be directed to the California Department of Aging (CDA).

ARTICLE XIV – AMENDMENTS TO THE BYLAWS

These by-laws may be amended at a regular meeting of the Advisory Council after a 30-days written notice to the members of any proposed changes. Amendments shall be approved by two-thirds majority vote of the Advisory Council and adopted by the Ventura County Board of Supervisors.

Linda Parks, Chair
Ventura County Board of Supervisors

July 24, 2007

CALIFORNIA CODES
HEALTH AND **SAFETY CODE**
SECTION **34240**-34250

34240. In each county and city there is a public body corporate and politic known as the housing authority of the county or city. The authority shall not transact any business or exercise its powers unless, by resolution, the governing body of the county or city declares that there is need for an authority to function in it.

34240.1. Notwithstanding the provisions of Section **34240**, the governing body of any city or county may, upon declaration by resolution that there is a need for an authority to function in it, enter into an agreement with any other city or county whose governing body has declared by resolution the need for an authority to function in it, to form an area housing authority in the manner set forth in Sections 34246 and 34247.

34241. The governing body may make the determination as to whether there is a need for an authority to function upon its own motion or upon the filing of a petition signed by 25 residents of the county or city asserting that there is need for an authority to function in the county or city and requesting that the governing body so declare.

34242. The governing body may adopt a resolution declaring that there is need for a housing authority if it finds either of the following:

(a) That insanitary or unsafe inhabited dwelling accommodations exist in the county or city.

(b) That there is a shortage of safe or sanitary dwelling accommodations in such county or city available to persons of low

income at rentals they can afford.

34243. In determining whether dwelling accommodations are unsafe or insanitary the governing body may take into consideration:
(a) The degree of overcrowding.
(b) The percentage of land coverage.
(c) The light, air, space, and access available to the inhabitants of such dwelling accommodations.
(d) The size and arrangement of the rooms.
(e) The sanitary facilities.
(f) The extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

34244. In any proceeding involving the validity or enforcement of or relating to any contract of the authority, the authority is conclusively deemed to have been established and authorized to transact business and exercise its powers upon proof of the adoption of a resolution by the governing body declaring the need for the authority. The resolution is sufficient if it declares that there is such need for an authority and finds in substantially the terms of Section 34242 that either or both of the conditions set forth in that section exist in the county or city. A copy of the resolution duly certified by the clerk is admissible in evidence in any proceeding.

34245. If, after the lapse of two years after the adoption of the resolution the governing body finds that the authority has failed to transact any business or exercise any of its powers, it may adopt a resolution declaring that the authority shall not transact any business or exercise its powers under this chapter, and that the offices of the authority commissioners are vacated. At any time thereafter the governing body may declare by resolution that there is need for an authority to function in the county or city, such determination to be made pursuant to this article.

34246. (a) Notwithstanding any other provision of law, the

governing bodies of any two or more cities or counties or any combination thereof may by agreement create an area housing authority. Each governing body party to such agreement shall appoint two persons as commissioners of such authority, and, except as otherwise provided in Section 34246.5, the governing bodies shall jointly appoint one commissioner at large, and, upon appointment of all required commissioners, the authority shall be authorized to exercise all of the powers and transact all of the business which a housing authority of a city or county which is functioning and exercising its powers is authorized to exercise or transact.

(b) The governing body of each city or county shall designate one of those commissioners first appointed by it to serve for a term of three years and one to serve for a term of four years. Successors shall be appointed by the governing body for terms of four years, except that all vacancies shall be filled for the unexpired term.

The commissioner at large shall serve for a term of four years. His successors shall be appointed jointly by the governing bodies for terms of four years, except that a vacancy shall be filled for the unexpired term. In the event that a successor shall not have been appointed by the governing bodies within 30 days following a vacancy, the Governor shall appoint a successor.

(c) Three-fifths of the commissioners of an area housing authority constitute a quorum for the purpose of conducting business and exercising its powers and for all other purposes. Action may be taken by the authority upon a vote of a majority of the commissioners.

(d) The commissioners shall select a chairman from their number.

34246.5. (a) The governing bodies party to an agreement entered pursuant to Section 34246 shall jointly appoint a tenant of the area housing authority as commissioner of such authority. If the area housing authority does not have tenants, the governing bodies shall appoint a tenant of the area housing authority to the commission within one year after the area housing authority first does have tenants.

(b) The appointment of a tenant commissioner shall be in lieu of the appointment of a commissioner at large pursuant to Section 34246.

If a commissioner at large is in office on the effective date of this section, the tenant commissioner initially appointed shall take office at such time as the term of the commissioner at large shall

expire.

(c) The tenant appointed as a commissioner shall serve for a term of two years, but only so long as he remains a tenant of the area housing authority. His successors shall also be tenants of the area housing authority and shall be appointed jointly by the governing bodies for terms of two years, except that a vacancy shall be filled for the unexpired term.

(d) A tenant appointed as a commissioner shall have all the rights, powers, duties, privileges, and immunities of any other commissioner.

34247. The area of operation of an authority created pursuant to Section 34246 shall be the combined possible areas of operation of participating cities and counties, as determined by Sections 34208 and 34209.

34248. (a) If a city or county which enters into an agreement pursuant to Section 34246 has previously established a housing authority, the powers and duties of such authority shall be vested in the area housing authority upon the appointment of all required commissioners to the area authority.

(b) Upon such transfer of powers and duties, the title to any property owned or held by, or in trust for the city or county authority, and any debts, demands, liabilities or obligations existing in favor or against such authority, and any proceedings of such authority, shall become those of the area housing authority, and any and all such titles, debts, demands, liabilities, obligations, and proceedings shall have the same validity, force and effect as if acquired, incurred, accrued, or taken by the area housing authority.

(c) Any such transfer of powers and duties shall not affect or impair the status or rights of any duly appointed employees of the city or county authority, and such status and rights shall have the same validity, force, and effect as if attained during employment with the area housing authority.

34249. Nothing in this article shall be interpreted to prohibit agreements between public agencies pursuant to the provisions of Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of

the Government **Code**. When such an agreement creates an agency or entity which is separate from the parties to the agreement and which is responsible for the administration of a housing program authorized by this part, the public agencies party to such agreement shall provide for the appointment of a tenant of such agency or entity to the governing body of the agency or entity. If such agency or entity does not have tenants, then the parties to the agreement shall provide for the appointment of a tenant of the agency or entity to the governing body thereof within one year after the agency or entity first does have tenants. The term of a tenant appointed to the governing body of such an agency or entity shall be two years, but if a tenant appointee ceases to be a tenant of the agency or entity, he shall be disqualified and another tenant of the agency or entity shall be appointed to serve the remainder of the unexpired term. A tenant appointed to the governing body of such an agency or entity shall have all the rights, powers, duties, privileges, and immunities of any other member of such governing body.

34250. Notwithstanding any other provision of law, a governing body, at the time of the adoption of a resolution pursuant to Section **34240** or 34245 and pursuant to another resolution authorizing such an action, may contract with the Department of Housing and Community Development, or any other redevelopment agency or authority, for the furnishing by the department, redevelopment agency, or authority of any necessary staff services associated with or required by an authority and which could be performed by the staff of an authority. In such a case the governing body shall be vested with all of the rights, powers, duties, and privileges and immunities vested by this part in an authority.

REGULAR MEETING OF THE AREA HOUSING AUTHORITY OF THE COUNTY OF VENTURA BOARD OF COMMISSIONERS JUNE 28, 2006

MINUTES

1. CALL TO ORDER/WELCOME/PLEDGE OF ALLEGIANCE

This regular meeting of the Area Housing Authority Board of Commissioners was held at 1400 West Hillcrest Drive, Newbury Park, California, on June 28, 2006. Board of Commissioners Chairperson, Forrest Frields, called the meeting to order at 3:05 p.m. with the Pledge of Allegiance.

ATTENDANCE:
The following Commissioners were present: CONNORS, CREASON, DIAZ[1], FLASHNER, FRIELDS, HARWOOD, LAURIA-MARTINEZ, McCLENAHAN, NIELSEN[2], PALARZ, ROBSON, and WALL. Commissioners BROIDY and MILBURN were absent.

Staff members present: Douglas Tapking, Arlene Adlin[3], Roger De Bruno[4], Michael Nigh[5], George "Bud" McGehee[6], and Linda Fisher-Helton[7]

Legal Counsel present: David Cunningham.

Guests Present: Frank Thompson of Thompson & Associates[8].

2. ADOPTION OF AGENDA

Commissioner Jay Flashner moved to adopt the meeting Agenda. The motion was seconded by Commissioner Terry Wall, after which time discussion ensued at the prompting of Commissioner Boris Palarz.

Commissioner Palarz raised questions concerning a need for discussion about a Commission succession plan being added to the Bylaws, to cover an instance of absence or incapacitation of both Board Chairperson and Vice-Chair.

It was determined best for this topic to be discussed at another time. There was no need to change today's Agenda. Following a voice vote, the Agenda was adopted as presented.

3. APPROVAL OF THE MINUTES OF JUNE 14, 2006

Commissioner Jay Flashner moved to approve the Minutes of the Board meeting held on June 14, 2006. Commissioner Terry Wall seconded the motion. Commissioner Gina Lauria-Martinez called attention to a mistype in the spelling of her name, after which time the Minutes were unanimously approved, as amended.

4. PUBLIC COMMENTS

None.

---

[1] Commissioner Mario Diaz departed at 4:12 p.m.
[2] Commissioner Jorgen Nielsen arrived at 3:38 p.m.
[3] Arlene Adlin departed at 4:40 p.m.
[4] Roger De Bruno departed at 4:56 p.m.
[5] Michael Nigh departed at 4:56 p.m.
[6] George McGehee, Jr. departed at 4:12 p.m.
[7] Linda Fisher-Helton departed at 4:56 p.m.
[8] Frank Thompson arrived at 3:34 p.m. and departed at 4:40 p.m.

5. ACTION ITEMS

RESOLUTION #877 A Resolution of the Area Housing Authority of the County of Ventura (AHA) Reauthorizing the Use of the Investment Policy of the Area Housing Authority.

Michael Nigh, Director of Finance and Section 8, spoke of this annual request to reauthorize the use of the Investment Policy. He recalled no changes to the policy over the past two years.

Commissioner Jay Flashner moved that Resolution #877 be approved by the Board of Commissioners; a motion which was seconded by Commissioner Catherine Robson.

Following a roll call vote, Resolution #877 was unanimously approved, as written.

AYES: CONNORS, CREASON, DIAZ, FLASHNER, FRIELDS, HARWOOD, LAURIA-MARTINEZ, McCLENAHAN, PALARZ, ROBSON and WALL.

NOES: NONE.

ABSTAIN: NONE.

ABSENT: BROIDY, NIELSEN, and MILBURN.

RESOLUTION #878 A Resolution of the Area Housing Authority of the County of Ventura (AHA) to Approve the Write-Off of Tenants Accounts Receivable System (TARS) for the Fiscal Year Ending June 30, 2006.

Mr. Nigh said the Finance and Housing Assets Management departments annually review the ledger to determine possible collection of outstanding balances owed. Those accounts determined to be uncollectible are requested to be written off, even though these debts are not forgiven and remain in collections. For the fiscal year ending June 30, 2006, amounts requested for write-off are $8,937.59 for Public Housing and $1,468.16 for Agency-Owned.

Commissioner Kenneth Creason moved that Resolution #878 be approved by the Board of Commissioners. Commissioner Jay Flashner seconded the motion.

Following a roll call vote, the motion to approve Resolution #878, as written, passed unanimously.

AYES: CONNORS, CREASON, DIAZ, FLASHNER, FRIELDS, HARWOOD, LAURIA-MARTINEZ, McCLENAHAN, PALARZ, ROBSON and WALL.

NOES: NONE.

ABSTAIN: NONE.

ABSENT: BROIDY, NIELSEN, and MILBURN.

RESOLUTION #879 A Resolution of the Area Housing Authority of the County of Ventura (AHA) to Approve the Write-off of Fixed Assets for Fiscal Year Ending June 30, 2006.

Mr. Nigh informed Commission members an annual inventory of fixed assets has been completed by the Finance Department and those assets determined to be no longer useful are requested to be written off. This year's requested write-off is low; one broken notebook computer with a value of $845.12.

Commissioner Jay Flashner moved that Resolution #879 be approved.

Commissioner Boris Palarz seconded the motion.

Following a roll call vote, the motion to approve Resolution #879, as presented, passed unanimously.

AYES: CONNORS, CREASON, DIAZ, FLASHNER, FRIELDS, HARWOOD, LAURIA-MARTINEZ, McCLENAHAN, PALARZ, ROBSON and WALL.

NOES: NONE.

ABSTAIN: NONE.

ABSENT: BROIDY, NIELSEN, and MILBURN.

CONSOLIDATED BUDGET REVIEW

Mr. Nigh began the Budget presentation with a brief review of previously discussed budget elements, including a pie chart illustrating the breakdown of revenue by income stream. Additionally, Mr. Nigh referred the Commissioners to the detailed budget information and reports provided in their Board packet and he encouraged the Commissioners to raise questions at any time.

Mr. Nigh provided detailed information regarding the agency's estimated operating expenses for the upcoming fiscal year. The overall operating expenses are estimated at just over $29 million dollars, of which approximately $22 million (79%) is expended for Section 8 housing rental assistance. Mr. Nigh pointed out that administrative expenses of approximately $4,800,000 (16%) are those expenses over which the agency has the greatest ability to control. He used pie charts to illustrate the breakdown of operating expenses and to further illustrate the breakdown in administrative expenses.

Mr. Nigh then provided detailed information regarding the agency's estimated reserves. He continued the discussion by providing a report that illustrated detailed information regarding reserves by program. Mr. Nigh discussed with the Commission that the agency has no ability to utilize reserves of the Public Housing and Section 8 programs to cover other program deficits. He further discussed the Property Management and Development programs, both of which project a deficit and require the transfer of unrestricted funds. With few alternatives available, staff recommendation at this time is to use funds from the agency owned generated reserves to cover the projected deficit in the Property Management program. Likewise, the staff recommendation at this time is to use funds from the Equity Fund to cover the projected deficit for the Development program.

Commissioner Mario Diaz pointed out that in order to cover the projected deficit in the Development program, the Equity Account will be severely impacted.

Executive Director, Douglas Tapking, responded to Commissioners' inquiries relative to the loss shown in the Budget where the agency's development program is concerned. He emphasized to the Commissioners that un-reimbursed administrative development costs are a direct drain on reserves and that the agency must fund these costs through the receipt of developer fees. In addition, Mr. Tapking stressed the impact to the Equity Fund and the limited nature of those funds, should the agency continue to be unable to secure income through the Development process. Future development efforts would need to be reconsidered.

Mr. Nigh continued, by reminding Commissioners that the Budget is a working document. The ability to change the Budget is essential, particularly since it is not known the exact amount of money that will be coming in from the U.S. Department of Housing and Urban Development (HUD).

Commissioner Jay Flashner moved to approve the FY2007 Consolidated Budget, a motion which was seconded by Commissioner Kenneth Creason.

A voice vote was taken and the motion passed unanimously.

[The Chair called an intermission from 4:12 p.m. to 4:19 p.m.]

6. CLOSED SESSION

Pursuant to Government Code Section 54956.8 regarding real property price and terms, the Board of Commissioners entered into Closed Session at 4:19 p.m.

The Board of Commissioners reconvened into Open Session at 4:39 p.m. and the Chairperson reported out. Chair Forrest Frields instructed negotiators, Douglas Tapking and Arlene Adlin, to proceed as directed during Closed Session and authorized staff to complete the negotiations for acquisition of the *Mira Vista Apartments* in Camarillo and the *Walnut Street* house in Moorpark.

Furthermore, the Chair reported that the Executive Director, Chairperson or Vice-Chair are authorized to execute and sign the Ground Lease with the City of Camarillo for the *Camarillo 13* property, following a motion made by Commissioner Jorgen Nielsen and seconded by Commissioner Jay Flashner.

7. ACTION ITEMS (continued)

RESOLUTION 872 A Resolution of the Area Housing Authority of the County of Ventura (AHA) to Adopt the Amended Bylaws

Mr. Tapking recalled how this Resolution had been tabled from the meeting of May 24, 2006. Following discussion at that meeting, staff had been directed to further refine the Bylaws wording with respect to cessation of [standing] committees.

Questions were raised about the way in which the section on "quorum" was phrased and suggestions made for revisions to its wording.

Commissioner Kenneth Creason made a motion the Bylaws be approved, with revisions to the section concerning "quorum", as agreed upon during discussion.

Commissioner Jorgen Nielsen seconded the motion.

Following a roll call vote, the motion to approve Resolution #872 as ~~presented~~ amended, passed by a majority. Staff will make appropriate revisions to the Bylaws, as directed.

AYES: CONNORS, CREASON, FLASHNER, FRIELDS, HARWOOD, LAURIA-MARTINEZ, McCLENAHAN, NIELSEN, ROBSON and WALL.

NOES: NONE.

ABSTAIN: PALARZ.

ABSENT: BROIDY, DIAZ and MILBURN.

8. EXECUTIVE DIRECTOR UPDATES

Due to time constraints, Mr. Tapking postponed his report.

9. DEPARTMENT REPORTS

FINANCIAL REPORT (APRIL) & SECTION 8
Due to time constraints, the Financial and Section 8 reports were tabled for the next meeting.

10. LEGAL COUNSEL COMMENTS

Legal Counsel, David Cunningham, said he had nothing further to report at this time, due to the lateness of the hour.

11. INFORMATION ITEMS

No further items of information were given at this time.

12. CLOSED SESSION

Pursuant to Government Code Section 54947 regarding public employee performance evaluations, the Board of Commissioners entered into Closed Session at 4:56 p.m., at which time staff members departed. Members of the Executive Director's Evaluation Committee led a review and evaluation of Douglas Tapking's performance.

The Board of Commissioners reconvened into Open Session at 5:05 p.m. Commissioner Jorgen Nielsen, who chaired the Executive Director's Evaluation Committee, reported out with compensation recommendations for the Executive Director. Mr. Tapking's performance had been rated as "commendable".

Commissioner Nielsen moved that the committee's recommendations for compensation be approved with the employment contract remaining otherwise unchanged. A voice vote was taken and the motion passed by a majority with one dissention; Commissioner Tom Connors. Commissioner Nielsen recommended a goal-setting session for the Executive Director's upcoming year of service be agendized.

13. COMMISSIONER COMMENTS

Commissioner Catherine Robson thanked Michael Nigh for summarizing agency finances in an understandable manner, saying this had been very helpful to her.

Commissioner Warren Harwood voiced his pleasure with the action of the Executive Director Evaluation Committee and the Board.

Commissioner Jane McClenahan agreed with others' comments about presentation of budget information. She congratulated Mr. Tapking on a job well done.

Commissioner Tom Connors praised Mr. Tapking for his exemplary job performance.

Commissioner Terry Wall spoke of the pleasure he gets in being associated with an organization as fine as this, saying this is largely due to Mr. Tapking's influence and performance.

Commissioner Jay Flashner agreed and praised the Executive Director for his good work.

Commissioner Boris Palarz jokingly commented how he'd been a non-voting member of the Evaluation Committee. He looks forward to future discussions that may improve the evaluation procedure of the Executive Director.

Vice-Chair Jorgen Nielsen told Mr. Tapking the general consensus of the Commission was a wish for a higher compensation package, but said that budget constraints made that impractical.

14. CHAIR COMMENTS

Board of Commissioners Chairperson, Forrest Frields, praised the Commission and the Executive Director for reaching a new height in accomplishment with the *Mira Vista* project. He enthusiastically urged the Executive Director to "do it again".

There being no further business, Chair Frields adjourned the meeting at 5:20 p.m.

NEXT MEETING DATE AND TIME: July 12, 2006, at 3:00 p.m.

Prepared by: Gail Johnson Date: July 13, 2006

BYLAWS
AREA HOUSING AUTHORITY
OF THE COUNTY OF VENTURA

ARTICLE I – THE AUTHORITY

Section 1. **Name of Authority.** The name of the Authority shall be the Area Housing Authority of the County of Ventura.

Section. 2. **Seal of Authority.** The seal of the Authority shall be in the form of a circle and shall bear the name of the Authority and the year of its organization.

Section 3. **Office of Authority.** The office of the Authority shall be at such a place in the County of Ventura, California, within the jurisdiction of the Authority, as the Authority may, from time to time, designate by Resolution.

Section 4. **Mission of Authority.** The Area Housing Authority of the County of Ventura shall be a catalyst to provide opportunities and to assist people in need of affordable housing through development, acquisitions, and partnerships with the communities it serves.

Section 5. **Composition of Authority.** The Authority is a joint powers agency formed by: (a) the unincorporated areas of Ventura County, (b) the City of Camarillo, (c) the City of Fillmore, (d) the City of Moorpark, (e) the City of Ojai, (f) the City of Simi Valley, and (g) the City of Thousand Oaks.

ARTICLE II –MEMBERSHIP

Section 1. **Members of the Board of Commissioners.** The Board of Commissioners consists of two members appointed by the elected body of each of the seven (7) represented jurisdictions, and one (1) appointed Resident Commissioner. Commissioners shall serve a term of four (4) years, except the Resident Commissioner, who shall serve two (2) years

Section 2. **Officers.** The Officers of the Authority shall be a Chairperson and a Vice Chairperson.

Section 3. **Chairperson.** The Chairperson shall preside at all Board meetings of the Authority. The Chairperson, together with the Executive Director, is authorized to sign all contracts, deeds and other instruments made by the Authority except as otherwise authorized by Resolution of the Authority, or in circumstances involving the purchase or provision of goods or services greater than $100,000. At each meeting the Chairperson shall submit such

recommendations and information as the Chairperson may consider proper concerning the business, affairs and policies of the Authority. The Chairperson shall appoint all committee Chairpersons and members of those committees.

Section 4. **Vice Chairperson.** The Vice Chairperson shall perform the duties of the Chairperson in the absence or incapacity of the Chairperson. In the case of the resignation, removal, or death of the Chairperson, the Vice Chairperson shall temporarily assume the duties of the Chairperson until such time as the Board of Commissioners shall elect a new Chairperson.

Section 5. **Election or Appointment.**

(a) The Chairperson and Vice-Chairperson shall be elected at the Annual Meeting of the Authority and shall hold office for one (1) year or until their successors are elected.

(b) Elections shall be conducted as specified in the Commissioner's Handbook.

Section 6. **Vacancies.** Should the offices of Chairperson or Vice-Chairperson become vacant, the Board of Commissioners shall elect a successor from its membership at the next regular meeting, and such election shall be for the unexpired term of said office. When the office of Executive Director becomes vacant, the Board of Commissioners shall appoint a successor as provided in Section 8 of this Article.

Section 7. **Committees.**

(a) The Chairperson shall appoint, at such times as deemed necessary by the Board of Commissioners, committee chairpersons and committee members.

(b) Each committee shall meet at such times and places within the jurisdiction of the Authority as directed by the respective committee Chairperson.

(c) Committees shall not contain a sufficient number of members so as to constitute a quorum of the Board of Commissioners.

Section 8. **Executive Director.**

(a) The Executive Director shall be employed by the Authority upon Resolution of the Board of Commissioners on such terms as are agreed upon by the parties thereto.

(b) The Executive Director shall have general supervision over the administration of the Authority's business and affairs, subject to the direction of the Board of Commissioners.

(c) The Executive Director shall be responsible for the maintenance of the records of the Authority, including, but not limited to, the meetings of the Authority, and cause all votes to be recorded, and shall cause a record of the proceedings of the Authority to be maintained in a journal of proceedings.

(d) The Executive Director shall cause to be kept in safe custody the seal of the Authority and shall have power to affix such seal to all contracts and instruments authorized to be executed by the Authority.

(e) The Executive Director shall cause all Minutes to be submitted for approval at the next meeting. Minutes are to be signed by the Executive Director and countersigned and dated by the Chairperson, or Acting Chairperson upon approval by the Board of Commissioners.

(f) The Executive Director shall have the ultimate responsibility of care and custody of all funds of the Authority and shall be responsible for their deposit in the name of the Authority in such bank or banks as the Board of Commissioners may select. The Executive Director shall sign all orders and checks for the payment of money and disburse such monies under the direction of the Board of Commissioners. Except as otherwise authorized by Resolution of the Board of Commissioners, all such orders and checks shall be countersigned by the Board Chairperson or such other members of the Board as are designated by Resolution of the Board of Commissioners. The Executive Director shall be responsible for the keeping of regular books of accounts showing receipts and disbursements and shall render to the Board of Commissioners, at each regular meeting (or more often when requested), a written account of the financial condition of the Authority. The Executive Director shall provide for bonding of all employees and Commissioners who are involved in handling funds or signing vouchers or contracts.

(g) The compensation of the Executive Director shall be determined by the Board of Commissioners.

(h) The Executive Director shall not be an Officer or Director of the Authority.

Section 9. **Additional Duties.** The Officers of the Authority shall perform such other duties and functions as may be required by the Authority.

Section 10. **Additional Personnel.** The Authority may, from time to time, employ such personnel as it deems necessary to exercise its powers, duties and functions as prescribed by the Housing Authorities Law, as amended, of California and all other laws of the State of California applicable thereto. The selection and compensation of such personnel shall be determined by the Authority subject to the laws of the State of California.

ARTICLE III – MEETINGS

Section 1. **Annual Meeting.** The Annual Meeting of the Authority shall be held in February. The Annual Meeting shall include the election of the officers of the Board of Commissioners and a review of previously adopted goals and objectives for the Board of Commissioners and the Executive Director.

Section 2. **Regular Meeting.** Regular meetings shall be held at such time and place as may from time to time be determined by Resolution of the Authority.

(a) At least 72 hours before a regular meeting of the Authority's Board of Commissioners, an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting shall be provided to the Commissioners of the Authority and posted in a location that is freely accessible to members of the public. The agenda shall specify the time and location of the regular meeting. No actions shall be taken on any item not appearing on the posted agenda.

(b) The Board of Commissioners may take action on items of business not appearing on the posted agenda under any of the following conditions:

(1) upon a determination by a majority vote of the Board of Commissioners that an emergency situation exists;

(2) upon a determination by a two-thirds vote of the Board of Commissioners, or, if less than two-thirds of the members are present, a unanimous vote of the members present that the need to take action arose subsequent to the agenda being posted as specified in subparagraph (a); or

(3) the item was posted pursuant to subparagraph (a) for a prior meeting of the Board of Commissioners occurring not more than five (5) calendar days prior to the date action is taken on the item and at the prior meeting the item was continued to the meeting at which the action is being taken.

Section 3. **Special Meetings.** The Chairperson of the Authority may, when deems it expedient, and shall, upon the written request of a majority of the Commissioners of the Authority, call a special meeting of the Authority for the purpose of transacting any business designated in the call. The call for a special meeting shall be received by each Commissioner of the Authority at his/her business or home address at least twenty-four (24) hours prior to the special meeting and such notice as required by Section 54950.5 et seq. of the Government Code (the Brown Act). At such special meeting, no business shall be considered other than as designated in the notice. Such notice shall be posted at least 24 hours prior to the special meeting in a location that is freely accessible to members of the public.

Section 4. All of the meetings of the Commissioners shall be open to the public, whether regular or special, except as permitted by the Brown Act.

Section 5. **Quorum.** The powers of the Authority shall be vested in the Commissioners thereof in office from time to time. Three-fifths of the authorized number of Commissioners shall constitute a quorum for the purpose of conducting its business and exercising its powers and for all other purposes, but a smaller number may adjourn from time to time until a quorum is obtained. When a quorum is in attendance, action may be taken by the Authority upon a vote of a majority of the Commissioners present.

Section 6. **Order of Business.** The agenda for meetings of the Board of Commissioners shall be as determined by the Chairperson and the Executive Director.

Section 7. **Manner of Voting.** The voting on all Resolutions coming before the Authority, shall be by roll call, and the votes shall be entered into the Minutes of each meeting. Voting on motions may be by voice vote.

All Resolutions shall be in writing, signed by Chairperson and kept in numerical order in a Resolution file, as well as becoming part of the Minutes, in the journal (Article II – Section 8(c).

ARTICLE IV – RESPONSIBILITY AND AUTHORITY

Section 1. **Goals and Objectives.** The Board of Commissioners shall adopt appropriate goals and objectives annually.

Section 2. **Responsibility.** The Board of Commissioners is responsible for the adoption and implementation of policies, regulations, and procedures of the Authority.

ARTICLE V – AMENDMENTS

Amendments to By-Laws. The By-Laws of the Authority shall be amended only with the approval of at least three-fifths of the currently appointed Commissioners of the Authority at a regular or special meeting called for that purpose.

CALIFORNIA CODES
REVENUE AND **TAXATION CODE**
SECTION 1620-1630

1620. The board of supervisors of any county may by ordinance create assessment appeals boards for the county to equalize the valuation of taxable property within the county for the purpose of **taxation**.

1621. (a) Not more than five assessment appeals boards may be created within any county. Assessment appeals boards shall be designated by number in the ordinance providing for their creation.
(b) This section shall become operative on January 1, 2005.

1622. An assessment appeals board shall consist of three members selected by lot by the presiding judge of the superior court of the county from among those persons nominated for that purpose by the members of the county board of supervisors. Within 60 days after the adoption of the ordinance providing for the creation of assessment appeals boards, each member of the board of supervisors shall nominate not less than three nor more than five persons for appointment to the assessment appeals boards.

1622.1. (a) As an alternative to the selection procedure provided in Section 1622, the county board of supervisors may, by ordinance, elect to appoint directly the members of the assessment appeals board. Approval of each member shall be by majority vote of the board of supervisors.
(b) An assessment appeals board appointed pursuant to this section may consist of three or five members. If a five-member board is appointed, the board shall only act as a three-member panel designated from time to time by the clerk of the assessment appeals board. If a five-member board is appointed, the term of office of

these members shall be three years except that upon the original selection of these members, the members shall be assigned terms in such a manner that the terms of no more than two offices shall expire in any one year.

1622.2. (a) Up to two members of a county board of supervisors who have served as a member of a county board of equalization pursuant to Section **1601** may serve on an assessment appeals board.

(b) Notwithstanding Sections 1623 and 1623.1, the term of office for any member of a county board of supervisors who serves on an assessment appeals board shall not exceed his or her term of office as a member of a county board of supervisors.

1622.5. In any county in which two or more boards have been created and are functioning:

(a) The clerk of the assessment appeals boards may assign one or more members from one board to serve temporarily as members of another board, and

(b) The board of supervisors may appoint alternate members for each board. Whenever any regular member of a board is temporarily unable to act as a member of the board, an alternate member may sit on the board and shall have the same authority to act as a regular member. Where such alternate member is likewise temporarily unable to act the clerk may assign an alternate member of the same board or of any other board to act as a member of the board and such alternate member may sit on the board and shall have the same authority to act as a regular member.

In any county in which one board has been created and is functioning the board of supervisors may appoint alternate members for the board. Whenever any regular member of the board is temporarily unable to act as a member of the board, an alternate member may sit on the board and shall have the same authority to act as a regular member.

1622.6. An application for equalization filed pursuant to Section 1603 by a member or alternate member of an assessment appeals board, or an application in which that member represents his or her spouse,

parent, or child, shall be heard before an assessment appeals board panel consisting of three special alternate assessment appeals board members appointed by order of the presiding judge of the superior court in the county in which the application is filed.

A member or alternate member of an assessment appeals board shall notify the clerk immediately upon filing an application on his or her own behalf, or upon his or her decision to represent his or her spouse, parent, or child in an assessment appeal matter. A special alternate assessment appeals board member may hear only the application or applications for equalization set forth in the superior court order appointing the member.

Any person shall be eligible for appointment as a special alternate assessment appeals board member who meets the qualifications set forth in Section 1624.

Sections 1624.1 and 1624.2 shall be applicable to the appointment of a special assessment appeals board member.

1623. (a) The term of office of members selected to serve on assessment appeals boards shall be three years beginning on the first Monday in September except that upon the original selection of members to serve on an assessment appeals board, the member first selected shall serve for a term of three years beginning on the first Monday in September following the date of the creation of the board, the second member selected shall serve for a term of two years beginning on such date, and the third member selected shall serve for a term of one year beginning on such date.

(b) In the event of a vacancy on a board, the person selected to fill the vacancy shall serve for the remainder of the unexpired term.

(c) Not less than 60 days prior to the expiration of the term of office of any member of an assessment appeals board and upon the occurrence of a vacancy on any such board, each member of the board of supervisors shall nominate one person for each office or vacancy to be filled. The presiding judge of the superior court shall select by lot one person from among those nominated to serve for the succeeding term on such board or to fill the vacancy as the case may be.

(d) Upon expiration of the term of office of any member of an assessment appeals board, the member whose term has expired shall continue to serve until such time as a new member takes office.

(e) A member whose term has expired may continue to serve for up

to 60 days after the expiration of such term with respect to matters on which the assessment appeals board had commenced hearing prior to the expiration of the member's term.

1623.1. As an alternative to the nomination and selection procedure provided in Section 1623, the board of supervisors may, by ordinance, provide that it shall appoint the members and alternates of the assessment appeals board, upon the expiration of any term of office or the occurrence of a vacancy on such board. Any person so appointed shall meet the eligibility requirements of Section 1624 or 1624.05, whichever is applicable.

1624. (a) A person is not eligible for nomination for membership on an assessment appeals board unless he or she meets one of the following criteria:

(1) Has a minimum of five years professional experience in this state as a certified public accountant or public accountant, a licensed real estate broker, an attorney, a property appraiser accredited by a nationally recognized professional organization, or a property appraiser certified by the Office of Real Estate Appraisers, or a property appraiser certified by the State Board of Equalization.

(2) Is a person who the nominating member of the board of supervisors has reason to believe is possessed of competent knowledge of property appraisal and **taxation**.

(b) Documentation of qualifying experience of appeals board members shall be filed with the clerk of the board.

(c) This section shall apply only to an assessment appeals board in a county with a population of less than 200,000.

(d) County population estimates conducted by the Department of Finance pursuant to Section 13073.5 of the Government **Code** shall be used in determining the population of a county for purposes of this section.

1624.01. (a) On and after January 1, 2001, any person newly selected for membership on, or newly appointed to be a member of, an assessment appeals board shall complete the training described in subdivision (a) of Section 1624.02 prior to the commencement of his

or her term on the board or as soon as reasonably possible within one year thereafter.

(b) A member of an assessment appeals board who does not complete the training required by this section in the time permitted shall complete that training within 60 days of the date of the notice by the clerk advising the member that his or her failure to complete the training constitutes resignation by operation of law. If the member fails to comply within 60 days of the notice by the clerk, the member shall be deemed to have resigned his or her position on the board. Notwithstanding the provisions of this section, a board member may continue to retain his or her position on the board in order to complete all appeal hearings to which the member is assigned and which commenced prior to the date of resignation pursuant to this subdivision.

1624.02. (a) Every person newly selected for membership on or newly appointed to be a member of, an assessment appeals board shall successfully complete a course of training conducted by either the State Board of Equalization or by the county at county option. Training shall include, but not be limited to, an overview of the assessment process, elements in the conduct of assessment appeal hearings, and important developments in case and statutory law and administrative rules. The curriculum for the course of training provided by the State Board of Equalization shall be developed in consultation with county boards of supervisors, administrators of assessment appeals boards, assessors, and local property taxpayer representatives. The curriculum for the course of training provided by counties shall be developed in consultation with the State Board of Equalization, assessors, and local property taxpayer representatives and subject to final approval by the State Board of Equalization. Training by the State Board of Equalization shall be conducted regionally. For purposes of this section, the term "successfully complete" shall include full-time attendance at the course of training and a person's receiving a certificate of completion given by the entity conducting the training at the conclusion of the course of training.

(b) There shall be no charge to counties for training conducted by the State Board of Equalization pursuant to this section.

1624.05. (a) A person shall not be eligible for nomination for

membership on an assessment appeals board unless he or she has a minimum of five years' professional experience in this state as one of the following: certified public accountant or public accountant, licensed real estate broker, attorney, property appraiser accredited by a nationally recognized professional organization, property appraiser certified by the Office of Real Estate Appraisers, or property appraiser certified by the State Board of Equalization.

(b) Notwithstanding the provisions of subdivision (a), a person shall be eligible for nomination for membership on an assessment appeals board if, at the time of the nomination, he or she is a current member of an assessment appeals board.

(c) Documentation of qualifying experience of appeals board members shall be filed with the clerk of the board.

(d) This section shall apply only to an assessment appeals board in a county with a population of 200,000 or more.

(e) County population estimates conducted by the Department of Finance pursuant to Section 13073.5 of the Government **Code** shall be used in determining the population of a county for purposes of this section.

1624.1. No person shall be qualified to be a member of an assessment appeals board who has, within the three years immediately preceding his or her appointment to that board, been an employee of an assessor's office.

1624.2. No member of an assessment appeals board shall knowingly participate in any assessment appeal proceeding wherein the member has an interest in either the subject matter of or a party to the proceeding of such nature that it could reasonably be expected to influence the impartiality of his judgment in the proceeding. Violation of this section shall be cause for removal under Section 1625 of this **code**.

1624.3. No current member of an assessment appeals board, nor any alternate member, may represent an applicant for compensation on any application for equalization filed pursuant to Section 1603 in the county in which the board member or alternate member serves.

1624.4. (a) The party affected by an equalization proceeding or his or her agent, or the assessor, may make and file with the clerk of the assessment appeals board in which the proceeding is pending a written statement objecting to the hearing of a matter before a member of the board, and setting forth the facts constituting the ground of the disqualification of the member. Copies of the written statement shall be served by the presenting party on each party in the proceeding and on the board member alleged in the statement to be disqualified.

(b) Within 10 days after the filing of the statement, or within 10 days after the service of the statement as provided in subdivision (a), whichever is later, the board member alleged therein to be disqualified may file with the clerk his or her consent in writing that the action or proceeding be tried before another member, or may file with the clerk his or her written answer admitting or denying any or all of the allegations contained in the statement and setting forth any additional fact or facts material or relevant to the question of his or her disqualification. The clerk shall transmit a copy of the member's consent or answer to each party who shall have appeared in the proceeding. Every statement and every answer shall be verified by oath in the manner prescribed by Section 446 of the **Code** of Civil Procedure for the verification of pleadings. The statement of a party objecting to the member on the ground of the member's disqualification, shall be presented at the earliest practicable opportunity, after discovery of the facts constituting the ground of the member's disqualification, and in any event before the commencement of the hearing of any issue of fact in the proceeding before the member.

(c) No member of the board, who shall deny his or her own disqualification, shall hear or pass upon the question of the disqualification. The question of the member's disqualification shall be heard and determined by some other member agreed upon by the parties who have appeared in the proceeding, or, in the event of their failing to agree, by a member assigned to act by the clerk. Within five days after the expiration of the time allowed by this section for the member to answer, the clerk shall assign a member, not disqualified, to hear and determine the matter of the disqualification.

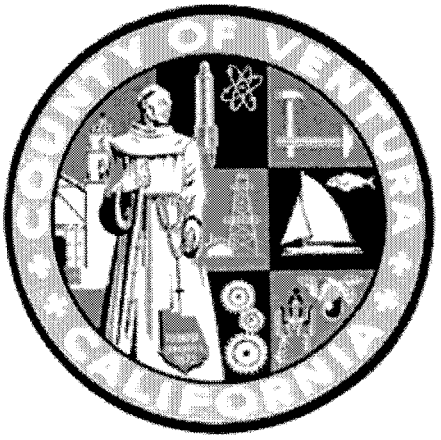
1625. Any member of an assessment appeals board may be removed for

cause by the board of supervisors.

1626. The board of supervisors of any county which has created one or more assessment appeals boards may discontinue all of said boards effective on the first Monday in September, subject to any such board continuing to function until matters pending before it have been disposed of. If all of such boards have been discontinued, no new board or boards may be created to function prior to the next succeeding first Monday in September. Notwithstanding the foregoing, the board of supervisors of any such county may increase, or may decrease to not less than one, the number of such boards, effective from and after the next succeeding first Monday in September, provided that any board so discontinued shall continue to function until matters pending before it have been disposed of.

1626.1. Notwithstanding Section 1623, the board of supervisors of any county which has one or more assessment appeals boards in existence pursuant to this article may by ordinance increase the number of such boards effective from and after the first Monday in October and such boards shall remain in existence until discontinued under the provisions of Section 1626, but in no event shall the term of office of any member of the board exceed three years. Each term of office shall expire in a different calendar year.

1628. The clerk of the board of supervisors shall be clerk of the assessment appeals boards and keep a record of their proceedings. He shall perform the same duties in connection with their proceedings as he is required by law to perform in connection with the proceedings of the county board of equalization.



1630. (a) Any real property owner the use of whose land is subject to an enforceable restriction placed upon it by a local agency may apply to the governing body of the local agency for a written statement declaring the present intention of the governing body to refrain from removing or modifying any such restriction in the

predictable future.

(b) The written statement of intention may be granted or denied by the governing body at its discretion. A reasonable fee not to exceed ten dollars ($10) may be charged for each such statement.

(c) The written statement may be presented to the county board of equalization as evidence that a restriction on the use of the taxpayer's land exists and that such restriction should be considered in assessing the value of the land.

(d) The written statement shall constitute a rebuttable presumption that the governing body does not intend to remove or modify the restriction in the predictable future.

VENTURA COUNTY ORDINANCE ESTABLISHING AN ASSESSMENT APPEALS BOARD IN VENTURA COUNTY

Comments

ORDINANCE NO. 3700

AN ORDINANCE ESTABLISHING AN ASSESSMENT APPEALS BOARD IN VENTURA COUNTY

The Board of Supervisors of the County of Ventura does ordain as follows:

Sec. 1 - ESTABLISHMENT OF BOARD. There is hereby established in the County of Ventura, pursuant to section 16 of article XIII of the Constitution, an assessment appeals board to be known as Assessment Appeals Board Number One.

Sec. 2 - MEMBERS. The assessment appeals board shall consist of three (3) members and two (2) alternate members selected in the manner prescribed by sections 1622.1 and 1622.2 of the Revenue and Taxation Code. The terms of office shall be for three (3) years except for a member who is also a member of the county board of supervisors whose term shall be the same as his or her term of office as a member of the county board of supervisors. Upon the expiration of any term of office or the occurrence of a vacancy on the assessment appeals board, the board of supervisors shall appoint the successor to such office.

Sec. 3 - DUTIES OF BOARD. The assessment appeals board shall constitute the Board of Equalization for Ventura County and shall equalize the valuation of the taxable property in Ventura County for the purpose of taxation in the manner provided by the Constitution, the laws of this State, and the rules of procedures adopted by the Board of Supervisors of the County of Ventura.

Sec. 4 - COMPENSATION. Each member or alternate member of the assessment appeals board shall receive the sum of one hundred dollars ($100.00) for each day they are called to serve and do serve. No allowance is payable for mileage or meals while serving.

Sec. 5 - CLERK OF THE BOARD. The clerk of the board of supervisors shall be clerk of the assessment appeals board and shall keep a record of its proceedings. The clerk shall perform the same duties in connection with proceedings of the assessment appeals board as is required by law to be performed in connection with the proceedings of the county board of equalization.

Sec. 6 - MEETINGS. Meetings of the assessment appeals board shall be held at the call of the clerk of the assessment appeals board.

PASSED AND ADOPTED this 31st day of July, 1984, by the following vote:

AYES: Supervisors Jones, Erickson, Dougherty, Flynn, Lacey

NOES: None

ABSENT: None

Susa K. Lacey

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, California 93009

SUBJECT: ORDINANCES ESTABLISHING A SECOND ASSESSMENT APPEALS BOARD, AMENDING ORDINANCE NO. 3700, ESTABLISHING AN ASSESSMENT APPEALS HEARING OFFICER AND REQUEST FOR ADDITIONAL STAFFING (REQUIRES 4/5THS VOTE)

RECOMMENDATIONS:

1. It is recommended that your Board adopt the attached Ordinance establishing Assessment Appeals Board Number Two, at an estimated annual cost of $21,600 ($150 per Board member, per meeting, at 48 meetings), to become operative on the first Monday of October 1993, and automatically terminate three years thereafter.

2. It is recommended that your Board adopt the attached Ordinance amending Section 2 of Ordinance No. 3700 to allow up to four alternate members.

3. It is recommended that your Board adopt the attached Ordinance establishing an Assessment Hearing Officer at an estimated annual cost of $3,600 ($150 per meeting at 24 meetings).

4. Read Ordinances in title only and continue final adoption to March 16, 1993.

5. Approve the addition of one full time fixed term Technical Specialist IV position (class code 00521) for three years, with a salary range of $26,780-$33,669, in the Clerk of the Board Division (budget unit 03030).

6. Authorize the Auditor-Controller to process the accounting transactions necessary to establish appropriations as follows: (requires 4/5ths vote)

Increase Salaries/Benefits (Budget Unit 03030)	$ 7,100
Increase Services/Supplies (Budget Unit 03030)	$ 500
Increase Services/Supplies (Budget Unit 03010)	$ 6,600
Decrease General Fund Contingency	$14,200

DISCUSSION:

During the past two years, assessment appeal filings have increased

The Clerk of the Board Division currently has one staff person devoted full time to duties related to the current Assessment Appeals Board. The addition of a full time fixed term position for three years is necessary to handle the increased workload generated by a second Board and two weekly meetings. The salary cost for the remainder of FY 1992-93, not including fringe benefits and based on a hire date of April 26, 1993, is $5,150. An increase of $500 in services and supplies is required for the remainder of FY 1992-93 to cover additional postage, auditron costs, and office supplies. An additional $6,600 is requested in the Board of Supervisors' budget, services and supplies, to pay the members of the Board and the Hearing Officer for the remainder of FY 1992-93.

This letter has been reviewed by the Auditor-Controller, Chief Administrative Office, County Counsel, and Personnel. If you have any questions regarding this matter, please call Jerry Sanford at extension 2161 or Richard Dean at extension 2266.

Item 13
03/9/93 rr

145%. As of this date, approximately 2,440 applications have been received for the 1992-93 assessment filing year (July 2, 1992 through July 1, 1993), and approximately 666 applications for the 1991-92 year require disposition. Many of these applications are commercial or industrial cases that will require substantially more hearing time than residential appeals.

The Assessment Appeals Board calendar is full through March 29, 1993. Due to a computerized process in the Assessor's Office, we expect to have 300 to 400 applications ready for hearing by March 1, 1993. The Clerk has an additional 95 applications ready to schedule.

Many of the applications received during the 1993-94 filing period will be disposed of through stipulations and withdrawals. However, the sheer volume of filed applications, along with an anticipated 500 new applications that will be filed by July 1, 1993, (based on last year's filing) will severely impact the Assessment Appeals Board's backlog of cases this year and throughout 1994.

If applications are not disposed of within two years of the filing date, the applicant's opinion of value becomes the enrolled value, which results in tremendous revenue losses for the County. The public's image of the County will also suffer if there are long delays in resolving taxpayer appeals. Consequently, we believe it is imperative that there not be a large carryover of 1992-93 cases to the 1993-94 assessment appeal year.

With two Boards meeting six hours per week each, the current backlog of cases would take just over a year to eliminate at a rate of 40 meetings per year each. Clearly, the backlog is staggering and could take even more resources if the number of cases continue to climb in 1993 and 1994.

Pursuant to Revenue & Taxation Code Section 1626.1, the second Appeals Board cannot become operative until October 4, 1993. It is, therefore, suggested that the current board extend its meetings to twice a week at 6 hours per meeting. Increasing the number of alternate members on the current Board from two to four will assist the current Board in extending its meetings.

On June 28, 1983, your Board adopted a Resolution adopting Revenue & Taxation Code Sections 1640.1 and 1641.1 relating to Assessment Appeals Hearing Officers. The proposed ordinance will repeal this resolution and adopt, in its place, Revenue & Taxation Code Sections 1640 and 1641, making the decision of the Hearing Officer final. This change will eliminate the redundant hearings of the past wherein applicants appealed the Hearing Officer's decision to the Assessment Appeals Board.

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

TUESDAY, JULY 24, 1984, AT 8:30 O'CLOCK A.M.

205.10 ORD. # ALL MEMBERS PRESENT

Upon motion of Supervisor Dougherty, seconded by Supervisor Erickson, and duly carried, the Board hereby reads in title only the proposed Ordinance, and continues the final adoption of the Ordinance to July 31, 1984:

county of ventura

CHIEF ADMINISTRATIVE OFFICE
Richard Wittenberg
Chief Administrative Officer

Robert C. Hirtensteiner
Assistant Chief Administrative Officer

July 24, 1984

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, California 93009

ORDINANCE ESTABLISHING THE ASSESSMENT APPEALS BOARD

RECOMMENDATION:

It is recommended that the Board of Supervisors on July 24, 1984, introduce the attached ordinance amending the Ventura County Ordinance Code, read in title only and waive further reading; and on July 31, adopt the ordinance.

It is further recommended the staff be directed to initiate a recruitment procedure for appointment to the Assessment Appeals Board pursuant to sections 1622.1 and 1622.2 of the Revenue and Taxation Code.

DISCUSSION:

Assembly Bill 2324 (Hart) was signed by the Governor on July 17. The bill has an urgency clause and is therefore effective immediately.

This legislation, which the County requested in its legislative package, would permit the establishment of an Assessment Appeals Board with one or two members of the Board of Supervisors as members provided they have served on a County Board of Equalization.

In order for the Assessment Appeals Board to be established in time for the coming appeals season, under Revenue and Taxation

Code section 1626 it would appear that such action would have to be taken prior to the first Monday in September. Therefore, in order for the ordinance to be effective in sufficient time, it should be introduced and read in title only on July 24 and adopted on July 31.

The attached ordinance has been drafted to establish an Assessment Appeals Board for the purpose of considering appeals and equalizing the valuation of taxable property within the County for the purpose of taxation. The County in past years has utilized assessment appeals boards composed entirely of appointed lay members; the attachment will allow members of the Board of Supervisors to serve as members of the Assessment Appeals Board along with private citizen appointees. The creation of the Assessment Appeals Board will not affect the existing Assessment Hearing Officers of their responsibilities.

If there are questions regarding this matter, please feel free to call me at ext. 2575.

ORDINANCE NO. 4211

An Ordinance Amending Section 2 of Ventura County Ordinance No. 3700 Increasing the Number of Alternate Members on Assessment Appeals Board Number One

The Board of Supervisors of the County of Ventura does ordain as follows:

Section 1

Ventura County Ordinance No. 3700 is hereby amended to read as follows:

"Section 2 - Members

The Assessment Appeals Board shall consist of three (3) members and up to five (5) alternate members selected in the manner prescribed by Sections 1622.1 and 1622.2 of the Revenue and Taxation Code. The terms of office shall be for three (3) years except for a member who is also a member of the County Board of Supervisors whose term shall be the same as his or her term of office as a member of the County Board of Supervisors. Upon the expiration of any term of office or the occurrence of a vacancy on the Assessment Appeals Board, the Board of Supervisors shall appoint the successor to such office, except that the Board of Supervisors may choose to keep the position of up to two (2) alternate members vacant for such period as they deem appropriate."

Section 2

This Ordinance shall become effective on September 4, 2000.

PASSED AND ADOPTED this 25th day of July, 2000, by the following vote.

AYES: Supervisors Lacey, Thille, Nickels, Flynn & Long

COUNTY CLERK AND RECORDER

July 18, 2000

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

Subject: Amendment to Ordinance No. 3700 to Authorize Five Alternate Assessment Appeals Board Members

Recommendation:
It is recommended that the Board of Supervisors on July 18, 2000 introduce the attached ordinance amending the Ventura County Ordinance Code, read in title only and waive further reading; and on July 25, 2000 adopt the ordinance to amend Section 2 of Ordinance No. 3700 to increase the number of alternate assessment appeals board members to five.

Fiscal/Mandates Impact:
None. Appropriations for alternate board member fees are included in the Clerk of the Board's FY2000-01 Adopted Budget.

Discussion:
On June 6, 2000, your Board adopted a Resolution terminating Assessment Appeals Board #2 effective September 4, 2000. The number of alternate members on AAB #1 currently is four. By increasing the number of alternate members to five more flexibility will be afforded in scheduling thereby insuring that a full board is available at each hearing.

The Chief Administrative Office, County Counsel, Auditor-Controller and the Assessor have reviewed this letter.

If you have any questions regarding this matter, please call Peggy A. Higgins, Assistant Clerk of the Board, at extension 3361.

Respectfully submitted;

Richard D. Dean

RICHARD D. DEAN

Attachment

ORDINANCE NO. 4029

An Ordinance Amending Section 2 of Ventura County Ordinance No. 3700 Increasing the Number of Alternate Members on Assessment Appeals Board Number One

The Board of Supervisors of the County of Ventura does ordain that Section 2 of Ventura County Ordinance No. 3700, Establishing Assessment Appeals Board Number One is amended as follows.

Section 2 - Members

The Assessment Appeals Board shall consist of three (3) members and up to four (4) alternate members selected in the manner prescribed by Sections 1622.1 and 1622.2 of the Revenue and Taxation Code. The terms of office shall be for three (3) years except for a member who is also a member of the County Board of Supervisors whose term shall be the same as his or her term of office as a member of the County Board of Supervisors. Upon the expiration of any term of office or the occurrence of a vacancy on the Assessment Appeals Board, the Board of Supervisors shall appoint the successor to such office, except that the Board of Supervisors may choose to keep the position of up to two (2) alternate members vacant for such period as they deem appropriate.

PASSED AND ADOPTED this 16th day of March, 1993, by the following vote.

AYES: SUPERVISORS LACEY, VANDERKOLK, KILDEE, HOWARD and FLYNN.

NOES: NONE.

ABSENT: NONE.

CALIFORNIA CODES
REVENUE AND **TAXATION CODE**
SECTION 1636-1641.5

1636. The county board of supervisors may appoint one or more assessment hearing officers or contract with the Office of Administrative Hearings for the services of an administrative law judge pursuant to Chapter 14 (commencing with Section 27720) of Part 3 of Division 2 of Title 3 of the Government **Code** to conduct hearings on any assessment protests filed under Article 1 (commencing with Section **1601**) of this chapter and to make recommendations to the county board of equalization or assessment appeals board concerning the protests. Only persons meeting the qualifications prescribed by Section 1624 may be appointed as an assessment hearing officer.

1636.2. No current hearing officer may represent an applicant for compensation on any application for equalization filed pursuant to Section 1603 in the county in which the hearing officer serves.

1636.5. (a) An assessment hearing officer shall notify the clerk immediately upon filing an application on his or her own behalf, or upon his or her decision to represent his or her spouse, parent, or child in an assessment appeal.

(b) When the application described in subdivision (a) is scheduled for hearing, the clerk shall schedule the matter before an alternate assessment appeals board pursuant to the provisions of Section 1622.6.

1637. (a) Hearings before an assessment hearing officer shall be conducted pursuant to the provisions of Article 1 (commencing with Section **1601**) governing equalization proceedings by a county board of equalization or an assessment appeals board. The assessment hearing officer may conduct hearings on applications where all of the

following apply:

(1) The applicant is the assessee and has filed an application under Section 1603.

(2) For counties in which the board of supervisors has not adopted the provisions of Section 1641.1, the total assessed value of the property under consideration, as shown on the current assessment roll, does not exceed five hundred thousand dollars ($500,000); or the property under consideration is a single-family dwelling, condominium or cooperative, or a multiple-family dwelling of four units or less regardless of value.

(3) The applicant has requested that the hearing be held before an assessment hearing officer.

(b) In addition to subdivision (a), the board of supervisors may, by resolution, require the assent of the assessor to hearings before an assessment hearing officer in all cases in which the total assessed value on the current roll of the property under consideration exceeds a sum set by the resolution. However, that requirement shall not apply in cases involving owner-occupied residential property.

1638. The applicant may be represented in the hearing of the application and shall have the right to offer evidence. The assessor may be represented in the hearing by an attorney if the applicant is represented by an attorney and one or more members of his staff, and the assessor and members of his staff shall have the right to offer evidence. The hearing shall be conducted in accordance with Section 1609. The hearing and disposition of applications shall be conducted in an informal manner.

1639. The hearing officer shall conduct the hearing and shall prepare a summary report of the proceedings together with his recommendation on the assessment protest. The hearing officer shall transmit his report and recommendation to the clerk of the board of supervisors. The report and recommendation shall not constitute precedent for future proceedings initiated by the applicant or other applicants.

1640. The clerk shall transmit in writing at the conclusion of the hearing or by mail to the protesting party or his or her agent and shall transmit to the county board of equalization or assessment appeals board the hearing officer's report and recommendation on the assessment protest. The protesting party shall be informed that the county board of equalization is bound by the recommendation of the assessment hearing officer.

1640.1. (a) The clerk shall transmit in writing at the conclusion of the hearing or by mail to the protesting party or his or her agent and shall transmit to the county board of equalization or assessment appeals board, the hearing officer's report and recommendation on the assessment protest. The protesting party shall be informed that the county board of equalization or the assessment appeals board is not bound by the recommendation of the assessment hearing officer and that he or she or the assessor is entitled to a full hearing before the county board or the assessment appeals board.

(b) The provision of this section shall supersede the provisions of Section 1640 in those counties in which the board of supervisors by resolution adopts the provisions of this section.

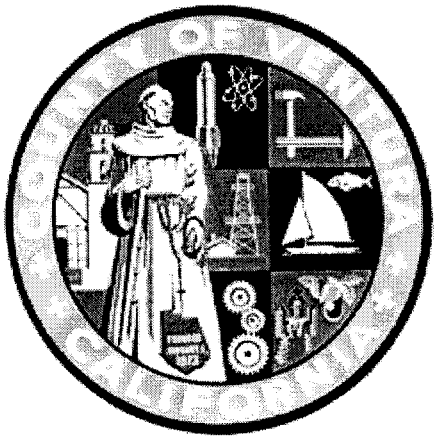
1641. Upon the recommendation of an assessment hearing officer the county board of equalization or assessment appeals board shall establish the assessed value for the property at the value recommended by the hearing officer.

1641.1. (a) Upon being notified of the recommendation of an assessment hearing officer, the protesting party or the assessor may request the county board of equalization or assessment appeals board to accept or reject the recommendation of the assessment hearing officer. The assessor may request the board to reject the recommendation of the assessment hearing officer. The county board of equalization or assessment appeals board shall, without further testimony, do either of the following:

(1) Accept the recommendation and change the assessed value in accordance with Section 1610.8.

(2) Reject the recommendation and set the application for

reduction for hearing by the local board of equalization.



If a request is not filed with the county board of equalization or assessment appeals board, the protesting party or the assessor may, within 14 days after mailing of the hearing officer's report and recommendation, make application for a hearing before the county board or the assessment appeals board, and the application shall be set for hearing by the county board or the assessment appeals board. The board may consider, but shall not be bound by, the recommendation of the assessment hearing officer.

(b) The provisions of this section shall supersede the provisions of Section 1641 in those counties in which the board of supervisors by resolution adopts the provisions of this section.

1641.2. Notwithstanding the provisions of Section 1604, if within 90 days of the expiration of the two-year period specified in Section 1604 within which a county board is required to hear evidence and make a final determination on an application for reduction in assessment, a taxpayer or his or her agent objects to an assessment appeals board member pursuant to Section 1624.4 or makes application for a hearing officer's recommendation to be heard before the county board pursuant to Section 1641.1, the two-year period shall be extended by 90 days.

1641.5. (a) Notwithstanding any other provision of law, the board of supervisors of a county in which a hearing officer exercises jurisdiction pursuant to subdivision (a) of Section 1637 may, by a resolution enacted by a majority of the entire membership of that board, provide that the decision of a hearing officer on an assessment appeal application constitutes the final administrative decision of the county board of equalization or county assessment appeals board on that application without any further action by the county board of equalization or county assessment appeals board.

(b) In a county that adopts the resolution described in subdivision (a), that resolution supersedes Sections 1640 and 1641.

Subject

VENTURA COUNTY ORDINANCE ESTABLISHING AN ASSESSMENT HEARING OFFICER IN VENTURA COUNTY

Comments

ORDINANCE NO. 4030

An Ordinance Establishing an Assessment Hearing Officer in Ventura County

The Board of Supervisors of the County of Ventura does ordain as follows.

Section 1 - Establishment of Assessment Hearing Officer

There is hereby established in the County of Ventura, pursuant to Sections 1636 through 1641, but excluding Section 1640.1, of the Revenue and Taxation Code of the State of California, the position of Assessment Hearing Officer. A previous Ordinance No. 3096 and Resolutions by this Board regarding the Assessment Hearing Officer are hereby revoked.

Section 2 - Appointment; Term

The Board of Supervisors shall make direct appointment of one or more Assessment Hearing Officers as well as an alternate Hearing Officer. The Board of Supervisors may direct the Personnel Department of Ventura County to publish notices seeking qualified applicants and conduct appropriate oral and/or written examinations in selection of one or more Assessment Hearing Officers and alternate Hearing Officers and make recommendations to the Board of Supervisors as to appointment.

Each Assessment Hearing Officer shall be appointed to serve for a term of one year beginning on the first Monday in September.

Section 3 - Procedure

Hearings before the Assessment Hearing Officer shall be conducted in accordance with applicable provisions of the Constitution and laws of this State, and the rules of procedures adopted by the Board of Supervisors and the Assessment Appeals Board of the County of Ventura.

Section 4 - Compensation

Each Assessment Hearing Officer shall be compensated in the manner prescribed in Ordinance 3889.

Section 5 - Clerk

The Clerk of the Board of Supervisors shall be Clerk of Assessment Hearing Officers and shall keep a record of all proceedings and receive and transmit reports and recommendations as required by law.

Section 6 - Assessed Value Limits

The Assessment Hearing Officer may conduct hearings on applications when the total assessed value of the property under consideration, as shown on the current assessment roll, does not exceed one hundred thousand dollars ($100,000) or the property under consideration is a single-family dwelling, condominium or cooperative, or a multiple-family dwelling of four units or less regardless of value.

Section 6 (a) - Assessed Value Limits With Assessor Waiver

When the total assessed value, as shown on the current roll, exceeds one hundred thousand dollars ($100,000) for property other than a single-family dwelling, condominium or cooperative, or a multiple-family dwelling of four units or less, the Assessment Hearing Officer may conduct a hearing on the application with the assent of the County Assessor.

Section 7 - Meeting

Meetings of the Assessment Hearing Officer shall be held at a place, time, and date designated by the Clerk of the Board.

PASSED AND ADOPTED this 16th day of March, 1993, by the following vote.

AYES: SUPERVISORS LACEY, VANDERKOLK, KILDEE, HOWARD and FLYNN.

NOES: NONE.

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, California 93009

SUBJECT: ORDINANCES ESTABLISHING A SECOND ASSESSMENT APPEALS BOARD, AMENDING ORDINANCE NO. 3700, ESTABLISHING AN ASSESSMENT APPEALS HEARING OFFICER AND REQUEST FOR ADDITIONAL STAFFING (REQUIRES 4/5THS VOTE)

RECOMMENDATIONS:

1. It is recommended that your Board adopt the attached Ordinance establishing Assessment Appeals Board Number Two, at an estimated annual cost of $21,600 ($150 per Board member, per meeting, at 48 meetings), to become operative on the first Monday of October 1993, and automatically terminate three years thereafter.

2. It is recommended that your Board adopt the attached Ordinance amending Section 2 of Ordinance No. 3700 to allow up to four alternate members.

3. It is recommended that your Board adopt the attached Ordinance establishing an Assessment Hearing Officer at an estimated annual cost of $3,600 ($150 per meeting at 24 meetings).

4. Read Ordinances in title only and continue final adoption to March 16, 1993.

5. Approve the addition of one full time fixed term Technical Specialist IV position (class code 00521) for three years, with a salary range of $26,780-$33,669, in the Clerk of the Board Division (budget unit 03030).

6. Authorize the Auditor-Controller to process the accounting transactions necessary to establish appropriations as follows: (requires 4/5ths vote)

Increase Salaries/Benefits (Budget Unit 03030)	$ 7,100
Increase Services/Supplies (Budget Unit 03030)	$ 500
Increase Services/Supplies (Budget Unit 03010)	$ 6,600
Decrease General Fund Contingency	$14,200

DISCUSSION:

During the past two years, assessment appeal filings have increased

145%. As of this date, approximately 2,440 applications have been received for the 1992-93 assessment filing year (July 2, 1992 through July 1, 1993), and approximately 666 applications for the 1991-92 year require disposition. Many of these applications are commercial or industrial cases that will require substantially more hearing time than residential appeals.

The Assessment Appeals Board calendar is full through March 29, 1993. Due to a computerized process in the Assessor's Office, we expect to have 300 to 400 applications ready for hearing by March 1, 1993. The Clerk has an additional 95 applications ready to schedule.

Many of the applications received during the 1993-94 filing period will be disposed of through stipulations and withdrawals. However, the sheer volume of filed applications, along with an anticipated 500 new applications that will be filed by July 1, 1993, (based on last year's filing) will severely impact the Assessment Appeals Board's backlog of cases this year and throughout 1994.

If applications are not disposed of within two years of the filing date, the applicant's opinion of value becomes the enrolled value, which results in tremendous revenue losses for the County. The public's image of the County will also suffer if there are long delays in resolving taxpayer appeals. Consequently, we believe it is imperative that there not be a large carryover of 1992-93 cases to the 1993-94 assessment appeal year.

With two Boards meeting six hours per week each, the current backlog of cases would take just over a year to eliminate at a rate of 40 meetings per year each. Clearly, the backlog is staggering and could take even more resources if the number of cases continue to climb in 1993 and 1994.

Pursuant to Revenue & Taxation Code Section 1626.1, the second Appeals Board cannot become operative until October 4, 1993. It is, therefore, suggested that the current board extend its meetings to twice a week at 6 hours per meeting. Increasing the number of alternate members on the current Board from two to four will assist the current Board in extending its meetings.

On June 28, 1983, your Board adopted a Resolution adopting Revenue & Taxation Code Sections 1640.1 and 1641.1 relating to Assessment Appeals Hearing Officers. The proposed ordinance will repeal this resolution and adopt, in its place, Revenue & Taxation Code Sections 1640 and 1641, making the decision of the Hearing Officer final. This change will eliminate the redundant hearings of the past wherein applicants appealed the Hearing Officer's decision to the Assessment Appeals Board.

The Clerk of the Board Division currently has one staff person devoted full time to duties related to the current Assessment Appeals Board. The addition of a full time fixed term position for three years is necessary to handle the increased workload generated by a second Board and two weekly meetings. The salary cost for the remainder of FY 1992-93, not including fringe benefits and based on a hire date of April 26, 1993, is $5,150. An increase of $500 in services and supplies is required for the remainder of FY 1992-93 to cover additional postage, auditron costs, and office supplies. An additional $6,600 is requested in the Board of Supervisors' budget, services and supplies, to pay the members of the Board and the Hearing Officer for the remainder of FY 1992-93.

This letter has been reviewed by the Auditor-Controller, Chief Administrative Office, County Counsel, and Personnel. If you have any questions regarding this matter, please call Jerry Sanford at extension 2161 or Richard Dean at extension 2266.

ORD. 3480 / 202

ADOPTING ORDINANCE NO. 3480; DELETING FROM CODE AVIATION ADVISORY COMMISSION BY-LAWS ; DIRECTING PUBLICATION

An ordinance repealing Article 10 of Chapter 5 of Division 6 of the Ventura County Ordinance Code concerning the By-laws of the Ventura County Aviation Advisory Commission

is presented to the Board at this time, and upon motion of Supervisor MacDonald, seconded by Supervisor Dougherty, and duly carried, it is ordered that the same be passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 3480.

Upon the roll being called, the members of the Board vote as follows:

Ayes: Supervisors Eaton, Jones, MacDonald, Dougherty, Laubacher

Noes: None

Absent: None

All members of the Board present voting on the passage and adoption of said ordinance, it is hereby declared and ordered that said ordinance is hereby passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 3480.

It is further ordered that said ordinance shall take effect and be in force at the expiration of thirty (30) days from the date hereof and before the expiration of fifteen (15) days the same shall be published, with the names of the members of the Board of Supervisors voting for and against the same, at least once in the Santa Paula Chronicle, a newspaper of general circulation printed and published in the County of Ventura, State of California.

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA, STATE OF CALIFORNIA, CONCERNING THE AMENDED BY-LAWS OF THE VENTURA COUNTY AVIATION ADVISORY COMMISSION

WHEREAS, in 1974 the Ventura County Board of Supervisors adopted an ordinance establishing the by-laws of the Ventura County Aviation Advisory Commission; and

WHEREAS, the Board of Supervisors finds it is appropriate to amend the by-laws of the Ventura County Aviation Advisory Commission; and

WHEREAS, the Board of Supervisors desires to repeal Article 10 of Chapter 5 of Division 6 of the Ventura County Ordinance Code which established the Aviation Advisory Commission's by-laws and adopt amended by-laws for the Commission by resolution;

NOW, THEREFORE, IT IS HEREBY RESOLVED by the Board of Supervisors of the County of Ventura, State of California, as follows:

1. The following provisions shall constitute the by-laws of the Ventura County Aviation Advisory Commission:

ARTICLE 1. NAME - The Commission shall be called "The Ventura County Aviation Advisory Commission" hereinafter referred to as "Commission". The Commission shall be subordinate to, and directly accountable to, the Ventura County Board of Supervisors, hereinafter referred to as "Board".

ARTICLE 2. PURPOSE - The Commission shall advise the Board on matters pertaining to the County owned airports, and on matters of promotion and advancement of the orderly development of air transportation in Ventura County. The Commission shall advise the Property Administration Agency, Department of Airports, on technical

and operational matters pertaining to the airports. The Commission from time to time may seek information from airport lessees, the general public, and agencies of the Federal, State, and local government on County airport operational and administrative matters and on air transportation concerns in general for the purpose of formulating recommendations to the Board. It shall be the purpose of the Commission to act in an unbiased manner, representing the people of Ventura County, the users of County airport facilities, and all those directly concerned with aviation activities. The Commission in its deliberation shall consider in all matters the socio-economic-environmental effects of its actions, decisions, and recommendations.

ARTICLE 3. DUTIES AND RESPONSIBILITIES - The Commission's primary duty is to act in an advisory capacity to the Board. The Commission shall have the responsibility to review and research information and to formulate recommendations to be sent to the Board for consideration and action. The Commission shall not take any action or conduct any activity which is inconsistent with these by-laws. Except for urgency and emergency matters, and any other matters requiring immediate action by the Board, all matters concerning the County airports, or the air transportation system within Ventura County requiring Board action shall first be referred to the Commission for its study and consideration prior to submission to the Board for action. Department of Airports staff shall provide assistance, including obtaining legal and other technical assistance, necessary in the development of information required by the Commission in formulating its recommendations. The Property Administration

Agency, Department of Airports, may request the Commission to review and to make recommendations on matters under its jurisdiction which would normally not require Board action or approval. All disputes with the Commission's decisions, or recommendations counter to the Commission's by County staff, the public, or other parties of interest may be referred to the Board for consideration. The Commission shall, at all of its meetings, set aside time for public comment and input on the matters at hand. It shall hear all complaints, suggestions, and viewpoints from airport users, lessees, and parties of interest. The Commission shall give fair, open-minded consideration to public comment and make its dispositions public in all matters brought before it. The Commission may hold public hearings when necessary to serve the public interest. Correspondence containing representations and/or recommendations of the Commission being sent to the Board, individuals of the public, or other agencies of the County shall first be approved by a majority vote of the Commission, and such materials shall be transmitted under the signature of the Chairman of the Commission or his designee. Correspondence containing County policy or representations being sent to Federal, State or other non-county agencies shall be sent to the Board for approval and signature.

ARTICLE 4. MEMBERSHIP - The Commission shall be composed of ten (10) members. Each supervisor will nominate two candidates who reside within his supervisorial district. Approval of each candidate for membership shall be by a majority vote of the Board. Members of the Commission shall possess a knowledge of aviation matters, and have some experience in administrative proceedings.

Members must be reasonably free to attend the regular meetings, and on occasion to serve on committees requiring additional time. In the event a member of the Commission has been absent for three consecutive meetings without an excused absence, the Chairman may request the Board to remove the member and to appoint a replacement to fill the vacancy.

ARTICLE 5. COMPENSATION - No compensation shall be paid for serving as a member of the Commission. Members of the Commission may be reimbursed out-of-pocket costs for expenses incurred on Commission business when previously approved by the Commission and the Board and when funds for expense reimbursement have been approved by the Board of Supervisors in the operational budget or otherwise.

ARTICLE 6. OFFICERS - The Commission shall select from its membership a Chairman, and a Vice-Chairman. Each shall serve for one calendar year beginning on the first meeting in January. The Chairman shall be responsible for conducting the meetings and shall be guided by Roberts' Rules of Order, Revised. The Director of the Property Administration Agency, Department of Airports, shall act as the Commission's Administrative Secretary. The Administrative Secretary shall be directly responsible to the Chairman and the Commission for the administrative and secretarial needs of the Commission. From time to time the Chairman will assign members to committees for purposes of special studies and pursuits. Each committee will be headed by a committee chairman. The committee chairman shall be responsible to the Commission for carrying out its assigned task.

ARTICLE 7. TERM - Commissioners shall be appointed to serve on the Commission for a term which is concurrent with the nominating supervisor's term of office. The term of a Commissioner shall immediately terminate at the end of the nominating supervisor's term of office.

ARTICLE 8. MEETINGS - The Commission shall hold meetings once each month at a time and place selected by the Commission. Meetings shall be open to the public. The Administrative Secretary shall prepare and publish the agenda for each meeting and have it distributed to Commission members and all interested parties after it has been approved by the Chairman or his designee. Meetings may be cancelled only on approval of the Chairman. Special meetings may be called by the Chairman. In the absence or unavailability of the Chairman, the Vice-Chairman shall assume all duties and responsibilities of the Chairman. In the absence of both officers, the next most senior member shall assume the duties and responsibilities of the Chairman. No action shall be taken except by a majority of a quorum of the Commission. A quorum shall exist when at least five (5) Commissioners are present, if at least three (3) supervisorial districts are represented within the five (5) or more Commissioners present. Voting shall normally take place by voice vote unless ballot vote is requested by any one member. The secretary shall poll each member and record his or her vote on all motions acted upon by voice vote, and record the results of all ballot votes. An accurate record of each regular and special meeting shall be kept and published for all interested parties.

ARTICLE 9. AMENDMENTS - Recommendations for amendments to these by-laws may be made by the Commission at any time by a majority vote of the full Commission. The number of members appointed at the time shall constitute the full Commission. Recommended amendments adopted by the Commission shall be sent to the Board for approval and enactment.

ARTICLE 10. EFFECTIVE DATE - These by-laws shall take effect upon the repeal of Article 10 of Chapter 5 of Division 6 of the Ventura County Ordinance Code.

Upon motion of Supervisor MacDonald, seconded by Supervisor Dougherty, and duly carried, the foregoing resolution was approved on February 26, 1980.

RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA, STATE OF CALIFORNIA, CONCERNING THE AMENDED BY-LAWS OF THE VENTURA COUNTY AVIATION ADVISORY COMMISSION

WHEREAS, the Ventura County Board of Supervisors has adopted by-laws for the Ventura County Aviation Advisory Commission; and

WHEREAS, the Board of Supervisors wishes to amend those by-laws;

NOW, THEREFORE, IT IS HEREBY RESOLVED by the Board of Supervisors of the County of Ventura, State of California, as follows:

1. The following provisions shall constitute the by-laws of the Ventura County Aviation Advisory Commission:

ARTICLE 1. NAME - The Commission shall be called "The Ventura County Aviation Advisory Commission" hereinafter referred to as "Commission". The Commission shall be subordinate to, and directly accountable to, the Ventura County Board of Supervisors, hereinafter referred to as "Board".

ARTICLE 2. PURPOSE - The Commission shall advise the Board on matters pertaining to the County owned airports, and on matters of promotion and advancement of the orderly development of air transportation in Ventura County. The Commission shall advise the Department of Airports on technical and operational matters pertaining to the airports. The Commission from time to time may seek information from airport users, lessees, the general public, and agencies of the Federal, State, and local government on County airport operational and administrative

matters and on air transportation concerns in general for the purpose of formulating recommendations to the Board. It shall be the purpose of the Commission to act in an unbiased manner, representing the people of Ventura County, the users of County airport facilities, and all those directly concerned with aviation activities. The Commission in its deliberation shall consider in all matters the socio-economic-environmental effects of its actions, decisions, and recommendations.

ARTICLE 3. DUTIES AND RESPONSIBILITIES - The Commission's primary duty is to act in an advisory capacity to the Board. The Commission shall have the responsibility to review and research information and to formulate recommendations to be sent to the Board for consideration and action. The Commission shall not take any action or conduct any activity which is inconsistent with these by-laws. Except for urgency and emergency matters and any other matters requiring immediate action by the Board, all matters concerning the County airports or the air transportation system within Ventura County requiring Board action shall first be referred to the Commission for its study and consideration prior to submission to the Board for action. Department of Airports staff shall provide assistance, including obtaining legal and other technical assistance, necessary in the development of information required by the Commission in formulating its recommendations. The Administrator, Department of Airports, may request the Commission to review and to make recommendations on matters under its jurisdiction which would normally not require Board action or approval. All disputes

with the Commission's decisions, or recommendations counter to those of the Commission by County staff, the public, or other parties of interest shall be referred to the Board for consideration. The Commission shall, at all of its meetings, set aside time for public comment and input on the matters at hand. It shall hear all complaints, suggestions, and viewpoints from airport users, lessees, and parties of interest. The Commission shall give fair, open-minded consideration to public comment and make its dispositions public in all matters brought before it. The Commission may hold public hearings when necessary to serve the public interest. Correspondence containing representations and/or recommendations of the Commission being sent to the Board, individuals of the public, or other agencies of the County shall first be approved by a majority vote of the Commission, and such materials shall be transmitted under the signature of the Chairman of the Commission or his designee. Correspondence containing County policy or representations being sent to Federal, State or other non-county agencies shall be sent to the Board for approval and signature.

ARTICLE 4. MEMBERSHIP - The Commission shall be composed of ten (10) members. Each supervisor will nominate two candidates who reside within his supervisorial district. Approval of each candidate for membership shall be by a majority vote of the Board. Members of the Commission shall possess a knowledge of aviation matters, and have some experience in administrative proceedings. Members must be reasonably free to attend the regular meetings, and on occasion to serve on committees

requiring additional time. In the event a member of the Commission has been absent for three consecutive meetings without an excused absence, the Chairman may request the Board to remove the member and to appoint a replacement to fill the vacancy.

ARTICLE 5. COMPENSATION - No compensation shall be paid for serving as a member of the Commission. Members of the Commission may be reimbursed out-of-pocket costs for expenses incurred on Commission business when previously approved by the Commission and the Board and when funds for expense reimbursement have been approved by the Board of Supervisors in the operational budget or otherwise.

ARTICLE 6. OFFICERS - The Commission shall select from its membership a Chairman, and a Vice-Chairman. Each shall serve for one calendar year beginning on the first meeting in January. The Chairman shall be responsible for conducting the meetings and may be guided by Robert's Rules of Order, Revised. The Administrator of the Department of Airports shall act as the Commission's Administrative Secretary. The Administrative Secretary shall be directly responsible to the Chairman and the Commission for the administrative and secretarial needs of the Commission. From time to time the Chairman will assign members to committees for purposes of special studies and pursuits. Each committee will be headed by a committee chairman. The committee chairman shall be responsible to the Commission for carrying out its assigned task.

ARTICLE 7. TERM - Commissioners shall be appointed to serve on the Commission for a term which is concurrent with the nominating supervisor's term of office. The term of a Commissioner shall immediately terminate at the end of the nominating supervisor's term of office.

ARTICLE 8. MEETINGS - The Commission shall hold meetings once each month at a time and place selected by the Commission. Meetings shall be open to the public. The Administrative Secretary shall prepare and publish the agenda for each meeting and have it distributed to Commission members and all interested parties after it has been approved by the Chairman or his designee. Meetings may be cancelled only on approval of the Chairman. Special meetings may be called by the Chairman. In the absence or unavailability of the Chairman, the Vice-Chairman shall assume all duties and responsibilities of the Chairman. In the absence of both officers, the next most senior member in terms of service on the Commission shall assume the duties and responsibilities of the Chairman. No action shall be taken except by a majority of a quorum of the Commission. A quorum shall exist when at least five (5) Commissioners are present. Voting shall normally take place by voice vote unless ballot vote is requested by any one member. The secretary shall poll each member and record his or her vote on all motions acted upon by voice vote, and record the results of all ballot votes. An accurate record of each regular and special meeting shall be kept and published as appropriate.

ARTICLE 9. AMENDMENTS - Recommendations for amendments to these by-laws may be made by the Commission at any time by a majority vote of the full Commission. The number of members appointed at the time shall constitute the full Commission. Recommended amendments adopted by the Commission shall be sent to the Board for approval and enactment.

ARTICLE 10. EFFECTIVE DATE - These by-laws shall take effect upon approval. All prior versions of these by-laws are hereby repealed.

Upon motion of Supervisor Erickson, seconded by Supervisor Lacey, and duly carried, the foregoing resolution was approved on April 2, 1986.

Board of Supervisors
County Government Center
800 South Victoria Avenue
Ventura, CA 93009

AVIATION ADVISORY COMMISSION
AMENDED BY-LAWS

RECOMMENDATION:

1) That your Board adopt the attached resolution amending the Aviation Advisory Commission by-laws.

2) Authorize your Chairman to execute on behalf of County the attached resolution.

DISCUSSION:

In recognition of the need to amend the by-laws for the Aviation Advisory Commission its Chairman set in motion a plan to thoroughly review the principles governing the procedures and actions of the Commission, and to then make recommendations for change as appropriate.

This action is consistent with ARTICLE 9. AMENDMENTS of the Commission by-laws which allows for the revision of the by-laws through recommendations submitted to and adopted by your Board.

To that end, the Commission has recommended that your Board adopt the attached resolution concerning the amended by-laws of the Commission.

Finally, it should be noted that most changes to the by-laws were necessitated because of the separation of the Department of Airports from the Property Administration Agency. Other minor editing changes only made the material more suitable for publication.

This matter has been reviewed by County Counsel and approved as to form and legal sufficiency.

CALIFORNIA CODES
HEALTH AND **SAFETY CODE**
SECTION **9000**-9007

9000. This part shall be known and may be cited as the Public Cemetery District Law.

9001. (a) The Legislature finds and declares all of the following:

(1) There is a continuing need to provide for the respectful and cost-effective interment of human remains to meet the cultural, economic, religious, and social needs of California's diverse communities.

(2) The Legislature authorized the creation of public cemetery districts in 1909 to assume responsibility for the ownership, improvement, expansion, and operation of cemeteries and the provision of interment services from fraternal, pioneer, religious, social, and other organizations that were unable to provide for those cemeteries.

(3) For nearly a century, public cemetery districts have provided communities with the means to publicly finance the ownership, improvement, expansion, and operation of public cemeteries and the provision of interment services, particularly in rural and formerly rural communities.

(4) Interment customs and practices have changed since the creation of the public cemetery districts but communities continue to need the means to own, improve, expand, and operate public cemeteries that provide respectful and cost-effective interments.

(b) In enacting this part, it is the intent of the Legislature to create and continue a broad statutory authority for a class of special districts that can own, improve, expand, and operate public cemeteries that provide respectful and cost-effective interments.

(c) It is also the intent of the Legislature that local officials adapt the powers and procedures provided by this part to meet the diversity of local conditions and circumstances.

9002. The definitions in Chapter 1 (commencing with Section 7000) of Part 1 of Division 7 apply to this part. Further, as used in this part, the following terms have the following meanings:

(a) "Active militia" means the active militia as defined by Section 120 of the Military and Veterans **Code**.

(b) "Armed services" means the armed services as defined by Section 18540 of the Government **Code**.

(c) "Board of trustees" means the legislative body of a district.

(d) "District" means a public cemetery district created pursuant to this part or any of its statutory predecessors.

(e) "Family member" means any spouse, by marriage or otherwise, child or stepchild, by natural birth or adoption, parent, brother, sister, half-brother, half-sister, parent-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, first cousin, or any person denoted by the prefix "grand" or "great," or the spouse of any of these persons.

(f) "Firefighter" means a firefighter as defined by Section 1797.182.

(g) "Nonresident" means a person who does not reside within a district or does not pay property taxes on property located in a district.

(h) "Peace officer" means a peace officer as defined by Section 830 of the Penal **Code**.

(i) "Principal county" means the county having all or the greater portion of the entire assessed value, as shown on the last equalized assessment roll of the county or counties, of all taxable property within a district.

(j) "Voter" means a voter as defined by Section 359 of the Elections **Code**.

9003. (a) This part provides the authority for the organization and powers of public cemetery districts. This part succeeds the former Part 4 (commencing with Section 8890), as added by Chapter 60 of the Statutes of 1939, as subsequently amended, and any of its statutory predecessors.

(b) Any public cemetery district formed pursuant to the former Part 4 or any of its statutory predecessors that was in existence on January 1, 2004, shall remain in existence as if it has been organized pursuant to this part.

(c) Any indebtedness, special tax, benefit assessment, fee,

election, ordinance, resolution, regulation, rule, or any other action of a district taken pursuant to the former Part 4 or of any of its statutory predecessors which was taken before January 1, 2004, shall not be voided solely because of any error, omission, informality, misnomer, or failure to comply strictly with this part.

9004. This part is necessary to protect the public health, **safety**, and welfare, and shall be liberally construed to effectuate its purposes.

9005. If any provision of this part or the application of any provision of this part in any circumstance or to any person, city, county, special district, school district, the state, or any agency or subdivision of the state is held invalid, that invalidity shall not affect other provisions or applications of this part that can be given effect without the invalid provision or application of the invalid provision, and to this end the provisions of this part are severable.

9006. (a) Any action brought to determine the validity of the organization or of any action of a district shall be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the **Code** of Civil Procedure.

(b) Any judicial review of an action taken pursuant to this part shall be conducted pursuant to Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the **Code** of Civil Procedure.

9007. (a) Except as provided in this section, territory, whether incorporated or unincorporated, whether contiguous or noncontiguous, may be included in a district. Territory that is already within a public cemetery district or another type of special district that provides cemetery facilities and services shall not be included within a public cemetery district.

(b) Except as provided in this part, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, Division 3 (commencing with Section 56000) of Title 5 of the Government **Code**, shall govern any change of organization or reorganization of a district. In the

case of any conflict between that division and this part, the provisions of this part shall prevail.

(c) A district shall be deemed an "independent special district," as defined by Section 56044 of the Government **Code**, except when a county board of supervisors has appointed itself as the board of trustees.

CALIFORNIA CODES
EDUCATION CODE
SECTION 18700-18703

18700. This chapter shall be known as the California Library Services Act.

18701. The Legislature finds and declares that it is in the interest of the people of the state to insure that all people have free and convenient access to all library resources and services that might enrich their lives, regardless of where they live or of the tax base of their local government.

This finding is based on the recognition that:

(a) The public library is a primary source of information, recreation, and **education** to persons of all ages, any location or any economic circumstance.

(b) The expansion of knowledge and the increasing complexity of our society create needs for materials and information which go beyond the ability of any one library to provide.

(c) The public libraries of California are supported primarily by local taxes. The ability of local governments to provide adequate service is dependent on the taxable wealth of each local jurisdiction and varies widely throughout the state.

(d) Public libraries are unable to bear the greater costs of meeting the exceptional needs of many residents, including the handicapped, non-English and limited English-speaking persons, those who are confined to home or in an institution, and those who are economically disadvantaged.

(e) The effective sharing of resources and services among the libraries of California requires an ongoing commitment by the state to compensate libraries for services beyond their clientele.

(f) The sharing of services and resources is most efficient when a common data base is available to provide information on where materials can be found.

18702. It is the intent of the Legislature to provide all residents with the opportunity to obtain from their public libraries needed

materials and informational services by facilitating access to the resources of all libraries in this state.

This policy shall be accomplished by assisting public libraries to improve service to the underserved of all ages, and by enabling public libraries to provide their users with the services and resources of all libraries in this state.

18703. In adopting this chapter, the Legislature declares that its policy shall be:

(a) To reaffirm the principle of local control of the government and administration of public libraries, and to affirm that the provisions of this chapter apply only to libraries authorized by their jurisdictions to apply to participate in the programs authorized by this act.

(b) To require no library, as a condition for receiving funds or services under this chapter, to acquire or exclude any specific book, periodical, film, recording, picture, or other material, or any specific equipment, or to acquire or exclude any classification of books or other material by author, subject matter, or type.

(c) To encourage adequate financing of libraries from local sources, with state aid to be furnished to supplement, not supplant, local funds.

(d) To encourage service to the underserved of all ages.

(e) To encourage and enable the sharing of resources between libraries.

(f) To reimburse equitably any participating library for services it provides beyond its jurisdiction if a public library, or, if not a public library, beyond its normal clientele.

(g) To ensure public participation in carrying out the intent of this act.

CALIFORNIA CODES
EDUCATION CODE
SECTION 18740-18751

18740. A library system, eligible for funds under this article, may consist of the following systems:
(a) A cooperative library system that, as of the effective date of this act, was designated a system under the Public Library Services Act of 1963.
(b) A library system in which two or more systems consolidate to form a library system.
(c) A library system that is formed by adding independent public library jurisdictions to an existing system.
(d) A library system formed by any combination of the above.

18741. (a) Each system described in Section 18740 shall receive an annual allowance for the improvement and maintenance of coordinated reference service support to the members of the system. Following the effective date of this chapter, if there occurs a consolidation among individual public libraries that, as of the effective date of this chapter, are members of a system, the per member allowance to the system shall continue at the same level as if the consolidation had not taken place.
(b) After identifying the needs of the underserved, each system shall use a fair and equitable portion of its reference allowance to improve the system's reference service to its underserved population through appropriate collection development, provision of reference specialists, and staff training. Funds for the reference grant may also be used for general and specialized reference collection development, employment of reference specialists, and system-wide reference training.

18742. Any system may apply to the state board for funds for Special Service Programs on a system-wide basis. Proposals shall identify the needs of the target service group, assess the capacity

of the applicant system to respond to those needs, and shall identify the activities and timelines necessary to achieve those objectives. Systems may also apply for funds for other system-wide programs, but such programs shall include a component for serving the underserved on a system-wide basis.

18743. Each member library of a system shall provide equal access to all residents of the area served by the system. Member libraries that incur a net imbalance shall be reimbursed through the system for the handling costs of the net loans according to the allocation formula developed pursuant to subdivision (f) of Section 18724.

18744. Each member library of a system shall be reimbursed through the system to cover handling costs, excluding communication and delivery costs, of each interlibrary loan between member libraries of the system according to the allocation formula developed pursuant to subdivision (f) of Section 18724.

18745. Each system shall annually apply to the state board for funds for intrasystem communications and delivery. Proposals shall be based upon the most cost-effective methods of exchanging materials and information among the member libraries.

18746. Each system shall annually apply to the state board for funds for planning, coordination, and evaluation of the overall systemwide services authorized by this chapter.

18747. (a) Each system shall establish an administrative council whose membership consists of the head librarians of each jurisdiction in the system. Duties of the administrative council shall include general administrative responsibility for the system, adopting a

system plan of service, and submitting annual proposals to the state board for implementation of the provisions of this article.

(b) Each system shall establish an advisory board consisting of as many members as there are member jurisdictions of the system. The governing body of each member jurisdiction shall appoint one member to the advisory board from among its residents.

18749. The term of any member of a system advisory board shall be for two years, and each member shall serve no more than two consecutive terms. Staggered terms shall be established by drawing of lots at the first meeting of the advisory board so that a simple majority of the members shall initially serve a two-year term, and the remainder initially a one-year term.

The appointing jurisdiction shall ensure that members of a system advisory board are representative of the public-at-large and of the underserved residents in the system service area.

18750. The duties of each system advisory board shall include, but are not limited to, the following:

(a) Assisting the Administrative Council in the development of the system plan of service.

(b) Advising the Administrative Council on the need for services and programs.

(c) Assisting in the evaluation of the services provided by the system.

18751. When any system or systems consolidate, a grant of ten thousand dollars ($10,000) for each of the two years following the consolidation shall be made to the newly consolidated system.

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

TUESDAY, OCTOBER 2, 1984 AT 8:30 O'CLOCK A.M.

217 (ALL MEMBERS PRESENT)

Upon motion of Supervisor Jones, seconded by Supervisor Dougherty, and duly carried, the Board hereby approves the following matter:

county of ventura

LIBRARY SERVICES AGENCY
Dixie D. Adeniran
Director

October 2, 1984

Board of Supervisors
County Government Center
800 S. Victoria Ave.
Ventura, CA 93009

SERVICE AGREEMENT WITH
BLACK GOLD COOPERATIVE SYSTEM

RECOMMENDATION

That your Board approve and authorize the Chair to sign the attached "Agreement for Services" with the Black Gold Cooperative Library System and return two (2) originally-signed copies to the Library Services Agency for further processing.

DISCUSSION

The Black Gold Cooperative Library System was established in 1964 to promote resource sharing among tri-county public library jurisdictions to achieve better service to library users. Members include Blanchard Community Library in Santa Paula, the cities of Lompoc, Paso Robles, Santa Barbara, Santa Maria and Thousand Oaks, and the counties of San Luis Obispo and Ventura.

On September 18, 1984, your Board approved the "Amended Joint Powers Agreement Creating as a Separate Legal Entity the Black Gold Cooperative Library System," which is to be effective October 1, 1984. Currently, several Ventura County employees are assigned to perform work for Black Gold. The full cost of these employees is paid to the County by Black Gold. Black Gold has requested that the arrangements with these employees be continued when the amended joint powers agreement goes into effect. The proposed Agreement for Services would be effective October 1, 1984, and would authorize continuance of the current arrangements for employees with Black Gold.

The proposed Agreement has been reviewed by County Counsel as to form and content. It has been reviewed and is supported by the Chief Administrative Office.

651 East Main Street, Ventura, CA 93001 (805) 654-2627

Item 16
10/2/84 ko

AGREEMENT FOR SERVICES

This Agreement is made by and between the BLACK GOLD COOPERATIVE LIBRARY SYSTEM as created by the agreement titled "Amended Joint Powers Agreement Creating As a Separate Legal Entity the Black Gold Cooperative System" dated October 1, 1984 (hereinafter called "System") and the COUNTY OF VENTURA (hereinafter called "County").

1. The County shall provide to the System staffing and personnel support services of the type and at the level currently being provided by the County to the System's predecessor organization. The County shall provide such different level of services, and shall provide such other types of services, as the System may request from time to time provided that such request is in writing and is received by the County no later than April 1 of the fiscal year preceding the fiscal year in which such services are to be provided.

2. The System shall pay to the County the full cost to the County of providing such services. Such costs shall include the salaries, wages and benefits of all County officers and employees engaged in providing such services, and all other costs and expenses incidental to the performance of such services, as determined by the County in accordance with the County's cost accounting procedures. Following each biweekly pay period in which such services are provided, the County shall deliver to the System documentation of the cost to the County

of the salaries, wages and benefits of employees providing such services during such period, and the System shall, promptly upon receipt of such documentation, reimburse the County for such cost. At the end of each calendar quarter in which such services are provided, the County shall deliver to the System an itemized statement of all costs to the County of providing such services other than costs for salaries, wages and benefits, and, the System shall, within 30 days after receipt of such statement, reimburse the County for such other costs.

3. The System shall indemnify and hold harmless the County, and its officers, agents and employees, from all claims, demands or liability arising out of or encountered in connection with this Agreement or the activities conducted hereunder (including such liability arising as a result of the active negligence of the County or its officers, agents and employees), and shall defend the County and its officers, agents and employees against any claim, cause of action, or damage resulting therefrom.

4. The System shall secure and keep in effect during the term of this Agreement the following described insurance with the minimum limits provided.

a. Comprehensive general liability insurance, naming the County as additional primary insured without offset against its existing insurance, with a limit of not less than ten million dollars ($10,000,000) for each occurrence.

b. Comprehensive automobile liability insurance, including owned, hired, and non-owned automobiles, naming the County as additional primary insured without offset against its existing insurance, with a bodily injury or death limit of ten million dollars ($10,000,000) per occurrence combined single limit.

A certificate of insurance for the insurance required under this article shall be furnished to the County within 30 days of the effective date of this Agreement. Each policy of insurance shall provide for a 30-day written notice of cancellation, reduction of coverage or nonrenewal to the County by certified mail return receipt requested.

5. The term of this Agreement shall commence on October 1, 1984, and continue indefinitely until terminated as herein provided.

6. This Agreement may be terminated at any time by either party by giving the other party 90 days' written notice of such termination.

7. All notices specified in paragraphs 4 and 6 of this Agreement shall be deemed given when deposited in the United States mail, postage prepaid, and addressed as follows:

To the County:

Director
Ventura County Library Services Agency
P.O. Box 771
Ventura, CA 93002

To the System:

Director
Black Gold Cooperative Library System
651 E. Main St.
Ventura, CA 93001

IN WITNESS WHEREOF the parties have executed this Agreement on the dates set forth below next to their respective signatures.

AMENDED JOINT POWERS AGREEMENT CREATING
AS A SEPARATE LEGAL ENTITY
THE BLACK GOLD COOPERATIVE LIBRARY SYSTEM

This Agreement is entered into by and among the County of Ventura, Santa Paula Union High School Public Library District, City of Santa Barbara, City of Lompoc, City of Santa Maria, County of San Luis Obispo, City of El Paso De Robles, and City of Thousand Oaks (hereinafter collectively "the parties"). This Agreement shall be effective October 1, 1984, provided that by said date it has been executed by not less than six of the agencies identified above.

WITNESSETH

WHEREAS, in accordance with the California Library Services Act (Education Code Sections 18700, et seq., hereinafter "Library Services Act"), the parties have established and operated a Cooperative Library System pursuant to a Joint Powers Agreement dated July 1, 1975, and prior agreements;

WHEREAS, the parties desire to continue in effect the Cooperative Library System heretofore established through the procedure of creating a public entity separate from the parties in accordance with Article 1, Chapter 5, Division 7, Title 1 of the California Government Code, and in particular Section 6507 thereof; and

WHEREAS, the parties intend that this Amended Joint Powers Agreement shall supersede and be a novation of the

Agreement of July 1, 1975;

NOW, THEREFORE, the parties do agree as follows:

1. Effect of Agreement.

This Agreement shall supersede and be a novation of the Agreement among the parties dated July 1, 1975, and entitled Joint Powers Agreement for Black Gold Cooperative Library System.

2. Purpose.

The purpose of this Amended Joint Powers Agreement is to provide for the exercise of the common power of each of the parties to provide public library services. This power shall be exercised in a manner consistent with and in furtherance of the objectives of the Library Services Act. The System shall perform cooperative library functions as necessary to fulfill this objective including, but not limited to, the following:

(a) Receipt of monies under the Library Services Act as the same may be amended from time to time;

(b) Receipt of such other monies and benefits as the System is eligible to receive;

(c) Making applications and contracts for grants from public or private entities to carry out the purposes of the System;

(d) Undertaking cooperative library projects which may be recommended by the Administrative Council of the System.

The foregoing, however, shall not be deemed to limit the extent of the powers conferred on the System. The System shall possess all the powers, preogatives and authority necessary to plan, operate, and administer a Cooperative Library System, and

those powers necessary to establish, improve, and extend library services.

Nothing contained herein shall be deemed to limit the right of the parties to administer, manage, direct, and control their own public libraries and library resources independently, select their own books and other library materials, hire their own personnel, and operate according to the policies and rules established by their own governing bodies, Boards of Trustees, or City Managers.

3. Creation of the Black Gold Cooperative Library System as a Separate Public Entity.

Pursuant to the provisions of Section 6507 of the California Government Code, the Black Gold Cooperative Library System (heretofore and hereinafter "System") is hereby established as a public entity separate from the parties to this Agreement.

4. Governing Body of System.

A. Composition of Administrative Council. The System will be governed by an Administrative Council (hereinafter "Council") consisting of the head librarian of each of the parties hereto.

B. Authority of Council. The Council is authorized in accordance with Section 6508 of the Government Code in the name of the System to do any or all of the following in furtherance of the purpose expressed in Article 2 hereof:

(1) To make and enter into contracts;

(2) To employ agents and employees;

(3) To acquire, construct, manage, maintain or

operate any building, works, or improvements;

(4) To acquire, hold, or dispose of property;

(5) To incur debts, liabilities or obligations, which debts, liabilities and obligations shall not constitute the debts, liabilities and obligations of any party hereto;

(6) To solicit and receive funds from any source;

The Council shall have such further powers as are common to the parties and are reasonable and necessary to effectuate the purpose of this Amended Agreement.

The Council shall have general administrative responsibility with respect to the Cooperative Library System provided for by the Library Services Act, shall adopt a System plan of services, submit annual proposals to the California Library Services Board and otherwise comply with the provisions of the Library Services Act.

C. Council Meetings.

(1) The Council shall fix the time and place for its meetings and shall hold at least one annual meeting.

(2) All meetings of the Council shall be open to the public and shall be called, conducted and adjourned according to the provisions of the Ralph M. Brown Act (Government Code Sections 54950, et seq.) as that Act may from time to time be amended or as other acts regulating the conduct of public meetings may from time to time provide.

(3) The Council shall adopt by-laws or other

rules for conducting its meetings, for the establishment of offices of the System, and for other business. Any action taken by the Council shall be taken by a majority in attendance provided a quorum exists. A majority of the members of the Council shall constitute a quorum.

5. Director - Custodian of Property.

The Council shall appoint a Director under whose direction and control the library system provided for hereby shall be carried out and who shall have such further duties as the Council may prescribe. The Director shall have charge of, handle and have access to any property of the System and shall file an official bond in the sum of one hundred thousand dollars ($100,000) or such other amount as may from time to time be prescribed by the Council.

6. Advisory Board.

In accordance with Education Code Section 18747(b) the System shall establish an Advisory Board consisting of as many members as there are parties to this Agreement. The governing body of each party hereto shall appoint one member, from among its residents, to the Advisory Board.

Except to the extent that the law may otherwise provide, the future existence and composition of an Advisory Board shall be determined by the Council.

7. Manner of Exercising Power.

The manner of exercising the common power provided for herein shall be subject to the restrictions upon the manner of exercising such powers of the Santa Paula Union High School Public

Library District as set forth in Chapter 8, Part 11, Division 1, Title 1, Sections 19400, et seq., of the Education Code.

In the event of the withdrawal of the Santa Paula Union High School Public Library District from the System the Council shall, or in the event that said District's enabling legislation is significantly altered, the Council may select another member of the System in lieu of said District, provided that two-thirds of the remaining members of the System have consented thereto. Such consent shall be presumed in the event that a member has failed to object within thirty days of its receipt of written notice of the Council's proposed designation.

8. Funding.

Those assets identified in Exhibit "A" hereto together with a cash balance as of June 30, 1984 of $344,877.20 in Ventura County Account No. 01620-0010 and a separate cash fund of $100 have been acquired by the parties pursuant to the Joint Powers Agreement of July 1, 1975. Said assets, including cash, as they may be modified prior to October 1, 1984, in the ordinary course of conducting the cooperative library system provided for by said agreement are hereby transferred to the System, subject to such liens and encumbrances as may exist with respect thereto.

Contributions, payments and advances may be made in the manner provided for in Section 6504 of the Government Code; any advances made to the System to be repaid in such manner as may be agreed upon between the Council and the advancing agency. The parties may provide for an exchange of services in accordance with Government Code Section 6506 under such arrangement as may be

agreed upon between the Council and the agency whose services are to be utilized.

On or before April 1st of each year the Council shall determine the total contribution that will be required from all member agencies in order to function in the manner prescribed by the Council for the forthcoming fiscal year considering all other anticipated sources of revenue.

The Council shall determine the share of the total that shall be contributed by each member agency according to a formula or formulas which it determines to be fair and equitable, considering such factors as population, number of titles added during the prior fiscal year by each party, number of volumes owned by each party, the value of services rendered, the costs of providing services and other related matters.

Said contribution shall be made in cash unless otherwise provided by the Council and agreed to by the contributing agency. Contributions shall be payable in equal installments quarterly, the first installment being due August 1 of the year for which contribution is made, or alternatively in such other manner or at such other time or times as the Council shall determine to be appropriate.

In addition the System may borrow money and incur indebtedness in accordance with any authority therefore provided by the laws of the State of California to local agencies including without limitation, Chapter 4, Part 1, Division 2, Title 5, Sections 53600, et seq., of the Government Code.

9. Treasurer or Depository; and Auditor

a. The Treasurer of the System shall be the Director, who shall have custody of all the money of the System from whatever source.

b. The Council shall appoint one of the officers or employees of the System as Auditor of the System. In the event of the failure of the Council to act, the Director shall be Auditor of the System. The System shall be strictly accountable of all funds and shall report all receipts and disbursements. The Auditor shall contract with a certified public accountant to make an annual audit of the accounts and records of the System.

The audit report prepared by the certified public accountant shall be filed as a public record with each member agency and also with the auditor of the county in which each of the member agencies is located. Said report shall be unqualified as to its accuracy.

c. The Council may from time to time change the designation of the Treasurer or Auditor.

10. Fiscal Year.

The System fiscal year shall be from July 1 through June 30.

11. Indemnification and Insurance.

The System shall indemnify and hold harmless each member agency, and its officers, agents and employees, from all claims, demands or liability arising out of, or encountered in connection with this Agreement and the activities conducted hereunder, and shall defend them and each of them against any claim, cause of

action, or damage resulting therefrom.

The System shall secure and keep in effect during the term of this Agreement the following described insurance with the minumum limits provided.

a. Workers' compensation insurance in compliance with law.

b. Comprehensive general liability insurance, naming each member agency as additional primary insureds without offset against their existing insurance, with a limit of not less than ten million dollars ($10,000,000) for each occurrence.

c. Comprehensive automobile liability insurance, including owned, hired, and non-owned automobiles, naming each member agency as additional primary insureds without offset against their existing insurance, with a bodily injury or death limit of ten million dollars ($10,000,000) per occurrence combined single limit.

Certificates of insurance for the insurance required under this article shall be furnished to each member agency within 30 days of the effective date of this Agreement. Each policy of insurance shall provide for a 30 day written notice of cancellation, reduction of coverage or nonrenewal, to each member agency by certified mail return receipt requested.

The Council shall appoint, and continue in effect during the term of this Agreement, an insurance committee consisting of not less than three individuals whose repsonsibility it shall be to review and report to the Council annually on the adequacy of the System's insurance coverage.

If, notwithstanding the provisions set forth above, any party to this Agreement suffers any loss because of an injury caused by a negligent or wrongful act or omission occurring in the performance of this Agreement such loss shall be allocated among the member agencies according to the following formula:

$$L = \frac{A}{B}$$

where:

L = the fraction such loss to be borne by the party in question.

A = the population of the geographic area in which the party in question is providing library services independently of this Agreement; and

B = the population of the entire geographic area in which the System is providing library services pursuant to this Agreement.

Population and geographic areas served by a party shall be deemed to include areas served by such party pursuant to contract with a public entity not a party to this Agreement and shall be determined annually as of the commencement of the System's fiscal year in which the debt, liability, or obligation becomes due. Population shall be based upon the latest figures available from the California Department of Finance or the United States Census Bureau.

12. Additional Members.

Other public agencies may be admitted into the System provided they meet the requirements of System membership as

established by the Council and by the laws of the State of California. All such applications must be approved by all members of the Council. The governing body of any admittee shall, as a condition precedent to admission, agree to become a party to this Agreement, including such amendments as may exist at the time of admission.

13. Obligation to Accept Service.

It is understood and agreed among the parties that System-wide programs shall be accepted by each party. Each party shall have an affirmative obligation to cooperate in the performance and execution of all System-wide programs and System policies.

14. Term, Withdrawal, and Termination of Agreement.

The term hereof is indefinite and this Amended Joint Powers Agreement shall remain in effect until terminated as hereafter provided.

Any member agency may withdraw from the System by resolution of its governing body. Written notice of such withdrawal shall be given to the Council prior to February 1 of the calendar year in which it is to become effective and shall become effective only as of July 1 of the calendar year in which the withdrawal is made. No party shall be entitled, by virtue of such withdrawal, to receive any payment of money or share of assets of the System except as may be agreed upon by all of the member agencies.

This Amended Joint Powers Agreement shall remain in effect until terminated by all of the remaining parties or until the withdrawal of all parties except one. In the event of ter-

mination of this Agreement the members of the Council remaining at the date of such termination shall continue as the governing board of the System for the purpose of winding up its affairs and during the course of such winding up shall exercise all powers granted by this Agreement as may be necessary or convenient in the accomplishment of its duties. When all affairs of the System have finally been settled then this Joint Powers Agreement shall terminate and be of no further force or effect.

15. Disposition of Property.

In the event of the termination of this Agreement any and all property, funds, assets and interests therein of the System shall become the property of and be distributed to such member agencies as are then members of the System. Distribution shall be made among the then member agencies in such proportion as the Council determines fairly represents each agency's financial contribution to the System.

16. Notice

Within 30 days after the effective date hereof notice of this Agreement shall be filed with the office of the Secretary of State as required by section 6503.5 of the Government Code. Within 70 days after the effective date hereof statements shall be filed with the Secretary of State and with the Clerk of the Counties of Ventura, Santa Barbara, and San Luis Obispo in compliance with Government Code Section 53051.

17. Counterparts

This Agreement may be executed in one or more counterparts, each of which shall be deemed an original.

BYLAWS
OF THE
BLACK GOLD COOPERATIVE LIBRARY SYSTEM

PREAMBLE

These several independent public libraries, having formed the Black Gold Cooperative Library System under terms of the California Library Services Act, do hereby accept the following Bylaws for governing the structure, operation and management of the System.

ARTICLE I
NAME

The name of this organization shall be the "Black Gold Cooperative Library System ."

ARTICLE II
OBJECTIVES

The objectives of this organization shall be to implement and achieve the Plan of Service agreed upon by the member libraries consistent with the provisions of the California Government Code, sections 6500-6579 (Joint Exercise of Powers). A further objective is to engage in other agreed upon programs that extend and enhance the resource sharing capabilities of the individual libraries in the System.

ARTICLE III
MEMBERSHIP

The membership of the Black Gold Cooperative Library System shall be limited to those libraries that are officially accepted and recognized as members by the California Library Service Board, having met the requirements set forth in the California Education Code, Sections 18700-18766 (California Library Services Act), and the California Administrative Code (Chapter 2, Public Library Services). Additional membership requirements may be established by the Administrative Council.

ARTICLE IV
SYSTEM ADMINISTRATIVE COUNCIL

Section 1.
The Black Gold Cooperative Library System shall be governed by an Administrative Council composed of one voting representative from each member jurisdiction.

Section 2.

a. Each member library shall have one vote.
b. In case of unavoidable absence from a meeting, the voting representative may designate an alternate to attend the meeting who shall have full voting power for the member jurisdiction.

ARTICLE IV, SYSTEM ADMINISTRATIVE COUNCIL, continued.

Section 3.

The System Administrative Council shall serve the System as defined in Article 5, Section 18747, Paragraph (a), of the California Library Services Act.

Section 4.

The Administrative Council shall have all powers necessary to determine the short and long range objectives and policies of the System and to implement the Plan of Service agreed upon and the further objectives of the System.

ARTICLE V
OFFICERS AND DUTIES

Section 1.

OFFICERS

a. The officers shall be a Chairperson and a Vice-Chairperson. The Chairperson of the Administrative Council is established according to a rotation schedule which automatically moves the Chairpersonship northward geographically throughout the System. The Vice-Chairperson is established according to the same rotation schedule and is designated as the next person on the list. The schedule is as follows:

Santa Paula
Ventura
Santa Barbara
Lompoc
Santa Maria
San Luis Obispo
Paso Robles

b. The System Director shall be the Secretary of the Administrative Council.

c. These officers shall perform all duties prescribed by these Bylaws, the Amended Joint Powers Agreement and by the parliamentary authority adopted by the System.

Section 2.

DUTIES.

a. The Chairperson shall preside at all meetings of the Administrative Council.
b. The Chairperson shall appoint members to committees authorized by the Administrative Council.
c. The Chairperson shall serve as the representative of the Administrative Council, to the Gold Coast Library Network and the System Advisory Board.
d. Vice-Chairperson shall serve as Chairperson in the absence of the Chairperson.
e. The Secretary shall be responsible for the minutes of the meeting, reports and correspondence.

ARTICLE V, OFFICERS AND DUTIES, continued.

Section 3.
The System Director, as Treasurer of the System, shall keep proper financial records, make and account for all receipts and disbursements as approved by the Administrative Council, make financial reports and perform all other duties set forth in the Bylaws and as required in the implementation of the California Library Services Act of the State of California.

Section 4.
The Chairperson and Vice-Chairperson of the System shall assume office at the first meeting of each fiscal year and shall serve for one (1) fiscal year.

Section 5.
If the office of Chairperson becomes vacant, the Vice-Chairperson shall serve for the unexpired term. If the office of Vice-Chairperson becomes vacant, the office shall be rotated according to the schedule set out in Section 1 of this Article.

ARTICLE VI
MEETINGS AND QUORUM

Section 1.
The System Administrative Council shall meet no fewer than 10 times throughout the fiscal year.

Section 2.
The Administrative Council may also meet upon call of the Chairperson or upon petition of a majority of the members.

Section 3.
A majority of the members of the Administrative Council shall constitute a quorum.

Section 4.
Notice and agenda of each meeting of the Administrative Council shall be in writing and transmitted at least five (5) days prior to each meeting.

Section 5.
The affirmative vote of the majority of the voting members present shall be necessary for all action taken with three exceptions:

a. For approval of the budget there must be an affirmative vote of a majority of the entire Administrative Council
b. For amendment of the Bylaws there must be an affirmative vote of a majority of the entire Administrative Council.
c. For addition of a System member there must be an affirmative, unanimous vote of the entire Administrative Council.

ARTICLE VII
COMMITTEES

Section 1.
The Administrative Council shall establish the following standing committees, indicating their objectives and responsibilities.

a. Budget/Finance/Insurance Committee
b. Long Range Planning Committee
c. Personnel Committee

Section 2.
The Administrative Council shall establish the following standing member libraries staff committees, indicating their objectives and responsibilities.

a. Children's Services Committee
b. ATS Operations Committee
c. Interlibrary Loan Committee
d. Reference Services Committee

Section 3.
The Administrative Council shall authorize such ad hoc committees and task force groups as it deems necessary.

ARTICLE VIII
SYSTEM STRUCTURE AND ORGANIZATION

Section 1.
HEADQUARTERS
The Administrative Council shall designate a location as the official headquarters of the Black Gold Cooperative Library System.

Section 2.
SYSTEM DIRECTOR
The System Director shall be Secretary and Treasurer of the Administrative Council and shall be responsible for the planning, organizing, coordinating, reporting and budgeting functions of System Administration. The Director shall report and be responsible to Administrative Council. The System Director shall serve as an ex officio member on all Council and member staff committees.

ARTICLE IX
PARLIAMENTARY AUTHORITY

Except as otherwise provided herein and by State Law, the latest edition of Robert's Rules of Order shall govern the conduct of business at meetings of this Council.

ARTICLE X
AMENDMENTS

These Bylaws may be amended at any meeting of the Administrative Council by a majority of the entire Administrative Council, providing that the amendment has been submitted to the members at least five (5) working days in advance and is part of the call for the meeting.

ARTICLE XI
SYSTEM ADVISORY BOARD

The System Advisory Board shall be established and serve according to the law established by the State of California in Education Code Part II, Chapter 4, Sections 18747 (b), 18748, 18749 and 18750.

ARTICLE XII
ADMINISTRATION OF THE SYSTEM

Subject to the supervision, policies and advice of the Administrative Council, the System shall be administered in the following manner:

Second level reference services shall be provided by agreements between Black Gold and a third party. This party, under the terms of the Letter of Agreement, shall provide library reference, research and information services for the member libraries.

Itemized billings shall be submitted and records shall be subject to review and audit as provided in the Amended Joint Powers Agreement.

The administrative staff shall be under the supervision of the System Director. All records shall be subject to review and audit as provided in the Amended Joint Powers Agreement. The Administrative Office shall be responsible for those duties outlined in Article VIII, Section 2, of these Bylaws.

An Automation and Technical Services department (ATS) shall be maintained. The purpose of Automation and Technical Services shall be to coordinate a system-wide program of automated services including, but not limited to, circulation control, public catalogs, interlibrary loan online, microcomputer support and other online services for use by the member libraries.

The Bibliographic Unit shall be a unit of Automation & Technical Services (ATS). The Bibliographic Unit shall have the responsibility of creating and maintaining the Black Gold Data Base.

The employees of ATS, as authorized in the budget, shall be employed by the Black Gold Cooperative Library System. The employees of Black Gold Automation & Technical Services (ATS), as authorized in the budget shall be supervised by the System Director.

ARTICLE XIII
BUDGET

Prior to January 30 of each year the Administrative Council shall adopt a tentative budget for the expenditures of the System during the succeeding fiscal year and shall make the tentative budget available to local jurisdictions for budget review. After March 1, but prior to April 1 of each year, acting upon the results of the review, the Administrative Council shall adopt a preliminary budget for the expenditures of the System during the succeeding fiscal year. Prior to July 1 of each year the Administrative Council shall adopt a final budget for the expenditures of the System during the fiscal year. The final budget shall be based on the preliminary budget and the total contribution required from all member agencies shall not exceed the amount specified in the preliminary budget; provided, however, that the final budget may be augmented for monies received after its adoption. When significant funding changes take place after adoption of the final budget, an adjusted final budget shall be adopted by the Administrative Council.

ARTICLE XIV
HANDLING OF FUNDS

The System shall maintain a separate interest bearing trust account or accounts for all funds received for the System.

Separate ledger accounts shall be maintained for the funds submitted by the member libraries participating in Automation and Technical Services (ATS). Interest earned by the System shall be prorated and a portion of said interest shall be credited to the ATS ledger accounts in accordance with ATS revenue. ATS revenue shall be expended only on ATS costs and in furtherance of the purposes of the ATS program. System funds shall be expended only in furtherance of the purposes of the System. There shall be no crossover between the General and the Special (ATS) funds.

Standard accounting practices shall be used to account for funds received and disbursed for the System and account books shall be open at all times during normal business hours to the inspection of any authorized representative of any party to this agreement, the authorized representative of any official of a government agency that grants or disburses funds to the System for the purposes of this agreement. The System shall be operated on a fiscal year basis beginning July 1 of each calendar year and continuing through June 30 of the succeeding calendar year. A qualified certified public accountant shall be selected by the Administrative Council to conduct the annual audit. The certified public accountant selected shall perform an annual audit of the operations of the System and shall prepare a statement of assets and liabilities, a statement of receipts and disbursements, and such other statements and reports as may be required by the Administrative Council. All parties shall cooperate in supplying the information necessary for the audit. A copy of the audit shall be distributed to the parties to this agreement.

ARTICLE XV
PROTECTION OF PROPERTY

Any party who is entrusted with System property or System funds shall provide an official bond or a public employees' fidelity bond in an amount satisfactory to the Administrative Council, unless this requirement for such bond is waived by the Administrative Council. The System carries Public Employee Dishonesty insurance coverage. Each party entrusted with System property shall be charged with the duty of its day-to-day maintenance. The decision to repair or replace seriously damaged or destroyed property shall be left to the discretion of the Administrative Council, and such repair and replacement shall be at System's expense.

ARTICLE XVI
CONTRIBUTIONS

Contributions are of three types. They are:

1. **PRO RATA CONTRIBUTION** supports the system-wide costs of the automated circulation system program and, as needed, local augmentation of state and federally funded system programs. The portion payable by each member library shall be determined by the following formula.

   Proportionate share of the total contribution payable by each member library:

$$\frac{\frac{A}{B} + \frac{C}{D} + \frac{E}{F}}{3}$$

   A = Population of the service area of the member library for which proportionate share is being calculated.

   B = Total Population of the System.

   C = The number of borrowers registered by the member library for which the proportional share is being calculated.

   D = The combined total of borrowers registered by all member libraries during the previous fiscal year of each member library.

   E = The total volumes held by the member library for which the proportionate contribution is being calculated.

   F = The combined total of volumes held by all member libraries in the System.

   Note: Population, borrowers and total volumes held are the figures reported by member libraries in the annual report sent to the State Library as published in the annual pre-print of the California Library Statistics.

2. **CONSOLIDATION CONTRIBUTION**

   Should consolidation occur, the county's contribution for the fiscal year next following the consolidation and each succeeding year shall be computed by altering the components of the formula contained in (a) above, as follows:

   (a) Component A shall be the sum of city's and county's population;

   (b) Component C shall be the sum of borrowers registered by city and county during the fiscal year;

   (c) Component E shall be the sum of the total number of volumes held by city and county.

ARTICLE XVI, CONTRIBUTIONS, continued.

3. AUTOMATION & TECHNICAL SERVICES (ATS) CONTRIBUTION

This contribution is for the support and operation of Automation & Technical Services (ATS). System members who share in the benefits of Automation & Technical Services (ATS), contribute to the expenses of the program. The determination of which libraries are participants in the program in a given fiscal year shall be made at the time of the tentative budget. The cost of operating ATS includes the hardware, software, maintenance, communication lines, staff and supplies associated with ATS services. Costs are contributed according to the following formula.

$$\frac{\%C + \%V + \%P + \%U}{4} = \text{Average } \%$$

%C= The circulation reported at the end of the last fiscal year divided by the combined total circulation of the participating member parties.

%V= The number of holdings reported for the individual member at the end of the last fiscal year divided by the combined total number of holdings of the participating member parties.

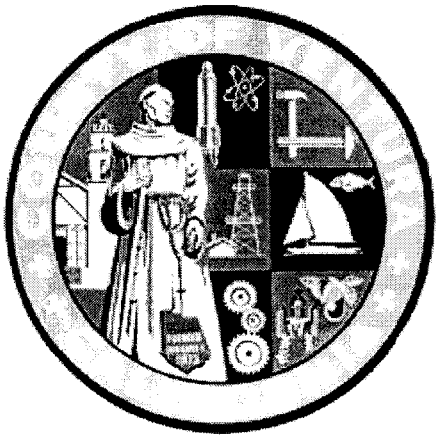
%P= The patron count of each participating member library divided by the combined total patron count of the participating member parties.

%U= The number of ports in use at the time of adoption of the final budget on the automated circulation system network divided by the combined total number of ports in use by the participating member parties.

Average % = The Average Percentage of the costs for ATS payable by each participating member.

Upon the adoption of any tentative budget for the System, the Administrative Council shall determine what contribution amounts appear necessary. The estimated amount shall be computed and apportioned according to the formulas given above and each party shall be informed of its estimated share at the time the tentative budget is submitted for adoption. Upon adoption of the final budget, contributions shall be made payable. Contributions shall be payable in equal installments quarterly, the first installment being due August 1 of the year for which contributions shall be placed in the System's interest bearing trust account(s).

ARTICLE XVII



BLACK GOLD DATA BASE, CATALOGS AND SERVICES

It is agreed that the System will maintain a data base containing titles possessed by members of ATS. In addition the System will maintain a link with the online public library catalog of Ventura County. Black Gold system members have access to the network of online services provided by the System subject to the rules and guidelines adopted by the Administration Council.

Any ATS member library may obtain copies of the data base by paying the cost of such copies. Upon approval of the Administrative Council, copies of the Black Gold data base may be obtained by non ATS members by paying additional cost to the System for producing the data base copies. Upon approval of the Administrative Council, updates to the Black Gold data base may be obtained by purchasers of the data base by paying the additional cost to the System of producing copies of the updates.

Any member library that establishes a Home Page on the World Wide Web may include a link between the library's Home Page and the Black Gold Online Public Access Catalog (OPAC).

Approved by Administrative Council, April 24, 1998.

ORDINANCE NO. 4274

AN ORDINANCE OF THE COUNTY OF VENTURA AMENDING THE VENTURA COUNTY BUILDING CODE AND ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN MODEL CODES AS FOLLOWS: CALIFORNIA BUILDING CODE, 2001 EDITION; UNIFORM HOUSING CODE, 1997 EDITION; UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS, 1997 EDITION; CALIFORNIA ELECTRIC CODE, 2001 EDITION; CALIFORNIA PLUMBING CODE, 2001 EDITION; THE CALIFORNIA MECHANICAL CODE, 2001 EDITION; AND APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE, 2001 EDITION, TOGETHER WITH AMENDMENTS THERETO.

The Board of Supervisors of the County of Ventura ordains as follows:

The Ventura County Building Code (VCBC) is hereby amended to read as follows:

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 101 VENTURA COUNTY BUILDING CODE DEFINED.

101.1 ELEMENTS. The Ventura County Building Code contained herein is comprised of the following elements:

a) The specified portions of the California Building Standards Codes known as Title 24, Parts 2, 3, 4, 5, 6, 8 and 10; and

b) The model codes referenced by the California Building Standards Code and the model codes herein adopted by reference being:

1) The Uniform Building Code, 1997 Edition.
2) The National Electrical Code, 1999 Edition.
3) The Uniform Mechanical Code, 2000 Edition.
4) The Uniform Plumbing Code, 2000 Edition.
5) The Uniform Code for Building Conservation, 1997 Edition.
6) The Uniform Housing Code, 1997 Edition.
7) The Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition; and

c) The Ventura County Amendments contained in this ordinance to the above referenced codes.

Taken together, the codes and amendments described above constitute the Ventura County Building Code.

101.2 AMENDMENTS. Ventura County amendments to the California Building Standards Code and the other adopted model codes are found in Articles 3 through 9 of this code.

Section 102 ADMINISTRATION. The administrative provisions referenced in Article 2 - General Application Amendments are applicable to all portions of the Ventura County Building Code.

Section 103. FILING WITH THE CLERK OF THE BOARD. Not less than one (1) certified copy of this Code and of each of the codes adopted by reference herein are on file in the office of the Clerk of the Board of Supervisors, and all such certified copies of the codes shall be kept at that office for public inspection while this Code is in force.

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. Purchase of the codes by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official may be available depending on the stock on hand.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE (CBC)

Section 101. ADOPTION. That building code known as the "California Building Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this Ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Building Code are found in Article 3 of this Code.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code," 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

Sec. 101 ADOPTION: That building conservation code known as the "California Conservation Code", 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Section 101 TITLE, PURPOSE AND SCOPE

101.1 TITLE. This ordinance shall be known as the "Ventura County Building Code," may be cited as such, and will be referred to herein as "this Code."

This ordinance shall adopt certain State and model codes by reference, together with amendments thereto, as published herein. These referenced codes and amendments shall have the same force and effect as if fully set forth herein.

101.2 PURPOSE. The Board of Supervisors expressly finds that the purpose of this Code is to provide minimum standards to safeguard life or limb, health, property, and public welfare by regulating and controlling the design, construction, quality of materials, use and occupancy, location, relocation, and maintenance of all buildings and structures within the County and certain equipment specifically regulated herein.

The purpose of this code is not to create or otherwise establish or designate any particular class or group of persons who will or should be especially protected or benefitted by the terms of this code.

101.18 AUTHORITY. This code is adopted pursuant to the statutory authority of Health and Safety Code Section 17910 et seq., known as the "State Housing Law." It is further adopted in conformity with the provisions of Sections 50022.1 to 50022.10, inclusive of the Government Code relating to the adoption of codes by reference.

101.19 APPLICABILITY. This code shall apply within all of the unincorporated territory of Ventura County.

101.20 INTENT. It is the intent of this Article to provide administrative control over all of the applicable sections of the adopted State and model codes even if these sections are not specifically identified in each of the adopted codes.

101.21 CONFLICTS. Wherever conflicts occur between the provisions of this Code and the separate codes adopted by reference hereby, or between different sections within such individual code or codes, the provisions which are more strict or which set the highest standard of health and safety shall govern.

Where conflicts occur between provisions of this code and other duly enacted County codes and ordinances, those provisions becoming law last in time shall govern.

Wherever in this code reference is made to the Appendix, the Appendix shall not apply unless specifically adopted.

101.22 SEVERABILITY. If any article, chapter, section, sub-section, sentence, clause or phrase of these regulations is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of these regulations. The Board of Supervisors hereby declares that it would have passed this ordinance, and each article, chapter, section, sub-

section, sentence, clause or phrase thereof, irrespective of the fact that any one or more articles, chapters, sections, sub-sections, sentences, clauses, and phrases be declared unconstitutional or invalid.

101.23 SECTION NUMBERING AND CROSS-REFERENCING SYSTEM FOR CODE AMENDMENTS. To facilitate cross-referencing between the adopted codes as published and the amendments contained herein, amendments are numbered to correspond to the uniform and model code sections which are affected. Thus, "Article 3, Chapter 18 Section 1804" in this ordinance is an amendment to, and supersedes Chapter 18, Section 1804 as published in the California Building Code.

Generally, each numbered sub-section of the adopted codes, for example, UBC subsection 1804.2, is deemed to be separate and distinct from others for the purpose of amendment. An amendment to one sub-section changes only that portion and does not by omission of reference amend or delete any other part of the Section such as UBC Section 1804.7.

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

Sec. 104 - ORGANIZATION AND ENFORCEMENT

104.1 CONTINUANCE OF DIVISION. There is hereby continued within the County the "Division of Building and Safety" of the Resource Management Agency, which division shall be under the administrative and operational control of the Building Official designated by the appointing authority.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura

County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a

violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

Sec. 106 PERMITS

106.1 PERMITS REQUIRED. No person, firm or corporation shall erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, occupy or maintain any building or structure, building service equipment, machine, equipment, or cause the same to be done, without first obtaining the necessary permit for each such building or structure from the Building Official. The terms "erect, construct, enlarge, alter, repair," etc. as used above shall be deemed to include any and all electrical, plumbing, mechanical, grading, or other work regulated by this Code.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

   a. On sites of 10 acres or more in size: 3,000 square feet.

   b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

   c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

   d. On sites less than 2 acres in size: none.

   e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.2 PERMITS FOR SMALL AGRICULTURAL PRODUCE STANDS. The provisions of this Code with respect to plan review and inspection shall not apply to agricultural produce stands, as specified herein, provided that all of the following conditions are met:

1. A Zoning Clearance for the produce stand is approved by the Planning Division.
2. Approval for the sale of agricultural products is obtained from the Environmental Health Division.
3. Approval from the Environmental Health Division is obtained for properties with septic systems.
4. The produce stand is used exclusively for the sale of agricultural produce only.
5. The floor area of the building does not exceed 400 square feet and is a single story, conventional wood frame structure of type V-N construction.
6. An area equivalent to at least 65% of the area of the longest side is left open and unobstructed during business hours.
7. A code complying exit is provided from the structure.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.3 WAIVER OF PERMIT. The Building Official may, by administrative order, waive permit requirements for work which is not inimical to the public health, safety or welfare, or which because of its temporary nature or special purpose, does not fall within the purview or intention of this Code.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Sec. 106.3 - APPLICATION

106.3.1 APPLICATION FOR PERMIT. To obtain a permit the applicant shall first file an application therefor in writing on a form furnished for that purpose. Every such application shall:

1. Give such information as may be required by the Building Official, County Agencies, or State Law.

2. Be accompanied by such plans, diagrams, computations, schedules, specifications and other data as may be necessary to determine compliance with this Code and other applicable codes, laws, ordinances, rules and regulations.

106.3.2 SUBMITTAL DOCUMENTS.

Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal

documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

(a) The residence is not intended or offered for sale.

(b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

106.4.5 SUSPENSION OR REVOCATION OF PERMIT. The Building Official may, in writing, suspend or revoke a permit issued under the provisions of this Code whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any ordinance or regulation or any of the provisions of this Code or for just cause.

106.4.6 PERMITS TRANSFERABLE. Permits required by this Code may be transferred from the original permittee to second parties when legal requirements have been satisfied, when approved by the Building Official, and when applicable fees have been paid.

106.4.7 ANNUAL MAINTENANCE PERMITS. The Building Official may, upon receipt of the required fee, issue an annual maintenance permit to any authorized person, firm, or corporation regularly engaged in the repair, replacement, or facility maintenance of electrical, plumbing, or mechanical systems regulated by this Code. The annual maintenance permit shall cover maintenance work which is performed on the specific premises of a person, firm or corporation and shall entitle the holder to be issued permits for said work on a monthly basis in lieu of obtaining individual permits prior to each installation or alteration of electrical wiring, plumbing, or mechanical equipment.

The holder of an annual maintenance permit shall report all work done under the permit on a form furnished for the purpose not more than fifteen (15) days following the end of each calendar

month, or as otherwise approved by the Building Official. Each such report shall be accompanied by required fees.

Annual Maintenance Permits shall only be applicable to commercial and industrial facilities.

Sec. 107 - FEES

107.1 GENERAL. Fees for permits and services rendered pursuant to this Code shall be assessed as set forth in this Code, and in accordance with the Ventura County Building Code Fee Schedule as established by the Board of Supervisors.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees, and are in addition to the permit fees.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for

additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

Sec. 108 - INSPECTIONS

108.1. GENERAL.

All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

108.4 APPROVALS REQUIRED. Work shall not be done on any part of a building or structure beyond the point indicated in each successive inspection without first obtaining the written approval of the Building Official. Such written approval shall be given only after an inspection has been made of each successive step in the construction as indicated by each of the inspections required in subsection 108.5 in the UBC and by other applicable laws and ordinances.

There shall be a final inspection and approval on all buildings when completed and ready for occupancy. An approval for occupancy and the issuance of a clearance by the Building Official for the connection of utilities to any building or structure shall be contingent upon compliance with provisions of this Code and any other applicable laws and ordinances.

When, in the judgment of the Building Official, unusual conditions exist which justify the connection of utilities prior to completion of a building or structure, a temporary clearance may be issued for such connection.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.3 CERTIFICATE ISSUED. After the building official inspects the building or structure and finds no violations of the provisions of this code, including type of occupancy and use of the building, or other laws or regulations enforced by the code enforcement agency, the building official shall issue a Certificate of Occupancy which shall contain the following:

1. The building permit number.
2. The address of the building.
3. The name and mailing address of the owner.
4. The name and mailing address of the tenant.
5. A description of that portion of the building, including floor area (in square feet) for which the certificate is issued.

6. A statement that the described portion of the building has been inspected for compliance with this code for the group and division of occupancy and the use for which the designated occupancy is classified.

7. The name of the building official.

8. The date that the Certificate of Occupancy was issued.

The Certificate of Occupancy shall run concurrently with the tenancy of the building. Subsequent tenants shall be required to obtain a Certificate of Occupancy in their name.

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

ARTICLE 3 - AMENDMENTS TO THE CALIFORNIA BUILDING CODE (CBC)

CHAPTER 2 - DEFINITIONS

Sec. 200 - GENERAL AMENDMENTS

See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more specific shall apply.

Sec. 201 - DEFINITIONS

201.1.1 DEFINITIONS. Whenever in this Code, or in any of the codes herein adopted, the following names or terms are used, they shall have the meanings set out herein.

Section 202-A
"APARTMENT HOUSE" shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.
Section 203-B
"BUILDING OFFICIAL" or **"building official"** shall mean the person appointed by the Director of the Resource Management Agency charged with the administration of the Division of Building and Safety, or a duly authorized representative.
Exceptions: 1. For the purpose of administering APPENDIX Chapter 33 - of the Uniform Building Code as amended, Excavation and Grading, the term "Building Official" shall mean the Director of Public Works Agency, or a duly authorized representative. The Director of Public Works Agency or his duly authorized representative shall assume the power of citation for enforcement of APPENDIX Chapter 33 - as said Power of Citation is described in ARTICLE II - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, subsection 104.2.12 - POWER OF CITATION, in this ordinance.

2. For the purpose of administering those requirements of Chapter 7 and APPENDIX K of the Uniform Plumbing Code pertaining to the approval, permitting and inspection of private sewage disposal systems, the term "Building Official" shall mean the Environmental Health Officer or the Director of Building and Safety, or a duly authorized representative. The Environmental Health Official or his duly authorized representative shall assume the power of citation for the enforcement of Chapter 7 and APPENDIX K of the UPC as said Powers of Citation are described in ARTICLE 2 - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, Subsection 104.2.12 - POWER OF CITATION, in this ordinance.
3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

"BUILDING SERVICE EQUIPMENT" Shall mean the plumbing, mechanical, electrical, and elevator equipment including piping, wiring, fixtures, and other accessories which provide sanitation, lighting, heating, ventilation, cooling, refrigeration, fire-fighting and transportation facilities essential for the habitable occupancy of a building or structure for its designated use and occupancy.

Section 204-C
"CHIEF ELECTRICAL INSPECTOR," "ADMINISTRATIVE AUTHORITY" and all other terms and designations indicating the person authorized and directed to carry out, enforce and

exercise governmental rights, privileges and duties shall, unless expressly indicated otherwise, mean the Building Official and any duly authorized deputies, assistants, and inspectors.

"CITY," "COUNTY," and other terms designating the local governmental entity having jurisdiction, shall mean the County of Ventura or the area under its jurisdiction.

Section 205-D

"DIRECTOR OF PUBLIC WORKS" shall mean the Director of Public Works except that it shall mean the Building Official for purposes of directing work of repair or demolition having an estimated cost of $4,000 or less pursuant to Section 1401.3 in the Uniform Housing Code and Section 701.3 in the Dangerous Buildings Code.

Section 206-E

"ENVIRONMENTAL HEALTH OFFICER" or **"ENVIRONMENTAL HEALTH OFFICIAL"** shall mean the duly appointed Director of the Environmental Health Department of the County or a duly authorized representative.

Section 207-F

"FIRE DEPARTMENT" shall mean the Ventura County Fire Protection District or the fire service agency having jurisdiction.

207-F **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control Department of the Public Works Agency.

Section 208-G

GRADE (Adjacent Ground Elevation for Structures within FLOOD HAZARD AREAS) is the point of elevation 12 inches above the highest elevation of the paved portion of the roadway adjacent to the subject lot, or the minimum height above mean sea level, whichever is the highest, as determined by the Flood Control Division of the Public Works Agency. (The Flood Control minimum elevation relates to the lowest habitable floor elevation; therefore, "GRADE" shall be established as the lowest habitable floor minus 6 inches in determining Reference Datum for measuring the maximum height of a structure.)

209-H **HABITABLE SPACE** (room) is space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls storage or utility space, and similar areas, are not considered habitable space.

EXCEPTION: For structures located within Flood Hazard Areas, bathrooms, toilet compartments, closets and laundry areas shall be considered as Habitable Space.

Section 217-P

"PERSON," "FIRM," or **"CORPORATION"** shall mean any and all entities of whatsoever nature or kind, including but not limited to individuals, owners, tenants, lessees, unions or organizations, cooperatives and trusts, corporations, partnerships whether general or limited, and unincorporated associations and shall include the plural as well as the singular number, the male and female gender, and all governmental entities subject in whole or in part to this Code and the codes adopted by reference herein.

Section 220-S

STORY, FIRST, is the lowest story in a building which qualifies as a story, as defined herein, except that a floor level in a building having only one floor level shall be classified as a first story, provided that such floor level is not more than 4 feet below grade, as defined herein, for more than 50 percent of the total perimeter, or not more than 8 feet below grade, as defined herein, at any point.

EXCEPTION: For structures located within Flood Hazard Areas, see Section UBC 208 for definition of "GRADE (adjacent Ground Elevations for Structures within FLOOD HAZARD AREAS).

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.
   Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.
4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

Section 1804 FOUNDATION INVESTIGATION.

1804.1. GENERAL. The classification of the soil at each building site shall be determined when required by the Building Official. Such determination shall be made by a California-licensed civil engineer experienced in soil engineering.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages and single-story accessory structures thereto.

3. Group U, Division 1 Occupancies.

4. Fences.

5. Detached single-story Group U, Division 3 occupancies.

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this Section he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

1804.7 DRAINAGE AND MOISTURE PROTECTION.

1804.7.1 GENERAL. Provisions shall be made for the control and drainage of surface water around buildings. Concentrated drainage such as rainwater from gutters and downspouts, scuppers, and roof valleys shall be diverted away from building foundations by means of concrete splash blocks and/or other approved non-erosive devices. Underfloor access crawl holes, vents, and similar

openings below grade shall be provided with curbs extending not less than six (6) inches above adjacent grade to prevent surface water from entering the underfloor area.

1804.7.2 ROOF GUTTERS AND DOWNSPOUTS. When buildings are located on expansive soil having an expansion index greater than 50, gutters, downspouts, piping, and/or other non-erosive devices shall be provided to collect and conduct rainwater to a street, storm drain, or other approved watercourse or disposal area.

1804.7.3 VAPOR BARRIER. An approved vapor barrier shall be installed below concrete slab-on-grade floors of all residential occupancies in such a manner as to form an effective barrier against the migration of moisture into the slab. When sheet plastic material is employed for this purpose it shall be not less than 6 mils (.006 inch) in thickness. The installation of a vapor barrier shall not impair the effectiveness of required anchor bolts or other structural parts of a building.

Foundations at the perimeter of concrete floor slabs shall form a continuous moisture barrier of portland cement concrete or solid grouted masonry to the depths required by Table UBC 18-1-D in the ordinance.

1804.7.4 GROUNDWATER. Where the probability of groundwater intrusion into underfloor areas is found to exist, foundations and crawl spaces shall be designed to mitigate ponding, excess moisture conditions, and settlement of footings. (Refer to APPENDIX CHAPTER 18 for waterproofing and dampproofing of foundations.)

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

*Refer to next page for footnotes (1) through (11).

FOOTNOTES TO TABLE UBC 18-1-D (Rev)

1. Premoistening is required where specified in Table UBC 18-1-D in order to achieve maximum and uniform expansion of the soil prior to construction and thus limit structural distress caused by uneven expansion and shrinkage. Other systems which do not include premoistening may be approved by the Building Official when such alternatives are shown to provide equivalent safeguards against the adverse effects of expansive soil.

2. Reinforcement for continuous foundations shall be placed not less that 3" above the bottom of the footing and not less than 3" below the top of the stem.

3. Reinforcement shall be placed at mid-depth of slab.

4. After premoistening, the specified moisture content of soils shall be maintained until concrete is placed. Required moisture content shall be verified by an approved testing laboratory not more than 24 hours prior to placement of concrete.

5. Crawl spaces under raised floors need not be premoistened except under interior footings. Interior footings which are not enclosed by a continuous perimeter foundation system or equivalent concrete or masonry moisture barrier complying with UBC 1804.7.3 in this ordinance shall be designed and constructed as specified for perimeter footings in Table UBC 18-1-D (Rev.).

6. Foundation stem walls which exceed a height of three times the stem thickness above lowest adjacent grade shall be reinforced in accordance with Chapter 21 and Sec. 1914 in the UBC, or as required by engineering design, whichever is more restrictive.

7. Bent reinforcing bars between exterior footing and slab shall be omitted when floor is designed as an independent, "floating' slab.

8. Where frost conditions or unusual conditions beyond the scope of this table are found, design shall be in accordance with recommendations of a foundation investigation. Concrete slabs shall have a minimum thickness of 4 inches when the expansion index exceeds 50.

9. The ground under a raised floor system may be excavated to the elevation of the top of the perimeter footing, except where otherwise required by engineering design or to mitigate groundwater conditions.

10. When subsoil drainage is required by the building official, refer to Sec. UBC APPENDIX 18.

11. Where a post-tensioning slab system is used, the width and depth of the perimeter footings shall meet the requirements of this table.

CHAPTER 23 - WOOD

TABLE 23-II-G MAXIMUM DIAPHRAGM DIMENSION RATIOS

	15/32			195	285	368	480					
	15/32	1⅝	10d[6]	233	345	450	578	–	–	–	–	–
	19/32			255	383	499	653					
			Nail Size (Galvanized Casing)					Nail Size (Galvanized Casing)				
Plywood panel siding in grades covered in U.B.C. Standard 23-2	5/16	1¼	6d	105	158	206	270	8d	105	158	206	270
	3/8	1½	8d	120	180	233	308	10d[6]	120	180	233	308

1 All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.

Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

2 Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

3 Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be ½-inch minimum.

4 The maximum allowable shear for 3-ply plywood, less than ⅝-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

5 The values for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

6 Fr[illegible]g at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1⅝ inches (4[illegible]) are spaced 3 inches (76 mm) or less on center.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

	TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
		x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1.	Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2.	Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3.	Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
		1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4.	Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)
				7	30	
			Blocked	7	30	
				7	30	
		5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
				7	30	
			Blocked	7	30	
				7	30	
			Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.

[2]Applies to nailing at all studs, top and bottom plates and blocking.

[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.

[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.

[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

CHAPTER 40

RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.
2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.
3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.
2. Is infested with pests or is insanitary.
3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.
4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.
5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.
2. Name the County of Ventura as obligee.
3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.
4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.
5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.
3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.
4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.
5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.
6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.
The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.
The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.
Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.
The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and
2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

CHAPTER 41 - SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

- ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes, reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table or moderate to highly expansive soil an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. Pedestrian gates shall swing away from the pool. Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.
2. Requirements for an approved foundation system.
3. Requirements for approved electrical, plumbing, and sewage disposal facilities.
4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within

48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public

nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building Official shall submit a request to demolish to the Federal Emergency Management Agency, in

accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound

condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the California Conservation Code as adopted by the County of Ventura.

APPENDIX CHAPTER 3, DIVISION II
AGRICULTURAL BUILDINGS

Section 327 - CONSTRUCTION, HEIGHT AND ALLOWABLE AREA

327.2 SPECIAL PROVISIONS FOR AGRICULTURAL BUILDINGS. The area of a Group U, Division 3 Occupancy in a one-story building shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width, regardless of the type of construction.

EXCEPTION: The area of a one-story Group U, Division 3 Occupancy which is used elusively for growing flowers, plants, fruits, vegetables, shrubs, trees, or similar horticultural products (horticultural structure) shall not be limited if the setback from all property lines to the building is not less than twenty (20) feet and if such setback area is maintained open and accessible for fire fighting purposes. In no case shall the distance from property lines be less than that required by zoning regulations. The maximum travel distance to an exit may be increased by 100 feet if the building or structure is provided with an approved fire sprinkler system.

The area of a two-story Group U, Division 3 Occupancy shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width and is provided with an approved automatic fire-extinguishing system throughout, conforming to UBC standard No. 9-1.

Buildings using plastics shall comply with Type V-N construction. Plastics shall be approved plastics as defined in Chapter 2 and regulated by Chapter 26. For foam plastic, see Section 2602.

EXCEPTIONS: 1. When used as skylights or roofs, the areas of plastic skylights shall not be limited.

2. Except where designs must consider snow loads, plastics less than 20 mil (0.51 mm) thick may be used without regard to structural considerations. The structural frame of the building, however, shall comply.

Refer to Section 106.1.1 in this ordinance for permit exceptions which apply to specified agricultural buildings.

APPENDIX CHAPTER 18 - WATERPROOFING AND DAMPPROOFING FOUNDATIONS

Section 1825 - OTHER DAMPPROOFING REQUIREMENTS

1825.1. SUBSOIL DRAINAGE. When required by the building official due to the requirements of Sec. UBC Appendix 1820 and 1821, a base material shall be installed under the floor slab and under-slab drain system shall be installed around the foundation perimeter in accordance with this section.

> EXCEPTION: When the finished ground level is below the floor slab level for more than 25 percent of the perimeter of the building, the base material required by Section 1825.2 need not be provided, and the foundation drain required by Sections 1825.1 - 1825.3 need be provided only around that portion of the building where the ground level is above the floor slab level.

1825.2 BASE MATERIAL. When subsoil drainage is required under Appendix Section 1824, the requirements of Table UBC Table 18-D-1 for a sand bed under slab-on-grade construction shall be superseded by the requirements of this subsection.

Concrete slab-on-grade floors shall be placed over base material not less than 4 inches (102 mm) in thickness consisting of gravel or crushed stone containing not more than 10 percent material that passes a No. 4 sieve, and no material that is retained on a 1½ inch sieve.

Over this base material, dampproofing material shall be installed in compliance with Section 1822. The dampproofing material shall be overlain with a protective layer of 2 inches of sand. Special care shall be taken to prevent damage to the damp proofing membrane. All punctures or tears in the membrane shall be immediately patched and sealed.

APPENDIX CHAPTER 30
ELEVATORS, DUMBWAITERS, ESCALATORS
AND MOVING WALKS

Section 3008 PURPOSE

3008.1 MINIMUM REQUIREMENTS. The purpose of this appendix is to safeguard life, limb, property and public welfare by establishing minimum requirements regulating the design, construction, alteration, operation and maintenance of elevators, dumbwaiters, escalators and moving walks, and by establishing procedures by which these requirements may be enforced.

3008.2 STATE STANDARDS This appendix is intended to supplement the State of California Elevator Codes and Standards, and is applicable only to those areas not superseded by mandate of the State Codes and Standards.

APPENDIX CHAPTER 33 EXCAVATION AND GRADING

SECTION 3305 SCOPE This appendix sets forth rules and regulations to control excavation, grading and earthwork construction, including fills and embankments; establishes the administrative procedure for issuance of permits; and provides for approval of plans and inspection of grading construction.

For the purposes of this Chapter, the term **"Building Official"** shall mean the Director of Public Works, as defined in Article 3, Sec. 203-B of this ordinance.

The standards listed below are recognized standards and as such are not adopted as part of this code (see Sections 3502 and 3503).

1. Testing

1.1 ASTM D 1557, Moisture-density Relations of Soils and Soil Aggregate Mixtures

1.2 ASTM D 1556, In Place Density of Soils by the Sand-Cone Method

1.3 ASTM D 2167, In Place Density of Soils by the Rubber-Balloon Method

1.4 ASTM D 2937, In Place Density of Soils by the Drive-Cylinder Method

1.5 ASTM D 2922 and D 3017, In Place Moisture Contact and Density of Soils by Nuclear Methods

3305.1 MINISTERIAL AND DISCRETIONARY PERMITS. The issuance or denial of a grading permit pursuant to this Code is a ministerial act for the purposes of Section 21080, subdivision (b) (1), of the Public Resources Code except in the following four cases:

1. Where the average natural slope within the area to be graded exceeds 10% and the amount of excavation or fill exceeds 10,000 cubic yards (7645.5 m^3);
2. Where the average natural slope within the area to be graded exceeds 35% and the mount of excavation of fill exceeds 1,000 cubic yards (764.6 m^3);
3. Where the proposed graded slopes exceed 25 feet (7620 mm) in vertical height; or
4. Where the proposed grading is to occur within a waterway or wetland' within an area officially designated by the County as a Sensitive Ecological, Archaeological, Scenic, or Biologically Sensitive Area; or within a recognized severe geologically hazardous area.

In each of the four cases listed above, the issuance or denial of a grading permit is discretionary for the purposes of Section 21080, subdivision (a), of the Public Resources Code except in the following three cases in which such issuance or denial is a ministerial act:

1. Where the grading permit is required by a condition imposed upon a discretionary entitlement previously approved by the County of Ventura and the effects of the grading for which the grading permit is required were addressed in an environmental document prepared and certified with respect to that previously approved entitlement; or

2. Where the grading is related to oilfield operations, involving the exploration for or the development or production of oil, and all of the following conditions are satisfied;

(a) The grading will be restricted to an area on which such oilfield operations may lawfully take place pursuant to an outstanding use permit for such operations issued by the county;

(b) The proposed graded slopes will be less than 40 feet (12192 mm) in vertical height;

(c) Before the grading commences, grading bonds are submitted to the Building Official guaranteeing all erosion control facilities, slope planting and slope maintenance necessary to meet then existing county standards; and

(d) Within 60 days of completion of the grading, all slopes created or modified thereby are hydromulched with a native plant and an irrigation system sufficient to ensure establishment of such native plants is installed.

3. Where the grading is related to oilfield operations involving the exploration for or the development of production of oil, and is limited to one or more of the following:

(a) Routine maintenance or repair of existing drill sites or existing roads which does not materially alter the location, size or configuration of the original sites or roads;

(b) Routing dredging of waste materials for which a permit has been issued by the Environmental Health Division of Ventura County Resource Management Agency.

The only discretionary powers to be exercised in conjunction with the issuance or denial of discretionary grading permits shall be exercised by the Building Official, or by the Board of Supervisors on appeal. Those discretionary powers shall be limited to all of those discretionary powers, (i) to issue the permit subject to conditions or changes in the project needed to mitigate significant environmental effects which would otherwise result from the grading, (ii) to deny the permit in order to avoid such effects, or (iii) to issue the permit despite such effects, as are conferred upon the lead agency by the California Environmental Quality Act (Section 21000 et seq. of the Public Resources Code) and are generally described in Section 15040 through 15043 of the State CEQA Guidelines (Section 15000 et seq. of Title 14 of the California Administrative Code).

With respect to a discretionary grading permit, the Building Official shall issue or deny the permit only after holding a public hearing, considering the applicable environmental document, if any, and certifying that such document has been prepared in compliance with the California Environmental Quality Act. The Building Official shall give at least 15 days written notice of such hearing to the applicant for the permit and to any owner of real property in the vicinity of the proposed grading whose property interest might be substantially affected by issuance or denial of the permit. The notice shall specify the time, date and place of the hearing, shall give a general description of the grading to which the permit application pertains, shall give a general description of the property on which the grading would occur, and shall state that any interested person will be given an opportunity to present relevant evidence at the hearing. The hearing shall be limited to, and any decision of the Building Official shall be based upon, the environmental issues with respect to which the Building Official has been granted discretion by this section.

Any interested person may appeal the issuance or denial of a discretionary grading permit by filing with the Building Official the appeal fee prescribed by the Board of Supervisors together with a notice of appeal on a form satisfactory to the Building Official within 10 days after the issuance or denial. The hearing on appeal shall be noticed and conducted by the Board of Supervisors in the same manner as the original hearing before the Building Official, except that the notice shall also be given to the appellant. The decision of the Board of Supervisors on appeal shall be issued in writing after the hearing on appeal and shall be final and conclusive when issued. A copy of the decision shall be served upon the applicant for the permit and upon the appellant. If the decision is to order the issuance of a grading permit previously denied or to modify a grading permit previously issued by the Building Official, the written order shall constitute the permit and shall include appropriate conditions.

A ministerial grading permit shall be operative immediately upon issuance. A discretionary grading permit shall become operative on the 15th calendar day after its issuance or, in the case of an appeal, on the date the Board of Supervisors issues its decision upholding or ordering issuance.

SECTION 3306 - PERMITS REQUIRED

3306.1. PERMITS REQUIRED. Except as specified in Section 3306.2 of this section, no person shall do any grading without first having obtained a grading permit from the building official.

3306.2 EXEMPTED WORK. A grading permit is not required for the following:

1. When approved by the building official, grading in an isolated, self-contained area if there is no danger to private or public property.

2. An excavation below finished grade for basements and footings of a building, retaining wall or other structure authorized by a valid building permit. This shall not exempt any fill made with the material from such excavation or exempt any excavation having an unsupported height greater than 5 feet (1524 mm) after the completion of such structure.

3. Cemetery graves.

4. Refuse disposal sites controlled by other regulations.

5. Excavations for wells or tunnels or utilities.

6. Mining, quarrying, excavating, processing, stockpiling of rock. sand, gravel, aggregate or clay where established and provided for by law, provided such operations do not affect the lateral support or increase the stresses in or pressure upon any adjacent or contiguous property.

7. Exploratory excavations under the direction of soil engineers or engineering geologists. This shall not exempt grading of access roads or pads for exploration equipment.

8. An excavation which (1) is less than 2 feet (610 mm) in depth, or (2) which does not create a cut slope greater than 5 feet (1524 mm) in height and steeper than 1 unit vertical in 1 1/2 units horizontal (66.7% slope).

9. A fill less than 1 foot (305 mm)in depth and placed on natural terrain with a slope flatter than 1 unit vertical in 5 units horizontal (20% slope), or less than 3 feet (914 mm) in depth not intended to support structures, which does not exceed 50 cubic yards ($38.3m^3$) on any one lot and does not obstruct a drainage course.

10. Grading under an approved hillside erosion control plan in compliance with the hillside erosion control ordinance.

11. When approved by the building official, sand and gravel backfill behind retaining walls.

Exemption from the permit requirements of this chapter shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this chapter or any other laws or ordinances of this jurisdiction.

Sec. 3307 HAZARDS.

3307.1 HAZARDS DECLARED A PUBLIC NUISANCE. Any existing excavation, embankment or fill on private property which has become a hazard to life and limb, or endangers property, or adversely affects the safety, use or stability of a public way or drainage channel, or fails to comply with the provisions of this Code is hereby declared to be a public nuisance.

3307.2 NOTICE AND ORDER TO ABATE. Whenever the Building Official has determined that such a nuisance exists, he/she shall issue a notice and order to the record owner of the property upon which the nuisance is located. The notice and order shall contain:

(1) The street address, if any, and a legal description sufficient for identification of the property upon which the nuisance is located.;

(2) A statement that the Building Official has found the excavation, embankment or fill to be on a public nuisance and a concise description of the conditions which render it a public nuisance;

(3) An order requiring that all applicable permits be secured and that the nuisance be abated within a specified time determined by the Building Official to be reasonable in circumstances;

(4) A statement that, if the nuisance is not abated within the time specified, the County man cause the work to be done and charge the cost thereof against the property or its owner;

(5) A statement that any person having a legal interest in the property may appeal from the notice and order to the Board of Grading Appeals if the appeal is made in writing as provided in this Section and is filed with the Clerk of the Board of Supervisors within 30 days of service of the notice and order; and

(6) A statement that failure, neglect or refusal to abate the nuisance within the time set forth in the notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals is a misdemeanor.

3307.3 SERVICE OF NOTICE AND ORDER. The notice and order shall be served and posted by the Building Official in the manner and subject to conditions set forth in subdivisions 3307.3, 3307.4 and (e) 3307.5 of Section 401 of the Uniform Code for the Abatement of Dangerous Buildings ("DBC"), as adopted by Article VI of the Ventura County Building Code, with respect to notices and orders relating to dangerous buildings.

3307.4 RECORDATION OF CERTIFICATE RESPECTING NUISANCE. If compliance is not had with the notice and order within the time specified therein or, if an appeal has been filed pursuant to this Section, within the time specified by the Board of Grading Appeals, the Building Official shall file in the Office of the County Recorder for recordation a certificate describing the property and certifying (1) that the excavation, embankment or fill constitutes a public nuisance, and (2) that the owner has been so notified. Whenever the nuisance shall thereafter have been abated, the Building Official shall file in the office of the County Recorder for recordation a new certificate describing the property and certifying that the nuisance has been abated.

3307.5 APPEAL FROM NOTICE AND ORDER. Any person entitled to service under subdivision 3307.3 of this Section may, upon payment of the fee prescribed by the Board of Supervisors for such purposes, appeal from the notice and order to abate the filing with the Clerk of the Board of Supervisors a written appeal in the form prescribed by the Building Official. The appeal shall be filed within 30 days after the date of service of the notice and order. Upon receipt of an appeal, the Clerk shall present it at the next regular or special meeting of the Board of Supervisors which, at such meeting, shall fix a date, time and place for the hearing of the appeal by the Board of Grading Appeals. Notice of the time and place of the hearing shall be given at least 10 days prior to the date of the hearing to each appellant by the Clerk either by causing a copy of such notice to be delivered personally or by mailing a copy thereof, postage prepaid, addressed to the appellant at his/her address shown on the appeal. Enforcement of a notice and order to abate shall be stayed during the pendency of an appeal therefrom which is properly and timely filed. In connection with the hearing,

the Board of Grading Appeals, and any member thereof, may administer oaths and affirmations and issue subpoenas. The hearing shall be conducted by the Board of Grading Appeals in the manner set forth in DBC Section 604. If, after the hearing, the Board of Grading Appeals determines that the excavation, embankment or fill does not constitute a public nuisance, it shall allow the appeal and cancel the notice and order to abate. If, after the hearing, the Board of Grading Appeals determines otherwise, it shall deny the appeal and set a date by which the nuisance must be abated, which date shall be no earlier that the last day of the period set forth in original notice and order to abate. The decision of the Board of Grading Appeals is final when made.

3307.6 COMPLIANCE WITH NOTICE AND ORDER REQUIRED. It shall be unlawful for any person, firm or corporation to who or to which a notice and order to abate is directed pursuant to this Section to fail, neglect or refuse to obey such order within the time specified in such notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals.

3307.7 ABATEMENT BY COUNTY UPON FAILURE TO COMPLY WITH NOTICE AND ORDER TO ABATE. If the nuisance is not abated within the time set forth in the notice and order to abate or, in the case of an appeal. by the date set by the Board of Grading Appeals, the Board of Supervisors may, without further notice or hearing. direct that the nuisance be abated by the County. Such abatement by the County shall not excuse any prior failure, neglect or refusal to comply with the notice and order to abate and shall be in addition to whatever other remedies may be provided by this Code or other provisions of law.

3307.8 SUMMARY ABATEMENT BY COUNTY IN EMERGENCY. If the nuisance threatens substantial injury to persons or property which is, in the opinion of the Building Official, so imminent as to require immediate corrective measures, the County may summarily abate such nuisance without complying with the provisions of subdivisions 3307.2 through 3307.7 of this Section; provided, however, that the Building Official shall give such notice to the owner of the property as may be practicable in the circumstances.

3307.9 MANNER OF ABATEMENT BY COUNTY; RIGHT OF ENTRY. Abatement by the County may be done directly by County personnel or through contractors in the same manner and subject to the same restrictions as public works. The County and its contractors may enter upon private property to effect such abatement.

3307.10 DETERMINING COST OF ABATEMENT BY COUNTY. The Building Official shall keep an itemized account of the costs of abatement by the County pursuant to subdivision 3307.7 or 3307.8 of this Section and, upon completion of the abatement work, shall prepare an itemized written report showing such cost. The Building Official shall thereupon forward a copy of the report to the Clerk of the Board of Supervisors who shall set a date (at least 10 days after receipt of the report), time and place for a hearing before the Board of Supervisors respecting such report and any objections thereto. Notice of such hearing shall be served and posted at least 10 days prior to the hearing in the manner and subject to the conditions set forth in subdivision 3307.3 of this Section with respect to the notice and order to abate. Such notice of hearing shall contain:

(1) The street address, if any, an a legal description sufficient for identification of the property affected by the report;

(2) A statement that the report has been prepared and is available for inspection in the office of the Building Official;

(3) A statement that the Board of Supervisors will hold a hearing to consider the report and any timely objections thereto;

(4) The date, time and place of such hearing;

(5) A statement that any interested person wishing to object to such report must file, prior to the hearing, a written statement of the grounds for the objection.

Any interested person may file written objections prior to the hearing. Each such objection shall contain a statement of the grounds therefor. A contention that the condition abated did not constitute a public nuisance shall be a ground for objecting to the report only if the report relates to a summary abatement pursuant to subdivision 3307.8 of this Section. At the hearing, the Board of Supervisors shall receive and consider the report, any timely written objections thereto, and such other information as it may deem proper. At the conclusion of the hearing, the Board of Supervisors may make such corrections in the report as it may deem just and, when it is satisfied that the report (as submitted or corrected) is correct, it shall, by resolution, determine the total amount of such cost of abatement attributable to each parcel of land upon which the abatement attributable to each parcel of land upon which the abatement took place.

3307.11 REIMBURSEMENT OF COUNTY FOR COST OF ABATEMENT. At any time within 10 days after the Board of Supervisors has adopted a resolution pursuant to subdivision 3307.10 of this Section determining the cost of abatement by the County, the Building Official may receive payment of such amount and issue receipts therefor. If payment is not received within such period of time, the Building Official shall forward a copy of the resolution to the Auditor-Controller.

3307.11.1 SPECIAL ASSESSMENT FOR COST OF ABATEMENT BY COUNTY. For cost of abatement by the County, pursuant to subdivision 3307.7 or 3307.8 of this Section, for which payment is not made pursuant to subdivision 3307.11 of this Section, shall be a special assessment against the parcel on which the nuisance has been located. Such special assessment shall be levied for the fiscal year commencing on the July 1 next following receipt by the Auditor-Controller of the resolution of the Board of Supervisors determining the amount of such cost. The assessment may be collected at the same time and in the same manner as ordinary county taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary County taxes. All laws applicable to the levy, collection and enforcement of County taxes shall be applicable to such special assessment, except that if any real property to which such cost of abatement relates has been transferred or conveyed to a bona fide purchases for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then such cost of abatement shall not result in a lien against such real property but instead shall be transferred to the unsecured roll for collection.

SECTION 3308 - DEFINITIONS. Section 3308 in the Appendix is hereby amended to include in addition to all of the definitions contained therein, the definitions of "Engineering Geologist", and "Isolated and Self Contained Area" as follows:

ENGINEERING GEOLOGIST. Is a certified engineering geologist duly licensed by the state who applies the geological sciences to engineering practice for the purpose of assuring that the geological features affecting the location, design, construction, operation and maintenance of engineering works are recognized and adequately addressed.

ISOLATED, SELF-CONTAINED AREA is that portion of a parcel of land or of contiguous parcels of land under single ownership which meets any one of the following three criteria:

1. The portion is used for growing crops or raising livestock for sale, but not for building sites or for the construction of earthfills which will impound water to a depth of more than 5 feet (1524 mm).
2. The portion contains water impounding structures constructed under the direct control of the U.S. Department of Agriculture, Soil Conservation Service.
3. The portion contains oilfield operations, involving the exploration for or the development or production of oil, which are established under an existing land use entitlement and all of the following criteria are met:

(a) The portion is not visible from a publicly maintained street, road or highway within 1.0 horizontal mile (1.609 km) of such portion;

(b) The portion is not visible from a private residence located within 1.0 horizontal mile (1.609 km) of such portion unless the owner and the tenant or such residence have signed a written waiver of this criterion; and

(c) The portion is so located and configured that grading thereon cannot cause a significant increase in the volume of silt or debris deposited on downstream property owned by any person other than the owner of the portion.

SECTION 3309 - GRADING PERMIT REQUIREMENTS

3309.3 GRADING DESIGNATION. All grading in excess of 1,000 cubic yards (764.6m^3) shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as "engineered grading." Grading involving less than 1,000 cubic yards (764.6 m^3) shall be designated "regular grading" unless the permittee, chooses to have the grading performed as engineered grading, or the Building Official determines that special conditions or unusual hazards exist in which case grading shall conform to the requirements for engineered grading.

3309.9 PERMIT ISSUANCE. The provisions of Section 106.4 as published in the UBC are applicable to grading permits, except that every grading permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void if the grading and other improvements authorized by such a permit are not completed within 1 year from the date of such permit. The Building Official may extend the time for completion of the grading and other improvements authorized by the grading permit in increments not exceeding 1 year if circumstances beyond the permittee's control have prevented the completion of the project, and necessary time extension fees have been paid.

The Building Official may require that grading operations and project designs be modified if delays occur which incur weather-generated problems not considered at the time the permit was issued.

Sec. 3310 GRADING PERMIT FEES. Grading permits and grading plan review fees shall be as set forth in schedules enacted by the Board of Supervisors. Except as otherwise specified in such schedule, grading permit and grading plan review fees shall not be refundable.

SECTION 3314 - SETBACKS

3314.1 SETBACKS-GENERAL. Cut and fill slopes shall be set back from site boundaries in accordance with this Section. The setbacks and other restrictions specified by this Section are minimum standards and may be increased by the Building Official or by recommendation of a civil engineer, soils engineer, or engineering geologist where necessary to assure slope stability, prevent damage to adjacent properties from deposition or erosion, provide access for slope maintenance and drainage, or otherwise provide for safety of the public.

SECTION 3315 - DRAINAGE AND TERRACING

3315.1 DRAINAGE AND TERRACING-GENERAL. Unless otherwise indicated on the approved grading plan, drainage facilities and terracing shall conform to the provisions of this Section for cut or fill slopes steeper than 1 unit vertical in 4 units horizontal (25% slope).

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

ARTICLE 90 - INTRODUCTION

Sec. 90.1 POWERS AND DUTIES OF THE BUILDING OFFICIAL

90.1.1 CONNECTION TO ELECTRICAL INSTALLATIONS. Except where work is done under an annual electrical maintenance permit, it shall be unlawful for any person, firm, or corporation to make connection from a source of electrical energy or to supply electrical service to any electrical wiring, device, appliance, or equipment which requires a permit for installation, or to cause or permit same to be done, or to continue or allow to continue any such connection unless such person, firm, or corporation shall have obtained evidence from the Building Official that such equipment is authorized to be energized.

90.1.2 AUTHORITY TO ABATE. Any electrical wiring or equipment regulated by this Code, which is unsafe or which constitutes a fire or health hazard or is otherwise dangerous to human life is, for the purpose of this Section, unsafe. Any use of equipment regulated by this Code constituting a hazard to safety, health or public welfare by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster, damage or abandonment is, for the purpose of this section, an unsafe use. Any such unsafe electrical wiring or equipment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedure set forth in the Uniform Code for the Abatement of Dangerous Buildings or such alternate procedure as may be adopted by the County. As an alternative, the Building Official or an authorized representative may institute any other appropriate action to prevent, restrain, correct, or abate the violation.

90.1.3 AUTHORITY TO CONDEMN WIRING AND EQUIPMENT. Whenever the Building Official ascertains that any electrical wiring or equipment, or portion thereof, regulated by this Code has become hazardous to life, health or property, a written order shall be issued to cause such wiring or equipment to be either removed or restored to a safe condition, as appropriate. The written notice itself shall fix a time limit for compliance with such order. No person shall use or maintain defective equipment after receiving such notice.

90.1.4 EXEMPTED WORK. An electrical permit will not be required for the following:

1. Portable motors or other portable appliances energized by means of a cord or cable having an attachment plug end to be connected to an approved receptacle when that cord or cable is permitted by this code.
2. Repair or replacement of fixed motors, transformers or approved fixed appliances of same type and rating and in the same location.
3. Temporary decorative lighting energized by cord or cable having an attachment plug end to be connected to an approved receptacle.
4. Reinstallation of attachment plug receptacles but not the outlets therefor.
5. Replacement of an overcurrent device of the same capacity and in the same location.
6. Repair or replacement of electrodes or transformers of the same size and capacity for approved signs or gas tube systems.
7. Removal of abandoned electrical wiring.
8. Electrical wiring, devices, appliance or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.
9. Low-energy power, control and signal circuits of Class II and III as defined in this code.

Exemption from the permit requirements of this code shall not be deemed to grant authorization for any work to be done in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

90.1.5 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 1 - GENERAL

Sec. 110.5. CONDUCTORS. Conductors normally used to carry current shall be of copper unless otherwise provided in this Code. Where the conductor material is not specified, the sizes given in this Code shall apply to copper conductors. Where other materials are used, the size shall be changed accordingly.

For aluminum and copper-clad aluminum conductors, see Tables 310-16 through 310-84 and Notes thereto in the NEC. Aluminum wire used under the provisions of this Code shall be a minimum of #6 A.W.G. conductors.

Sec. 110.8. WIRING METHODS. Only wiring methods recognized as suitable are included in this Code. The recognized methods of wiring shall be permitted to be installed in any type of building or occupancy, except as otherwise provided in this Code.
Wiring installations and equipment in existence at the time of passage of this Code may have their existing use continued if such use was legal at the time of passage and provided such continued use is not unsafe.

CHAPTER 2 - WIRING AND PROTECTION

Sec. 250-50(e). "UFER" GROUND REQUIRED. Notwithstanding other provisions of Section 250-50 in the NEC, the electrical service grounding electrode for new construction where concrete footings in direct contact with earth are employed shall be a bare copper conductor installed as specified in Section 250-50(c) in the NEC.

CHAPTER 3 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings and accessory structures, in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for the use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

CHAPTER 7 - SPECIAL CONDITIONS

ARTICLE 700. EMERGENCY SYSTEMS:

FPN No. 6: For additional requirements for emergency power systems, refer to NFPA-20 "REQUIREMENTS FOR FIRE PUMP WIRING."

ARTICLE 5 - AMENDMENTS TO THE
CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.
Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or
2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or
3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.
(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.
(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.
(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.
(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.
(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.
(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.
(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.
(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.
(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.
(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.
(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.
(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.
Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.
(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California-registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

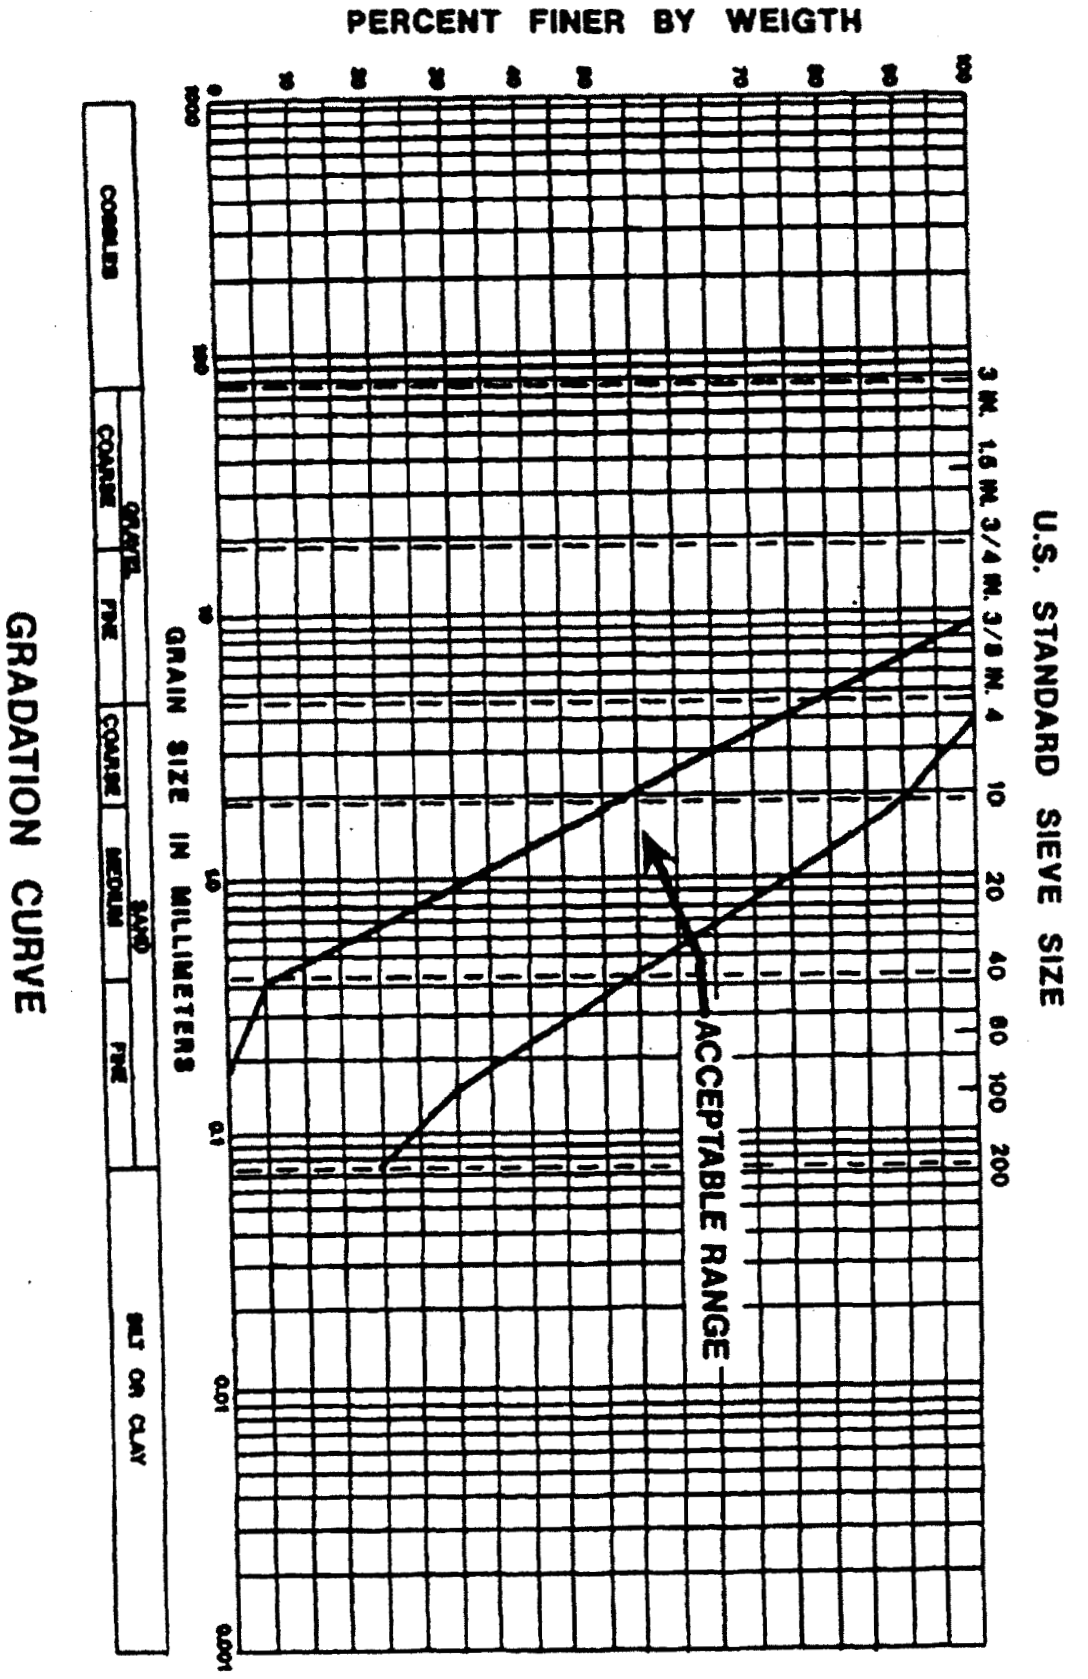
(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---



(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

GRADATION CURVE

TABLE UPC APPENDIX K-7

419-1.02

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.
The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

TABLE NO. A-9-A RATING CLASSIFICATIONS	
TYPE OF BUILDING	CLASSIFICATION
Essential Building	I
Hazardous Building	I
High-Risk Building	II
Medium-Risk Building	III
Low-Risk Building	IV

TABLE NO. A-9-B TIME LIMITS FOR COMPLIANCE			
Required Action by Owner	Obtain Building Permit Within	Commence Construction Within	Complete Construction Within
Structural Alteration or Building Demolition	1 year[1]	180 days[2]	3 years[2]
Wall Anchors	180 days[1]	270 days[2]	1 year[2]

[1]Measured from date of service of order.

[2]Measured from date of building permit issuance.

TABLE A-9-C EXTENSIONS OF TIME AND SERVICE PRIORITIES			
Rating Classification	Occupant Load	Extension of Time if Wall Anchors are Installed	Periods for Service of Order
I (Highest Priority)	N/A	N/A	N/A
II	100 or more	1 year	180 days
III-A	100 or more	1 year	1 year
III-B	More than 50 but Less than 100	1 year	2 years
III-C	More than 19 but Less than 51	1 year	3 years
IV (Lowest Priority)	Less than 20	1 year	4 years

ADOPTED this 5th day of November, 2002 by the following vote:

AYES: Supervisors Bennett, Schultz, Long, Mikels + Flynn

Re: Your Review and Comments on the 2001 Ventura County Building Code

I have prepared the draft of the 2001 edition of the Ventura County Building Code (V.C.B.C.) and would like you or your organization to review it. Please forward your comments to me. The new draft contains some new amendments to the previously adopted 1998 edition of the VCBC, although the number of amendments is small. I have included a copy of the draft for your review and comments.

In general, the Ventura County amendments have been minimized to follow the State adopted code language more closely. Many of the amendments from prior editions have simply been carried forward with no changes. Overall, the number of changes in this edition is very small compared to years past. One of the reasons for this is that the 1997 Uniform Building Code is being re-adopted by the State. Therefore, there is no change in the building code this time. Consequently, the same amendments still apply.

Most of the administrative amendments deal with local County issues such as the County organization and the division of responsibilities between the Building and Safety Division (for most of the code), the Public Works Agency for grading and flood control requirements, and the Environmental Health Division for housing issues and private sewage disposal systems.

For technical matters, changes have been made to address local seismicity issues, a lessening of permit requirements for agricultural buildings and other structures, and refinements in the requirements for swimming pools.

I am planning to present the ordinance to the Board of Supervisors for adoption soon. I would, therefore, appreciate your written comments as soon as is convenient for you. That will allow me time to analyze and incorporate your comments, if needed.

Jack Phillips,
Building Official,
County of Ventura

F:\USERS\PHILLIJ\WINWORD\Memo to Architects for Review of VCBC Draft.doc

RESOLUTION NO. 206

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA ADOPTING EXPRESS FINDINGS REGARDING MODIFICATION OF UNIFORM CODES WHICH REGULATE BUILDINGS SUBJECT TO THE STATE HOUSING LAW

WHEREAS, pursuant to Health and Safety Code Sections 17958.5 and 17958.7, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it determines to be reasonably necessary because of local conditions if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety, and filed with the California Building Standards Commission pursuant to Health and Safety Section 17958.7; and

WHEREAS, pursuant to the decision in the case of Baum Electric Co. v. City of Huntington Beach (1973), 33 Cal. App. 3rd 573, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it deems to be reasonably necessary in order to safeguard life and property if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety;

NOW, THEREFORE, BE IT RESOLVED that it is reasonably necessary because of local conditions to modify certain sections of the uniform codes as shown in the attached "Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code."

Upon motion of Supervisor Schultz, seconded by Supervisor Mikels, and duly carried, the foregoing resolution was approved on October 8, 2002.

John K. Flynn
Chair, Board of Supervisors

Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code

The following analysis discusses the changes included in the Ventura County Building Code as proposed by the Resource Management Agency, Division of Building and Safety.

In the legislative edition of the Ventura County Building Code, newly added words or phrases are shown as underlined. Words or phrases deleted are shown as being stricken out.

This analysis will provide a concise report for the purpose of facilitating the adoption of the proposed code revisions.

This revision adopts the most current editions of the State adopted codes and other "model" codes as follows:

California Building Code - 2001 Edition
California Electric Code - 2001 Edition
California Mechanical Code - 2001 Edition
California Plumbing Code - 2001 Edition
Uniform Housing Code - 1997 Edition
Uniform Code for the Abatement of Dangerous Buildings - 1997 Edition
Appendix Chapter 1 of the California Conservation Code - 2001 Edition

Amendments discussed below are those that have been made since the last adoption of the VCBC. Former amendments that are merely carried forward without change are not addressed as new changes in this analysis.

The amendments to the above-adopted codes are as follows:

REVISIONS THROUGHOUT THE VENTURA COUNTY BUILDING CODE (VCBC):

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other adopted model codes.

Section numbers have been changed where they have either changed themselves in the adopted codes or were required to be changed because of other changes in the adopted codes.

Titles of chapters or sections have been changed where changes have occurred in the adopted codes.

Various other editorial changes such as re-titling of sections and highlighting defined words in bold occur throughout the code. These changes are editorial only.

REVISIONS BY ARTICLE AND SECTION NUMBER

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

ATTACHMENT "E"

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. ~~and~~ pPurchase ~~of the codes~~ by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official is ~~may be available depending on the stock on hand~~.

ANALYSIS:

This is an editorial change that has been made to clarify that code books may not always be available for sale.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE

Section 101. ADOPTION. That building code known as the "California Building Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

ANALYSIS:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1996~~ 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the

amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

ANALYSIS:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code, "~~1998~~ 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

ANALYSIS:

The California Mechanical Code and certain appendices are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code edition is now that version published by the International Association of Plumbing and Mechanical Officials.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

ANALYSIS:

The California Plumbing Code and certain appendices are adopted with amendments as shown in Article 2 and Article 6.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

ANALYSIS:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

ANALYSIS:

The Uniform Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE ~~UNIFORM CALIFORNIA CONSERVATION CODE~~ (U CCC)

Sec. 101 ADOPTION: ~~Appendix Chapter 1 of that code known as the Uniform Code for Building Conservation, 1997 Edition,~~ That building conservation code known as the "California Conservation Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 Edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ANALYSIS:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation (UCBC) because of its adoption by the State. The model code it references (the 1997 UCBC) has not changed, however.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion

such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

ANALYSIS:

This section has been amended to provide specific definitions and penalties for violations of the codes. This is an administrative change.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or

property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

ANALYSIS:

This section has been modified and expanded to address several issues related to the enforcement of the codes. These include the appointment of deputies, right of entry, stop orders, occupancy violations, liability, reports, power of citation, the recordation of Notices of Non-Compliance, and the authority to condemn service equipment and to disconnect utilities. These are all administrative changes.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

ANALYSIS:

This section has been amended to identify the specific Boards of Appeal for Ventura County and to provide clarification about their scope of authority and their operating procedures. This is an administrative change.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

    a. On sites of 10 acres or more in size: 3,000 square feet.

    b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

    c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

    d. On sites less than 2 acres in size: none.

    e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This entire section and the following subsections have been revised to streamline building permits for certain types of agricultural buildings. This new language was developed in conjunction with the Agricultural Policy Advisory Committee and has received their support. This change is an administrative change only.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This language has been divided from a single paragraph format to a three subsection format to agree in layout with the previous section dealing with agricultural buildings. There is no change to the content of the former language except for the new layout. This is an editorial change only.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

ANALYSIS:

This section has been added to allow for feasibility in dealing with emergency situations outside of the normal routine. It provides for the capability to act in a timely manner to stabilize or correct emergency situations. This is an administrative change.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measuresd from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards, and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

~~19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.~~

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Analysis:

Item 1 has been changed to exempt detached patio covers when sized less than 120 square feet and playground or athletic equipment from building permit requirements.

Item 14 has been modified to refer to residential television and radio antennas only.

Item 15 has been added to exempt commercial antennas less than 15 feet in height.

Item 16 has been modified to refer to electrolier standards and flagpoles only.

Item 17 has been added to exempt plastic hoop structures less than 8 feet in height.

Item 18 has been added to exempt certain agricultural wind generating machines.

Item 19 has been added to exempt certain animal shade covers.

All of these changes are administrative.

106.3.2 SUBMITTAL DOCUMENTS. Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Analysis:

This section has been revised to use the language of the 1997 UBC, except for the paragraphs about geological reports and lot surveys. This is an editorial change only.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be

denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

   (a) The residence is not intended or offered for sale.

   (b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

ANALYSIS:

This section has been modified by adding language allowing the denial of a permit because of unstable land masses or soil conditions, precipitous cliffs or terrain subject to flooding, inundation or severe erosion. These changes are administrative but based on geologic and topographical conditions.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or

work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

ANALYSIS:

The time limits for permit expiration have been changed to conform to the language of the 1997 UBC. This was done to be consistent with a new computerized tracking system. In addition, a 30-day time limit for demolition permits issued to abate violations has been added. These are editorial and administrative changes.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be ~~65~~ 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees ~~and are in addition to the permit fees~~.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

ANALYSIS:

The plan review fee has been increased from 65% to 75% to cover the costs of additional plan review items such as storm water drainage, mobile home regulation, flood control design requirements, and data collection and distribution.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be

renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

ANALYSIS:

This section revises the current code language to include an allowance for a renewal of the plan review after it has expired under certain conditions. This is an administrative change.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

Analysis:

This is an editorial change to refer to the proper title of the fee schedule.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within ~~6 months~~ 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

ANALYSIS:

This section has been expanded to handle many different cases of fee refunds. It is an administrative change.

Sec. 108 - INSPECTIONS

108.1. GENERAL. All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

Analysis:

This section has been changed to include language from the 1997 UBC and to include a paragraph addressing when lot surveys may be required. This is an administrative change.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

Analysis:

Minor editorial changes have been made to this section to improve the readability.

~~**TABLE UBC 1-A BUILDING PERMIT FEES**~~

~~TOTAL VALUATION~~	~~FEE~~
~~$1.00 to $500.00~~	~~$23.00~~
~~$501.00 to $2,000.00~~	~~$23.00 for the first $500.00 plus~~ ~~$3.00 for each additional $100.00 or fraction thereof, to and including $2,000.~~
~~$2,001.00 to $25,000.00~~	~~$68.00 for the first $2,000.00 plus $13.25 for each additional $1,000.00 or fraction thereof, to and including $25,000.00.~~
~~$25,001.00 to $50,000.00~~	~~$372.75 for the first $25,000.00 plus $9.50 for each additional $1,000.00 or fraction thereof, to and including $50,000.00.~~
~~$50,001.00 to $100,000.00~~	~~$610.25 for the first $50,000.00 plus $6.75 for each additional $1,000.00 or fraction thereof, to and including $100,000.00.~~
~~$100,001.00 to $500,000.00~~	~~$947.75 for the first $100,000.00 plus $5.25 for each additional $1,000.00 or fraction thereof, to and including $500,000.00.~~
~~$500,001.00 to $1,000,000.00~~	~~$3,047.75 for the first $500,000.00 plus $4.50 for each additional $1,000.00 or fraction thereof, to and including $1,000,000.00.~~
~~$1,000,001.00 and up~~	~~$5,297.75 for the first $1,000,000.00 plus $3.00 for each additional $1,000.00 or fraction thereof.~~
~~**Other Inspections and Fees:**~~ ~~Refer to current Ventura County Building Code Fee Schedule.~~	

Analysis:

This table has been deleted from the VCBC as it has been included in the Ventura County Building and Safety Fee Schedule which is adopted as a separate resolution by the Board of Supervisors.

CHAPTER 2 - DEFINITIONS

Section 202-A:

~~"Apartment house"~~ **"APARTMENT HOUSE"** shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.

Analysis:

Words being defined are now printed in bold type to improve the readability and to make them easier to find. This occurs in various places throughout the code. This is an editorial change.

Section 203-B: "Building Official"

3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards ~~associated with private sewage disposal systems~~, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

Analysis:

In paragraph 3, a reference to "private sewage disposal system" has been deleted which removes the limit on the abatement of health hazards to that item only. This is an administrative change.

Section 207-F:

207-F ~~FLOOD HAZARD AREA~~ **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control ~~Section~~ Division of the Public Works Agency.

Analysis:

Several references to different Public Works Agency "Sections" have been corrected to refer to "Divisions". This is an editorial change.

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard

Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire

resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.

Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.

4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

ANALYSIS:

This section has been added to address the special construction requirements for buildings constructed in high fire hazard areas. Theses amendments are necessary because of local climatic and topographical conditions.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

ANALYSIS:

This section has been added to deal with the testing and acceptance requirements for drilled-in expansion bolt anchors and epoxy-type anchors. This is an administrative change.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

ANALYSIS:

This section has been modified to clarify the requirements for testing for expansive soils and to provide standards to which to design foundations in areas of moderate to high expansivity. This change is due to the special geologic conditions found in areas of highly expansive soils.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1804 FOUNDATION INVESTIGATION.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages ~~and single-story accessory structures thereto~~.

3. Group U, Division 1 Occupancies.

4. Fences.

5. ~~Detached single-story Group U, Division 3 occupancies.~~

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this section, he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

Analysis:

Exception 2 has been modified to exempt single story structures accessory to single family dwellings. Exception 5 has been added to exempt single story agricultural buildings. These changes are administrative.

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

ANALYSIS:

This section has been modified by changes found in Table 18-D due to specific geologic conditions found in Ventura County. These changes are geologically based.

CHAPTER 23 - WOOD

TABLE 23-II-~~I~~G MAXIMUM DIAPHRAGM DIMENSION RATIOS

MATERIAL	HORIZONTAL DIAPHRAGMS	VERTICAL DIAPHRAGMS
	Maximum Span-Width Ratios	Maximum Height-Width Ratios
1. Diagonal sheathing, conventional 2. Diagonal sheathing, special 3. Wood structural panels and particleboard, nailed all edges	3:1 4:1 4:1	~~2:1~~ ~~1:1~~ 2:1 2:1
4. Wood structural panels and particleboard, blocking omitted at intermediate joints	4:1	~~2:1~~ ~~NP~~

Analysis:

This table has been revised to reflect changes made in the 1997 UBC. Footnote 3 in the code has been dropped out due to the high level of seismcity (i.e., Northridge Earthquake) in this region. This is a change based on local geology.

TABLE 23-II-1-1 — ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES IN POUNDS PER FOOT FOR WOOD STRUCTURAL PANEL SHEAR WALLS WITH FRAMING OF DOUGLAS FIR-LARCH OR SOUTHERN PINE.[1, 2, 3, 4]

PANEL GRADE	MINIMUM NOMINAL PANEL THICKNESS (INCHES) x 25.4 for mm	MINIMUM NAIL PENETRATION IN FRAMING (INCHES) x 25.4 for mm	PANELS APPLIED DIRECTLY TO FRAMING: Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (In.) x 25.4 for mm: 6	4	3	2 (x 0.0146 for N/mm)	PANELS APPLIED OVER 1/2-INCH (13 mm) OR 5/8-INCH (16 mm) GYPSUM SHEATHING: Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (in.) x 25.4 for mm: 6	4	3	2 (x 0.0146 for N/mm)
Structural I	5/16	1 1/4	6d	150	225	293	383	8d	150	225	293	383
	3/8	1 1/2	8d	173[5]	270[5]	345[5]	458[5]	10d[6]	210	323	413	548
	7/16			191[5]	296[5]	379[5]	503[5]					
	15/32			210	323	413	548					
	15/32	1 5/8	10d[6]	255	383	499	653	–	–	–	–	–
C-D, C-C Sheathing, plywood panel siding and other grades covered in U.B.C. Standard 23-2 or 23-3	5/16	1 1/4	6d	135	203	263	338	8d	135	203	263	338
	3/8			150	225	293	383		150	225	293	383
	3/8	1 1/2	8d	165[5]	240[5]	308[5]	398[5]	10d[6]	195	368	368	480
	7/16			180[5]	263[5]	338[5]	439[5]					
	15/32			195	285	368	480					
	15/32	1 5/8	10d[6]	233	345	450	578	–	–	–	–	–
	19/32			255	383	499	653					
			Nail Size (Galvanized Casing)					Nail Size (Galvanized Casing)				
Plywood panel siding in grades covered in U.B.C. Standard 23-2	5/16	1 1/4	6d	105	158	206	270	8d	105	158	206	270
	3/8	1 1/2	8d	120	180	233	308	10d[6]	120	180	233	308

[1] All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.
Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

[2] Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

[3] Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be 1/2-inch minimum.

[4] The maximum allowable shear for 3-ply plywood, less than 5/8-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

[5] The values for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

[6] Framing at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1 5/8 inches (41 mm) are spaced 3 inches (76 mm) or less on center.

B6530911-5/99

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

ANALYSIS:

Changes to this section are based on the performance evidence of this type of construction from the Northridge Earthquake. These changes are based on local geologic conditions.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
	x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1. Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2. Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3. Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
	1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4. Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)
			7	30	
		Blocked	7	30	
			7	30	
	5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
			7	30	
		Blocked	7	30	
			7	30	
		Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.
[2]Applies to nailing at all studs, top and bottom plates and blocking.
[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.
[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.
[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 40 RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.

2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.

3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.

2. Is infested with pests or is insanitary.

3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.

4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.

5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.

2. Name the County of Ventura as obligee.

3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.

4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.

5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.

3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.

4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.

5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.

6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.

The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.

The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.

Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.

The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and

2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

ANALYSIS:

This entire chapter has been added to deal with moved buildings and to provide the procedures necessary for their proper permitting and installation. This is an administrative change.

CHAPTER 41 SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes,

reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table ~~or moderate or highly expansive soil~~ an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and

arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above of the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. ~~Pedestrian gates shall swing away from the pool.~~ Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

Analysis:

ENTIRE CHAPTER: This chapter has been rewritten entirely incorporating the requirements of the "Pool Safety Act" passed by the California State Legislature together with requirements from the 1997 UBC Appendix Chapter 4, Division I (Titled "Barriers for Swimming Pools, Spas and Hot Tubs") and local amendments to the chapter carried forward from prior adoptions.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.

2. Requirements for an approved foundation system.

3. Requirements for approved electrical, plumbing, and sewage disposal facilities.

4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

ANALYSIS:

This entire chapter has been written identify the requirements for placing mobile homes and commercial coaches on private property. They also coordinate with regulations found in Title 25 of the California Code of Regulations for mobile homes and commercial coaches. These are administrative changes.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within 48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance

by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building

Official shall submit a request to demolish to the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged

portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the ~~Uniform~~ ~~California Conservation Code~~ as adopted by the County of Ventura.

ANALYSIS:

This entire chapter has been written to address the inspections of damaged property and the placarding of damaged structures, and the permitting requirements for the repair and reconstruction of structures danged by disasters. These changes are administrative and also based on local geologic hazards.

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

CHAPTER 2 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings, and accessory structures, and in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for this use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

Analysis:

This section has been modified to allow the use of Type NM, NMC, and NMS cables in one and two family dwelling accessory structures. This is an administrative change to clarify which structures may be included as "other" structures already allowed under the code.

ARTICLE 5 - AMENDMENTS TO THE CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-~~D~~ 4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ANALYSIS:

This section has been modified to deal with specific chimney requirements in areas of high fire risk. This is a change based on local topographic conditions.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.

Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or

2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or

3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.

(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.

(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.

(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.

(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.

(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.

(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.

(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.

(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.

(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.

(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.

(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.

(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.

Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California- registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K-5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the

site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K-5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

   b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

   a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

   b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields ~~and~~/or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---

(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

TABLE UPC APPENDIX K-7

ANALYSIS:

Changes have been made to the sections dealing with exempted work, water supply and distribution, sanitary drainage, required sewers and private sewage disposal systems. These changes are administrative and based on local topographic conditions.

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

~~CHAPTER 5 - SPACE AND OCCUPANCY STANDARDS~~

~~Section 503 - ROOM DIMENSIONS~~

~~503.2. FLOOR AREA. 1. Every dwelling unit shall have at least one room which shall have not less than 120 square feet of floor area. Other habitable rooms, except kitchens, shall have an area of not less than 70 square feet.~~

~~2. Net floor area, as used herein, shall mean the total number of square feet of floor area in a dwelling unit based upon the interior dimensions of that dwelling unit excluding bathrooms, kitchens, halls, stairwells, closets, storage or utility space, and similar areas.~~

~~No dwelling unit shall be occupied or allowed to be occupied in such a manner that the maximum occupancy of the dwelling unit, as determined below, is exceeded.~~

~~3. Maximum occupancy shall be determined as follows:~~

~~For the first two occupants of any dwelling unit, there shall be a minimum of 220 square feet of net floor area. An additional 100 square feet of floor area shall be provided for every additional occupant of the dwelling unit.~~

~~EXCEPTION: Nothing in this section shall prohibit the use of an efficiency dwelling unit within a structure which complies with the requirements of UBC Section 310.7.~~

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.

The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ANALYSIS:

Minor administrative changes have been made to the housing code in regard to enforcement, permits and inspections and appeals. These are administrative changes only.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals

to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ANALYSIS:

Minor administrative changes have been made to the dangerous buildings code in regard to enforcement, violations and penalties and appeals. These are administrative changes only.

~~ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE UNIFORM CALIFORNIA CONSERVATION CODE (U CCC)~~

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating

classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

   A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

   B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

   C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

   D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of

structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

ORDINANCE NO. 4274

SUMMARY OF PROPOSED ORDINANCE AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.

An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.

Chapter 2:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

Chapter 3:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

Chapter 4:

The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.

ATTACHMENT "B"

Chapter 5:

The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.

Chapter 6:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

Chapter 7:

The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

Chapter 8:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Model Codes

Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.

Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.

The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)

Building Code changes have been made in regards to definitions, high fire hazard areas, structure forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.

Defined words are now shown in bold type to be consistent with the building code and to improve readability.

The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.

The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBC in Appendix Chapter 4, Division 1 - "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.

Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

In Article 4, Amendments to the California Electrical Code (CEC)

Changes to the California Electrical Code have been made centering on administrative powers and duties of enforcement, exempted work, conductors, wiring methods and materials, grounding and emergency systems.

In Article 5, California Mechanical Code (CMC)

Amendments to the mechanical code have been made dealing with local conditions for the installation of factory-built chimneys.

In Article 6, Amendments to the California Plumbing Code (CPC)

Amendments have been made dealing with administrative powers and duties of enforcement, exempted work, definitions, water supply and distributions, sanitary drainage, required sewers and location of sewage disposal systems, and private sewage disposal systems.

In Article 7, Amendments to the Uniform Housing Code (UHC)

Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8, Amendments to the Dangerous Building Code (DBC)

Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)

The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include those dealing with the purpose and scope and administrative provisions.

Prepared By: Neil C. Kleb
Assistant County Counsel

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

November 5, 2002 at 9:00 a.m.

ORD 4274/206

AMENDING VENTURA COUNTY BUILDING CODE

An Ordinance of the County of Ventura Amending the Ventura County Building Code and Adopting by Reference the Current Editions is presented to the Board at this time, and upon motion of Supervisors Mikels, seconded by Supervisor Schillo, and duly carried, it is ordered that the same be passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 4274.

Board members vote as follows:

Ayes: Supervisors Bennett, Schillo, Long, Mikels and Flynn

Noes: None

Absent: None

All members of the Board present voting on the passage and adoption of said Ordinance, it is hereby declared and ordered that said Ordinance is hereby passed and adopted as an Ordinance of the County of Ventura, to be known as Ordinance No. 4274.

It is further ordered that said ordinance shall take effect and be enforce at the expiration of thirty (30) days from the date hereof, and before the expiration of fifteen (15) days the same shall be published, with the names of the members of the Board of Supervisors voting for and against the same, at least once in the Ventura County Star, A newspaper of general circulation printed and published in the County of Ventura, State of California.

SUMMARY OF ORDINANCE NO.4274 AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.
An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electrical Code is adopted with an amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Mode Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.
Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.
The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)
Building Code changes have been made in regards to definitions, high fire hazard areas, structure, forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.
Defined words are now shown in bold type to be consistent with the building code and to improve readability.
The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.
The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBS in Appendix Chapter 4, Division I, "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.
Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

SUMMARY OF ORDINANCE NO.4274 AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the *Ventura County Building Code.*
An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electrical Code is adopted with an amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with *amendments as shown in Article 2 and Article 7.*
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references *has not changed, however.*

In Article 2, Amendments of General Application to all the Adopted State and Mode Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.
Detached one-story animal shade covers less than 1,000 square feet in area have been added to the *list of work not requiring a permit.*
The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)
Building Code changes have been made in regards to definitions, high fire hazard areas, structure forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.
Defined words are now shown in bold type to be consistent with the building code and to improve readability.
The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.
The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBS in Appendix Chapter 4, Division 1- "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.
Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

In Article 4, Amendments to the California Electrical Code (CED)
Changes to the California Electrical Code have been made centering on administrative powers and duties of enforcement, exempted work, conductors, wiring methods and materials, grounding and emergency systems.
In Article 5, California Mechanical Code (CMC)
Amendments to the mechanical code have been made dealing with local conditions for the installation of factory-built chimneys.
In Article 6, Amendments to the California Plumbing Code (CPC)
Amendments have been made dealing with administrative powers and duties of enforcement, exempted work, definitions, water supply and distributions, sanitary drainage, required sewers and location of sewage disposal systems, and private sewage disposal systems.

In Article 7, Amendments to the Uniform Housing Code (UHC)
Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8 Amendments to the Dangerous Building Code (DBC)
Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)
The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include those dealing with the purpose and scope and administrative provisions.

OFFICE OF CLERK
BOARD OF SUPERVISORS

SUMMARY OF ORDINANCE NO. AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follow: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Building, 1997 edition; California Electric Code, 2001 edition California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference.

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.

An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electric Code is adopted with amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with amendments as shown in Article and Article 7.
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Model Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permits, [illegible]
Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8, Amendments to the Dangerous Building Code (DBC)
Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)
The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include these dealing with the purpose and scope and administrative provisions.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition. Uniform Code for the Abatement of Dangerous Buildings 1997 edition California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor 800 South Victoria Avenue, Ventura, California for reveiw by interested persons.
Dated this 11th day of October 2002.

Ventura, CA 93009

SUBJECT: ADOPTION OF PROPOSED AMENDMENTS TO THE VENTURA COUNTY BUILDING CODE (VCBC) AND RELATED CODES

RECOMMENDED ACTION:

1. Conduct a public hearing, introduce and read in title only the attached Ventura County Building Code Ordinance, waive further reading by a majority vote, and continue the matter, together with the Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing Law, for final adoption on November 5, 2002, at 9:00 a.m.

2. At a second meeting on November 5, 2002, at 9:00 a.m., receive public testimony and adopt the proposed Ventura County Building Code Ordinance to become effective thirty days from the date of final passage, adopt a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law, and direct that the findings be filed with the State Building Standards Commission.

FISCAL/MANDATES IMPACT: None

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

The uniform building codes form the primary basis of authority under which local building departments regulate the construction of buildings and structures. The California Health and Safety Code requires every city or county to utilize virtually the same housing construction standards as those of the State, but with provision for local adjustments to reflect local conditions. The recommended revisions to Ventura County's local ordinance are part of the normal legal process which is prescribed by State law for the adoption of building codes.

The local County building codes which are currently in effect were last amended by the Board in June 1999. This proposed ordinance will update references to the latest editions of the State codes, and will maintain uniformity with nearby city and county jurisdictions, which are completing the same process. Additionally, the proposed ordinance will improve certain of the administrative and regulatory provisions of the Ventura County Building Code (VCBC) to facilitate administration and enforcement of the codes. The VCBC is a compilation of previously-adopted ordinances regulating construction and incorporates State adopted codes and other model codes.

4i12-1.02

Attachment "A" is a copy of the VCBC which incorporates the proposed amendments without strike outs or underlining and has been furnished to the Clerk of the Board for publication as required by law.

Attachment "B" is an abbreviated summary by article of the changes made to the VCBC.

Attachment "C" is a copy of the letter sent out by the Building Official to interested parties requesting their review of the draft VCBC.

Attachment "D" is a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law. Adoption of these express findings is required by Health and Safety Code Section 17922. A county may make modifications in the requirements of the State adopted codes which are reasonably necessary because of local conditions. Changes to State construction standards may not, however, result in standards less than State minimums.

Attachment "E" are the express findings required for adoption.

A copy of the proposed Ventura County Building Code and these attachments are available in the Clerk of the Board's office and at the Building and Safety Counters in the Simi Valley Court House and in the Administration Building in Ventura.

Existing amendments that have not changed from the prior code have been simply brought forward without modification. Changes made by the amendments fall into one of the following categories:

1. Editorial changes that either update references, section numbers, chapter and section titles, or add highlighting of definitions, or make grammatical corrections and clarifying language revisions. These are found in various places throughout the code.

2. Administrative changes that modify permit processes or requirements or other administrative provisions in the code. Prominent administrative changes include those dealing with the title, scope and purpose of the code, violations, organization and enforcement, Boards of Appeal, permits, fees, inspections and certificates of occupancy.

3. Technical changes or "building standards", which actually affect the specific design and approval of a structure. Many of the amendments dealing with "building standards" have been reduced or eliminated as they are now found in the State code itself and are no longer necessary to add by amendment.

   Other technical changes have been made to the codes in regard to definitions, high fire hazard areas, structural forces, foundations, shear walls, gypsum board and plaster, relocated buildings, swimming pools, mobile homes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing, elevators, excavation and grading, wiring methods and materials, factory-built chimneys and sewage disposal systems.

Beginning on September 25, 2002, an initial draft of the proposed VCBC amendments was sent to interested parties, including engineers, architects and draftspersons, builders and contractors, individual citizens and industry groups such as the Ventura County Contractors Association, Building Industries Association, American Institute of Architects, and the Structural Engineers Association and to members of the County's Building Appeals Boards.

This item has been reviewed by the Chief Executive Office, County Counsel and the Auditor-Controller. A legislative version with strikeouts through deleted words and sentences and underlining under new words and sentences is on file with the Clerk of the Board of Supervisors. If you have any questions, please call me at extension 2787.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition, Uniform Code for the Abatement of Dangerous Buildings 1997 edition, California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as a result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor, 800 South Victoria Avenue, Ventura, California for review by interested persons. Dated this 11 day of October 2002.

RE: ORDER FOR LEGAL PUBLICATION - GI #02-018

Please publish the attached: **ORDINANCE NO. 4274, An Ordinance Amending the Ventura County Building Code and Related Codes,**

One (1) time in the issues of MONDAY, November 11, 2002, setting legal in solid block form without indentation of sub-paragraphs, sub-item, signatures and titles, and single space legal in its entirety.

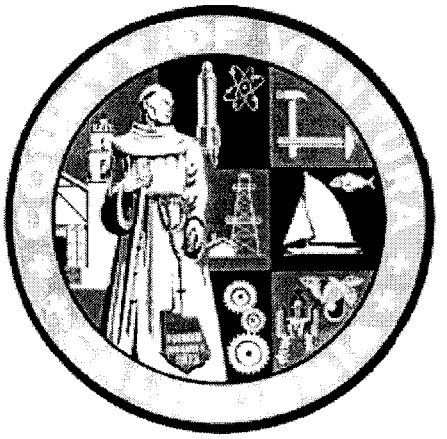
Indent major paragraphs no more than one space.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.



105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24
CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

ORDINANCE NO. 4274

AN ORDINANCE OF THE COUNTY OF VENTURA AMENDING THE VENTURA COUNTY BUILDING CODE AND ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN MODEL CODES AS FOLLOWS: CALIFORNIA BUILDING CODE, 2001 EDITION; UNIFORM HOUSING CODE, 1997 EDITION; UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS, 1997 EDITION; CALIFORNIA ELECTRIC CODE, 2001 EDITION; CALIFORNIA PLUMBING CODE, 2001 EDITION; THE CALIFORNIA MECHANICAL CODE, 2001 EDITION; AND APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE, 2001 EDITION, TOGETHER WITH AMENDMENTS THERETO.

The Board of Supervisors of the County of Ventura ordains as follows:

The Ventura County Building Code (VCBC) is hereby amended to read as follows:

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 101 VENTURA COUNTY BUILDING CODE DEFINED.

101.1 ELEMENTS. The Ventura County Building Code contained herein is comprised of the following elements:

a) The specified portions of the California Building Standards Codes known as Title 24, Parts 2, 3, 4, 5, 6, 8 and 10; and

b) The model codes referenced by the California Building Standards Code and the model codes herein adopted by reference being:

1) The Uniform Building Code, 1997 Edition.
2) The National Electrical Code, 1999 Edition.
3) The Uniform Mechanical Code, 2000 Edition.
4) The Uniform Plumbing Code, 2000 Edition.
5) The Uniform Code for Building Conservation, 1997 Edition.
6) The Uniform Housing Code, 1997 Edition.
7) The Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition; and

c) The Ventura County Amendments contained in this ordinance to the above referenced codes.

Taken together, the codes and amendments described above constitute the Ventura County Building Code.

101.2 AMENDMENTS. Ventura County amendments to the California Building Standards Code and the other adopted model codes are found in Articles 3 through 9 of this code.

Section 102 ADMINISTRATION. The administrative provisions referenced in Article 2 - General Application Amendments are applicable to all portions of the Ventura County Building Code.

Section 103. FILING WITH THE CLERK OF THE BOARD. Not less than one (1) certified copy of this Code and of each of the codes adopted by reference herein are on file in the office of the Clerk of the Board of Supervisors, and all such certified copies of the codes shall be kept at that office for public inspection while this Code is in force.

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. Purchase of the codes by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official may be available depending on the stock on hand.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE (CBC)

Section 101. ADOPTION. That building code known as the "California Building Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this Ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Building Code are found in Article 3 of this Code.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code," 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

Sec. 101 ADOPTION: That building conservation code known as the "California Conservation Code", 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Section 101 TITLE, PURPOSE AND SCOPE

101.1 TITLE. This ordinance shall be known as the "Ventura County Building Code," may be cited as such, and will be referred to herein as "this Code."

This ordinance shall adopt certain State and model codes by reference, together with amendments thereto, as published herein. These referenced codes and amendments shall have the same force and effect as if fully set forth herein.

101.2 PURPOSE. The Board of Supervisors expressly finds that the purpose of this Code is to provide minimum standards to safeguard life or limb, health, property, and public welfare by regulating and controlling the design, construction, quality of materials, use and occupancy, location, relocation, and maintenance of all buildings and structures within the County and certain equipment specifically regulated herein.

The purpose of this code is not to create or otherwise establish or designate any particular class or group of persons who will or should be especially protected or benefitted by the terms of this code.

101.18 AUTHORITY. This code is adopted pursuant to the statutory authority of Health and Safety Code Section 17910 et seq., known as the "State Housing Law." It is further adopted in conformity with the provisions of Sections 50022.1 to 50022.10, inclusive of the Government Code relating to the adoption of codes by reference.

101.19 APPLICABILITY. This code shall apply within all of the unincorporated territory of Ventura County.

101.20 INTENT. It is the intent of this Article to provide administrative control over all of the applicable sections of the adopted State and model codes even if these sections are not specifically identified in each of the adopted codes.

101.21 CONFLICTS. Wherever conflicts occur between the provisions of this Code and the separate codes adopted by reference hereby, or between different sections within such individual code or codes, the provisions which are more strict or which set the highest standard of health and safety shall govern.

Where conflicts occur between provisions of this code and other duly enacted County codes and ordinances, those provisions becoming law last in time shall govern.

Wherever in this code reference is made to the Appendix, the Appendix shall not apply unless specifically adopted.

101.22 SEVERABILITY. If any article, chapter, section, sub-section, sentence, clause or phrase of these regulations is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of these regulations. The Board of Supervisors hereby declares that it would have passed this ordinance, and each article, chapter, section, sub-

section, sentence, clause or phrase thereof, irrespective of the fact that any one or more articles, chapters, sections, sub-sections, sentences, clauses, and phrases be declared unconstitutional or invalid.

101.23 SECTION NUMBERING AND CROSS-REFERENCING SYSTEM FOR CODE AMENDMENTS. To facilitate cross-referencing between the adopted codes as published and the amendments contained herein, amendments are numbered to correspond to the uniform and model code sections which are affected. Thus, "Article 3, Chapter 18 Section 1804" in this ordinance is an amendment to, and supersedes Chapter 18, Section 1804 as published in the California Building Code.

Generally, each numbered sub-section of the adopted codes, for example, UBC subsection 1804.2, is deemed to be separate and distinct from others for the purpose of amendment. An amendment to one sub-section changes only that portion and does not by omission of reference amend or delete any other part of the Section such as UBC Section 1804.7.

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

Sec. 104 - ORGANIZATION AND ENFORCEMENT

104.1 CONTINUANCE OF DIVISION. There is hereby continued within the County the "Division of Building and Safety" of the Resource Management Agency, which division shall be under the administrative and operational control of the Building Official designated by the appointing authority.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura

County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a

violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

Sec. 106 PERMITS

106.1 PERMITS REQUIRED. No person, firm or corporation shall erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, occupy or maintain any building or structure, building service equipment, machine, equipment, or cause the same to be done, without first obtaining the necessary permit for each such building or structure from the Building Official. The terms "erect, construct, enlarge, alter, repair," etc. as used above shall be deemed to include any and all electrical, plumbing, mechanical, grading, or other work regulated by this Code.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

   a. On sites of 10 acres or more in size: 3,000 square feet.

   b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

   c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

   d. On sites less than 2 acres in size: none.

   e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.2 PERMITS FOR SMALL AGRICULTURAL PRODUCE STANDS. The provisions of this Code with respect to plan review and inspection shall not apply to agricultural produce stands, as specified herein, provided that all of the following conditions are met:

1. A Zoning Clearance for the produce stand is approved by the Planning Division.
2. Approval for the sale of agricultural products is obtained from the Environmental Health Division.
3. Approval from the Environmental Health Division is obtained for properties with septic systems.
4. The produce stand is used exclusively for the sale of agricultural produce only.
5. The floor area of the building does not exceed 400 square feet and is a single story, conventional wood frame structure of type V-N construction.
6. An area equivalent to at least 65% of the area of the longest side is left open and unobstructed during business hours.
7. A code complying exit is provided from the structure.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.3 WAIVER OF PERMIT. The Building Official may, by administrative order, waive permit requirements for work which is not inimical to the public health, safety or welfare, or which because of its temporary nature or special purpose, does not fall within the purview or intention of this Code.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Sec. 106.3 - APPLICATION

106.3.1 APPLICATION FOR PERMIT. To obtain a permit the applicant shall first file an application therefor in writing on a form furnished for that purpose. Every such application shall:

1. Give such information as may be required by the Building Official, County Agencies, or State Law.

2. Be accompanied by such plans, diagrams, computations, schedules, specifications and other data as may be necessary to determine compliance with this Code and other applicable codes, laws, ordinances, rules and regulations.

106.3.2 SUBMITTAL DOCUMENTS.

Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal

documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

(a) The residence is not intended or offered for sale.

(b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

106.4.5 SUSPENSION OR REVOCATION OF PERMIT. The Building Official may, in writing, suspend or revoke a permit issued under the provisions of this Code whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any ordinance or regulation or any of the provisions of this Code or for just cause.

106.4.6 PERMITS TRANSFERABLE. Permits required by this Code may be transferred from the original permittee to second parties when legal requirements have been satisfied, when approved by the Building Official, and when applicable fees have been paid.

106.4.7 ANNUAL MAINTENANCE PERMITS. The Building Official may, upon receipt of the required fee, issue an annual maintenance permit to any authorized person, firm, or corporation regularly engaged in the repair, replacement, or facility maintenance of electrical, plumbing, or mechanical systems regulated by this Code. The annual maintenance permit shall cover maintenance work which is performed on the specific premises of a person, firm or corporation and shall entitle the holder to be issued permits for said work on a monthly basis in lieu of obtaining individual permits prior to each installation or alteration of electrical wiring, plumbing, or mechanical equipment.

The holder of an annual maintenance permit shall report all work done under the permit on a form furnished for the purpose not more than fifteen (15) days following the end of each calendar

month, or as otherwise approved by the Building Official. Each such report shall be accompanied by required fees.

Annual Maintenance Permits shall only be applicable to commercial and industrial facilities.

Sec. 107 - FEES

107.1 GENERAL. Fees for permits and services rendered pursuant to this Code shall be assessed as set forth in this Code, and in accordance with the Ventura County Building Code Fee Schedule as established by the Board of Supervisors.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees, and are in addition to the permit fees.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for

additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

Sec. 108 - INSPECTIONS

108.1. GENERAL.

All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

108.4 APPROVALS REQUIRED. Work shall not be done on any part of a building or structure beyond the point indicated in each successive inspection without first obtaining the written approval of the Building Official. Such written approval shall be given only after an inspection has been made of each successive step in the construction as indicated by each of the inspections required in subsection 108.5 in the UBC and by other applicable laws and ordinances.

There shall be a final inspection and approval on all buildings when completed and ready for occupancy. An approval for occupancy and the issuance of a clearance by the Building Official for the connection of utilities to any building or structure shall be contingent upon compliance with provisions of this Code and any other applicable laws and ordinances.

When, in the judgment of the Building Official, unusual conditions exist which justify the connection of utilities prior to completion of a building or structure, a temporary clearance may be issued for such connection.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.3 CERTIFICATE ISSUED. After the building official inspects the building or structure and finds no violations of the provisions of this code, including type of occupancy and use of the building, or other laws or regulations enforced by the code enforcement agency, the building official shall issue a Certificate of Occupancy which shall contain the following:

1. The building permit number.
2. The address of the building.
3. The name and mailing address of the owner.
4. The name and mailing address of the tenant.
5. A description of that portion of the building, including floor area (in square feet) for which the certificate is issued.

6. A statement that the described portion of the building has been inspected for compliance with this code for the group and division of occupancy and the use for which the designated occupancy is classified.

7. The name of the building official.

8. The date that the Certificate of Occupancy was issued.

The Certificate of Occupancy shall run concurrently with the tenancy of the building. Subsequent tenants shall be required to obtain a Certificate of Occupancy in their name.

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

ARTICLE 3 - AMENDMENTS TO THE CALIFORNIA BUILDING CODE (CBC)

CHAPTER 2 - DEFINITIONS

Sec. 200 - GENERAL AMENDMENTS

See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more specific shall apply.

Sec. 201 - DEFINITIONS

201.1.1 DEFINITIONS. Whenever in this Code, or in any of the codes herein adopted, the following names or terms are used, they shall have the meanings set out herein.

Section 202-A
"APARTMENT HOUSE" shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.
Section 203-B
"BUILDING OFFICIAL" or **"building official"** shall mean the person appointed by the Director of the Resource Management Agency charged with the administration of the Division of Building and Safety, or a duly authorized representative.
Exceptions: 1. For the purpose of administering APPENDIX Chapter 33 - of the Uniform Building Code as amended, Excavation and Grading, the term "Building Official" shall mean the Director of Public Works Agency, or a duly authorized representative. The Director of Public Works Agency or his duly authorized representative shall assume the power of citation for enforcement of APPENDIX Chapter 33 - as said Power of Citation is described in ARTICLE II - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, subsection 104.2.12 - POWER OF CITATION, in this ordinance.

2. For the purpose of administering those requirements of Chapter 7 and APPENDIX K of the Uniform Plumbing Code pertaining to the approval, permitting and inspection of private sewage disposal systems, the term "Building Official" shall mean the Environmental Health Officer or the Director of Building and Safety, or a duly authorized representative. The Environmental Health Official or his duly authorized representative shall assume the power of citation for the enforcement of Chapter 7 and APPENDIX K of the UPC as said Powers of Citation are described in ARTICLE 2 - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, Subsection 104.2.12 - POWER OF CITATION, in this ordinance.
3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

"BUILDING SERVICE EQUIPMENT" Shall mean the plumbing, mechanical, electrical, and elevator equipment including piping, wiring, fixtures, and other accessories which provide sanitation, lighting, heating, ventilation, cooling, refrigeration, fire-fighting and transportation facilities essential for the habitable occupancy of a building or structure for its designated use and occupancy.

Section 204-C
"CHIEF ELECTRICAL INSPECTOR," "ADMINISTRATIVE AUTHORITY" and all other terms and designations indicating the person authorized and directed to carry out, enforce and

exercise governmental rights, privileges and duties shall, unless expressly indicated otherwise, mean the Building Official and any duly authorized deputies, assistants, and inspectors.

"CITY," "COUNTY," and other terms designating the local governmental entity having jurisdiction, shall mean the County of Ventura or the area under its jurisdiction.

Section 205-D

"DIRECTOR OF PUBLIC WORKS" shall mean the Director of Public Works except that it shall mean the Building Official for purposes of directing work of repair or demolition having an estimated cost of $4,000 or less pursuant to Section 1401.3 in the Uniform Housing Code and Section 701.3 in the Dangerous Buildings Code.

Section 206-E

"ENVIRONMENTAL HEALTH OFFICER" or **"ENVIRONMENTAL HEALTH OFFICIAL"** shall mean the duly appointed Director of the Environmental Health Department of the County or a duly authorized representative.

Section 207-F

"FIRE DEPARTMENT" shall mean the Ventura County Fire Protection District or the fire service agency having jurisdiction.

207-F **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control Department of the Public Works Agency.

Section 208-G

GRADE (Adjacent Ground Elevation for Structures within FLOOD HAZARD AREAS) is the point of elevation 12 inches above the highest elevation of the paved portion of the roadway adjacent to the subject lot, or the minimum height above mean sea level, whichever is the highest, as determined by the Flood Control Division of the Public Works Agency. (The Flood Control minimum elevation relates to the lowest habitable floor elevation; therefore, "GRADE" shall be established as the lowest habitable floor minus 6 inches in determining Reference Datum for measuring the maximum height of a structure.)

209-H **HABITABLE SPACE** (room) is space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls storage or utility space, and similar areas, are not considered habitable space.

EXCEPTION: For structures located within Flood Hazard Areas, bathrooms, toilet compartments, closets and laundry areas shall be considered as Habitable Space.

Section 217-P

"PERSON," "FIRM," or **"CORPORATION"** shall mean any and all entities of whatsoever nature or kind, including but not limited to individuals, owners, tenants, lessees, unions or organizations, cooperatives and trusts, corporations, partnerships whether general or limited, and unincorporated associations and shall include the plural as well as the singular number, the male and female gender, and all governmental entities subject in whole or in part to this Code and the codes adopted by reference herein.

Section 220-S

STORY, FIRST, is the lowest story in a building which qualifies as a story, as defined herein, except that a floor level in a building having only one floor level shall be classified as a first story, provided that such floor level is not more than 4 feet below grade, as defined herein, for more than 50 percent of the total perimeter, or not more than 8 feet below grade, as defined herein, at any point.

EXCEPTION: For structures located within Flood Hazard Areas, see Section UBC 208 for definition of "GRADE (adjacent Ground Elevations for Structures within FLOOD HAZARD AREAS).

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.
   Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.
4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

Section 1804 FOUNDATION INVESTIGATION.

1804.1. GENERAL. The classification of the soil at each building site shall be determined when required by the Building Official. Such determination shall be made by a California-licensed civil engineer experienced in soil engineering.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages and single-story accessory structures thereto.

3. Group U, Division 1 Occupancies.

4. Fences.

5. Detached single-story Group U, Division 3 occupancies.

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this Section he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

1804.7 DRAINAGE AND MOISTURE PROTECTION.

1804.7.1 GENERAL. Provisions shall be made for the control and drainage of surface water around buildings. Concentrated drainage such as rainwater from gutters and downspouts, scuppers, and roof valleys shall be diverted away from building foundations by means of concrete splash blocks and/or other approved non-erosive devices. Underfloor access crawl holes, vents, and similar

openings below grade shall be provided with curbs extending not less than six (6) inches above adjacent grade to prevent surface water from entering the underfloor area.

1804.7.2 ROOF GUTTERS AND DOWNSPOUTS. When buildings are located on expansive soil having an expansion index greater than 50, gutters, downspouts, piping, and/or other non-erosive devices shall be provided to collect and conduct rainwater to a street, storm drain, or other approved watercourse or disposal area.

1804.7.3 VAPOR BARRIER. An approved vapor barrier shall be installed below concrete slab-on-grade floors of all residential occupancies in such a manner as to form an effective barrier against the migration of moisture into the slab. When sheet plastic material is employed for this purpose it shall be not less than 6 mils (.006 inch) in thickness. The installation of a vapor barrier shall not impair the effectiveness of required anchor bolts or other structural parts of a building.

Foundations at the perimeter of concrete floor slabs shall form a continuous moisture barrier of portland cement concrete or solid grouted masonry to the depths required by Table UBC 18-1-D in the ordinance.

1804.7.4 GROUNDWATER. Where the probability of groundwater intrusion into underfloor areas is found to exist, foundations and crawl spaces shall be designed to mitigate ponding, excess moisture conditions, and settlement of footings. (Refer to APPENDIX CHAPTER 18 for waterproofing and dampproofing of foundations.)

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

Above 130 Very High	Special design by licensed engineer/architect										

*Refer to next page for footnotes (1) through (11).

FOOTNOTES TO TABLE UBC 18-1-D (Rev)

1. Premoistening is required where specified in Table UBC 18-1-D in order to achieve maximum and uniform expansion of the soil prior to construction and thus limit structural distress caused by uneven expansion and shrinkage. Other systems which do not include premoistening may be approved by the Building Official when such alternatives are shown to provide equivalent safeguards against the adverse effects of expansive soil.

2. Reinforcement for continuous foundations shall be placed not less that 3" above the bottom of the footing and not less than 3" below the top of the stem.

3. Reinforcement shall be placed at mid-depth of slab.

4. After premoistening, the specified moisture content of soils shall be maintained until concrete is placed. Required moisture content shall be verified by an approved testing laboratory not more than 24 hours prior to placement of concrete.

5. Crawl spaces under raised floors need not be premoistened except under interior footings. Interior footings which are not enclosed by a continuous perimeter foundation system or equivalent concrete or masonry moisture barrier complying with UBC 1804.7.3 in this ordinance shall be designed and constructed as specified for perimeter footings in Table UBC 18-1-D (Rev.).

6. Foundation stem walls which exceed a height of three times the stem thickness above lowest adjacent grade shall be reinforced in accordance with Chapter 21 and Sec. 1914 in the UBC, or as required by engineering design, whichever is more restrictive.

7. Bent reinforcing bars between exterior footing and slab shall be omitted when floor is designed as an independent, "floating' slab.

8. Where frost conditions or unusual conditions beyond the scope of this table are found, design shall be in accordance with recommendations of a foundation investigation. Concrete slabs shall have a minimum thickness of 4 inches when the expansion index exceeds 50.

9. The ground under a raised floor system may be excavated to the elevation of the top of the perimeter footing, except where otherwise required by engineering design or to mitigate groundwater conditions.

10. When subsoil drainage is required by the building official, refer to Sec. UBC APPENDIX 18.

11. Where a post-tensioning slab system is used, the width and depth of the perimeter footings shall meet the requirements of this table.

1 All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.

Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

2 Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

3 Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be ½-inch minimum.

4 The maximum allowable shear for 3-ply plywood, less than ⅝-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

5 The values for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

6 Fr[illegible]g at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1⅝ inches (4[illegible]) are spaced 3 inches (76 mm) or less on center.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

	TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
		x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1.	Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2.	Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3.	Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
		1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4.	Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)
				7	30	
			Blocked	7	30	
				7	30	
		5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
				7	30	
			Blocked	7	30	
				7	30	
			Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.

[2]Applies to nailing at all studs, top and bottom plates and blocking.

[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.

[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.

[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

CHAPTER 40

RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.
2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.
3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.
2. Is infested with pests or is insanitary.
3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.
4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.
5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.
2. Name the County of Ventura as obligee.
3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.
4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.
5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.
3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.
4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.
5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.
6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.
The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.
The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.
Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.
The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and
2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

CHAPTER 41 - SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

- ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes, reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table or moderate to highly expansive soil an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. Pedestrian gates shall swing away from the pool. Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.
2. Requirements for an approved foundation system.
3. Requirements for approved electrical, plumbing, and sewage disposal facilities.
4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within

48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public

nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building Official shall submit a request to demolish to the Federal Emergency Management Agency, in

accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound

condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the California Conservation Code as adopted by the County of Ventura.

APPENDIX CHAPTER 3, DIVISION II
AGRICULTURAL BUILDINGS

Section 327 - CONSTRUCTION, HEIGHT AND ALLOWABLE AREA

327.2 SPECIAL PROVISIONS FOR AGRICULTURAL BUILDINGS. The area of a Group U, Division 3 Occupancy in a one-story building shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width, regardless of the type of construction.

EXCEPTION: The area of a one-story Group U, Division 3 Occupancy which is used elusively for growing flowers, plants, fruits, vegetables, shrubs, trees, or similar horticultural products (horticultural structure) shall not be limited if the setback from all property lines to the building is not less than twenty (20) feet and if such setback area is maintained open and accessible for fire fighting purposes. In no case shall the distance from property lines be less than that required by zoning regulations. The maximum travel distance to an exit may be increased by 100 feet if the building or structure is provided with an approved fire sprinkler system.

The area of a two-story Group U, Division 3 Occupancy shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width and is provided with an approved automatic fire-extinguishing system throughout, conforming to UBC standard No. 9-1.

Buildings using plastics shall comply with Type V-N construction. Plastics shall be approved plastics as defined in Chapter 2 and regulated by Chapter 26. For foam plastic, see Section 2602.

EXCEPTIONS: 1. When used as skylights or roofs, the areas of plastic skylights shall not be limited.

2. Except where designs must consider snow loads, plastics less than 20 mil (0.51 mm) thick may be used without regard to structural considerations. The structural frame of the building, however, shall comply.

Refer to Section 106.1.1 in this ordinance for permit exceptions which apply to specified agricultural buildings.

APPENDIX CHAPTER 18 - WATERPROOFING AND DAMPPROOFING FOUNDATIONS

Section 1825 - OTHER DAMPPROOFING REQUIREMENTS

1825.1. SUBSOIL DRAINAGE. When required by the building official due to the requirements of Sec. UBC Appendix 1820 and 1821, a base material shall be installed under the floor slab and under-slab drain system shall be installed around the foundation perimeter in accordance with this section.

> EXCEPTION: When the finished ground level is below the floor slab level for more than 25 percent of the perimeter of the building, the base material required by Section 1825.2 need not be provided, and the foundation drain required by Sections 1825.1 - 1825.3 need be provided only around that portion of the building where the ground level is above the floor slab level.

1825.2 BASE MATERIAL. When subsoil drainage is required under Appendix Section 1824, the requirements of Table UBC Table 18-D-1 for a sand bed under slab-on-grade construction shall be superseded by the requirements of this subsection.

Concrete slab-on-grade floors shall be placed over base material not less than 4 inches (102 mm) in thickness consisting of gravel or crushed stone containing not more than 10 percent material that passes a No. 4 sieve, and no material that is retained on a 1½ inch sieve.

Over this base material, dampproofing material shall be installed in compliance with Section 1822. The dampproofing material shall be overlain with a protective layer of 2 inches of sand. Special care shall be taken to prevent damage to the damp proofing membrane. All punctures or tears in the membrane shall be immediately patched and sealed.

APPENDIX CHAPTER 30
ELEVATORS, DUMBWAITERS, ESCALATORS
AND MOVING WALKS

Section 3008 PURPOSE

3008.1 MINIMUM REQUIREMENTS. The purpose of this appendix is to safeguard life, limb, property and public welfare by establishing minimum requirements regulating the design, construction, alteration, operation and maintenance of elevators, dumbwaiters, escalators and moving walks, and by establishing procedures by which these requirements may be enforced.

3008.2 STATE STANDARDS This appendix is intended to supplement the State of California Elevator Codes and Standards, and is applicable only to those areas not superseded by mandate of the State Codes and Standards.

APPENDIX CHAPTER 33 EXCAVATION AND GRADING

SECTION 3305 SCOPE This appendix sets forth rules and regulations to control excavation, grading and earthwork construction, including fills and embankments; establishes the administrative procedure for issuance of permits; and provides for approval of plans and inspection of grading construction.

For the purposes of this Chapter, the term **"Building Official"** shall mean the Director of Public Works, as defined in Article 3, Sec. 203-B of this ordinance.

The standards listed below are recognized standards and as such are not adopted as part of this code (see Sections 3502 and 3503).

1. Testing

1.1 ASTM D 1557, Moisture-density Relations of Soils and Soil Aggregate Mixtures

1.2 ASTM D 1556, In Place Density of Soils by the Sand-Cone Method

1.3 ASTM D 2167, In Place Density of Soils by the Rubber-Balloon Method

1.4 ASTM D 2937, In Place Density of Soils by the Drive-Cylinder Method

1.5 ASTM D 2922 and D 3017, In Place Moisture Contact and Density of Soils by Nuclear Methods

3305.1 MINISTERIAL AND DISCRETIONARY PERMITS. The issuance or denial of a grading permit pursuant to this Code is a ministerial act for the purposes of Section 21080, subdivision (b) (1), of the Public Resources Code except in the following four cases:

1. Where the average natural slope within the area to be graded exceeds 10% and the amount of excavation or fill exceeds 10,000 cubic yards (7645.5 m^3);
2. Where the average natural slope within the area to be graded exceeds 35% and the mount of excavation of fill exceeds 1,000 cubic yards (764.6 m^3);
3. Where the proposed graded slopes exceed 25 feet (7620 mm) in vertical height; or
4. Where the proposed grading is to occur within a waterway or wetland' within an area officially designated by the County as a Sensitive Ecological, Archaeological, Scenic, or Biologically Sensitive Area; or within a recognized severe geologically hazardous area.

In each of the four cases listed above, the issuance or denial of a grading permit is discretionary for the purposes of Section 21080, subdivision (a), of the Public Resources Code except in the following three cases in which such issuance or denial is a ministerial act:

1. Where the grading permit is required by a condition imposed upon a discretionary entitlement previously approved by the County of Ventura and the effects of the grading for which the grading permit is required were addressed in an environmental document prepared and certified with respect to that previously approved entitlement; or

2. Where the grading is related to oilfield operations, involving the exploration for or the development or production of oil, and all of the following conditions are satisfied;

(a) The grading will be restricted to an area on which such oilfield operations may lawfully take place pursuant to an outstanding use permit for such operations issued by the county;

(b) The proposed graded slopes will be less than 40 feet (12192 mm) in vertical height;

(c) Before the grading commences, grading bonds are submitted to the Building Official guaranteeing all erosion control facilities, slope planting and slope maintenance necessary to meet then existing county standards; and

(d) Within 60 days of completion of the grading, all slopes created or modified thereby are hydromulched with a native plant and an irrigation system sufficient to ensure establishment of such native plants is installed.

3. Where the grading is related to oilfield operations involving the exploration for or the development of production of oil, and is limited to one or more of the following:

(a) Routine maintenance or repair of existing drill sites or existing roads which does not materially alter the location, size or configuration of the original sites or roads;

(b) Routing dredging of waste materials for which a permit has been issued by the Environmental Health Division of Ventura County Resource Management Agency.

The only discretionary powers to be exercised in conjunction with the issuance or denial of discretionary grading permits shall be exercised by the Building Official, or by the Board of Supervisors on appeal. Those discretionary powers shall be limited to all of those discretionary powers, (i) to issue the permit subject to conditions or changes in the project needed to mitigate significant environmental effects which would otherwise result from the grading, (ii) to deny the permit in order to avoid such effects, or (iii) to issue the permit despite such effects, as are conferred upon the lead agency by the California Environmental Quality Act (Section 21000 et seq. of the Public Resources Code) and are generally described in Section 15040 through 15043 of the State CEQA Guidelines (Section 15000 et seq. of Title 14 of the California Administrative Code).

With respect to a discretionary grading permit, the Building Official shall issue or deny the permit only after holding a public hearing, considering the applicable environmental document, if any, and certifying that such document has been prepared in compliance with the California Environmental Quality Act. The Building Official shall give at least 15 days written notice of such hearing to the applicant for the permit and to any owner of real property in the vicinity of the proposed grading whose property interest might be substantially affected by issuance or denial of the permit. The notice shall specify the time, date and place of the hearing, shall give a general description of the grading to which the permit application pertains, shall give a general description of the property on which the grading would occur, and shall state that any interested person will be given an opportunity to present relevant evidence at the hearing. The hearing shall be limited to, and any decision of the Building Official shall be based upon, the environmental issues with respect to which the Building Official has been granted discretion by this section.

Any interested person may appeal the issuance or denial of a discretionary grading permit by filing with the Building Official the appeal fee prescribed by the Board of Supervisors together with a notice of appeal on a form satisfactory to the Building Official within 10 days after the issuance or denial. The hearing on appeal shall be noticed and conducted by the Board of Supervisors in the same manner as the original hearing before the Building Official, except that the notice shall also be given to the appellant. The decision of the Board of Supervisors on appeal shall be issued in writing after the hearing on appeal and shall be final and conclusive when issued. A copy of the decision shall be served upon the applicant for the permit and upon the appellant. If the decision is to order the issuance of a grading permit previously denied or to modify a grading permit previously issued by the Building Official, the written order shall constitute the permit and shall include appropriate conditions.

A ministerial grading permit shall be operative immediately upon issuance. A discretionary grading permit shall become operative on the 15th calendar day after its issuance or, in the case of an appeal, on the date the Board of Supervisors issues its decision upholding or ordering issuance.

SECTION 3306 - PERMITS REQUIRED

3306.1. PERMITS REQUIRED. Except as specified in Section 3306.2 of this section, no person shall do any grading without first having obtained a grading permit from the building official.

3306.2 EXEMPTED WORK. A grading permit is not required for the following:

1. When approved by the building official, grading in an isolated, self-contained area if there is no danger to private or public property.

2. An excavation below finished grade for basements and footings of a building, retaining wall or other structure authorized by a valid building permit. This shall not exempt any fill made with the material from such excavation or exempt any excavation having an unsupported height greater than 5 feet (1524 mm) after the completion of such structure.

3. Cemetery graves.

4. Refuse disposal sites controlled by other regulations.

5. Excavations for wells or tunnels or utilities.

6. Mining, quarrying, excavating, processing, stockpiling of rock. sand, gravel, aggregate or clay where established and provided for by law, provided such operations do not affect the lateral support or increase the stresses in or pressure upon any adjacent or contiguous property.

7. Exploratory excavations under the direction of soil engineers or engineering geologists. This shall not exempt grading of access roads or pads for exploration equipment.

8. An excavation which (1) is less than 2 feet (610 mm) in depth, or (2) which does not create a cut slope greater than 5 feet (1524 mm) in height and steeper than 1 unit vertical in 1 1/2 units horizontal (66.7% slope).

9. A fill less than 1 foot (305 mm)in depth and placed on natural terrain with a slope flatter than 1 unit vertical in 5 units horizontal (20% slope), or less than 3 feet (914 mm) in depth not intended to support structures, which does not exceed 50 cubic yards ($38.3m^3$) on any one lot and does not obstruct a drainage course.

10. Grading under an approved hillside erosion control plan in compliance with the hillside erosion control ordinance.

11. When approved by the building official, sand and gravel backfill behind retaining walls.

Exemption from the permit requirements of this chapter shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this chapter or any other laws or ordinances of this jurisdiction.

Sec. 3307 HAZARDS.

3307.1 HAZARDS DECLARED A PUBLIC NUISANCE. Any existing excavation, embankment or fill on private property which has become a hazard to life and limb, or endangers property, or adversely affects the safety, use or stability of a public way or drainage channel, or fails to comply with the provisions of this Code is hereby declared to be a public nuisance.

3307.2 NOTICE AND ORDER TO ABATE. Whenever the Building Official has determined that such a nuisance exists, he/she shall issue a notice and order to the record owner of the property upon which the nuisance is located. The notice and order shall contain:

(1) The street address, if any, and a legal description sufficient for identification of the property upon which the nuisance is located.;

(2) A statement that the Building Official has found the excavation, embankment or fill to be on a public nuisance and a concise description of the conditions which render it a public nuisance;

(3) An order requiring that all applicable permits be secured and that the nuisance be abated within a specified time determined by the Building Official to be reasonable in circumstances;

(4) A statement that, if the nuisance is not abated within the time specified, the County man cause the work to be done and charge the cost thereof against the property or its owner;

(5) A statement that any person having a legal interest in the property may appeal from the notice and order to the Board of Grading Appeals if the appeal is made in writing as provided in this Section and is filed with the Clerk of the Board of Supervisors within 30 days of service of the notice and order; and

(6) A statement that failure, neglect or refusal to abate the nuisance within the time set forth in the notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals is a misdemeanor.

3307.3 SERVICE OF NOTICE AND ORDER. The notice and order shall be served and posted by the Building Official in the manner and subject to conditions set forth in subdivisions 3307.3, 3307.4 and (e) 3307.5 of Section 401 of the Uniform Code for the Abatement of Dangerous Buildings ("DBC"), as adopted by Article VI of the Ventura County Building Code, with respect to notices and orders relating to dangerous buildings.

3307.4 RECORDATION OF CERTIFICATE RESPECTING NUISANCE. If compliance is not had with the notice and order within the time specified therein or, if an appeal has been filed pursuant to this Section, within the time specified by the Board of Grading Appeals, the Building Official shall file in the Office of the County Recorder for recordation a certificate describing the property and certifying (1) that the excavation, embankment or fill constitutes a public nuisance, and (2) that the owner has been so notified. Whenever the nuisance shall thereafter have been abated, the Building Official shall file in the office of the County Recorder for recordation a new certificate describing the property and certifying that the nuisance has been abated.

3307.5 APPEAL FROM NOTICE AND ORDER. Any person entitled to service under subdivision 3307.3 of this Section may, upon payment of the fee prescribed by the Board of Supervisors for such purposes, appeal from the notice and order to abate the filing with the Clerk of the Board of Supervisors a written appeal in the form prescribed by the Building Official. The appeal shall be filed within 30 days after the date of service of the notice and order. Upon receipt of an appeal, the Clerk shall present it at the next regular or special meeting of the Board of Supervisors which, at such meeting, shall fix a date, time and place for the hearing of the appeal by the Board of Grading Appeals. Notice of the time and place of the hearing shall be given at least 10 days prior to the date of the hearing to each appellant by the Clerk either by causing a copy of such notice to be delivered personally or by mailing a copy thereof, postage prepaid, addressed to the appellant at his/her address shown on the appeal. Enforcement of a notice and order to abate shall be stayed during the pendency of an appeal therefrom which is properly and timely filed. In connection with the hearing,

the Board of Grading Appeals, and any member thereof, may administer oaths and affirmations and issue subpoenas. The hearing shall be conducted by the Board of Grading Appeals in the manner set forth in DBC Section 604. If, after the hearing, the Board of Grading Appeals determines that the excavation, embankment or fill does not constitute a public nuisance, it shall allow the appeal and cancel the notice and order to abate. If, after the hearing, the Board of Grading Appeals determines otherwise, it shall deny the appeal and set a date by which the nuisance must be abated, which date shall be no earlier that the last day of the period set forth in original notice and order to abate. The decision of the Board of Grading Appeals is final when made.

3307.6 COMPLIANCE WITH NOTICE AND ORDER REQUIRED. It shall be unlawful for any person, firm or corporation to who or to which a notice and order to abate is directed pursuant to this Section to fail, neglect or refuse to obey such order within the time specified in such notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals.

3307.7 ABATEMENT BY COUNTY UPON FAILURE TO COMPLY WITH NOTICE AND ORDER TO ABATE. If the nuisance is not abated within the time set forth in the notice and order to abate or, in the case of an appeal. by the date set by the Board of Grading Appeals, the Board of Supervisors may, without further notice or hearing. direct that the nuisance be abated by the County. Such abatement by the County shall not excuse any prior failure, neglect or refusal to comply with the notice and order to abate and shall be in addition to whatever other remedies may be provided by this Code or other provisions of law.

3307.8 SUMMARY ABATEMENT BY COUNTY IN EMERGENCY. If the nuisance threatens substantial injury to persons or property which is, in the opinion of the Building Official, so imminent as to require immediate corrective measures, the County may summarily abate such nuisance without complying with the provisions of subdivisions 3307.2 through 3307.7 of this Section; provided, however, that the Building Official shall give such notice to the owner of the property as may be practicable in the circumstances.

3307.9 MANNER OF ABATEMENT BY COUNTY; RIGHT OF ENTRY. Abatement by the County may be done directly by County personnel or through contractors in the same manner and subject to the same restrictions as public works. The County and its contractors may enter upon private property to effect such abatement.

3307.10 DETERMINING COST OF ABATEMENT BY COUNTY. The Building Official shall keep an itemized account of the costs of abatement by the County pursuant to subdivision 3307.7 or 3307.8 of this Section and, upon completion of the abatement work, shall prepare an itemized written report showing such cost. The Building Official shall thereupon forward a copy of the report to the Clerk of the Board of Supervisors who shall set a date (at least 10 days after receipt of the report), time and place for a hearing before the Board of Supervisors respecting such report and any objections thereto. Notice of such hearing shall be served and posted at least 10 days prior to the hearing in the manner and subject to the conditions set forth in subdivision 3307.3 of this Section with respect to the notice and order to abate. Such notice of hearing shall contain:

(1) The street address, if any, an a legal description sufficient for identification of the property affected by the report;

(2) A statement that the report has been prepared and is available for inspection in the office of the Building Official;

(3) A statement that the Board of Supervisors will hold a hearing to consider the report and any timely objections thereto;

(4) The date, time and place of such hearing;

(5) A statement that any interested person wishing to object to such report must file, prior to the hearing, a written statement of the grounds for the objection.

Any interested person may file written objections prior to the hearing. Each such objection shall contain a statement of the grounds therefor. A contention that the condition abated did not constitute a public nuisance shall be a ground for objecting to the report only if the report relates to a summary abatement pursuant to subdivision 3307.8 of this Section. At the hearing, the Board of Supervisors shall receive and consider the report, any timely written objections thereto, and such other information as it may deem proper. At the conclusion of the hearing, the Board of Supervisors may make such corrections in the report as it may deem just and, when it is satisfied that the report (as submitted or corrected) is correct, it shall, by resolution, determine the total amount of such cost of abatement attributable to each parcel of land upon which the abatement attributable to each parcel of land upon which the abatement took place.

3307.11 REIMBURSEMENT OF COUNTY FOR COST OF ABATEMENT. At any time within 10 days after the Board of Supervisors has adopted a resolution pursuant to subdivision 3307.10 of this Section determining the cost of abatement by the County, the Building Official may receive payment of such amount and issue receipts therefor. If payment is not received within such period of time, the Building Official shall forward a copy of the resolution to the Auditor-Controller.

3307.11.1 SPECIAL ASSESSMENT FOR COST OF ABATEMENT BY COUNTY. For cost of abatement by the County, pursuant to subdivision 3307.7 or 3307.8 of this Section, for which payment is not made pursuant to subdivision 3307.11 of this Section, shall be a special assessment against the parcel on which the nuisance has been located. Such special assessment shall be levied for the fiscal year commencing on the July 1 next following receipt by the Auditor-Controller of the resolution of the Board of Supervisors determining the amount of such cost. The assessment may be collected at the same time and in the same manner as ordinary county taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary County taxes. All laws applicable to the levy, collection and enforcement of County taxes shall be applicable to such special assessment, except that if any real property to which such cost of abatement relates has been transferred or conveyed to a bona fide purchases for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then such cost of abatement shall not result in a lien against such real property but instead shall be transferred to the unsecured roll for collection.

SECTION 3308 - DEFINITIONS. Section 3308 in the Appendix is hereby amended to include in addition to all of the definitions contained therein, the definitions of "Engineering Geologist", and "Isolated and Self Contained Area" as follows:

ENGINEERING GEOLOGIST. Is a certified engineering geologist duly licensed by the state who applies the geological sciences to engineering practice for the purpose of assuring that the geological features affecting the location, design, construction, operation and maintenance of engineering works are recognized and adequately addressed.

ISOLATED, SELF-CONTAINED AREA is that portion of a parcel of land or of contiguous parcels of land under single ownership which meets any one of the following three criteria:

1. The portion is used for growing crops or raising livestock for sale, but not for building sites or for the construction of earthfills which will impound water to a depth of more than 5 feet (1524 mm).
2. The portion contains water impounding structures constructed under the direct control of the U.S. Department of Agriculture, Soil Conservation Service.
3. The portion contains oilfield operations, involving the exploration for or the development or production of oil, which are established under an existing land use entitlement and all of the following criteria are met:

(a) The portion is not visible from a publicly maintained street, road or highway within 1.0 horizontal mile (1.609 km) of such portion;

(b) The portion is not visible from a private residence located within 1.0 horizontal mile (1.609 km) of such portion unless the owner and the tenant or such residence have signed a written waiver of this criterion; and

(c) The portion is so located and configured that grading thereon cannot cause a significant increase in the volume of silt or debris deposited on downstream property owned by any person other than the owner of the portion.

SECTION 3309 - GRADING PERMIT REQUIREMENTS

3309.3 GRADING DESIGNATION. All grading in excess of 1,000 cubic yards (764.6m^3) shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as "engineered grading." Grading involving less than 1,000 cubic yards (764.6 m^3) shall be designated "regular grading" unless the permittee, chooses to have the grading performed as engineered grading, or the Building Official determines that special conditions or unusual hazards exist in which case grading shall conform to the requirements for engineered grading.

3309.9 PERMIT ISSUANCE. The provisions of Section 106.4 as published in the UBC are applicable to grading permits, except that every grading permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void if the grading and other improvements authorized by such a permit are not completed within 1 year from the date of such permit. The Building Official may extend the time for completion of the grading and other improvements authorized by the grading permit in increments not exceeding 1 year if circumstances beyond the permittee's control have prevented the completion of the project, and necessary time extension fees have been paid.

The Building Official may require that grading operations and project designs be modified if delays occur which incur weather-generated problems not considered at the time the permit was issued.

Sec. 3310 GRADING PERMIT FEES. Grading permits and grading plan review fees shall be as set forth in schedules enacted by the Board of Supervisors. Except as otherwise specified in such schedule, grading permit and grading plan review fees shall not be refundable.

SECTION 3314 - SETBACKS

3314.1 SETBACKS-GENERAL. Cut and fill slopes shall be set back from site boundaries in accordance with this Section. The setbacks and other restrictions specified by this Section are minimum standards and may be increased by the Building Official or by recommendation of a civil engineer, soils engineer, or engineering geologist where necessary to assure slope stability, prevent damage to adjacent properties from deposition or erosion, provide access for slope maintenance and drainage, or otherwise provide for safety of the public.

SECTION 3315 - DRAINAGE AND TERRACING

3315.1 DRAINAGE AND TERRACING-GENERAL. Unless otherwise indicated on the approved grading plan, drainage facilities and terracing shall conform to the provisions of this Section for cut or fill slopes steeper than 1 unit vertical in 4 units horizontal (25% slope).

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

ARTICLE 90 - INTRODUCTION

Sec. 90.1 POWERS AND DUTIES OF THE BUILDING OFFICIAL

90.1.1 CONNECTION TO ELECTRICAL INSTALLATIONS. Except where work is done under an annual electrical maintenance permit, it shall be unlawful for any person, firm, or corporation to make connection from a source of electrical energy or to supply electrical service to any electrical wiring, device, appliance, or equipment which requires a permit for installation, or to cause or permit same to be done, or to continue or allow to continue any such connection unless such person, firm, or corporation shall have obtained evidence from the Building Official that such equipment is authorized to be energized.

90.1.2 AUTHORITY TO ABATE. Any electrical wiring or equipment regulated by this Code, which is unsafe or which constitutes a fire or health hazard or is otherwise dangerous to human life is, for the purpose of this Section, unsafe. Any use of equipment regulated by this Code constituting a hazard to safety, health or public welfare by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster, damage or abandonment is, for the purpose of this section, an unsafe use. Any such unsafe electrical wiring or equipment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedure set forth in the Uniform Code for the Abatement of Dangerous Buildings or such alternate procedure as may be adopted by the County. As an alternative, the Building Official or an authorized representative may institute any other appropriate action to prevent, restrain, correct, or abate the violation.

90.1.3 AUTHORITY TO CONDEMN WIRING AND EQUIPMENT. Whenever the Building Official ascertains that any electrical wiring or equipment, or portion thereof, regulated by this Code has become hazardous to life, health or property, a written order shall be issued to cause such wiring or equipment to be either removed or restored to a safe condition, as appropriate. The written notice itself shall fix a time limit for compliance with such order. No person shall use or maintain defective equipment after receiving such notice.

90.1.4 EXEMPTED WORK. An electrical permit will not be required for the following:

1. Portable motors or other portable appliances energized by means of a cord or cable having an attachment plug end to be connected to an approved receptacle when that cord or cable is permitted by this code.
2. Repair or replacement of fixed motors, transformers or approved fixed appliances of same type and rating and in the same location.
3. Temporary decorative lighting energized by cord or cable having an attachment plug end to be connected to an approved receptacle.
4. Reinstallation of attachment plug receptacles but not the outlets therefor.
5. Replacement of an overcurrent device of the same capacity and in the same location.
6. Repair or replacement of electrodes or transformers of the same size and capacity for approved signs or gas tube systems.
7. Removal of abandoned electrical wiring.
8. Electrical wiring, devices, appliance or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.
9. Low-energy power, control and signal circuits of Class II and III as defined in this code.

Exemption from the permit requirements of this code shall not be deemed to grant authorization for any work to be done in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

90.1.5 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 1 - GENERAL

Sec. 110.5. CONDUCTORS. Conductors normally used to carry current shall be of copper unless otherwise provided in this Code. Where the conductor material is not specified, the sizes given in this Code shall apply to copper conductors. Where other materials are used, the size shall be changed accordingly.

For aluminum and copper-clad aluminum conductors, see Tables 310-16 through 310-84 and Notes thereto in the NEC. Aluminum wire used under the provisions of this Code shall be a minimum of #6 A.W.G. conductors.

Sec. 110.8. WIRING METHODS. Only wiring methods recognized as suitable are included in this Code. The recognized methods of wiring shall be permitted to be installed in any type of building or occupancy, except as otherwise provided in this Code.
Wiring installations and equipment in existence at the time of passage of this Code may have their existing use continued if such use was legal at the time of passage and provided such continued use is not unsafe.

CHAPTER 2 - WIRING AND PROTECTION

Sec. 250-50(e). "UFER" GROUND REQUIRED. Notwithstanding other provisions of Section 250-50 in the NEC, the electrical service grounding electrode for new construction where concrete footings in direct contact with earth are employed shall be a bare copper conductor installed as specified in Section 250-50(c) in the NEC.

CHAPTER 3 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings and accessory structures, in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for the use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

CHAPTER 7 - SPECIAL CONDITIONS

ARTICLE 700. EMERGENCY SYSTEMS:

FPN No. 6: For additional requirements for emergency power systems, refer to NFPA-20 "REQUIREMENTS FOR FIRE PUMP WIRING."

ARTICLE 5 - AMENDMENTS TO THE
CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.
Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or
2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or
3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.
(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.
(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.
(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.
(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.
(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.
(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.
(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.
(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.
(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.
(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.
(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.
(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.
Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.
(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California-registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

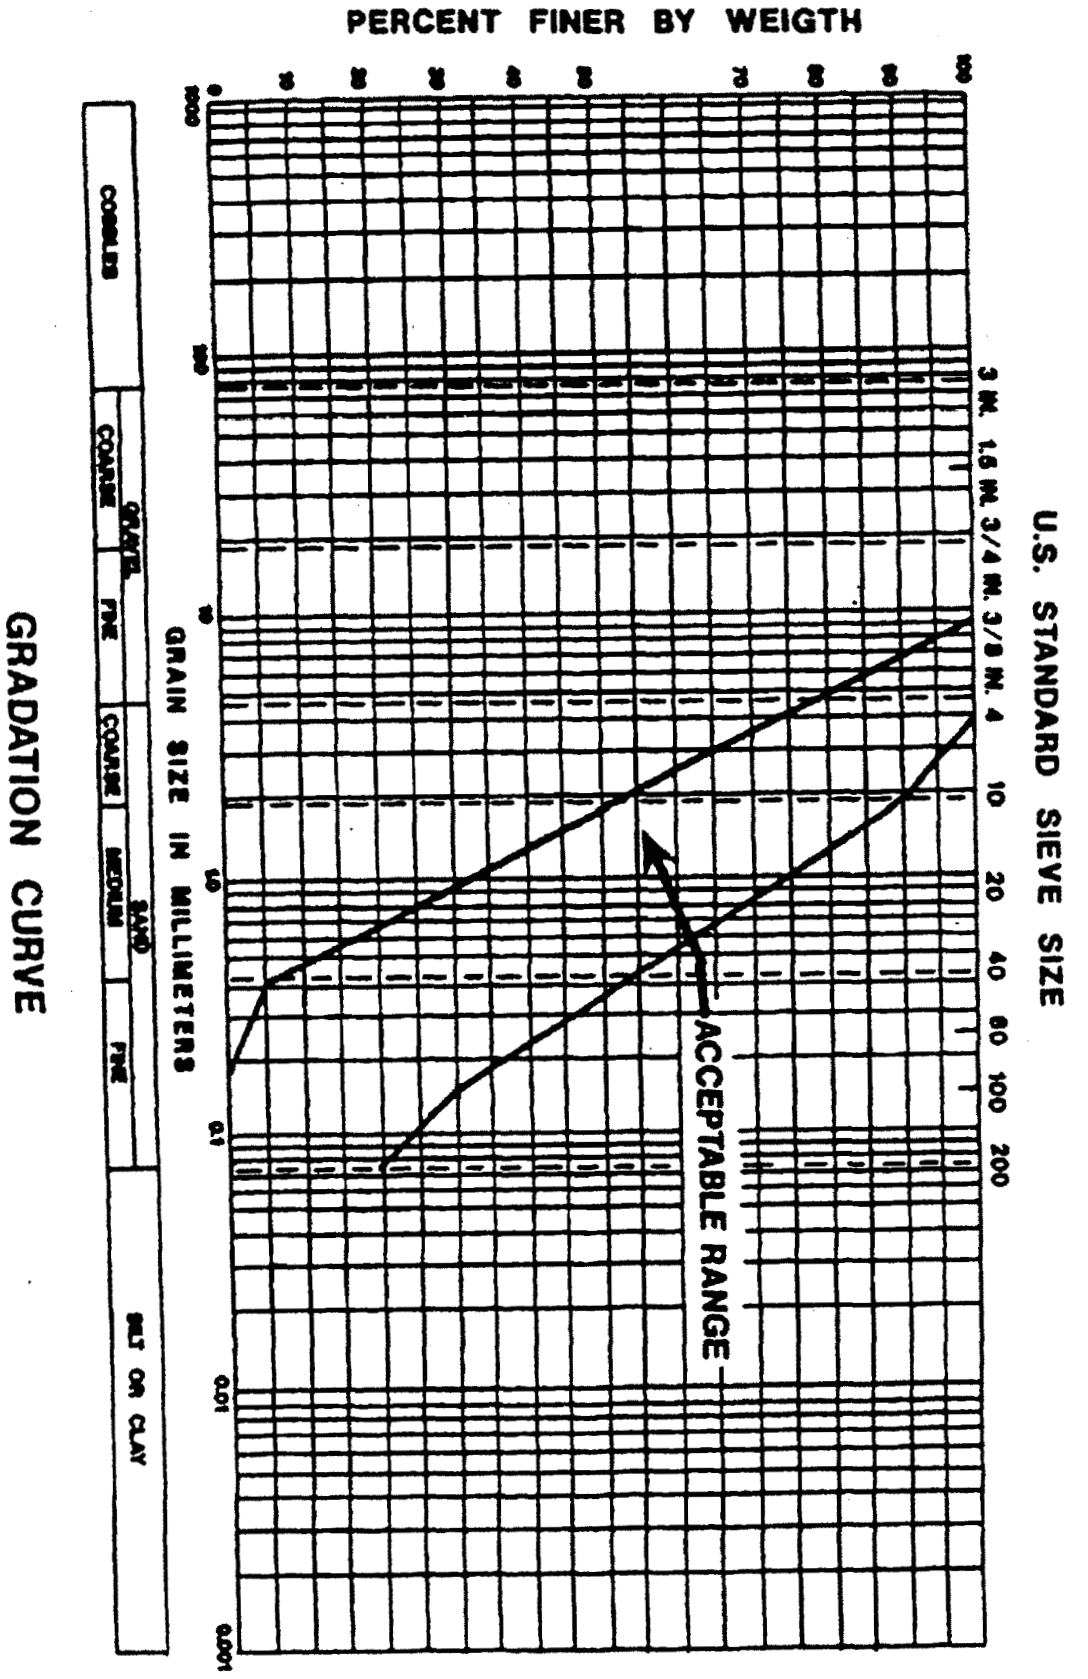
(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---



(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

GRADATION CURVE

TABLE UPC APPENDIX K-7

419-1.02

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.
The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

TABLE NO. A-9-A RATING CLASSIFICATIONS	
TYPE OF BUILDING	CLASSIFICATION
Essential Building	I
Hazardous Building	I
High-Risk Building	II
Medium-Risk Building	III
Low-Risk Building	IV

TABLE NO. A-9-B TIME LIMITS FOR COMPLIANCE			
Required Action by Owner	Obtain Building Permit Within	Commence Construction Within	Complete Construction Within
Structural Alteration or Building Demolition	1 year[1]	180 days[2]	3 years[2]
Wall Anchors	180 days[1]	270 days[2]	1 year[2]

[1]Measured from date of service of order.

[2]Measured from date of building permit issuance.

TABLE A-9-C EXTENSIONS OF TIME AND SERVICE PRIORITIES			
Rating Classification	Occupant Load	Extension of Time if Wall Anchors are Installed	Periods for Service of Order
I (Highest Priority)	N/A	N/A	N/A
II	100 or more	1 year	180 days
III-A	100 or more	1 year	1 year
III-B	More than 50 but Less than 100	1 year	2 years
III-C	More than 19 but Less than 51	1 year	3 years
IV (Lowest Priority)	Less than 20	1 year	4 years

ADOPTED this 5th day of November, 2002 by the following vote:

AYES: Supervisors Bennett, Schultz, Long, Mikels + Flynn

Re: Your Review and Comments on the 2001 Ventura County Building Code

I have prepared the draft of the 2001 edition of the Ventura County Building Code (V.C.B.C.) and would like you or your organization to review it. Please forward your comments to me. The new draft contains some new amendments to the previously adopted 1998 edition of the VCBC, although the number of amendments is small. I have included a copy of the draft for your review and comments.

In general, the Ventura County amendments have been minimized to follow the State adopted code language more closely. Many of the amendments from prior editions have simply been carried forward with no changes. Overall, the number of changes in this edition is very small compared to years past. One of the reasons for this is that the 1997 Uniform Building Code is being re-adopted by the State. Therefore, there is no change in the building code this time. Consequently, the same amendments still apply.

Most of the administrative amendments deal with local County issues such as the County organization and the division of responsibilities between the Building and Safety Division (for most of the code), the Public Works Agency for grading and flood control requirements, and the Environmental Health Division for housing issues and private sewage disposal systems.

For technical matters, changes have been made to address local seismicity issues, a lessening of permit requirements for agricultural buildings and other structures, and refinements in the requirements for swimming pools.

I am planning to present the ordinance to the Board of Supervisors for adoption soon. I would, therefore, appreciate your written comments as soon as is convenient for you. That will allow me time to analyze and incorporate your comments, if needed.

RESOLUTION NO. 206

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA ADOPTING EXPRESS FINDINGS REGARDING MODIFICATION OF UNIFORM CODES WHICH REGULATE BUILDINGS SUBJECT TO THE STATE HOUSING LAW

WHEREAS, pursuant to Health and Safety Code Sections 17958.5 and 17958.7, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it determines to be reasonably necessary because of local conditions if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety, and filed with the California Building Standards Commission pursuant to Health and Safety Section 17958.7; and

WHEREAS, pursuant to the decision in the case of Baum Electric Co. v. City of Huntington Beach (1973), 33 Cal. App. 3rd 573, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it deems to be reasonably necessary in order to safeguard life and property if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety;

NOW, THEREFORE, BE IT RESOLVED that it is reasonably necessary because of local conditions to modify certain sections of the uniform codes as shown in the attached "Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code."

Upon motion of Supervisor Schultz, seconded by Supervisor Mikels, and duly carried, the foregoing resolution was approved on October 8, 2002.

Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code

The following analysis discusses the changes included in the Ventura County Building Code as proposed by the Resource Management Agency, Division of Building and Safety.

In the legislative edition of the Ventura County Building Code, newly added words or phrases are shown as underlined. Words or phrases deleted are shown as being stricken out.

This analysis will provide a concise report for the purpose of facilitating the adoption of the proposed code revisions.

This revision adopts the most current editions of the State adopted codes and other "model" codes as follows:

California Building Code - 2001 Edition
California Electric Code - 2001 Edition
California Mechanical Code - 2001 Edition
California Plumbing Code - 2001 Edition
Uniform Housing Code - 1997 Edition
Uniform Code for the Abatement of Dangerous Buildings - 1997 Edition
Appendix Chapter 1 of the California Conservation Code - 2001 Edition

Amendments discussed below are those that have been made since the last adoption of the VCBC. Former amendments that are merely carried forward without change are not addressed as new changes in this analysis.

The amendments to the above-adopted codes are as follows:

REVISIONS THROUGHOUT THE VENTURA COUNTY BUILDING CODE (VCBC):

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other adopted model codes.

Section numbers have been changed where they have either changed themselves in the adopted codes or were required to be changed because of other changes in the adopted codes.

Titles of chapters or sections have been changed where changes have occurred in the adopted codes.

Various other editorial changes such as re-titling of sections and highlighting defined words in bold occur throughout the code. These changes are editorial only.

REVISIONS BY ARTICLE AND SECTION NUMBER

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

ATTACHMENT "E"

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. ~~and~~ pPurchase ~~of the codes~~ by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official is ~~may be available depending on the stock on hand~~.

ANALYSIS:

This is an editorial change that has been made to clarify that code books may not always be available for sale.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE

Section 101. ADOPTION. That building code known as the "California Building Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

ANALYSIS:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1996~~ 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the

amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

ANALYSIS:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code, "~~1998~~ 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

ANALYSIS:

The California Mechanical Code and certain appendices are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code edition is now that version published by the International Association of Plumbing and Mechanical Officials.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

ANALYSIS:

The California Plumbing Code and certain appendices are adopted with amendments as shown in Article 2 and Article 6.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

ANALYSIS:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

ANALYSIS:

The Uniform Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE ~~UNIFORM CALIFORNIA CONSERVATION CODE~~ (U CCC)

Sec. 101 ADOPTION: ~~Appendix Chapter 1 of that code known as the Uniform Code for Building Conservation, 1997 Edition,~~ That building conservation code known as the "California Conservation Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 Edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ANALYSIS:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation (UCBC) because of its adoption by the State. The model code it references (the 1997 UCBC) has not changed, however.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion

such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

ANALYSIS:

This section has been amended to provide specific definitions and penalties for violations of the codes. This is an administrative change.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or

property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

ANALYSIS:

This section has been modified and expanded to address several issues related to the enforcement of the codes. These include the appointment of deputies, right of entry, stop orders, occupancy violations, liability, reports, power of citation, the recordation of Notices of Non-Compliance, and the authority to condemn service equipment and to disconnect utilities. These are all administrative changes.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

ANALYSIS:

This section has been amended to identify the specific Boards of Appeal for Ventura County and to provide clarification about their scope of authority and their operating procedures. This is an administrative change.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

    a. On sites of 10 acres or more in size: 3,000 square feet.

    b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

    c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

    d. On sites less than 2 acres in size: none.

    e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This entire section and the following subsections have been revised to streamline building permits for certain types of agricultural buildings. This new language was developed in conjunction with the Agricultural Policy Advisory Committee and has received their support. This change is an administrative change only.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This language has been divided from a single paragraph format to a three subsection format to agree in layout with the previous section dealing with agricultural buildings. There is no change to the content of the former language except for the new layout. This is an editorial change only.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

ANALYSIS:

This section has been added to allow for feasibility in dealing with emergency situations outside of the normal routine. It provides for the capability to act in a timely manner to stabilize or correct emergency situations. This is an administrative change.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measuresd from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards, and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

~~19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.~~

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Analysis:

Item 1 has been changed to exempt detached patio covers when sized less than 120 square feet and playground or athletic equipment from building permit requirements.

Item 14 has been modified to refer to residential television and radio antennas only.

Item 15 has been added to exempt commercial antennas less than 15 feet in height.

Item 16 has been modified to refer to electrolier standards and flagpoles only.

Item 17 has been added to exempt plastic hoop structures less than 8 feet in height.

Item 18 has been added to exempt certain agricultural wind generating machines.

Item 19 has been added to exempt certain animal shade covers.

All of these changes are administrative.

106.3.2 SUBMITTAL DOCUMENTS. Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Analysis:

This section has been revised to use the language of the 1997 UBC, except for the paragraphs about geological reports and lot surveys. This is an editorial change only.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be

denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

   (a) The residence is not intended or offered for sale.

   (b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

ANALYSIS:

This section has been modified by adding language allowing the denial of a permit because of unstable land masses or soil conditions, precipitous cliffs or terrain subject to flooding, inundation or severe erosion. These changes are administrative but based on geologic and topographical conditions.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or

work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

ANALYSIS:

The time limits for permit expiration have been changed to conform to the language of the 1997 UBC. This was done to be consistent with a new computerized tracking system. In addition, a 30-day time limit for demolition permits issued to abate violations has been added. These are editorial and administrative changes.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be ~~65~~ 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees ~~and are in addition to the permit fees~~.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

ANALYSIS:

The plan review fee has been increased from 65% to 75% to cover the costs of additional plan review items such as storm water drainage, mobile home regulation, flood control design requirements, and data collection and distribution.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be

renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

ANALYSIS:

This section revises the current code language to include an allowance for a renewal of the plan review after it has expired under certain conditions. This is an administrative change.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

Analysis:

This is an editorial change to refer to the proper title of the fee schedule.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within ~~6 months~~ 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

ANALYSIS:

This section has been expanded to handle many different cases of fee refunds. It is an administrative change.

Sec. 108 - INSPECTIONS

108.1. GENERAL. All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

Analysis:

This section has been changed to include language from the 1997 UBC and to include a paragraph addressing when lot surveys may be required. This is an administrative change.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

Analysis:

Minor editorial changes have been made to this section to improve the readability.

~~**TABLE UBC 1-A BUILDING PERMIT FEES**~~

~~TOTAL VALUATION~~	~~FEE~~
~~$1.00 to $500.00~~	~~$23.00~~
~~$501.00 to $2,000.00~~	~~$23.00 for the first $500.00 plus~~ ~~$3.00 for each additional $100.00 or fraction thereof, to and including $2,000.~~
~~$2,001.00 to $25,000.00~~	~~$68.00 for the first $2,000.00 plus $13.25 for each additional $1,000.00 or fraction thereof, to and including $25,000.00.~~
~~$25,001.00 to $50,000.00~~	~~$372.75 for the first $25,000.00 plus $9.50 for each additional $1,000.00 or fraction thereof, to and including $50,000.00.~~
~~$50,001.00 to $100,000.00~~	~~$610.25 for the first $50,000.00 plus $6.75 for each additional $1,000.00 or fraction thereof, to and including $100,000.00.~~
~~$100,001.00 to $500,000.00~~	~~$947.75 for the first $100,000.00 plus $5.25 for each additional $1,000.00 or fraction thereof, to and including $500,000.00.~~
~~$500,001.00 to $1,000,000.00~~	~~$3,047.75 for the first $500,000.00 plus $4.50 for each additional $1,000.00 or fraction thereof, to and including $1,000,000.00.~~
~~$1,000,001.00 and up~~	~~$5,297.75 for the first $1,000,000.00 plus $3.00 for each additional $1,000.00 or fraction thereof.~~
~~**Other Inspections and Fees:**~~ ~~Refer to current Ventura County Building Code Fee Schedule.~~	

Analysis:

This table has been deleted from the VCBC as it has been included in the Ventura County Building and Safety Fee Schedule which is adopted as a separate resolution by the Board of Supervisors.

CHAPTER 2 - DEFINITIONS

Section 202-A:

~~"Apartment house"~~ **"APARTMENT HOUSE"** shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.

Analysis:

Words being defined are now printed in bold type to improve the readability and to make them easier to find. This occurs in various places throughout the code. This is an editorial change.

Section 203-B: "Building Official"

3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards ~~associated with private sewage disposal systems~~, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

Analysis:

In paragraph 3, a reference to "private sewage disposal system" has been deleted which removes the limit on the abatement of health hazards to that item only. This is an administrative change.

Section 207-F:

207-F ~~FLOOD HAZARD AREA~~ **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control ~~Section~~ Division of the Public Works Agency.

Analysis:

Several references to different Public Works Agency "Sections" have been corrected to refer to "Divisions". This is an editorial change.

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard

Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire

resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.

Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.

4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

ANALYSIS:

This section has been added to address the special construction requirements for buildings constructed in high fire hazard areas. Theses amendments are necessary because of local climatic and topographical conditions.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

ANALYSIS:

This section has been added to deal with the testing and acceptance requirements for drilled-in expansion bolt anchors and epoxy-type anchors. This is an administrative change.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

ANALYSIS:

This section has been modified to clarify the requirements for testing for expansive soils and to provide standards to which to design foundations in areas of moderate to high expansivity. This change is due to the special geologic conditions found in areas of highly expansive soils.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1804 FOUNDATION INVESTIGATION.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages ~~and single-story accessory structures thereto~~.

3. Group U, Division 1 Occupancies.

4. Fences.

5. ~~Detached single-story Group U, Division 3 occupancies.~~

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this section, he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

Analysis:

Exception 2 has been modified to exempt single story structures accessory to single family dwellings. Exception 5 has been added to exempt single story agricultural buildings. These changes are administrative.

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

ANALYSIS:

This section has been modified by changes found in Table 18-D due to specific geologic conditions found in Ventura County. These changes are geologically based.

CHAPTER 23 - WOOD

TABLE 23-II-~~I~~G MAXIMUM DIAPHRAGM DIMENSION RATIOS

MATERIAL	HORIZONTAL DIAPHRAGMS	VERTICAL DIAPHRAGMS
	Maximum Span-Width Ratios	Maximum Height-Width Ratios
1. Diagonal sheathing, conventional 2. Diagonal sheathing, special 3. Wood structural panels and particleboard, nailed all edges	3:1 4:1 4:1	~~2:1~~ ~~1:1~~ 2:1 2:1
4. Wood structural panels and particleboard, blocking omitted at intermediate joints	4:1	~~2:1~~ ~~NP~~

Analysis:

This table has been revised to reflect changes made in the 1997 UBC. Footnote 3 in the code has been dropped out due to the high level of seismcity (i.e., Northridge Earthquake) in this region. This is a change based on local geology.

TABLE 23-II-1-1 — ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES IN POUNDS PER FOOT FOR WOOD STRUCTURAL PANEL SHEAR WALLS WITH FRAMING OF DOUGLAS FIR-LARCH OR SOUTHERN PINE.[1, 2, 3, 4]

PANEL GRADE	MINIMUM NOMINAL PANEL THICKNESS (INCHES) x 25.4 for mm	MINIMUM NAIL PENETRATION IN FRAMING (INCHES) x 25.4 for mm	PANELS APPLIED DIRECTLY TO FRAMING: Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (In.) x 25.4 for mm: 6	4	3	2 (x 0.0146 for N/mm)	PANELS APPLIED OVER 1/2-INCH (13 mm) OR 5/8-INCH (16 mm) GYPSUM SHEATHING: Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (in.) x 25.4 for mm: 6	4	3	2 (x 0.0146 for N/mm)
Structural I	5/16	1 1/4	6d	150	225	293	383	8d	150	225	293	383
	3/8	1 1/2	8d	173[5]	270[5]	345[5]	458[5]	10d[6]	210	323	413	548
	7/16			191[5]	296[5]	379[5]	503[5]					
	15/32			210	323	413	548					
	15/32	1 5/8	10d[6]	255	383	499	653	–	–	–	–	–
C-D, C-C Sheathing, plywood panel siding and other grades covered in U.B.C. Standard 23-2 or 23-3	5/16	1 1/4	6d	135	203	263	338	8d	135	203	263	338
	3/8			150	225	293	383		150	225	293	383
	3/8	1 1/2	8d	165[5]	240[5]	308[5]	398[5]	10d[6]	195	368	368	480
	7/16			180[5]	263[5]	338[5]	439[5]					
	15/32			195	285	368	480					
	15/32	1 5/8	10d[6]	233	345	450	578	–	–	–	–	–
	19/32			255	383	499	653					
			Nail Size (Galvanized Casing)					Nail Size (Galvanized Casing)				
Plywood panel siding in grades covered in U.B.C. Standard 23-2	5/16	1 1/4	6d	105	158	206	270	8d	105	158	206	270
	3/8	1 1/2	8d	120	180	233	308	10d[6]	120	180	233	308

[1] All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.
Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

[2] Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

[3] Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be 1/2-inch minimum.

[4] The maximum allowable shear for 3-ply plywood, less than 5/8-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

[5] The values for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

[6] Framing at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1 5/8 inches (41 mm) are spaced 3 inches (76 mm) or less on center.

B6530911-5/99

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

ANALYSIS:

Changes to this section are based on the performance evidence of this type of construction from the Northridge Earthquake. These changes are based on local geologic conditions.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
	x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1. Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2. Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3. Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
	1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4. Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)
			7	30	
		Blocked	7	30	
			7	30	
	5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
			7	30	
		Blocked	7	30	
			7	30	
		Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.
[2]Applies to nailing at all studs, top and bottom plates and blocking.
[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.
[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.
[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 40 RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.

2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.

3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.

2. Is infested with pests or is insanitary.

3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.

4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.

5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.

2. Name the County of Ventura as obligee.

3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.

4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.

5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.

3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.

4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.

5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.

6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.

The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.

The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.

Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.

The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and

2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

ANALYSIS:

This entire chapter has been added to deal with moved buildings and to provide the procedures necessary for their proper permitting and installation. This is an administrative change.

CHAPTER 41 SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes,

reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table ~~or moderate or highly expansive soil~~ an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and

arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above of the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. ~~Pedestrian gates shall swing away from the pool.~~ Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

Analysis:

ENTIRE CHAPTER: This chapter has been rewritten entirely incorporating the requirements of the "Pool Safety Act" passed by the California State Legislature together with requirements from the 1997 UBC Appendix Chapter 4, Division I (Titled "Barriers for Swimming Pools, Spas and Hot Tubs") and local amendments to the chapter carried forward from prior adoptions.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.

2. Requirements for an approved foundation system.

3. Requirements for approved electrical, plumbing, and sewage disposal facilities.

4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

ANALYSIS:

This entire chapter has been written identify the requirements for placing mobile homes and commercial coaches on private property. They also coordinate with regulations found in Title 25 of the California Code of Regulations for mobile homes and commercial coaches. These are administrative changes.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within 48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance

by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building

Official shall submit a request to demolish to the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged

portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the ~~Uniform~~ ~~California Conservation Code~~ as adopted by the County of Ventura.

ANALYSIS:

This entire chapter has been written to address the inspections of damaged property and the placarding of damaged structures, and the permitting requirements for the repair and reconstruction of structures danged by disasters. These changes are administrative and also based on local geologic hazards.

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

CHAPTER 2 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings, and accessory structures, and in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for this use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

Analysis:

This section has been modified to allow the use of Type NM, NMC, and NMS cables in one and two family dwelling accessory structures. This is an administrative change to clarify which structures may be included as "other" structures already allowed under the code.

ARTICLE 5 - AMENDMENTS TO THE CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-~~D~~ 4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ANALYSIS:

This section has been modified to deal with specific chimney requirements in areas of high fire risk. This is a change based on local topographic conditions.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.

Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or

2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or

3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.

(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.

(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.

(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.

(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.

(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.

(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.

(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.

(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.

(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.

(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.

(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.

(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.

Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California- registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K-5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the

site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K-5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

   b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

   a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

   b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields ~~and~~/or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---

(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

TABLE UPC APPENDIX K-7

ANALYSIS:

Changes have been made to the sections dealing with exempted work, water supply and distribution, sanitary drainage, required sewers and private sewage disposal systems. These changes are administrative and based on local topographic conditions.

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

~~CHAPTER 5 - SPACE AND OCCUPANCY STANDARDS~~

~~Section 503 - ROOM DIMENSIONS~~

~~503.2. FLOOR AREA. 1. Every dwelling unit shall have at least one room which shall have not less than 120 square feet of floor area. Other habitable rooms, except kitchens, shall have an area of not less than 70 square feet.~~

~~2. Net floor area, as used herein, shall mean the total number of square feet of floor area in a dwelling unit based upon the interior dimensions of that dwelling unit excluding bathrooms, kitchens, halls, stairwells, closets, storage or utility space, and similar areas.~~

~~No dwelling unit shall be occupied or allowed to be occupied in such a manner that the maximum occupancy of the dwelling unit, as determined below, is exceeded.~~

~~3. Maximum occupancy shall be determined as follows:~~

~~For the first two occupants of any dwelling unit, there shall be a minimum of 220 square feet of net floor area. An additional 100 square feet of floor area shall be provided for every additional occupant of the dwelling unit.~~

~~EXCEPTION: Nothing in this section shall prohibit the use of an efficiency dwelling unit within a structure which complies with the requirements of UBC Section 310.7.~~

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.

The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ANALYSIS:

Minor administrative changes have been made to the housing code in regard to enforcement, permits and inspections and appeals. These are administrative changes only.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals

to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ANALYSIS:

Minor administrative changes have been made to the dangerous buildings code in regard to enforcement, violations and penalties and appeals. These are administrative changes only.

~~ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE UNIFORM CALIFORNIA CONSERVATION CODE (U CCC)~~

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating

classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

   A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

   B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

   C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

   D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of

structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

TABLE NO. A-9-A
RATING CLASSIFICATIONS

TYPE OF BUILDING	CLASSIFICATION
Essential Building	I
Hazardous Building	I
High-Risk Building	II
Medium-Risk Building	III
Low-Risk Building	IV

TABLE NO. A-9-B
TIME LIMITS FOR COMPLIANCE

Required Action by Owner	Obtain Building Permit Within	Commence Construction Within	Complete Construction Within
Structural Alteration or Building Demolition	1 year[1]	180 days[2]	3 years[2]
Wall Anchors	180 days[1]	270 days[2]	1 year[2]

[1]Measured from date of service of order.

[2]Measured from date of building permit issuance.

TABLE A-9-C
EXTENSIONS OF TIME AND SERVICE PRIORITIES

Rating Classification	Occupant Load	Extension of Time if Wall Anchors are Installed	Periods for Service of Order
I (Highest Priority)	N/A	N/A	N/A
II	100 or more	1 year	180 days
III-A	100 or more	1 year	1 year
III-B	More than 50 but Less than 100	1 year	2 years
III-C	More than 19 but Less than 51	1 year	3 years
IV (Lowest Priority)	Less than 20	1 year	4 years

ANALYSIS:

Administrative changes have been made to the California Conservation Code dealing with time frames for compliance, operational procedures, enforcement and the establishment of service properties. These changes are administrative.

G:\WPC\WINWORD\4i15-1.02.doc

ORDINANCE NO. 4274

SUMMARY OF PROPOSED ORDINANCE AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.

An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.

Chapter 2:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

Chapter 3:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

Chapter 4:

The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.

ATTACHMENT "B"

Chapter 5:

The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.

Chapter 6:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

Chapter 7:

The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

Chapter 8:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Model Codes

Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.

Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.

The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)

Building Code changes have been made in regards to definitions, high fire hazard areas, structure forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.

Defined words are now shown in bold type to be consistent with the building code and to improve readability.

The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.

The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBC in Appendix Chapter 4, Division 1 - "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.

Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

In Article 4, Amendments to the California Electrical Code (CEC)

Changes to the California Electrical Code have been made centering on administrative powers and duties of enforcement, exempted work, conductors, wiring methods and materials, grounding and emergency systems.

In Article 5, California Mechanical Code (CMC)

Amendments to the mechanical code have been made dealing with local conditions for the installation of factory-built chimneys.

In Article 6, Amendments to the California Plumbing Code (CPC)

Amendments have been made dealing with administrative powers and duties of enforcement, exempted work, definitions, water supply and distributions, sanitary drainage, required sewers and location of sewage disposal systems, and private sewage disposal systems.

In Article 7, Amendments to the Uniform Housing Code (UHC)

Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8, Amendments to the Dangerous Building Code (DBC)

Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)

The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include those dealing with the purpose and scope and administrative provisions.

SUMMARY OF ORDINANCE NO.4274 AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.
An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electrical Code is adopted with an amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Mode Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.
Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.
The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)
Building Code changes have been made in regards to definitions, high fire hazard areas, structure, forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.
Defined words are now shown in bold type to be consistent with the building code and to improve readability.
The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.
The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBS in Appendix Chapter 4, Division I, "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.
Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition. Uniform Code for the Abatement of Dangerous Buildings 1997 edition California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor 800 South Victoria Avenue, Ventura, California for reveiw by interested persons.
Dated this 11th day of October 2002.

October 8, 2002

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: ADOPTION OF PROPOSED AMENDMENTS TO THE VENTURA COUNTY BUILDING CODE (VCBC) AND RELATED CODES

RECOMMENDED ACTION:

1. Conduct a public hearing, introduce and read in title only the attached Ventura County Building Code Ordinance, waive further reading by a majority vote, and continue the matter, together with the Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing Law, for final adoption on November 5, 2002, at 9:00 a.m.

2. At a second meeting on November 5, 2002, at 9:00 a.m., receive public testimony and adopt the proposed Ventura County Building Code Ordinance to become effective thirty days from the date of final passage, adopt a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law, and direct that the findings be filed with the State Building Standards Commission.

FISCAL/MANDATES IMPACT: None

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

The uniform building codes form the primary basis of authority under which local building departments regulate the construction of buildings and structures. The California Health and Safety Code requires every city or county to utilize virtually the same housing construction standards as those of the State, but with provision for local adjustments to reflect local conditions. The recommended revisions to Ventura County's local ordinance are part of the normal legal process which is prescribed by State law for the adoption of building codes.

The local County building codes which are currently in effect were last amended by the Board in June 1999. This proposed ordinance will update references to the latest editions of the State codes, and will maintain uniformity with nearby city and county jurisdictions, which are completing the same process. Additionally, the proposed ordinance will improve certain of the administrative and regulatory provisions of the Ventura County Building Code (VCBC) to facilitate administration and enforcement of the codes. The VCBC is a compilation of previously-adopted ordinances regulating construction and incorporates State adopted codes and other model codes.

4i12-1.02

Attachment "A" is a copy of the VCBC which incorporates the proposed amendments without strike outs or underlining and has been furnished to the Clerk of the Board for publication as required by law.

Attachment "B" is an abbreviated summary by article of the changes made to the VCBC.

Attachment "C" is a copy of the letter sent out by the Building Official to interested parties requesting their review of the draft VCBC.

Attachment "D" is a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law. Adoption of these express findings is required by Health and Safety Code Section 17922. A county may make modifications in the requirements of the State adopted codes which are reasonably necessary because of local conditions. Changes to State construction standards may not, however, result in standards less than State minimums.

Attachment "E" are the express findings required for adoption.

A copy of the proposed Ventura County Building Code and these attachments are available in the Clerk of the Board's office and at the Building and Safety Counters in the Simi Valley Court House and in the Administration Building in Ventura.

Existing amendments that have not changed from the prior code have been simply brought forward without modification. Changes made by the amendments fall into one of the following categories:

1. Editorial changes that either update references, section numbers, chapter and section titles, or add highlighting of definitions, or make grammatical corrections and clarifying language revisions. These are found in various places throughout the code.

2. Administrative changes that modify permit processes or requirements or other administrative provisions in the code. Prominent administrative changes include those dealing with the title, scope and purpose of the code, violations, organization and enforcement, Boards of Appeal, permits, fees, inspections and certificates of occupancy.

3. Technical changes or "building standards", which actually affect the specific design and approval of a structure. Many of the amendments dealing with "building standards" have been reduced or eliminated as they are now found in the State code itself and are no longer necessary to add by amendment.

   Other technical changes have been made to the codes in regard to definitions, high fire hazard areas, structural forces, foundations, shear walls, gypsum board and plaster, relocated buildings, swimming pools, mobile homes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing, elevators, excavation and grading, wiring methods and materials, factory-built chimneys and sewage disposal systems.

Beginning on September 25, 2002, an initial draft of the proposed VCBC amendments was sent to interested parties, including engineers, architects and draftspersons, builders and contractors, individual citizens and industry groups such as the Ventura County Contractors Association, Building Industries Association, American Institute of Architects, and the Structural Engineers Association and to members of the County's Building Appeals Boards.

This item has been reviewed by the Chief Executive Office, County Counsel and the Auditor-Controller. A legislative version with strikeouts through deleted words and sentences and underlining under new words and sentences is on file with the Clerk of the Board of Supervisors. If you have any questions, please call me at extension 2787.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition, Uniform Code for the Abatement of Dangerous Buildings 1997 edition, California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as a result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor, 800 South Victoria Avenue, Ventura, California for review by interested persons. Dated this 11 day of October 2002.

RESOURCE MANAGEMENT AGENCY

county of ventura

DIVISION OF BUILDING AND SAFETY
Jack Phillips
Building Official

October 8, 2002

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: ADOPTION OF PROPOSED AMENDMENTS TO THE VENTURA COUNTY BUILDING CODE (VCBC) AND RELATED CODES

RECOMMENDED ACTION:

1. Conduct a public hearing, introduce and read in title only the attached Ventura County Building Code Ordinance, waive further reading by a majority vote, and continue the matter, together with the Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing Law, for final adoption on November 5, 2002, at 9:00 a.m.

2. At a second meeting on November 5, 2002, at 9:00 a.m., receive public testimony and adopt the proposed Ventura County Building Code Ordinance to become effective thirty days from the date of final passage, adopt a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law, and direct that the findings be filed with the State Building Standards Commission.

FISCAL/MANDATES IMPACT: None

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

The uniform building codes form the primary basis of authority under which local building departments regulate the construction of buildings and structures. The California Health and Safety Code requires every city or county to utilize virtually the same housing construction standards as those of the State, but with provision for local adjustments to reflect local conditions. The recommended revisions to Ventura County's local ordinance are part of the normal legal process which is prescribed by State law for the adoption of building codes.

The local County building codes which are currently in effect were last amended by the Board in June 1999. This proposed ordinance will update references to the latest editions of the State codes, and will maintain uniformity with nearby city and county jurisdictions, which are completing the same process. Additionally, the proposed ordinance will improve certain of the administrative and regulatory provisions of the Ventura County Building Code (VCBC) to facilitate administration and enforcement of the codes. The VCBC is a compilation of previously-adopted ordinances regulating construction and incorporates State adopted codes and other model codes.

4i12-1.02

Attachment "A" is a copy of the VCBC which incorporates the proposed amendments without strike outs or underlining and has been furnished to the Clerk of the Board for publication as required by law.

Attachment "B" is an abbreviated summary by article of the changes made to the VCBC.

Attachment "C" is a copy of the letter sent out by the Building Official to interested parties requesting their review of the draft VCBC.

Attachment "D" is a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law. Adoption of these express findings is required by Health and Safety Code Section 17922. A county may make modifications in the requirements of the State adopted codes which are reasonably necessary because of local conditions. Changes to State construction standards may not, however, result in standards less than State minimums.

Attachment "E" are the express findings required for adoption.

A copy of the proposed Ventura County Building Code and these attachments are available in the Clerk of the Board's office and at the Building and Safety Counters in the Simi Valley Court House and in the Administration Building in Ventura.

Existing amendments that have not changed from the prior code have been simply brought forward without modification. Changes made by the amendments fall into one of the following categories:

1. Editorial changes that either update references, section numbers, chapter and section titles, or add highlighting of definitions, or make grammatical corrections and clarifying language revisions. These are found in various places throughout the code.

2. Administrative changes that modify permit processes or requirements or other administrative provisions in the code. Prominent administrative changes include those dealing with the title, scope and purpose of the code, violations, organization and enforcement, Boards of Appeal, permits, fees, inspections and certificates of occupancy.

3. Technical changes or "building standards", which actually affect the specific design and approval of a structure. Many of the amendments dealing with "building standards" have been reduced or eliminated as they are now found in the State code itself and are no longer necessary to add by amendment.

   Other technical changes have been made to the codes in regard to definitions, high fire hazard areas, structural forces, foundations, shear walls, gypsum board and plaster, relocated buildings, swimming pools, mobile homes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing, elevators, excavation and grading, wiring methods and materials, factory-built chimneys and sewage disposal systems.

Beginning on September 25, 2002, an initial draft of the proposed VCBC amendments was sent to interested parties, including engineers, architects and draftspersons, builders and contractors, individual citizens and industry groups such as the Ventura County Contractors Association, Building Industries Association, American Institute of Architects, and the Structural Engineers Association and to members of the County's Building Appeals Boards.

This item has been reviewed by the Chief Executive Office, County Counsel and the Auditor-Controller. A legislative version with strikeouts through deleted words and sentences and underlining under new words and sentences is on file with the Clerk of the Board of Supervisors. If you have any questions, please call me at extension 2787.

RE: ORDER FOR LEGAL PUBLICATION - GI #02-018

Please publish the attached: **ORDINANCE NO. 4274, An Ordinance Amending the Ventura County Building Code and Related Codes,**

One (1) time in the issues of MONDAY, November 11, 2002, setting legal in solid block form without indentation of sub-paragraphs, sub-item, signatures and titles, and single space legal in its entirety.

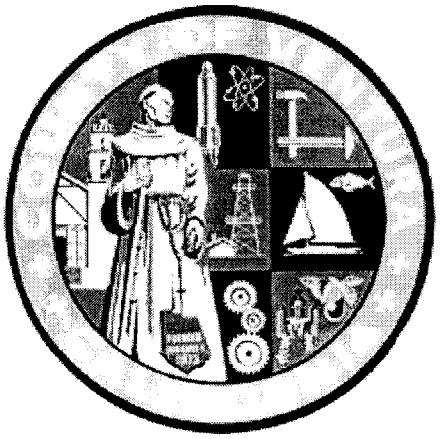
Indent major paragraphs no more than one space.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.



105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24
CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

ORDINANCE NO. 4274

AN ORDINANCE OF THE COUNTY OF VENTURA AMENDING THE VENTURA COUNTY BUILDING CODE AND ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN MODEL CODES AS FOLLOWS: CALIFORNIA BUILDING CODE, 2001 EDITION; UNIFORM HOUSING CODE, 1997 EDITION; UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS, 1997 EDITION; CALIFORNIA ELECTRIC CODE, 2001 EDITION; CALIFORNIA PLUMBING CODE, 2001 EDITION; THE CALIFORNIA MECHANICAL CODE, 2001 EDITION; AND APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE, 2001 EDITION, TOGETHER WITH AMENDMENTS THERETO.

The Board of Supervisors of the County of Ventura ordains as follows:

The Ventura County Building Code (VCBC) is hereby amended to read as follows:

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 101 VENTURA COUNTY BUILDING CODE DEFINED.

101.1 ELEMENTS. The Ventura County Building Code contained herein is comprised of the following elements:

a) The specified portions of the California Building Standards Codes known as Title 24, Parts 2, 3, 4, 5, 6, 8 and 10; and

b) The model codes referenced by the California Building Standards Code and the model codes herein adopted by reference being:

1) The Uniform Building Code, 1997 Edition.
2) The National Electrical Code, 1999 Edition.
3) The Uniform Mechanical Code, 2000 Edition.
4) The Uniform Plumbing Code, 2000 Edition.
5) The Uniform Code for Building Conservation, 1997 Edition.
6) The Uniform Housing Code, 1997 Edition.
7) The Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition; and

c) The Ventura County Amendments contained in this ordinance to the above referenced codes.

Taken together, the codes and amendments described above constitute the Ventura County Building Code.

101.2 AMENDMENTS. Ventura County amendments to the California Building Standards Code and the other adopted model codes are found in Articles 3 through 9 of this code.

Section 102 ADMINISTRATION. The administrative provisions referenced in Article 2 - General Application Amendments are applicable to all portions of the Ventura County Building Code.

Section 103. FILING WITH THE CLERK OF THE BOARD. Not less than one (1) certified copy of this Code and of each of the codes adopted by reference herein are on file in the office of the Clerk of the Board of Supervisors, and all such certified copies of the codes shall be kept at that office for public inspection while this Code is in force.

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. Purchase of the codes by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official may be available depending on the stock on hand.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE (CBC)

Section 101. ADOPTION. That building code known as the "California Building Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this Ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Building Code are found in Article 3 of this Code.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code," 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

Sec. 101 ADOPTION: That building conservation code known as the "California Conservation Code", 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Section 101 TITLE, PURPOSE AND SCOPE

101.1 TITLE. This ordinance shall be known as the "Ventura County Building Code," may be cited as such, and will be referred to herein as "this Code."

This ordinance shall adopt certain State and model codes by reference, together with amendments thereto, as published herein. These referenced codes and amendments shall have the same force and effect as if fully set forth herein.

101.2 PURPOSE. The Board of Supervisors expressly finds that the purpose of this Code is to provide minimum standards to safeguard life or limb, health, property, and public welfare by regulating and controlling the design, construction, quality of materials, use and occupancy, location, relocation, and maintenance of all buildings and structures within the County and certain equipment specifically regulated herein.

The purpose of this code is not to create or otherwise establish or designate any particular class or group of persons who will or should be especially protected or benefitted by the terms of this code.

101.18 AUTHORITY. This code is adopted pursuant to the statutory authority of Health and Safety Code Section 17910 et seq., known as the "State Housing Law." It is further adopted in conformity with the provisions of Sections 50022.1 to 50022.10, inclusive of the Government Code relating to the adoption of codes by reference.

101.19 APPLICABILITY. This code shall apply within all of the unincorporated territory of Ventura County.

101.20 INTENT. It is the intent of this Article to provide administrative control over all of the applicable sections of the adopted State and model codes even if these sections are not specifically identified in each of the adopted codes.

101.21 CONFLICTS. Wherever conflicts occur between the provisions of this Code and the separate codes adopted by reference hereby, or between different sections within such individual code or codes, the provisions which are more strict or which set the highest standard of health and safety shall govern.

Where conflicts occur between provisions of this code and other duly enacted County codes and ordinances, those provisions becoming law last in time shall govern.

Wherever in this code reference is made to the Appendix, the Appendix shall not apply unless specifically adopted.

101.22 SEVERABILITY. If any article, chapter, section, sub-section, sentence, clause or phrase of these regulations is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of these regulations. The Board of Supervisors hereby declares that it would have passed this ordinance, and each article, chapter, section, sub-

section, sentence, clause or phrase thereof, irrespective of the fact that any one or more articles, chapters, sections, sub-sections, sentences, clauses, and phrases be declared unconstitutional or invalid.

101.23 SECTION NUMBERING AND CROSS-REFERENCING SYSTEM FOR CODE AMENDMENTS. To facilitate cross-referencing between the adopted codes as published and the amendments contained herein, amendments are numbered to correspond to the uniform and model code sections which are affected. Thus, "Article 3, Chapter 18 Section 1804" in this ordinance is an amendment to, and supersedes Chapter 18, Section 1804 as published in the California Building Code.

Generally, each numbered sub-section of the adopted codes, for example, UBC subsection 1804.2, is deemed to be separate and distinct from others for the purpose of amendment. An amendment to one sub-section changes only that portion and does not by omission of reference amend or delete any other part of the Section such as UBC Section 1804.7.

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

Sec. 104 - ORGANIZATION AND ENFORCEMENT

104.1 CONTINUANCE OF DIVISION. There is hereby continued within the County the "Division of Building and Safety" of the Resource Management Agency, which division shall be under the administrative and operational control of the Building Official designated by the appointing authority.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura

County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a

violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

Sec. 106 PERMITS

106.1 PERMITS REQUIRED. No person, firm or corporation shall erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, occupy or maintain any building or structure, building service equipment, machine, equipment, or cause the same to be done, without first obtaining the necessary permit for each such building or structure from the Building Official. The terms "erect, construct, enlarge, alter, repair," etc. as used above shall be deemed to include any and all electrical, plumbing, mechanical, grading, or other work regulated by this Code.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

   a. On sites of 10 acres or more in size: 3,000 square feet.

   b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

   c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

   d. On sites less than 2 acres in size: none.

   e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.2 PERMITS FOR SMALL AGRICULTURAL PRODUCE STANDS. The provisions of this Code with respect to plan review and inspection shall not apply to agricultural produce stands, as specified herein, provided that all of the following conditions are met:

1. A Zoning Clearance for the produce stand is approved by the Planning Division.
2. Approval for the sale of agricultural products is obtained from the Environmental Health Division.
3. Approval from the Environmental Health Division is obtained for properties with septic systems.
4. The produce stand is used exclusively for the sale of agricultural produce only.
5. The floor area of the building does not exceed 400 square feet and is a single story, conventional wood frame structure of type V-N construction.
6. An area equivalent to at least 65% of the area of the longest side is left open and unobstructed during business hours.
7. A code complying exit is provided from the structure.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

106.1.3 WAIVER OF PERMIT. The Building Official may, by administrative order, waive permit requirements for work which is not inimical to the public health, safety or welfare, or which because of its temporary nature or special purpose, does not fall within the purview or intention of this Code.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Sec. 106.3 - APPLICATION

106.3.1 APPLICATION FOR PERMIT. To obtain a permit the applicant shall first file an application therefor in writing on a form furnished for that purpose. Every such application shall:

1. Give such information as may be required by the Building Official, County Agencies, or State Law.

2. Be accompanied by such plans, diagrams, computations, schedules, specifications and other data as may be necessary to determine compliance with this Code and other applicable codes, laws, ordinances, rules and regulations.

106.3.2 SUBMITTAL DOCUMENTS.

Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal

documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

(a) The residence is not intended or offered for sale.

(b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

106.4.5 SUSPENSION OR REVOCATION OF PERMIT. The Building Official may, in writing, suspend or revoke a permit issued under the provisions of this Code whenever the permit is issued in error or on the basis of incorrect information supplied, or in violation of any ordinance or regulation or any of the provisions of this Code or for just cause.

106.4.6 PERMITS TRANSFERABLE. Permits required by this Code may be transferred from the original permittee to second parties when legal requirements have been satisfied, when approved by the Building Official, and when applicable fees have been paid.

106.4.7 ANNUAL MAINTENANCE PERMITS. The Building Official may, upon receipt of the required fee, issue an annual maintenance permit to any authorized person, firm, or corporation regularly engaged in the repair, replacement, or facility maintenance of electrical, plumbing, or mechanical systems regulated by this Code. The annual maintenance permit shall cover maintenance work which is performed on the specific premises of a person, firm or corporation and shall entitle the holder to be issued permits for said work on a monthly basis in lieu of obtaining individual permits prior to each installation or alteration of electrical wiring, plumbing, or mechanical equipment.

The holder of an annual maintenance permit shall report all work done under the permit on a form furnished for the purpose not more than fifteen (15) days following the end of each calendar

month, or as otherwise approved by the Building Official. Each such report shall be accompanied by required fees.

Annual Maintenance Permits shall only be applicable to commercial and industrial facilities.

Sec. 107 - FEES

107.1 GENERAL. Fees for permits and services rendered pursuant to this Code shall be assessed as set forth in this Code, and in accordance with the Ventura County Building Code Fee Schedule as established by the Board of Supervisors.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees, and are in addition to the permit fees.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for

additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

Sec. 108 - INSPECTIONS

108.1. GENERAL.

All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

108.4 APPROVALS REQUIRED. Work shall not be done on any part of a building or structure beyond the point indicated in each successive inspection without first obtaining the written approval of the Building Official. Such written approval shall be given only after an inspection has been made of each successive step in the construction as indicated by each of the inspections required in subsection 108.5 in the UBC and by other applicable laws and ordinances.

There shall be a final inspection and approval on all buildings when completed and ready for occupancy. An approval for occupancy and the issuance of a clearance by the Building Official for the connection of utilities to any building or structure shall be contingent upon compliance with provisions of this Code and any other applicable laws and ordinances.

When, in the judgment of the Building Official, unusual conditions exist which justify the connection of utilities prior to completion of a building or structure, a temporary clearance may be issued for such connection.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.3 CERTIFICATE ISSUED. After the building official inspects the building or structure and finds no violations of the provisions of this code, including type of occupancy and use of the building, or other laws or regulations enforced by the code enforcement agency, the building official shall issue a Certificate of Occupancy which shall contain the following:

1. The building permit number.
2. The address of the building.
3. The name and mailing address of the owner.
4. The name and mailing address of the tenant.
5. A description of that portion of the building, including floor area (in square feet) for which the certificate is issued.

6. A statement that the described portion of the building has been inspected for compliance with this code for the group and division of occupancy and the use for which the designated occupancy is classified.

7. The name of the building official.

8. The date that the Certificate of Occupancy was issued.

The Certificate of Occupancy shall run concurrently with the tenancy of the building. Subsequent tenants shall be required to obtain a Certificate of Occupancy in their name.

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

ARTICLE 3 - AMENDMENTS TO THE CALIFORNIA BUILDING CODE (CBC)

CHAPTER 2 - DEFINITIONS

Sec. 200 - GENERAL AMENDMENTS

See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more specific shall apply.

Sec. 201 - DEFINITIONS

201.1.1 DEFINITIONS. Whenever in this Code, or in any of the codes herein adopted, the following names or terms are used, they shall have the meanings set out herein.

Section 202-A
"APARTMENT HOUSE" shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.
Section 203-B
"BUILDING OFFICIAL" or **"building official"** shall mean the person appointed by the Director of the Resource Management Agency charged with the administration of the Division of Building and Safety, or a duly authorized representative.
Exceptions: 1. For the purpose of administering APPENDIX Chapter 33 - of the Uniform Building Code as amended, Excavation and Grading, the term "Building Official" shall mean the Director of Public Works Agency, or a duly authorized representative. The Director of Public Works Agency or his duly authorized representative shall assume the power of citation for enforcement of APPENDIX Chapter 33 - as said Power of Citation is described in ARTICLE II - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, subsection 104.2.12 - POWER OF CITATION, in this ordinance.

2. For the purpose of administering those requirements of Chapter 7 and APPENDIX K of the Uniform Plumbing Code pertaining to the approval, permitting and inspection of private sewage disposal systems, the term "Building Official" shall mean the Environmental Health Officer or the Director of Building and Safety, or a duly authorized representative. The Environmental Health Official or his duly authorized representative shall assume the power of citation for the enforcement of Chapter 7 and APPENDIX K of the UPC as said Powers of Citation are described in ARTICLE 2 - Chapter 1, Section 104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL, Subsection 104.2.12 - POWER OF CITATION, in this ordinance.
3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

"BUILDING SERVICE EQUIPMENT" Shall mean the plumbing, mechanical, electrical, and elevator equipment including piping, wiring, fixtures, and other accessories which provide sanitation, lighting, heating, ventilation, cooling, refrigeration, fire-fighting and transportation facilities essential for the habitable occupancy of a building or structure for its designated use and occupancy.

Section 204-C
"CHIEF ELECTRICAL INSPECTOR," "ADMINISTRATIVE AUTHORITY" and all other terms and designations indicating the person authorized and directed to carry out, enforce and

exercise governmental rights, privileges and duties shall, unless expressly indicated otherwise, mean the Building Official and any duly authorized deputies, assistants, and inspectors.

"CITY," "COUNTY," and other terms designating the local governmental entity having jurisdiction, shall mean the County of Ventura or the area under its jurisdiction.

Section 205-D

"DIRECTOR OF PUBLIC WORKS" shall mean the Director of Public Works except that it shall mean the Building Official for purposes of directing work of repair or demolition having an estimated cost of $4,000 or less pursuant to Section 1401.3 in the Uniform Housing Code and Section 701.3 in the Dangerous Buildings Code.

Section 206-E

"ENVIRONMENTAL HEALTH OFFICER" or **"ENVIRONMENTAL HEALTH OFFICIAL"** shall mean the duly appointed Director of the Environmental Health Department of the County or a duly authorized representative.

Section 207-F

"FIRE DEPARTMENT" shall mean the Ventura County Fire Protection District or the fire service agency having jurisdiction.

207-F **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control Department of the Public Works Agency.

Section 208-G

GRADE (Adjacent Ground Elevation for Structures within FLOOD HAZARD AREAS) is the point of elevation 12 inches above the highest elevation of the paved portion of the roadway adjacent to the subject lot, or the minimum height above mean sea level, whichever is the highest, as determined by the Flood Control Division of the Public Works Agency. (The Flood Control minimum elevation relates to the lowest habitable floor elevation; therefore, "GRADE" shall be established as the lowest habitable floor minus 6 inches in determining Reference Datum for measuring the maximum height of a structure.)

209-H **HABITABLE SPACE** (room) is space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls storage or utility space, and similar areas, are not considered habitable space.

EXCEPTION: For structures located within Flood Hazard Areas, bathrooms, toilet compartments, closets and laundry areas shall be considered as Habitable Space.

Section 217-P

"PERSON," "FIRM," or **"CORPORATION"** shall mean any and all entities of whatsoever nature or kind, including but not limited to individuals, owners, tenants, lessees, unions or organizations, cooperatives and trusts, corporations, partnerships whether general or limited, and unincorporated associations and shall include the plural as well as the singular number, the male and female gender, and all governmental entities subject in whole or in part to this Code and the codes adopted by reference herein.

Section 220-S

STORY, FIRST, is the lowest story in a building which qualifies as a story, as defined herein, except that a floor level in a building having only one floor level shall be classified as a first story, provided that such floor level is not more than 4 feet below grade, as defined herein, for more than 50 percent of the total perimeter, or not more than 8 feet below grade, as defined herein, at any point.

EXCEPTION: For structures located within Flood Hazard Areas, see Section UBC 208 for definition of "GRADE (adjacent Ground Elevations for Structures within FLOOD HAZARD AREAS).

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.
   Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.
4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

Section 1804 FOUNDATION INVESTIGATION.

1804.1. GENERAL. The classification of the soil at each building site shall be determined when required by the Building Official. Such determination shall be made by a California-licensed civil engineer experienced in soil engineering.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages and single-story accessory structures thereto.

3. Group U, Division 1 Occupancies.

4. Fences.

5. Detached single-story Group U, Division 3 occupancies.

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this Section he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

1804.7 DRAINAGE AND MOISTURE PROTECTION.

1804.7.1 GENERAL. Provisions shall be made for the control and drainage of surface water around buildings. Concentrated drainage such as rainwater from gutters and downspouts, scuppers, and roof valleys shall be diverted away from building foundations by means of concrete splash blocks and/or other approved non-erosive devices. Underfloor access crawl holes, vents, and similar

openings below grade shall be provided with curbs extending not less than six (6) inches above adjacent grade to prevent surface water from entering the underfloor area.

1804.7.2 ROOF GUTTERS AND DOWNSPOUTS. When buildings are located on expansive soil having an expansion index greater than 50, gutters, downspouts, piping, and/or other non-erosive devices shall be provided to collect and conduct rainwater to a street, storm drain, or other approved watercourse or disposal area.

1804.7.3 VAPOR BARRIER. An approved vapor barrier shall be installed below concrete slab-on-grade floors of all residential occupancies in such a manner as to form an effective barrier against the migration of moisture into the slab. When sheet plastic material is employed for this purpose it shall be not less than 6 mils (.006 inch) in thickness. The installation of a vapor barrier shall not impair the effectiveness of required anchor bolts or other structural parts of a building.

Foundations at the perimeter of concrete floor slabs shall form a continuous moisture barrier of portland cement concrete or solid grouted masonry to the depths required by Table UBC 18-1-D in the ordinance.

1804.7.4 GROUNDWATER. Where the probability of groundwater intrusion into underfloor areas is found to exist, foundations and crawl spaces shall be designed to mitigate ponding, excess moisture conditions, and settlement of footings. (Refer to APPENDIX CHAPTER 18 for waterproofing and dampproofing of foundations.)

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

Above 130 Very High	Special design by licensed engineer/architect										

*Refer to next page for footnotes (1) through (11).

FOOTNOTES TO TABLE UBC 18-1-D (Rev)

1. Premoistening is required where specified in Table UBC 18-1-D in order to achieve maximum and uniform expansion of the soil prior to construction and thus limit structural distress caused by uneven expansion and shrinkage. Other systems which do not include premoistening may be approved by the Building Official when such alternatives are shown to provide equivalent safeguards against the adverse effects of expansive soil.

2. Reinforcement for continuous foundations shall be placed not less that 3" above the bottom of the footing and not less than 3" below the top of the stem.

3. Reinforcement shall be placed at mid-depth of slab.

4. After premoistening, the specified moisture content of soils shall be maintained until concrete is placed. Required moisture content shall be verified by an approved testing laboratory not more than 24 hours prior to placement of concrete.

5. Crawl spaces under raised floors need not be premoistened except under interior footings. Interior footings which are not enclosed by a continuous perimeter foundation system or equivalent concrete or masonry moisture barrier complying with UBC 1804.7.3 in this ordinance shall be designed and constructed as specified for perimeter footings in Table UBC 18-1-D (Rev.).

6. Foundation stem walls which exceed a height of three times the stem thickness above lowest adjacent grade shall be reinforced in accordance with Chapter 21 and Sec. 1914 in the UBC, or as required by engineering design, whichever is more restrictive.

7. Bent reinforcing bars between exterior footing and slab shall be omitted when floor is designed as an independent, "floating' slab.

8. Where frost conditions or unusual conditions beyond the scope of this table are found, design shall be in accordance with recommendations of a foundation investigation. Concrete slabs shall have a minimum thickness of 4 inches when the expansion index exceeds 50.

9. The ground under a raised floor system may be excavated to the elevation of the top of the perimeter footing, except where otherwise required by engineering design or to mitigate groundwater conditions.

10. When subsoil drainage is required by the building official, refer to Sec. UBC APPENDIX 18.

11. Where a post-tensioning slab system is used, the width and depth of the perimeter footings shall meet the requirements of this table.

CHAPTER 23 - WOOD

TABLE 23-II-G MAXIMUM DIAPHRAGM DIMENSION RATIOS

MATERIAL	HORIZONTAL DIAPHRAGMS	VERTICAL DIAPHRAGMS

	15/32	1⅝	10d[6]	233	345	450	578	–	–	–	–	–
	19/32			255	383	499	653					
			Nail Size (Galvanized Casing)					Nail Size (Galvanized Casing)				
Plywood panel siding in grades covered in U.B.C. Standard 23-2	5/16	1¼	6d	105	158	206	270	8d	105	158	206	270
	3/8	1½	8d	120	180	233	308	10d[6]	120	180	233	308

1 All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.

Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

2 Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

3 Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be ½-inch minimum.

4 The maximum allowable shear for 3-ply plywood, less than ⅝-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

5 The values for ⅜-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

6 Fr[illegible]g at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1⅝ inches (4[illegible]) are spaced 3 inches (76 mm) or less on center.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

	TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
		x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1.	Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2.	Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3.	Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
		1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4.	Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)

			Blocked	7	30	
				7	30	
		5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
				7	30	
			Blocked	7	30	
				7	30	
			Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.

[2]Applies to nailing at all studs, top and bottom plates and blocking.

[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.

[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.

[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

CHAPTER 40

RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.
2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.
3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.
2. Is infested with pests or is insanitary.
3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.
4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.
5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.
2. Name the County of Ventura as obligee.
3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.
4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.
5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.
3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.
4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.
5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.
6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.
The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.
The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.
Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.
The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and
2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

CHAPTER 41 - SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

- ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes, reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table or moderate to highly expansive soil an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. Pedestrian gates shall swing away from the pool. Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.
2. Requirements for an approved foundation system.
3. Requirements for approved electrical, plumbing, and sewage disposal facilities.
4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within

48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public

nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building Official shall submit a request to demolish to the Federal Emergency Management Agency, in

accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound

condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the California Conservation Code as adopted by the County of Ventura.

APPENDIX CHAPTER 3, DIVISION II
AGRICULTURAL BUILDINGS

Section 327 - CONSTRUCTION, HEIGHT AND ALLOWABLE AREA

327.2 SPECIAL PROVISIONS FOR AGRICULTURAL BUILDINGS. The area of a Group U, Division 3 Occupancy in a one-story building shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width, regardless of the type of construction.

EXCEPTION: The area of a one-story Group U, Division 3 Occupancy which is used elusively for growing flowers, plants, fruits, vegetables, shrubs, trees, or similar horticultural products (horticultural structure) shall not be limited if the setback from all property lines to the building is not less than twenty (20) feet and if such setback area is maintained open and accessible for fire fighting purposes. In no case shall the distance from property lines be less than that required by zoning regulations. The maximum travel distance to an exit may be increased by 100 feet if the building or structure is provided with an approved fire sprinkler system.

The area of a two-story Group U, Division 3 Occupancy shall not be limited if the building is entirely surrounded and adjoined by public ways or yards not less than 60 feet (18,288 mm) in width and is provided with an approved automatic fire-extinguishing system throughout, conforming to UBC standard No. 9-1.

Buildings using plastics shall comply with Type V-N construction. Plastics shall be approved plastics as defined in Chapter 2 and regulated by Chapter 26. For foam plastic, see Section 2602.

EXCEPTIONS: 1. When used as skylights or roofs, the areas of plastic skylights shall not be limited.

2. Except where designs must consider snow loads, plastics less than 20 mil (0.51 mm) thick may be used without regard to structural considerations. The structural frame of the building, however, shall comply.

Refer to Section 106.1.1 in this ordinance for permit exceptions which apply to specified agricultural buildings.

APPENDIX CHAPTER 18 - WATERPROOFING AND DAMPPROOFING FOUNDATIONS

Section 1825 - OTHER DAMPPROOFING REQUIREMENTS

1825.1. SUBSOIL DRAINAGE. When required by the building official due to the requirements of Sec. UBC Appendix 1820 and 1821, a base material shall be installed under the floor slab and under-slab drain system shall be installed around the foundation perimeter in accordance with this section.

> EXCEPTION: When the finished ground level is below the floor slab level for more than 25 percent of the perimeter of the building, the base material required by Section 1825.2 need not be provided, and the foundation drain required by Sections 1825.1 - 1825.3 need be provided only around that portion of the building where the ground level is above the floor slab level.

1825.2 BASE MATERIAL. When subsoil drainage is required under Appendix Section 1824, the requirements of Table UBC Table 18-D-1 for a sand bed under slab-on-grade construction shall be superseded by the requirements of this subsection.

Concrete slab-on-grade floors shall be placed over base material not less than 4 inches (102 mm) in thickness consisting of gravel or crushed stone containing not more than 10 percent material that passes a No. 4 sieve, and no material that is retained on a 1½ inch sieve.

Over this base material, dampproofing material shall be installed in compliance with Section 1822. The dampproofing material shall be overlain with a protective layer of 2 inches of sand. Special care shall be taken to prevent damage to the damp proofing membrane. All punctures or tears in the membrane shall be immediately patched and sealed.

APPENDIX CHAPTER 30
ELEVATORS, DUMBWAITERS, ESCALATORS
AND MOVING WALKS

Section 3008 PURPOSE

3008.1 MINIMUM REQUIREMENTS. The purpose of this appendix is to safeguard life, limb, property and public welfare by establishing minimum requirements regulating the design, construction, alteration, operation and maintenance of elevators, dumbwaiters, escalators and moving walks, and by establishing procedures by which these requirements may be enforced.

3008.2 STATE STANDARDS This appendix is intended to supplement the State of California Elevator Codes and Standards, and is applicable only to those areas not superseded by mandate of the State Codes and Standards.

APPENDIX CHAPTER 33 EXCAVATION AND GRADING

SECTION 3305 SCOPE This appendix sets forth rules and regulations to control excavation, grading and earthwork construction, including fills and embankments; establishes the administrative procedure for issuance of permits; and provides for approval of plans and inspection of grading construction.

For the purposes of this Chapter, the term **"Building Official"** shall mean the Director of Public Works, as defined in Article 3, Sec. 203-B of this ordinance.

The standards listed below are recognized standards and as such are not adopted as part of this code (see Sections 3502 and 3503).

1. Testing

1.1 ASTM D 1557, Moisture-density Relations of Soils and Soil Aggregate Mixtures

1.2 ASTM D 1556, In Place Density of Soils by the Sand-Cone Method

1.3 ASTM D 2167, In Place Density of Soils by the Rubber-Balloon Method

1.4 ASTM D 2937, In Place Density of Soils by the Drive-Cylinder Method

1.5 ASTM D 2922 and D 3017, In Place Moisture Contact and Density of Soils by Nuclear Methods

3305.1 MINISTERIAL AND DISCRETIONARY PERMITS. The issuance or denial of a grading permit pursuant to this Code is a ministerial act for the purposes of Section 21080, subdivision (b) (1), of the Public Resources Code except in the following four cases:

1. Where the average natural slope within the area to be graded exceeds 10% and the amount of excavation or fill exceeds 10,000 cubic yards (7645.5 m^3);
2. Where the average natural slope within the area to be graded exceeds 35% and the mount of excavation of fill exceeds 1,000 cubic yards (764.6 m^3);
3. Where the proposed graded slopes exceed 25 feet (7620 mm) in vertical height; or
4. Where the proposed grading is to occur within a waterway or wetland' within an area officially designated by the County as a Sensitive Ecological, Archaeological, Scenic, or Biologically Sensitive Area; or within a recognized severe geologically hazardous area.

In each of the four cases listed above, the issuance or denial of a grading permit is discretionary for the purposes of Section 21080, subdivision (a), of the Public Resources Code except in the following three cases in which such issuance or denial is a ministerial act:

1. Where the grading permit is required by a condition imposed upon a discretionary entitlement previously approved by the County of Ventura and the effects of the grading for which the grading permit is required were addressed in an environmental document prepared and certified with respect to that previously approved entitlement; or

2. Where the grading is related to oilfield operations, involving the exploration for or the development or production of oil, and all of the following conditions are satisfied;

(a) The grading will be restricted to an area on which such oilfield operations may lawfully take place pursuant to an outstanding use permit for such operations issued by the county;

(b) The proposed graded slopes will be less than 40 feet (12192 mm) in vertical height;

(c) Before the grading commences, grading bonds are submitted to the Building Official guaranteeing all erosion control facilities, slope planting and slope maintenance necessary to meet then existing county standards; and

(d) Within 60 days of completion of the grading, all slopes created or modified thereby are hydromulched with a native plant and an irrigation system sufficient to ensure establishment of such native plants is installed.

3. Where the grading is related to oilfield operations involving the exploration for or the development of production of oil, and is limited to one or more of the following:

(a) Routine maintenance or repair of existing drill sites or existing roads which does not materially alter the location, size or configuration of the original sites or roads;

(b) Routing dredging of waste materials for which a permit has been issued by the Environmental Health Division of Ventura County Resource Management Agency.

The only discretionary powers to be exercised in conjunction with the issuance or denial of discretionary grading permits shall be exercised by the Building Official, or by the Board of Supervisors on appeal. Those discretionary powers shall be limited to all of those discretionary powers, (i) to issue the permit subject to conditions or changes in the project needed to mitigate significant environmental effects which would otherwise result from the grading, (ii) to deny the permit in order to avoid such effects, or (iii) to issue the permit despite such effects, as are conferred upon the lead agency by the California Environmental Quality Act (Section 21000 et seq. of the Public Resources Code) and are generally described in Section 15040 through 15043 of the State CEQA Guidelines (Section 15000 et seq. of Title 14 of the California Administrative Code).

With respect to a discretionary grading permit, the Building Official shall issue or deny the permit only after holding a public hearing, considering the applicable environmental document, if any, and certifying that such document has been prepared in compliance with the California Environmental Quality Act. The Building Official shall give at least 15 days written notice of such hearing to the applicant for the permit and to any owner of real property in the vicinity of the proposed grading whose property interest might be substantially affected by issuance or denial of the permit. The notice shall specify the time, date and place of the hearing, shall give a general description of the grading to which the permit application pertains, shall give a general description of the property on which the grading would occur, and shall state that any interested person will be given an opportunity to present relevant evidence at the hearing. The hearing shall be limited to, and any decision of the Building Official shall be based upon, the environmental issues with respect to which the Building Official has been granted discretion by this section.

Any interested person may appeal the issuance or denial of a discretionary grading permit by filing with the Building Official the appeal fee prescribed by the Board of Supervisors together with a notice of appeal on a form satisfactory to the Building Official within 10 days after the issuance or denial. The hearing on appeal shall be noticed and conducted by the Board of Supervisors in the same manner as the original hearing before the Building Official, except that the notice shall also be given to the appellant. The decision of the Board of Supervisors on appeal shall be issued in writing after the hearing on appeal and shall be final and conclusive when issued. A copy of the decision shall be served upon the applicant for the permit and upon the appellant. If the decision is to order the issuance of a grading permit previously denied or to modify a grading permit previously issued by the Building Official, the written order shall constitute the permit and shall include appropriate conditions.

A ministerial grading permit shall be operative immediately upon issuance. A discretionary grading permit shall become operative on the 15th calendar day after its issuance or, in the case of an appeal, on the date the Board of Supervisors issues its decision upholding or ordering issuance.

SECTION 3306 - PERMITS REQUIRED

3306.1. PERMITS REQUIRED. Except as specified in Section 3306.2 of this section, no person shall do any grading without first having obtained a grading permit from the building official.

3306.2 EXEMPTED WORK. A grading permit is not required for the following:

1. When approved by the building official, grading in an isolated, self-contained area if there is no danger to private or public property.

2. An excavation below finished grade for basements and footings of a building, retaining wall or other structure authorized by a valid building permit. This shall not exempt any fill made with the material from such excavation or exempt any excavation having an unsupported height greater than 5 feet (1524 mm) after the completion of such structure.

3. Cemetery graves.

4. Refuse disposal sites controlled by other regulations.

5. Excavations for wells or tunnels or utilities.

6. Mining, quarrying, excavating, processing, stockpiling of rock. sand, gravel, aggregate or clay where established and provided for by law, provided such operations do not affect the lateral support or increase the stresses in or pressure upon any adjacent or contiguous property.

7. Exploratory excavations under the direction of soil engineers or engineering geologists. This shall not exempt grading of access roads or pads for exploration equipment.

8. An excavation which (1) is less than 2 feet (610 mm) in depth, or (2) which does not create a cut slope greater than 5 feet (1524 mm) in height and steeper than 1 unit vertical in 1 1/2 units horizontal (66.7% slope).

9. A fill less than 1 foot (305 mm)in depth and placed on natural terrain with a slope flatter than 1 unit vertical in 5 units horizontal (20% slope), or less than 3 feet (914 mm) in depth not intended to support structures, which does not exceed 50 cubic yards ($38.3m^3$) on any one lot and does not obstruct a drainage course.

10. Grading under an approved hillside erosion control plan in compliance with the hillside erosion control ordinance.

11. When approved by the building official, sand and gravel backfill behind retaining walls.

Exemption from the permit requirements of this chapter shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this chapter or any other laws or ordinances of this jurisdiction.

Sec. 3307 HAZARDS.

3307.1 HAZARDS DECLARED A PUBLIC NUISANCE. Any existing excavation, embankment or fill on private property which has become a hazard to life and limb, or endangers property, or adversely affects the safety, use or stability of a public way or drainage channel, or fails to comply with the provisions of this Code is hereby declared to be a public nuisance.

3307.2 NOTICE AND ORDER TO ABATE. Whenever the Building Official has determined that such a nuisance exists, he/she shall issue a notice and order to the record owner of the property upon which the nuisance is located. The notice and order shall contain:

(1) The street address, if any, and a legal description sufficient for identification of the property upon which the nuisance is located.;

(2) A statement that the Building Official has found the excavation, embankment or fill to be on a public nuisance and a concise description of the conditions which render it a public nuisance;

(3) An order requiring that all applicable permits be secured and that the nuisance be abated within a specified time determined by the Building Official to be reasonable in circumstances;

(4) A statement that, if the nuisance is not abated within the time specified, the County man cause the work to be done and charge the cost thereof against the property or its owner;

(5) A statement that any person having a legal interest in the property may appeal from the notice and order to the Board of Grading Appeals if the appeal is made in writing as provided in this Section and is filed with the Clerk of the Board of Supervisors within 30 days of service of the notice and order; and

(6) A statement that failure, neglect or refusal to abate the nuisance within the time set forth in the notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals is a misdemeanor.

3307.3 SERVICE OF NOTICE AND ORDER. The notice and order shall be served and posted by the Building Official in the manner and subject to conditions set forth in subdivisions 3307.3, 3307.4 and (e) 3307.5 of Section 401 of the Uniform Code for the Abatement of Dangerous Buildings ("DBC"), as adopted by Article VI of the Ventura County Building Code, with respect to notices and orders relating to dangerous buildings.

3307.4 RECORDATION OF CERTIFICATE RESPECTING NUISANCE. If compliance is not had with the notice and order within the time specified therein or, if an appeal has been filed pursuant to this Section, within the time specified by the Board of Grading Appeals, the Building Official shall file in the Office of the County Recorder for recordation a certificate describing the property and certifying (1) that the excavation, embankment or fill constitutes a public nuisance, and (2) that the owner has been so notified. Whenever the nuisance shall thereafter have been abated, the Building Official shall file in the office of the County Recorder for recordation a new certificate describing the property and certifying that the nuisance has been abated.

3307.5 APPEAL FROM NOTICE AND ORDER. Any person entitled to service under subdivision 3307.3 of this Section may, upon payment of the fee prescribed by the Board of Supervisors for such purposes, appeal from the notice and order to abate the filing with the Clerk of the Board of Supervisors a written appeal in the form prescribed by the Building Official. The appeal shall be filed within 30 days after the date of service of the notice and order. Upon receipt of an appeal, the Clerk shall present it at the next regular or special meeting of the Board of Supervisors which, at such meeting, shall fix a date, time and place for the hearing of the appeal by the Board of Grading Appeals. Notice of the time and place of the hearing shall be given at least 10 days prior to the date of the hearing to each appellant by the Clerk either by causing a copy of such notice to be delivered personally or by mailing a copy thereof, postage prepaid, addressed to the appellant at his/her address shown on the appeal. Enforcement of a notice and order to abate shall be stayed during the pendency of an appeal therefrom which is properly and timely filed. In connection with the hearing,

the Board of Grading Appeals, and any member thereof, may administer oaths and affirmations and issue subpoenas. The hearing shall be conducted by the Board of Grading Appeals in the manner set forth in DBC Section 604. If, after the hearing, the Board of Grading Appeals determines that the excavation, embankment or fill does not constitute a public nuisance, it shall allow the appeal and cancel the notice and order to abate. If, after the hearing, the Board of Grading Appeals determines otherwise, it shall deny the appeal and set a date by which the nuisance must be abated, which date shall be no earlier that the last day of the period set forth in original notice and order to abate. The decision of the Board of Grading Appeals is final when made.

3307.6 COMPLIANCE WITH NOTICE AND ORDER REQUIRED. It shall be unlawful for any person, firm or corporation to who or to which a notice and order to abate is directed pursuant to this Section to fail, neglect or refuse to obey such order within the time specified in such notice and order or, in the case of an appeal, within the time set by the Board of Grading Appeals.

3307.7 ABATEMENT BY COUNTY UPON FAILURE TO COMPLY WITH NOTICE AND ORDER TO ABATE. If the nuisance is not abated within the time set forth in the notice and order to abate or, in the case of an appeal. by the date set by the Board of Grading Appeals, the Board of Supervisors may, without further notice or hearing. direct that the nuisance be abated by the County. Such abatement by the County shall not excuse any prior failure, neglect or refusal to comply with the notice and order to abate and shall be in addition to whatever other remedies may be provided by this Code or other provisions of law.

3307.8 SUMMARY ABATEMENT BY COUNTY IN EMERGENCY. If the nuisance threatens substantial injury to persons or property which is, in the opinion of the Building Official, so imminent as to require immediate corrective measures, the County may summarily abate such nuisance without complying with the provisions of subdivisions 3307.2 through 3307.7 of this Section; provided, however, that the Building Official shall give such notice to the owner of the property as may be practicable in the circumstances.

3307.9 MANNER OF ABATEMENT BY COUNTY; RIGHT OF ENTRY. Abatement by the County may be done directly by County personnel or through contractors in the same manner and subject to the same restrictions as public works. The County and its contractors may enter upon private property to effect such abatement.

3307.10 DETERMINING COST OF ABATEMENT BY COUNTY. The Building Official shall keep an itemized account of the costs of abatement by the County pursuant to subdivision 3307.7 or 3307.8 of this Section and, upon completion of the abatement work, shall prepare an itemized written report showing such cost. The Building Official shall thereupon forward a copy of the report to the Clerk of the Board of Supervisors who shall set a date (at least 10 days after receipt of the report), time and place for a hearing before the Board of Supervisors respecting such report and any objections thereto. Notice of such hearing shall be served and posted at least 10 days prior to the hearing in the manner and subject to the conditions set forth in subdivision 3307.3 of this Section with respect to the notice and order to abate. Such notice of hearing shall contain:

(1) The street address, if any, an a legal description sufficient for identification of the property affected by the report;

(2) A statement that the report has been prepared and is available for inspection in the office of the Building Official;

(3) A statement that the Board of Supervisors will hold a hearing to consider the report and any timely objections thereto;

(4) The date, time and place of such hearing;

(5) A statement that any interested person wishing to object to such report must file, prior to the hearing, a written statement of the grounds for the objection.

Any interested person may file written objections prior to the hearing. Each such objection shall contain a statement of the grounds therefor. A contention that the condition abated did not constitute a public nuisance shall be a ground for objecting to the report only if the report relates to a summary abatement pursuant to subdivision 3307.8 of this Section. At the hearing, the Board of Supervisors shall receive and consider the report, any timely written objections thereto, and such other information as it may deem proper. At the conclusion of the hearing, the Board of Supervisors may make such corrections in the report as it may deem just and, when it is satisfied that the report (as submitted or corrected) is correct, it shall, by resolution, determine the total amount of such cost of abatement attributable to each parcel of land upon which the abatement attributable to each parcel of land upon which the abatement took place.

3307.11 REIMBURSEMENT OF COUNTY FOR COST OF ABATEMENT. At any time within 10 days after the Board of Supervisors has adopted a resolution pursuant to subdivision 3307.10 of this Section determining the cost of abatement by the County, the Building Official may receive payment of such amount and issue receipts therefor. If payment is not received within such period of time, the Building Official shall forward a copy of the resolution to the Auditor-Controller.

3307.11.1 SPECIAL ASSESSMENT FOR COST OF ABATEMENT BY COUNTY. For cost of abatement by the County, pursuant to subdivision 3307.7 or 3307.8 of this Section, for which payment is not made pursuant to subdivision 3307.11 of this Section, shall be a special assessment against the parcel on which the nuisance has been located. Such special assessment shall be levied for the fiscal year commencing on the July 1 next following receipt by the Auditor-Controller of the resolution of the Board of Supervisors determining the amount of such cost. The assessment may be collected at the same time and in the same manner as ordinary county taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary County taxes. All laws applicable to the levy, collection and enforcement of County taxes shall be applicable to such special assessment, except that if any real property to which such cost of abatement relates has been transferred or conveyed to a bona fide purchases for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then such cost of abatement shall not result in a lien against such real property but instead shall be transferred to the unsecured roll for collection.

SECTION 3308 - DEFINITIONS. Section 3308 in the Appendix is hereby amended to include in addition to all of the definitions contained therein, the definitions of "Engineering Geologist", and "Isolated and Self Contained Area" as follows:

ENGINEERING GEOLOGIST. Is a certified engineering geologist duly licensed by the state who applies the geological sciences to engineering practice for the purpose of assuring that the geological features affecting the location, design, construction, operation and maintenance of engineering works are recognized and adequately addressed.

ISOLATED, SELF-CONTAINED AREA is that portion of a parcel of land or of contiguous parcels of land under single ownership which meets any one of the following three criteria:

1. The portion is used for growing crops or raising livestock for sale, but not for building sites or for the construction of earthfills which will impound water to a depth of more than 5 feet (1524 mm).
2. The portion contains water impounding structures constructed under the direct control of the U.S. Department of Agriculture, Soil Conservation Service.
3. The portion contains oilfield operations, involving the exploration for or the development or production of oil, which are established under an existing land use entitlement and all of the following criteria are met:

(a) The portion is not visible from a publicly maintained street, road or highway within 1.0 horizontal mile (1.609 km) of such portion;

(b) The portion is not visible from a private residence located within 1.0 horizontal mile (1.609 km) of such portion unless the owner and the tenant or such residence have signed a written waiver of this criterion; and

(c) The portion is so located and configured that grading thereon cannot cause a significant increase in the volume of silt or debris deposited on downstream property owned by any person other than the owner of the portion.

SECTION 3309 - GRADING PERMIT REQUIREMENTS

3309.3 GRADING DESIGNATION. All grading in excess of 1,000 cubic yards (764.6m^3) shall be performed in accordance with the approved grading plan prepared by a civil engineer, and shall be designated as "engineered grading." Grading involving less than 1,000 cubic yards (764.6 m^3) shall be designated "regular grading" unless the permittee, chooses to have the grading performed as engineered grading, or the Building Official determines that special conditions or unusual hazards exist in which case grading shall conform to the requirements for engineered grading.

3309.9 PERMIT ISSUANCE. The provisions of Section 106.4 as published in the UBC are applicable to grading permits, except that every grading permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void if the grading and other improvements authorized by such a permit are not completed within 1 year from the date of such permit. The Building Official may extend the time for completion of the grading and other improvements authorized by the grading permit in increments not exceeding 1 year if circumstances beyond the permittee's control have prevented the completion of the project, and necessary time extension fees have been paid.

The Building Official may require that grading operations and project designs be modified if delays occur which incur weather-generated problems not considered at the time the permit was issued.

Sec. 3310 GRADING PERMIT FEES. Grading permits and grading plan review fees shall be as set forth in schedules enacted by the Board of Supervisors. Except as otherwise specified in such schedule, grading permit and grading plan review fees shall not be refundable.

SECTION 3314 - SETBACKS

3314.1 SETBACKS-GENERAL. Cut and fill slopes shall be set back from site boundaries in accordance with this Section. The setbacks and other restrictions specified by this Section are minimum standards and may be increased by the Building Official or by recommendation of a civil engineer, soils engineer, or engineering geologist where necessary to assure slope stability, prevent damage to adjacent properties from deposition or erosion, provide access for slope maintenance and drainage, or otherwise provide for safety of the public.

SECTION 3315 - DRAINAGE AND TERRACING

3315.1 DRAINAGE AND TERRACING-GENERAL. Unless otherwise indicated on the approved grading plan, drainage facilities and terracing shall conform to the provisions of this Section for cut or fill slopes steeper than 1 unit vertical in 4 units horizontal (25% slope).

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

ARTICLE 90 - INTRODUCTION

Sec. 90.1 POWERS AND DUTIES OF THE BUILDING OFFICIAL

90.1.1 CONNECTION TO ELECTRICAL INSTALLATIONS. Except where work is done under an annual electrical maintenance permit, it shall be unlawful for any person, firm, or corporation to make connection from a source of electrical energy or to supply electrical service to any electrical wiring, device, appliance, or equipment which requires a permit for installation, or to cause or permit same to be done, or to continue or allow to continue any such connection unless such person, firm, or corporation shall have obtained evidence from the Building Official that such equipment is authorized to be energized.

90.1.2 AUTHORITY TO ABATE. Any electrical wiring or equipment regulated by this Code, which is unsafe or which constitutes a fire or health hazard or is otherwise dangerous to human life is, for the purpose of this Section, unsafe. Any use of equipment regulated by this Code constituting a hazard to safety, health or public welfare by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster, damage or abandonment is, for the purpose of this section, an unsafe use. Any such unsafe electrical wiring or equipment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedure set forth in the Uniform Code for the Abatement of Dangerous Buildings or such alternate procedure as may be adopted by the County. As an alternative, the Building Official or an authorized representative may institute any other appropriate action to prevent, restrain, correct, or abate the violation.

90.1.3 AUTHORITY TO CONDEMN WIRING AND EQUIPMENT. Whenever the Building Official ascertains that any electrical wiring or equipment, or portion thereof, regulated by this Code has become hazardous to life, health or property, a written order shall be issued to cause such wiring or equipment to be either removed or restored to a safe condition, as appropriate. The written notice itself shall fix a time limit for compliance with such order. No person shall use or maintain defective equipment after receiving such notice.

90.1.4 EXEMPTED WORK. An electrical permit will not be required for the following:

1. Portable motors or other portable appliances energized by means of a cord or cable having an attachment plug end to be connected to an approved receptacle when that cord or cable is permitted by this code.
2. Repair or replacement of fixed motors, transformers or approved fixed appliances of same type and rating and in the same location.
3. Temporary decorative lighting energized by cord or cable having an attachment plug end to be connected to an approved receptacle.
4. Reinstallation of attachment plug receptacles but not the outlets therefor.
5. Replacement of an overcurrent device of the same capacity and in the same location.
6. Repair or replacement of electrodes or transformers of the same size and capacity for approved signs or gas tube systems.
7. Removal of abandoned electrical wiring.
8. Electrical wiring, devices, appliance or equipment operating at less than 25 volts and not capable of supplying more than 50 watts of energy.
9. Low-energy power, control and signal circuits of Class II and III as defined in this code.

Exemption from the permit requirements of this code shall not be deemed to grant authorization for any work to be done in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

90.1.5 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 1 - GENERAL

Sec. 110.5. CONDUCTORS. Conductors normally used to carry current shall be of copper unless otherwise provided in this Code. Where the conductor material is not specified, the sizes given in this Code shall apply to copper conductors. Where other materials are used, the size shall be changed accordingly.

For aluminum and copper-clad aluminum conductors, see Tables 310-16 through 310-84 and Notes thereto in the NEC. Aluminum wire used under the provisions of this Code shall be a minimum of #6 A.W.G. conductors.

Sec. 110.8. WIRING METHODS. Only wiring methods recognized as suitable are included in this Code. The recognized methods of wiring shall be permitted to be installed in any type of building or occupancy, except as otherwise provided in this Code.
Wiring installations and equipment in existence at the time of passage of this Code may have their existing use continued if such use was legal at the time of passage and provided such continued use is not unsafe.

CHAPTER 2 - WIRING AND PROTECTION

Sec. 250-50(e). "UFER" GROUND REQUIRED. Notwithstanding other provisions of Section 250-50 in the NEC, the electrical service grounding electrode for new construction where concrete footings in direct contact with earth are employed shall be a bare copper conductor installed as specified in Section 250-50(c) in the NEC.

CHAPTER 3 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings and accessory structures, in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for the use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

CHAPTER 7 - SPECIAL CONDITIONS

ARTICLE 700. EMERGENCY SYSTEMS:

FPN No. 6: For additional requirements for emergency power systems, refer to NFPA-20 "REQUIREMENTS FOR FIRE PUMP WIRING."

ARTICLE 5 - AMENDMENTS TO THE
CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.
Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or
2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or
3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.
(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.
(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.
(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.
(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.
(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.
(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.
(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.
(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.
(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.
(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.
(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.
(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.
Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.
(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California-registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

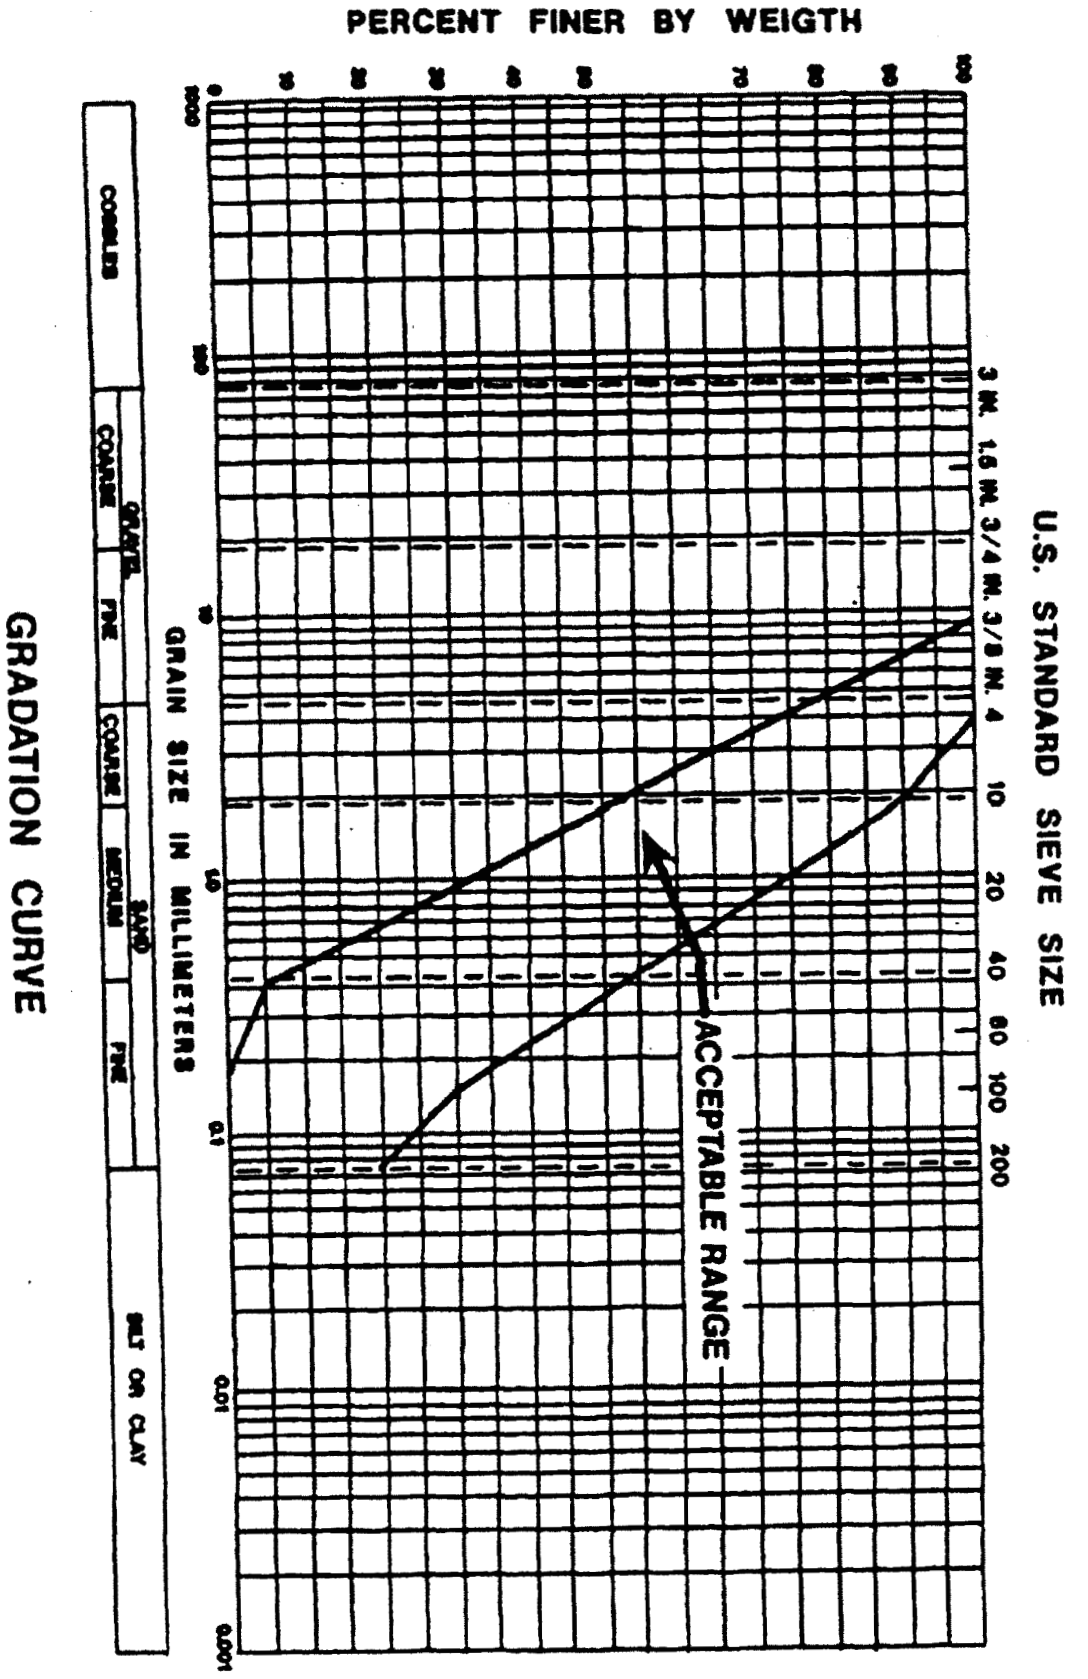
(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---



(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.
The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE CALIFORNIA CONSERVATION CODE (CCC)

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

TABLE NO. A-9-A RATING CLASSIFICATIONS	
TYPE OF BUILDING	CLASSIFICATION
Essential Building	I
Hazardous Building	I
High-Risk Building	II
Medium-Risk Building	III
Low-Risk Building	IV

TABLE NO. A-9-B TIME LIMITS FOR COMPLIANCE			
Required Action by Owner	Obtain Building Permit Within	Commence Construction Within	Complete Construction Within
Structural Alteration or Building Demolition	1 year[1]	180 days[2]	3 years[2]
Wall Anchors	180 days[1]	270 days[2]	1 year[2]

[1]Measured from date of service of order.

[2]Measured from date of building permit issuance.

TABLE A-9-C EXTENSIONS OF TIME AND SERVICE PRIORITIES			
Rating Classification	Occupant Load	Extension of Time if Wall Anchors are Installed	Periods for Service of Order
I (Highest Priority)	N/A	N/A	N/A
II	100 or more	1 year	180 days
III-A	100 or more	1 year	1 year
III-B	More than 50 but Less than 100	1 year	2 years
III-C	More than 19 but Less than 51	1 year	3 years
IV (Lowest Priority)	Less than 20	1 year	4 years

ADOPTED this 5th day of November, 2002 by the following vote:

AYES: Supervisors Bennett, Schultz, Long, Mikels + Flynn

Re: Your Review and Comments on the 2001 Ventura County Building Code

I have prepared the draft of the 2001 edition of the Ventura County Building Code (V.C.B.C.) and would like you or your organization to review it. Please forward your comments to me. The new draft contains some new amendments to the previously adopted 1998 edition of the VCBC, although the number of amendments is small. I have included a copy of the draft for your review and comments.

In general, the Ventura County amendments have been minimized to follow the State adopted code language more closely. Many of the amendments from prior editions have simply been carried forward with no changes. Overall, the number of changes in this edition is very small compared to years past. One of the reasons for this is that the 1997 Uniform Building Code is being re-adopted by the State. Therefore, there is no change in the building code this time. Consequently, the same amendments still apply.

Most of the administrative amendments deal with local County issues such as the County organization and the division of responsibilities between the Building and Safety Division (for most of the code), the Public Works Agency for grading and flood control requirements, and the Environmental Health Division for housing issues and private sewage disposal systems.

For technical matters, changes have been made to address local seismicity issues, a lessening of permit requirements for agricultural buildings and other structures, and refinements in the requirements for swimming pools.

I am planning to present the ordinance to the Board of Supervisors for adoption soon. I would, therefore, appreciate your written comments as soon as is convenient for you. That will allow me time to analyze and incorporate your comments, if needed.

RESOLUTION NO. 206

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF VENTURA ADOPTING EXPRESS FINDINGS REGARDING MODIFICATION OF UNIFORM CODES WHICH REGULATE BUILDINGS SUBJECT TO THE STATE HOUSING LAW

WHEREAS, pursuant to Health and Safety Code Sections 17958.5 and 17958.7, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it determines to be reasonably necessary because of local conditions if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety, and filed with the California Building Standards Commission pursuant to Health and Safety Section 17958.7; and

WHEREAS, pursuant to the decision in the case of Baum Electric Co. v. City of Huntington Beach (1973), 33 Cal. App. 3rd 573, a County may make such modifications in the requirements of the regulations adopted pursuant to Health and Safety Code Section 17922 as it deems to be reasonably necessary in order to safeguard life and property if it makes express findings that such modifications are needed and if such findings, together with the modifications, are made public records on file with the Division of Building and Safety;

NOW, THEREFORE, BE IT RESOLVED that it is reasonably necessary because of local conditions to modify certain sections of the uniform codes as shown in the attached "Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code."

Upon motion of Supervisor Schultz, seconded by Supervisor Mikels, and duly carried, the foregoing resolution was approved on October 8, 2002.

Analysis of Revisions and Statement of Findings for the 2001 Ventura County Building Code

The following analysis discusses the changes included in the Ventura County Building Code as proposed by the Resource Management Agency, Division of Building and Safety.

In the legislative edition of the Ventura County Building Code, newly added words or phrases are shown as underlined. Words or phrases deleted are shown as being stricken out.

This analysis will provide a concise report for the purpose of facilitating the adoption of the proposed code revisions.

This revision adopts the most current editions of the State adopted codes and other "model" codes as follows:

California Building Code - 2001 Edition
California Electric Code - 2001 Edition
California Mechanical Code - 2001 Edition
California Plumbing Code - 2001 Edition
Uniform Housing Code - 1997 Edition
Uniform Code for the Abatement of Dangerous Buildings - 1997 Edition
Appendix Chapter 1 of the California Conservation Code - 2001 Edition

Amendments discussed below are those that have been made since the last adoption of the VCBC. Former amendments that are merely carried forward without change are not addressed as new changes in this analysis.

The amendments to the above-adopted codes are as follows:

REVISIONS THROUGHOUT THE VENTURA COUNTY BUILDING CODE (VCBC):

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other adopted model codes.

Section numbers have been changed where they have either changed themselves in the adopted codes or were required to be changed because of other changes in the adopted codes.

Titles of chapters or sections have been changed where changes have occurred in the adopted codes.

Various other editorial changes such as re-titling of sections and highlighting defined words in bold occur throughout the code. These changes are editorial only.

REVISIONS BY ARTICLE AND SECTION NUMBER

ARTICLE 1 - ADOPTION OF THE CALIFORNIA BUILDING STANDARDS CODES AND OTHER MODEL CODES BY REFERENCE

ATTACHMENT "E"

CHAPTER 1 - ADOPTION INTO THE VENTURA COUNTY BUILDING CODE

Section 104. COPIES OF CODE FOR SALE TO THE PUBLIC. Copies of the Ventura County Building Code shall be made available in the office of the Division of Building and Safety for examination. ~~and~~ pPurchase ~~of the codes~~ by the public at a price not to exceed the actual cost thereof to the County plus a reasonable handling charge as established by the Building Official is ~~may be available depending on the stock on hand~~.

ANALYSIS:

This is an editorial change that has been made to clarify that code books may not always be available for sale.

CHAPTER 2 - ADOPTION OF THE CALIFORNIA BUILDING CODE

Section 101. ADOPTION. That building code known as the "California Building Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 2 - a portion of the "California Building Standards Code", which incorporates by reference the 1997 edition of the Uniform Building Code with adopted California amendments, together with Appendices Chapter 3, Division I; Chapter 3, Division II; Chapter 4, Division II; Chapter 12, Division I; Chapter 12, Division IIA; Chapter 15; Chapter 16, Division IV; Chapter 18; Chapter 29; Chapter 30; Chapter 31, Division II; Chapter 31, Division III; and Chapter 33 promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose and subject matter of which, among other things, is to protect the public health and safety as set out in Section 101.2 of the Uniform Building Code, is hereby adopted and enacted as the primary building code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein subject to the following amendments.

ANALYSIS:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

CHAPTER 3 - ADOPTION OF THE CALIFORNIA ELECTRICAL CODE (CEC)

Section 101. ADOPTION - That Electrical Code known as the "California Electrical Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 3 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1996~~ 1999 edition of the National Electrical Code with necessary California amendments, promulgated and published by the National Fire Protection Association, 1 Batterymarch Park, Quincy, Massachusetts 02269; the purpose of which, among other things is to provide minimum standards for the design, installation, maintenance, and use of electrical wiring and electrical apparatus in order to safeguard persons and property from electrical hazards, is hereby adopted and enacted as the primary Electrical Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein, with specific modifications as indicated in Article 4:

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the

amendments. Ventura County amendments to the California Electrical Code are found in Article 4 of this code.

ANALYSIS:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

CHAPTER 4 - ADOPTION OF THE CALIFORNIA MECHANICAL CODE (CMC)

Section 101. ADOPTION. That mechanical code known as the California Mechanical Code, "~~1998~~ 2001 Edition and also known as the California Code of Regulations (C.C.R.), Title 24, Part 4 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Mechanical Code with necessary California amendments, and Appendices A, B, C, and D promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, and as amended herein, the purpose and subject matter of which, among other things, is to protect public health and safety as stated in Section 102 of said code, is hereby adopted and enacted as the primary mechanical code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments which follow. Ventura County amendments to the California Mechanical Code are found in Article 5 of this code.

ANALYSIS:

The California Mechanical Code and certain appendices are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code edition is now that version published by the International Association of Plumbing and Mechanical Officials.

CHAPTER 5 - ADOPTION OF THE CALIFORNIA PLUMBING CODE (CPC)

Sec. 101 ADOPTION. That plumbing code known as the "California Plumbing Code," ~~1998~~ 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 5 - a portion of the "California Building Standards Code", which incorporates by reference the ~~1997~~ 2000 edition of the Uniform Plumbing Code with necessary California amendments, together with Uniform Plumbing Code Appendices A, B, C, D, E, G-A, H, I, J, K and L promulgated and published by the International Association of Plumbing and Mechanical Officials, 20001 Walnut Drive South, Walnut, CA 91789-2825, the purpose and subject matter of which is to protect public health and safety by establishing minimum regulations for the installation, alteration, or repair or plumbing and drainage systems, is hereby adopted and enacted as the primary plumbing code of the County and made a part of this Code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Section 102 AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the California Plumbing Code are found in Article 6 of this code.

ANALYSIS:

The California Plumbing Code and certain appendices are adopted with amendments as shown in Article 2 and Article 6.

CHAPTER 6 - ADOPTION OF THE UNIFORM HOUSING CODE (UHC)

Section 101. ADOPTION - That Housing Code known as the "Uniform Housing Code," 1997 Edition which was promulgated and published by the International Conference of Building Officials, 5360 South Workingman Mill Road, Whittier, California 90601, the purposes and subject matter of which among other things is to protect the public health and safety as set out in Section 102 of said Code, is hereby adopted and enacted as the primary Housing Code of the County and is made a part of this Code by reference with the same force and effect as if fully set forth herewith with specific modifications as indicated below.

Section 102. AMENDMENTS. Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to the Uniform Housing Code are found in Article 7 of this code.

ANALYSIS:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

CHAPTER 7 - ADOPTION OF THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

Section 101 ADOPTION. That code known as the "Uniform Code for the Abatement of Dangerous Buildings," 1997 Edition, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California 90601, the purpose of which, among other things, is to protect the public health and safety as set out in Section 102 of this Code, is hereby adopted and enacted as the Code for Abatement of Dangerous Buildings in the County and is made a part of this Code by reference with the same force and effect as if fully set forth herein with specific modifications as indicated below. This Code will be referred to herein as the Dangerous Buildings Code.

Sec. 102 AMENDMENTS. Refer to Article 2, Chapter 1, Sec. 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments Ventura County amendments to the Dangerous Buildings Code are found in Article 8 of this code.

ANALYSIS:

The Uniform Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

CHAPTER 8 - ADOPTION OF APPENDIX CHAPTER 1 OF THE ~~UNIFORM CALIFORNIA CONSERVATION CODE~~ (U CCC)

Sec. 101 ADOPTION: ~~Appendix Chapter 1 of that code known as the Uniform Code for Building Conservation, 1997 Edition,~~ That building conservation code known as the "California Conservation Code," 2001 Edition, and also known as the California Code of Regulations (C.C.R.), Title 24, Part 10 - a portion of the "California Building Standards Code" which incorporates by reference Appendix Chapter 1 of the 1997 Edition of the Uniform Code for Building Conservation, promulgated and published by the International Conference of Building Officials, 5360 South Workman Mill Road, Whittier, California, 90601, and as amended herein, the purpose and subject matter of which, among other things, is to promote public safety and welfare by reducing the risk of death or injury from the effects of earthquakes on existing unreinforced masonry bearing wall buildings as stated in Section A101 of said code, is hereby adopted as the primary unreinforced masonry building conservation code of the County and made a part of this code by reference with the same force and effect as if fully set forth herein, subject to the following amendments.

Sec. 102 AMENDMENTS: Refer to Article 2, Chapter 1, Section 101.23 in this ordinance for an explanation of the section numbering and cross-referencing system used for the amendments. Ventura County amendments to Appendix Chapter 1 of the Uniform Code for Building Conservation are found in Article 9 of this code.

ANALYSIS:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation (UCBC) because of its adoption by the State. The model code it references (the 1997 UCBC) has not changed, however.

ARTICLE 2 - AMENDMENTS OF GENERAL APPLICATION TO ALL OF THE ADOPTED STATE AND MODEL CODES

CHAPTER 1 - ADMINISTRATION

Sec. 103 VIOLATIONS.

103.1 GENERAL. It shall be unlawful for any person, firm, or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy, or maintain any building or structure, building service equipment, machine or equipment or cause or permit the same to be done in violation of this Code or to violate any provision of this Code.

103.3 INFRACTIONS. It shall be an infraction of law for any person to remove, deface, or alter a posted notice of the Building Official or duly appointed representative when such notice constitutes a stop work order or a warning of substandard or hazardous conditions or prohibits or restricts the occupancy or use of a building, structure, or building service equipment regulated by this code.

103.4 MISDEMEANORS. Any person, firm, or corporation violating any of the provisions of this Code shall be deemed guilty of a misdemeanor, misdemeanor/infraction, or infraction, and each such person shall be deemed guilty of a separate offense for each and every day or portion

such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this Code is committed, continued, or permitted. Each and every violation of any provision of this Code is a misdemeanor unless designated by this Code to be an infraction or a misdemeanor/infraction.

103.5 MISDEMEANORS/INFRACTIONS. Every violation of this Code designated a misdemeanor/infraction shall be a misdemeanor; provided that, where the District Attorney has determined that such action would be in the best interests of justice, the District Attorney may specify in the accusatory pleading that the violation shall be an infraction and the violation shall then be prosecuted as an infraction.

103.6 PUNISHMENTS. Any person convicted of a misdemeanor, the penalty for which is not otherwise prescribed, shall be punishable by a fine of not more than one thousand dollars ($1,000) or by imprisonment for not more than six (6) months or both such fine and imprisonment. Any person convicted of an infraction, the penalty for which is not otherwise prescribed, shall be punished by (a) a fine not exceeding one hundred dollars ($100) for the first violation; (b) a fine not exceeding two hundred dollars ($200) for a second violation of the same ordinance provision within one year; and (c) a fine not exceeding five hundred dollars ($500) for each additional violation of the same ordinance provision within one year.

ANALYSIS:

This section has been amended to provide specific definitions and penalties for violations of the codes. This is an administrative change.

104.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL

104.2.1 ENFORCEMENT OF CODES. The Building Official is hereby authorized and directed to enforce all the provisions of this Code and of the codes adopted by reference hereby. The decision of the Building Official in enforcing the provisions of this Code or of the codes adopted by reference, or in interpreting the provisions thereof, or in exercising the authority delegated thereby shall be final, subject to appeal as provided in this Code. For such purposes, the Building Official shall have the powers of a law enforcement officer.

The building official shall have the power to render interpretations of this code and to adopt and enforce rules and supplemental regulations to clarify the application of its provisions. Such interpretations, rules and regulations shall be in conformance with the intent and purpose of this code.

Whenever in this Code or in any of the codes adopted by reference hereby, another code or publication of standards or of rules or regulations is referred to, any language to the contrary notwithstanding, such reference shall not incorporate by reference such other codes, standards, or rules or regulations as part of this Code or of any of the codes adopted by reference hereby unless set out in full herein, but they shall be considered and may be used by the Building Official as guides to assist in determining whether or not there has been compliance with the provisions of this Code. The Building Official shall not be bound by the provisions of any such other codes, standards, interpretations, or rules or regulations not expressly adopted by reference in this Code in determining such compliance.

104.2.2 DEPUTIES. In accordance with the prescribed procedures and with the approval of the appointing authority of the County, the Building Official may, from time to time, appoint such number of officers, inspectors, assistants and other employees as shall be necessary to carry out the functions of the Division of Building and Safety and act as duly authorized representatives of the Building Official.

104.2.3 RIGHT OF ENTRY. Whenever it is necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building Official or his authorized representative has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building or premises unsafe, dangerous, hazardous, or insanitary, the Building Official or his authorized representative may enter such building, or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building official by this Code; provided that if such building or premises be occupied, he shall first present proper credentials and request entry; and if such building or premises be unoccupied, he shall first make a reasonable effort to locate the owner or the persons having charge or control of the building, structure, or premises and request entry. If such entry is refused, the Building Official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

104.2.4 STOP ORDERS. Whenever any building work is being done contrary to the provisions of this Code, or in violation of applicable ordinances of other County agencies, the Building Official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such persons shall forthwith stop such work until authorized by the Building Official to proceed with the work.

Whenever the Building Official finds that a building or structure for which a permit has been issued may be flooded or is subject to erosion hazard if the work is completed in the manner proposed, or that the completion of such work will cause the flooding of other buildings or structures, the Building Official may order all work stopped and refer the matter to the Director of the Ventura County Flood Control District (P.W.A.), or other qualified County officer for a determination as to such danger. If the Director of the aforementioned District or other qualified County officer reports that substantial danger exists, the Building Official shall order work stopped until plans to alleviate such danger have been reviewed and approved by said Director or County officer.

Failure to order work stopped or to make such referral or both shall not be construed as a representation that danger of flooding or erosion does not or will not exist if the work is completed in the manner proposed.

104.2.5 OCCUPANCY VIOLATIONS. Whenever any building or structure or equipment therein regulated by this Code is being used contrary to the provisions of this Code, the Building Official may order such use discontinued and the structure, or portion thereof, vacated by notice served on any person causing such use to be continued. Such person shall discontinue the use within the time prescribed by the Building Official after receipt of such notice or make the structure, or portion thereof, comply with the requirements of this Code; provided, however, that in the event of an unsafe building Section 102 in the Uniform Building Code shall apply.

104.2.6 LIABILITY. The Building Official or his authorized representatives charged with the enforcement of this Code, acting in good faith and without malice in the discharge of his duties, shall not thereby render himself personally liable for any damage that may accrue to persons or

property as a result of any act or omission in the discharge of his duties. Any suit brought against the Building Official or employee because of such act or omission performed by him in the enforcement of any provision of such codes or other pertinent laws or ordinances implemented through the enforcement of this code or enforced by the code enforcement agency shall be defended by the legal department of the County until final termination of such proceedings, and any judgment resulting therefrom shall be assumed by the County.

It is the intent of the Board of Supervisors to establish minimum standards for the protection of the public health, safety, and welfare. This Code shall not be construed to establish standards of performance, strength, or durability other than those specified. Neither this Code nor any services rendered in connection with or pursuant to its terms by County officers, inspectors, agents or employees, is intended nor shall be construed as the basis for any express or implied warranties or guarantees to any person relative to or concerning any structure or part, portion, or appurtenance thereto or thereof constructed, erected, altered, enlarged, repaired, moved, replaced, or removed pursuant to this Code or any permits against the County or any of its officers, inspectors, agents, or employees because any structure or portion thereof erected, constructed, altered, enlarged, repaired, moved, replaced, or removed, or any appliances installed, maintained, repaired or replaced hereunder does not meet the standards prescribed herein, or does not meet any other standards prescribed elsewhere as to performance, strength, durability or other characteristics.

This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating, or controlling any building or structure for any damages to persons or property caused by defects, nor shall the code enforcement agency or the County be held as assuming any such liability by reason of the inspections authorized by this Code or any permits or certificates of inspection issued under this code.

104.2.11 REPORTS AND RECORDS. The Building Official shall submit a report to the proper County official not less than once a year covering the work of the department during the preceding period. He shall incorporate in said report a summary of his recommendations as to desirable amendments to this Code.

The Building Official shall keep a permanent, accurate account of all fees and other monies collected and received under this Code, the names of the persons upon whose account the same were paid, the date and amount thereof, together with the location of the building or premises to which they relate.

104.2.12 POWER OF CITATION. Pursuant to the authority vested in the Board of Supervisors of the County of Ventura by California Penal Code section 836.5, the Building Official and certain of his authorized subordinates as hereinafter provided shall have the power of arrest without warrant whenever they have reasonable cause to believe that the person to be arrested has committed in their presence a misdemeanor, misdemeanor/infraction, or infraction, consisting of a violation of the provisions of this Code or any other ordinance or statute which the Building Official has a duty to enforce.

The persons who are authorized to make arrests as herein provided shall consist of the Building Official and those of his subordinates as he may from time to time designate, whose duties include inspection and enforcement activities for Ventura County.

In any case in which a person is arrested pursuant to this section and the person arrested does not demand to be taken before a magistrate, the arresting officer shall prepare a written notice to appear and release the person on his promise to appear as prescribed by Chapter 5C (commencing with section 853.6) of the California Penal Code. The provisions of that chapter shall thereafter apply with reference to any proceeding based upon the issuance of a written notice to appear pursuant to this section.

104.2.13 NOTICE OF INTENT TO RECORD NOTICE OF NONCOMPLIANCE AND RECORDATION OF NOTICE OF NONCOMPLIANCE. Whenever the Building Official determines that work has been done without the required permit, or has not been completed in accordance with the requirements of this Code, the Building Official shall post the property and mail to the owner(s) of that property a Notice of Intent to Record a Notice of Noncompliance. The Notice of Intent shall described the property, shall set forth the noncomplying conditions, and shall inform the owner(s) that the Building Official shall record a Notice of Noncompliance unless, by a date specified in the Notice of Intent, (1) it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or (2) a timely appeal has been filed with the Board of Appeal.

A. If by the date specified in the Notice of Intent, (1) it has not been demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected and (2) a timely appeal has not been filed with the Board of Appeal, the Building Official shall record a Notice of Noncompliance.

B. If a timely appeal is filed with the Board of Appeal and the Board finds that the noncomplying conditions have not been corrected and need to be corrected, the Building Official shall record a Notice of Noncompliance.

Under either A or B above, the Notice of Noncompliance shall be recorded with the office of the County Recorder and the owner(s) of the property shall be notified of such action. The Notice of Noncompliance shall described the property, shall set forth the noncomplying conditions, and shall state that the property owner(s) have been notified.

If after a Notice of Noncompliance has been recorded, it is demonstrated to the satisfaction of the Building Official that the noncomplying conditions have been corrected or removed, the Building Official shall record with the office of the County Recorder a Release of Notice of Noncompliance. The Release shall describe the property, crossed-referenced to the Notice of Noncompliance, and state that the noncomplying conditions have been corrected or removed. A fee as set forth in the Ventura County Building Code Fee Schedule may be charged the property owner(s) for issuing and recording the Release of Notice of Noncompliance.

104.2.14 AUTHORITY TO CONDEMN BUILDING SERVICE EQUIPMENT. Whenever the Building Official ascertains that any building service equipment regulated in the referenced technical codes has become hazardous to life, health or property, or becomes insanitary, he shall order, in writing, that such equipment either be removed or restored to a safe or sanitary condition, whichever is appropriate. The written order itself shall fix a time limit for compliance with such order. No person shall use or maintain defective building service equipment after receiving such notice.

When any building service equipment is maintained in violation of this code and in a violation of any notice issued pursuant to the provisions of this section, the Building Official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

104.2.15 AUTHORITY TO DISCONNECT UTILITIES. The Building Official or his authorized representative shall have the authority to disconnect any utility service or energy supplied to a building, structure or building service therein regulated by this code, or the referenced technical codes, in case of emergency where necessary to eliminate an immediate hazard to life or property.

The Building Official shall, whenever possible, notify the serving utility, the owner and the occupants of the building or structure of the decision to disconnect prior to taking such action, and shall notify such serving utility, owner and occupants of the building or structure, in writing, of such disconnection immediately thereafter.

104.2.16 RECONNECTION AFTER ORDER OF DISCONNECTION. No person shall make connections from any energy, power or fuel supply, nor supply energy or fuel to any building service equipment which has been disconnected or ordered to be disconnected by the Building Official or the use of which has been ordered discontinued by the Building Official until the Building Official authorizes the reconnection and use of such equipment.

ANALYSIS:

This section has been modified and expanded to address several issues related to the enforcement of the codes. These include the appointment of deputies, right of entry, stop orders, occupancy violations, liability, reports, power of citation, the recordation of Notices of Non-Compliance, and the authority to condemn service equipment and to disconnect utilities. These are all administrative changes.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24 (CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

ANALYSIS:

This section has been amended to identify the specific Boards of Appeal for Ventura County and to provide clarification about their scope of authority and their operating procedures. This is an administrative change.

106.1.1 STREAMLINED PERMITS FOR CERTAIN AGRICULTURAL BUILDINGS, GREENHOUSES AND SHADE STRUCTURES. The provisions of this code with respect to plan review and inspection shall not apply to certain agricultural buildings, greenhouses and shade structures as specified herein, provided that all of the following conditions are met:

1. The building or structure is used exclusively as an agricultural building as defined in the Uniform Building Code (U.B.C.), and is not designed, equipped or intended for human occupancy or any use other than as an agricultural building, and

2. The building or structure is detached, single story, not over 15 feet in height as defined in the U.B.C., and is of conventional wood frame (Type V-N) construction, and

3. The floor area of the building or structure does not exceed the following limits:

    a. On sites of 10 acres or more in size: 3,000 square feet.

    b. On sites 2 acres or more but less than 10 acres in size: 1,500 square feet, except for nurseries.

    c. On sites 2 acres or more but less than 10 acres in size: 3,000 square feet for nurseries licensed by the Agricultural Commissioner.

    d. On sites less than 2 acres in size: none.

    e. Shade cloth structures without permanently affixed sides: 12,000 square feet, and

4. The building is determined to be exempt from requirements for preparation of plans by a professional engineer or architect as set forth in the California Professional Engineer's or Architect Act, and

5. A Zoning Clearance as an agricultural building, greenhouse or shade structure for the building or structure is approved by the Planning Division, and

6. Approval from the Environmental Health Division is obtained for properties with septic systems, and

7. Approval from the Flood Control Department of the Public Works Agency is obtained as required, and

8. Approval from the Ventura County Fire Department is obtained relative to access, water supply, fire sprinkler, brush clearance and high fire hazard area requirements for any barn or storage structure designed and constructed to house farm implements, hay, grain, poultry or livestock in excess of 1,500 square feet in area; and where a review for other types of agricultural buildings up to 3,000 square feet in area in not required; and

9. Approval from the Development and Inspection Services Division of the Public Works Agency is obtained when a grading permit is required, and

10. A code complying exit is provided from the building or structure, and

11. There is no plumbing, mechanical or electrical work proposed for the building or structure.

106.1.1.1 FEES FOR STREAMLINED AGRICULTURAL BUILDING PERMITS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to agricultural buildings, greenhouses and shade structures qualifying for the above procedure under the provisions of that subsection.

106.1.1.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.1.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This entire section and the following subsections have been revised to streamline building permits for certain types of agricultural buildings. This new language was developed in conjunction with the Agricultural Policy Advisory Committee and has received their support. This change is an administrative change only.

106.1.2.1 FEES FOR SMALL AGRICULTURAL PRODUCE STANDS. Except for the required permit issuance fee, no plan review or building permit fee shall be applicable to produce stands qualifying for exemption under the provisions of this subsection.

106.1.2.2 OTHER PERMITS. Plumbing, mechanical and electrical permits shall be required when applicable.

106.1.2.3 APPLICABILITY TO OTHER AGENCIES. Nothing herein shall be construed as providing exemption from the requirements of any agency other than the Division of Building and Safety.

Analysis:

This language has been divided from a single paragraph format to a three subsection format to agree in layout with the previous section dealing with agricultural buildings. There is no change to the content of the former language except for the new layout. This is an editorial change only.

106.1.4 EMERGENCY BUILDING PERMITS. The Building Official is hereby authorized to establish procedures for issuing permits to correct emergency situations. The Building Official may verbally authorize work to proceed for such purposes, with the condition that a standard application will be filed once the emergency has been overcome. The holders of such emergency permits shall proceed at their own risk without assurance that the work so accomplished shall be approved as constructed.

Emergency repairs to plumbing, electrical, and mechanical installations may be initiated prior to obtaining the required permits, provided that such work was urgently necessary and it was impractical to obtain the permits prior to commencement of the work. Permits for all such work shall be obtained as soon as it is practical to do so.

ANALYSIS:

This section has been added to allow for feasibility in dealing with emergency situations outside of the normal routine. It provides for the capability to act in a timely manner to stabilize or correct emergency situations. This is an administrative change.

Sec. 106.2 EXEMPTED WORK. A building permit shall not be required for the following:

1. One-story detached accessory buildings used as tool and storage sheds, patio covers, playhouses, playground or athletic equipment and similar uses provided the floor area does not exceed 120 square feet.

2. Fences not over 6 feet high measured from highest point of grade, unless supporting a surcharge or structural element.

3. Oil derricks.

4. Movable cases, counters, and partitions not over 5 feet 9 inches high.

5. Retaining walls which are not over 4 feet in height measuresd from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or III-A liquids.

6. Water tanks supported directly upon grade if the tank capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2 to 1.

7. Platforms, walks and wood decks not more than 30 inches above grade at any point and not over any basement or story below, nor supporting any structure above.

8. Painting, papering, and similar finish work.

9. Temporary motion picture, television and theater stage sets and scenery.

10. Window awnings supported completely by an exterior wall of Group R, Division 3 or Group U, Division 1 Occupancies when projecting not more than 54 inches nor encroaching into required yards.

11. Prefabricated swimming pools accessory to a Group R, Division 3 Occupancy in which the pool walls are entirely above the adjacent grade and if the capacity does not exceed 5,000 gallons (18,927L).

12. [For SFM] State-owned buildings under the jurisdiction of the state fire marshal.

13. Freestanding signs not more than 10 feet in height and not more than 72 square feet in area and wall signs not more than 200 square feet in area.

14. Residential television and radio antennas and dish antennas not more than 3 feet in diameter with an approved zone clearance.

15. Commercial antennas not over 15 feet in height when in compliance with the County Zoning Ordinance.

16. Electrolier standards, and flag poles not over 35 feet in height when in compliance with the County Zoning Ordinance.

17. Readily removable plastic covered hoop structures without in-ground footings or foundations that are not more than 8' in height.

18. Agricultural wind generating machines except that an electrical or gas permit is required if they are connected to a commercial utility.

~~19. Detached one story shade covers for animals when the covers are not over 12 feet in height above grade and not more than 1,000 square feet of roof area.~~

Unless otherwise exempted, separate plumbing, mechanical and electrical permits will be required for the above exempted items. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

Analysis:

Item 1 has been changed to exempt detached patio covers when sized less than 120 square feet and playground or athletic equipment from building permit requirements.

Item 14 has been modified to refer to residential television and radio antennas only.

Item 15 has been added to exempt commercial antennas less than 15 feet in height.

Item 16 has been modified to refer to electrolier standards and flagpoles only.

Item 17 has been added to exempt plastic hoop structures less than 8 feet in height.

Item 18 has been added to exempt certain agricultural wind generating machines.

Item 19 has been added to exempt certain animal shade covers.

All of these changes are administrative.

106.3.2 SUBMITTAL DOCUMENTS. Plans, specifications, engineering calculations, diagrams, soil investigation reports, special inspection and structural observation programs and other data shall constitute the submittal documents and shall be submitted in one or more sets with each application for a permit. When such plans are not prepared by an architect or engineer, the building official may require the applicant submitting such plans or other data to demonstrate that state law does not require that the plans be prepared by a licensed architect or engineer. The building official may require plans, computations and specifications to be prepared and designed by an engineer or architect licensed by the state to practice as such even if not required by state law.

EXCEPTION: The building official may waive the submission of plans, calculations, construction inspection requirements and other data if it is found that the nature of the work applied for is such that reviewing of plans is not necessary to obtain compliance with this code.

Computations, diagrams, schedules, soil reports, geological or geotechnical reports, and other data sufficient to show the correctness and adequacy of the plans shall be submitted when required by the Building Official.

A Survey of a lot may be required by the Building Official to assure that a structure is located in accordance with requirements, and/or is situated with respect to Mean Sea Level such that it complies with regulations governing construction in flood-prone areas.

Analysis:

This section has been revised to use the language of the 1997 UBC, except for the paragraphs about geological reports and lot surveys. This is an editorial change only.

Sec. 106.4 - PERMITS ISSUANCE

106.4.1 PERMIT ISSUANCE AND DENIAL. The application, plans, specifications and other data filed by an applicant for a permit shall be reviewed by the Building Official. Such plans may be reviewed by other departments of the County to verify compliance with any applicable laws under their jurisdiction. If the Building Official finds that the work described in an application for a permit and the plans, specifications, and other data filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, and that all required fees have been paid, he shall issue a permit therefor to the applicant.

Except where special building designs or other mitigating measures have been approved by the Building Official and cooperating officials of other County agencies, a building permit may be

denied where physical features of a building site are such that a denial of the building permit is deemed necessary to safeguard life or limb, health, property, or public welfare. Physical features which justify the denial of a permit shall include but shall not be limited to:

1. Precipitous cliffs or other nearby vertical land masses of unknown stability.
2. Unstable soils or geologic conditions.
3. Terrain which is subject to flooding, inundation, or sever soil erosion.

When the Building Official issues the permit, he shall endorse in writing or stamp on both sets of plans and specifications "APPROVED." Such approved plans and specifications shall not be changed, modified, or altered without authorization from the Building Official, and all work regulated by this Code shall be done in accordance with the approved plans.

The Building Official may issue a permit for the construction of part of a building or structure before the entire plans and specifications for the whole building or structure have been submitted or approved provided adequate information and detailed statements have been found complying with all pertinent requirements of this Code. The holder of such permit shall proceed at his/her own risk without assurance that the permit for the entire building or structure will be granted.

106.4.1.1 PERMIT ISSUANCE: RESTRICTIONS. The issuance of permits shall be restricted to those applicants or their authorized representatives who are entitled by the regulations and the exemptions in the State Contractor's License Law, Business and Professions Code, and other applicable statutes to perform work regulated by this Code.

1. Owner-Builder permits may be issued to a property owner building or improving his/her principal place of residence or appurtenances thereto, provided that all of the following conditions exist:

   (a) The residence is not intended or offered for sale.

   (b) The homeowner has actually resided in the residence for the 12 month period prior to the completion of the work for which the permits is issued.

2. Owner-Builder permits may be issued to a property owner building or improving structures thereon who contract for such projects with licensed contractors pursuant to Division 3, Chapter 9, of the California Business and Professions Code.

3. Tenant Improvement permits may be issued to tenants when authorized by the building owner for work within the tenant space.

ANALYSIS:

This section has been modified by adding language allowing the denial of a permit because of unstable land masses or soil conditions, precipitous cliffs or terrain subject to flooding, inundation or severe erosion. These changes are administrative but based on geologic and topographical conditions.

106.4.4 EXPIRATION OF PERMIT. Every permit issued by the Building Official under the provisions of this Code shall expire by limitation and become null and void, if the building or

work authorized by such permit is not commenced within 180 days after the date of issuance of such permit or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days, or if the work authorized by such permit does not receive final inspection approval within 3 years from the issuance date of the permit. Before such work may be recommenced, a new or renewed permit shall first be obtained to do so. The fee therefor shall be based upon the valuation and extent of work remaining to complete the project, but such fee shall not exceed one-half the current permit fee providing no changes have been made or will be made in the original plan and specifications for such work; and provided further that such suspension or abandonment has not exceeded one year. In order to renew action on a permit after expiration has exceeded one year, the permittee shall pay a new full permit fee.

Any permittee holding an unexpired permit may apply for an extension of the time within which he may perform work under that permit when he is unable to perform work within the time required by this section for good and satisfactory reasons. The Building Official may, without requiring payment of an additional permit fee, extend the time for action by the permittee for a period not exceeding 180 days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once.

Demolition permits issued for the correction of violations shall expire after 30 days.

For the purpose of this Section "suspended or abandoned" shall be measured as elapsed time between approved REQUIRED INSPECTIONS as delineated in UBC Sections 108.5 through 108.7.

ANALYSIS:

The time limits for permit expiration have been changed to conform to the language of the 1997 UBC. This was done to be consistent with a new computerized tracking system. In addition, a 30-day time limit for demolition permits issued to abate violations has been added. These are editorial and administrative changes.

107.2 BUILDING PERMIT FEES. The fee for each building permit shall be as set forth in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The determination of value or valuation under any of the provisions of this Code shall be made by the Building Official. The valuation to be used in computing the permit and plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire-extinguishing systems and any other permanent equipment.

107.2.1 ELECTRICAL PERMIT FEES. The fee for each electrical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.2 MECHANICAL PERMIT FEES. The fee for each mechanical permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.3 PLUMBING PERMIT FEES. The fee for each plumbing permit shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.2.4 OTHER FEES. Other fees charged for services by the Division of Building and Safety shall be in accordance with the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

107.3 PLAN REVIEW FEES. When a plan or other data are required to be submitted by Sec. 106.3.2, a plan review fee shall be paid at the time of submitting plans and data for plan review. Said plan review fee shall be ~~65~~ 75 percent of the building permit fee as shown in the Ventura County Building and Safety Fee Schedule as established by the Board of Supervisors.

The plan review fees specified in this subsection are separate fees from the permit fees ~~and are in addition to the permit fees~~.

The amount of the plan review fee for the initial submittal of a "Standard Plan" as defined herein shall be the full plan review fee as specified above. The plan review fee for subsequent submittals of a plan which qualifies as a "Standard Plan" shall be one-half of the initial plan review fee. "Standard Plan is hereby defined as a prototype plan for a building or structure which is to be utilized at more than one site, and which incorporates the same essential structural features, design, dimensions and calculations as the original approved plan. A "Standard Plan" shall be void three years after its original approval or upon revision of the applicable codes under which it was initially reviewed, or at the discretion of the Building Official."

When plans are incomplete or are changed so as to require additional plan review, an additional plan review fee shall be charged but such fee shall not exceed one-half the initial plan review fee. Corrected plans which are resubmitted to the Division of Building and Safety for approval subsequent to initial plan review shall not be subject to an additional plan review fee. The fee for additional plan review may be waived by the Building Official when the time consumed in the performance of such service totals less than one-half hour.

ANALYSIS:

The plan review fee has been increased from 65% to 75% to cover the costs of additional plan review items such as storm water drainage, mobile home regulation, flood control design requirements, and data collection and distribution.

107.4 EXPIRATION OF PLAN REVIEW. Applications for which no permit is issued within 180 days following the date of application shall expire by limitation, and plans and other data submitted for review may thereafter be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 days on request by the applicant showing that circumstances beyond the control of the applicant have prevented action from being taken. No application shall be extended more than once. In order to renew action on an application after expiration, the applicant shall resubmit plans and pay a new plan review fee. When plans are resubmitted for checking after expiration of plan review and no changes have been made or will be made in the original plans and specifications for the work, and no code changes have occurred, the plan review may be

renewed for 180 days and the plan review fee may be one-half the current plan review fee provided the re-submittal has not exceeded one year from the expiration date.

ANALYSIS:

This section revises the current code language to include an allowance for a renewal of the plan review after it has expired under certain conditions. This is an administrative change.

107.5 INVESTIGATION FEES: WORK WITHOUT PERMIT.

107.5.2 FEE. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then, or is subsequently, issued. The investigation fee shall be equal to the amount of the permit fee required by this Code, and shall in no case be less than the minimum fees required by the Ventura County Building and Safety Fee Schedule.

The payment of such investigation fee shall not exempt any person from compliance with all applicable provisions of this code or any of the codes adopted by reference hereby, nor from any penalty prescribed by law.

Analysis:

This is an editorial change to refer to the proper title of the fee schedule.

107.6 FEE REFUNDS. The Building Official may authorize the refunding of fees upon written application by the original permittee, within the limitations set forth herein:

(a) Permit issuance fees shall be nonrefundable except as provided in subsection (c) below.

(b) Any fee totaling thirty-five dollars ($35) or less, exclusive of any issuance fee, if any, shall be nonrefundable except as specified in subsection (c) below.

(c) 100% of any fee erroneously paid or collected shall be refundable, except for that portion paid for State Seismic Fee (SMIP).

(d) 90% of any plan review fee, less a cancellation fee, shall be refundable when the permit application is withdrawn or canceled prior to commencement of plan review.

(e) 90% of any permit fee, less a cancellation fee and State of California Seismic Fee (SMIP), shall be refundable when none of the work covered by such permit has commenced.

(f) 90% of any Board of Appeals hearing fee, less a cancellation fee, shall be refundable when such hearing is canceled prior to the issuance of a Notice of Hearing pertaining to the case.

Failure of the permittee to make written application for a refund within ~~6 months~~ 180 days of cancellation or expiration of a plan review, permit, hearing, or request for service for which a fee has been paid, shall constitute a waiver of entitlement to a refund. No partial refund shall be authorized nor credit be applied against other fees which may be payable to the Division of Building and Safety when a construction project is canceled or abandoned subsequent to partial completion of the building or work authorized by a permitted.

107.7 CANCELLATION FEE. Refunds of fees for permits and services associated with construction projects which are canceled or withdrawn prior to commencement of plan review, inspection, or performance of other service by the Division of Building and Safety shall be subject to a cancellation fee as set forth in the Ventura County Building and Safety Fee Schedule.

ANALYSIS:

This section has been expanded to handle many different cases of fee refunds. It is an administrative change.

Sec. 108 - INSPECTIONS

108.1. GENERAL. All construction or work for which a permit is required shall be subject to inspection by the building official to ensure compliance with the requirements of this Code and all such construction or work shall remain accessible and exposed for inspection purposes until approved by the building official. In addition, certain types of construction shall have continuous inspection, as specified in Section 1701.5.

Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances of the jurisdiction shall not be valid.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

A survey of the lot may be required by the building official to verify that the structure is located in accordance with the approved plans.

It shall be the responsibility of the owner or person doing work authorized by a permit to notify the Building Official by telephone, orally, or in writing when said work is ready for inspection. Such notification shall be given at least one working day before such inspection is desired.

No portion of any building, structure, wiring, plumbing, ductwork or equipment which is required to be inspected shall be permanently covered or concealed without approval of the Building Official. The Building Official shall have authority to remove, or to require the removal of, any obstruction which prevents the required inspection of any portion of a building, structure, wiring, plumbing, ductwork, electrical, or mechanical equipment, as necessary to verify compliance with the approved drawing or codes.

Analysis:

This section has been changed to include language from the 1997 UBC and to include a paragraph addressing when lot surveys may be required. This is an administrative change.

SECTION 109 - CERTIFICATE OF OCCUPANCY

109.4 TEMPORARY OR PARTIAL CERTIFICATE. Upon application by the owner, and for reasonable cause, if the building official finds that no substantial hazard will result from occupancy of any building or portion thereof before the entire building is completed, a Temporary or Partial Certificate of Occupancy may be issued for a portion or portions of the building. Such Temporary or Partial Certificate must include compliance with this code for all required access and exiting systems, toilet facilities and fire protection equipment and systems.

Upon completion of the entire structure all Temporary or Partial Certificates shall be surrendered to the building official in exchange for a final Certificate of Occupancy, as specified in UBC Section 109.3.

Analysis:

Minor editorial changes have been made to this section to improve the readability.

~~**TABLE UBC 1-A BUILDING PERMIT FEES**~~

~~TOTAL VALUATION~~	~~FEE~~
~~$1.00 to $500.00~~	~~$23.00~~
~~$501.00 to $2,000.00~~	~~$23.00 for the first $500.00 plus~~ ~~$3.00 for each additional $100.00 or fraction thereof, to and including $2,000.~~
~~$2,001.00 to $25,000.00~~	~~$68.00 for the first $2,000.00 plus $13.25 for each additional $1,000.00 or fraction thereof, to and including $25,000.00.~~
~~$25,001.00 to $50,000.00~~	~~$372.75 for the first $25,000.00 plus $9.50 for each additional $1,000.00 or fraction thereof, to and including $50,000.00.~~
~~$50,001.00 to $100,000.00~~	~~$610.25 for the first $50,000.00 plus $6.75 for each additional $1,000.00 or fraction thereof, to and including $100,000.00.~~
~~$100,001.00 to $500,000.00~~	~~$947.75 for the first $100,000.00 plus $5.25 for each additional $1,000.00 or fraction thereof, to and including $500,000.00.~~
~~$500,001.00 to $1,000,000.00~~	~~$3,047.75 for the first $500,000.00 plus $4.50 for each additional $1,000.00 or fraction thereof, to and including $1,000,000.00.~~
~~$1,000,001.00 and up~~	~~$5,297.75 for the first $1,000,000.00 plus $3.00 for each additional $1,000.00 or fraction thereof.~~
~~**Other Inspections and Fees:**~~ ~~Refer to current Ventura County Building Code Fee Schedule.~~	

Analysis:

This table has been deleted from the VCBC as it has been included in the Ventura County Building and Safety Fee Schedule which is adopted as a separate resolution by the Board of Supervisors.

CHAPTER 2 - DEFINITIONS

Section 202-A:

~~"Apartment house"~~ **"APARTMENT HOUSE"** shall mean any building or portion thereof which contains three or more dwelling units and, for the purpose of this Code, includes residential condominiums and townhouses.

Analysis:

Words being defined are now printed in bold type to improve the readability and to make them easier to find. This occurs in various places throughout the code. This is an editorial change.

Section 203-B: "Building Official"

3. For the purposes of administering provisions of the Uniform Housing Code pertaining to the abatement of health hazards ~~associated with private sewage disposal systems~~, the term "Building Official" shall mean the manager of the Division of Building and Safety and/or the Environmental Health Officer, or a duly authorized representative.

Analysis:

In paragraph 3, a reference to "private sewage disposal system" has been deleted which removes the limit on the abatement of health hazards to that item only. This is an administrative change.

Section 207-F:

207-F ~~FLOOD HAZARD AREA~~ **"FLOOD HAZARD AREA"** is an area subject to either flooding or erosion from surface water runoff, or from wave action of the Pacific Ocean, as determined by the Flood Control ~~Section~~ Division of the Public Works Agency.

Analysis:

Several references to different Public Works Agency "Sections" have been corrected to refer to "Divisions". This is an editorial change.

CHAPTER 6 - TYPES OF CONSTRUCTION

SECTION 607 - HIGH FIRE HAZARD AREAS

Sec. UBC 607.1 HIGH FIRE HAZARD AREA DEFINED. For the purpose of this code, certain areas in the unincorporated territory of the County shall be classified as the High Fire Hazard

Area by the Ventura County Fire Protection District. The High Fire Hazard Area is defined as any area within 500 feet of uncultivated brush, grass, or forest-covered land wherein an authorized representative of said District determines that a potential fire hazard exists due to the presence of such flammable growth.

Sec. UBC 607.2 CONSTRUCTION REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The purpose of this Section is to provide a minimum standard for the fire protection of buildings and structures hereafter erected in proximity to areas of the County where concentrations of highly flammable brush, grass, or other combustible growth combined with periods of hot, dry winds create a high fire hazard, and where lives and property may thereby be endangered.

Buildings or structures hereafter erected, constructed or moved within or into designated high fire hazard areas, including mobilehomes, shall be one of the Types of Construction as defined in this Code and shall meet the requirements of this Section. Although their installation is encouraged, neither manual nor automatic fire extinguishing systems or similar water spraying devices may be substituted for the fire protection set forth herein.

607.2.1 ROOFS. Roof coverings shall be fire retardant Class A. as specified in Section 1504 in the UBC.

607.2.2 EXTERIOR WALLS. Fire-resistive protection of exterior walls and openings, as determined by location on property, shall be as required by Section 503 in the UBC.

EXCEPTION: No exterior wall covering of a building shall provide less fire resistance than that afforded by: 7/8-inch exterior cement plaster; 1-inch nominal thickness solid wood siding; 1/2-inch textured plywood siding having a groove depth of 1/8-inch or less; 7/16-inch hardwood siding; 5/8-inch particleboard, exterior type 2-M; or 5/8-inch exterior plywood, T1-11, having a groove depth of 1/4-inch or less. Fire-retardant treated or untreated wood shingle or shake siding shall not be permitted.

607.2.3 UNDERFLOOR AREAS. Where underfloor areas are not enclosed by fire-resistive construction conforming to the requirements of subsection 607.2.2 above, the underside of the floor system shall be fire-protected as set forth in subsection 607.2.4.

607.2.4 PROJECTIONS AND OTHER BUILDING ELEMENTS EXPOSED TO FIRE. Architectural projections such as roof overhangs and soffits, balconies and decks, and other elements of building which have combustible structural elements in the horizontal plane, shall be protected with materials approved for 1-hour fire-resistive construction on the lower, fire-exposed side and shall have 1-hour fire-resistive supporting columns unless the details of construction conform to those for heavy timber as described in Section 605 in the UBC.

EXCEPTIONS: 1. Combustible structural members in horizontal projections may be unprotected timbers of size 4 x 6 or larger when used as rafters or as stair, balcony, or deck supports or for similar purposes.

2. Patios, carports, arbors and open latticework sunshades may be constructed of any materials allowed by this Code.

3. Balconies and decks 30 inches or more above grade may have flooring of not less than 2-inch nominal thickness lumber or material of equivalent fire

resistance. Such flooring may be spaced not more than 1/4-inch apart and need not be fire protected on the underside.

Balconies and decks less than 30 inches above grade shall be solidly floored without gaps and shall be fire-protected on the underside as required by this Section. In lieu of fire protection, such balconies and decks may be enclosed from floor surface to grade in the manner prescribed for exterior walls in subsection 607.2.2 of this Section.

4. Combustible exterior columns directly supporting roofs, stairs, balconies, and decks may be size 4 x 4 or larger. Columns and beams supporting interior floor loads may be size 6 x 6 or larger.

607.2.5 VENTILATION OPENINGS. Attic or foundation ventilation opening or louvers shall not be located at or within 18", measure vertically, of eaves or rakes, soffits, balconies, decks, or similar exterior overhangs which may be directly exposed to a fire in adjacent hazardous grass or brush areas.

607.3 WAIVER OF REQUIREMENTS. The Building Official may waive the requirements of UBC 607.2.1 through 607.2.5 above, in whole or in part, for specific construction projects within the High Fire Hazard Area when such waiver is approved by an authorized representative of the Ventura County Fire Protection District, based upon site conditions which justify a reduction in fire resistance.

ANALYSIS:

This section has been added to address the special construction requirements for buildings constructed in high fire hazard areas. Theses amendments are necessary because of local climatic and topographical conditions.

CHAPTER 16 - DIVISION I - STRUCTURAL FORCES

Sec. 1611 OTHER MINIMUM LOADS.

1611.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

ANALYSIS:

This section has been added to deal with the testing and acceptance requirements for drilled-in expansion bolt anchors and epoxy-type anchors. This is an administrative change.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1803 SOIL CLASSIFICATION - EXPANSIVE SOIL.

1803.2 EXPANSIVE SOIL. The expansive characteristics of soil shall be determined by procedures in accordance with UBC Standard Number 18-1 and the soils shall be classified according to Table Number 18-1-B of this Code. Foundations for structures bearing on soils with an expansion index greater than 20, as determined by UBC Standard Number 18-2, shall require special design consideration. In the event the soil expansion index varies with depth, the weighted index shall be determined according to Table Number 18-1-C in the UBC. The Soil Expansion Index shall be listed in all soils investigation reports.

A test to determine the soil expansion index shall be conducted for each building site except that in subdivisions the frequency of testing need not exceed one test per five contiguous lots or one test per five acres, whichever are is smaller. Such tests shall be made after rough grading is completed. Tests shall include a determination of the expansion index for the most expansive soil encountered within the top four feet at each test location whether in cut or fill or a combination thereof.

The expansion index for soil on subdivision lots which have not been individually tested shall be assumed to correspond to the highest reading determined by tests on proximate lots.

ANALYSIS:

This section has been modified to clarify the requirements for testing for expansive soils and to provide standards to which to design foundations in areas of moderate to high expansivity. This change is due to the special geologic conditions found in areas of highly expansive soils.

CHAPTER 18 - FOUNDATION AND RETAINING WALLS

Section 1804 FOUNDATION INVESTIGATION.

1804.2 INVESTIGATION. The classification of soil shall be based on observation and necessary tests of the materials disclosed by borings or excavations made in appropriate locations. Additional studies may be required to evaluate soil strength, the effect of moisture variation on soil bearing capacity, compressibility, liquefaction and expansiveness.

In Seismic Zones 3 and 4, when required by the building official, the potential for seismically induced soil liquefaction and soil instability shall be evaluated as described in Section 1804.5.

EXCEPTIONS: 1. The building official may waive this evaluation upon receipt of written opinion of a qualified geotechnical engineer or geologist that liquefaction is not probable.

2. A detached, single-story dwelling of Group R, Division 3 Occupancy with or without attached garages ~~and single-story accessory structures thereto~~.

3. Group U, Division 1 Occupancies.

4. Fences.

5. ~~Detached single-story Group U, Division 3 occupancies.~~

Whenever, in the opinion of the Building Official, the adequacy and stability of a building site cannot be determined by the test borings or excavations required by this section, he may require a special geologic, geotechnical, hydrologic, seismic, or other investigation and report. Geologic investigations such as those for hillside stability or seismic hazards shall be conducted by a California-certified Engineering Geologist.

Analysis:

Exception 2 has been modified to exempt single story structures accessory to single family dwellings. Exception 5 has been added to exempt single story agricultural buildings. These changes are administrative.

1806 FOOTINGS.

Section 1806.1. GENERAL. Footings and foundations, unless otherwise specifically provided, shall be constructed of masonry, concrete or treated wood in conformance with Chapter 18, Division II and in all cases shall extend below the frost line. Footings of concrete and masonry shall be of solid material. Foundations supporting wood shall extend at least 6 inches above the adjacent finish grade. Footings, foundations, and concrete slab floors at or below grade shall be constructed to comply with Table UBC 18-1-D (Rev.) and footnotes thereto in this ordinance, except when an approved alternative design is provided based on a foundation investigation. UBC Table 18-1-D and footnotes thereto in the UBC is hereby deleted in its entirety, and is replaced by VCBC Table UBC 18-1-D (Rev.) and footnotes thereto, published herewith.

The provisions of this section do not apply to building and foundation systems in those areas subject to scour and water pressure by wind or wave action. Buildings and foundations subject to such loads shall be designed in accordance with approved national standards. See Section 3302 for subsoil preparation and wood form removal.

1806.11 HOLD-DOWN CONNECTORS.

1. All bolt-holes shall be 1/16" (max) over-sized at the connection of hold-downs to posts.

2. Hold-down connection bolts/nuts shall be torqued ½ turn beyond finger tight or as required by manufacturer.

3. Approved plate washers, in-lieu of cut washers, shall be provided for all plywood shearwall sill plate anchor bolts. See Table "A" below.

4. Approved plate washers, in-lieu of cut washers, shall be provided for hold-down connector bolts at shearwall wood flanges. See Table "A" below.

TABLE - A

MINIMUM SIZE FOR SQUARE PLATE WASHERS

BOLT SIZE	PLATE SIZE
1/2"	3/16" x 2" x 2"
5/8"	1/4" x 2 1/2" x 2 1/2"
3/4"	5/16" x 2 3/4" x 2 3/4"
7/8"	5/16" x 3" x 3"
1"	3/8" x 3 1/2" x 3 1/2"

1806.12 DRILLED-IN EXPANSION BOLT ANCHORS OR EPOXY-TYPE ANCHORS. Where additional foundation plate anchor bolts are required after foundations are completed, drilled-in expansion bolts, cinch bolts, or epoxy-type anchors may be used when approved by the building official. When used, these bolts shall be sized and installed in accordance with an approval from a recognized approval agency or the manufacturer's design criteria and installation specifications. Drilled-in expansion bolts and cinch bolts shall be tested by an independent testing laboratory to a minimum of 1,000 pounds or to twice the allowable design value for the same size bolt, whichever is greater.

Frequency of testing shall be:

One to five bolts per site - two bolts, selected at random shall be tested and certified.

More than five bolts - 25 percent of such bolt with a minimum of two shall be selected at random to be tested and certified.

Failing bolts shall be reinstalled and retested to the same criteria.

Additional bolts may be required to be tested by the Building Official.

1806.13 GRADE BEAM, GARAGE OPENING. A grade beam not less than 12" x 12" in cross section, or 12" x depth required by Table UBC 18-1-D (Rev.), whichever is deeper, reinforced as specified for continuous foundations in Table UBC 18-1-D, shall be provided at garage door openings.

1806.14 FIREPLACE FOOTINGS. Fireplace footings shall be reinforced with a horizontal grid located 3" above the bottom of the footing and consisting of not less than No. 4 Bars at 12" on center each way. Vertical chimney reinforcing bars shall be hooked under the grid. Depth of fireplace chimney footings shall be no less than that required by Table UBC 18-1-D (Rev.).

ANALYSIS:

This section has been modified by changes found in Table 18-D due to specific geologic conditions found in Ventura County. These changes are geologically based.

CHAPTER 23 - WOOD

TABLE 23-II-~~I~~G MAXIMUM DIAPHRAGM DIMENSION RATIOS

MATERIAL	HORIZONTAL DIAPHRAGMS	VERTICAL DIAPHRAGMS
	Maximum Span-Width Ratios	Maximum Height-Width Ratios
1. Diagonal sheathing, conventional 2. Diagonal sheathing, special 3. Wood structural panels and particleboard, nailed all edges	3:1 4:1 4:1	~~2:1~~ ~~1:1~~ 2:1 2:1
4. Wood structural panels and particleboard, blocking omitted at intermediate joints	4:1	~~2:1~~ ~~NP~~

Analysis:

This table has been revised to reflect changes made in the 1997 UBC. Footnote 3 in the code has been dropped out due to the high level of seismcity (i.e., Northridge Earthquake) in this region. This is a change based on local geology.

TABLE 23-II-1-1 — ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES IN POUNDS PER FOOT FOR WOOD STRUCTURAL PANEL SHEAR WALLS WITH FRAMING OF DOUGLAS FIR-LARCH OR SOUTHERN PINE.[1, 2, 3, 4]

PANEL GRADE	MINIMUM NOMINAL PANEL THICKNESS (INCHES)	MINIMUM NAIL PENETRATION IN FRAMING (INCHES)	PANELS APPLIED DIRECTLY TO FRAMING					PANELS APPLIED OVER 1/2-INCH (13 mm) OR 5/8-INCH (16 mm) GYPSUM SHEATHING				
			Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (in.)				Nail Size (Common or Galvanized Box)	Nail Spacing at Panel Edges (in.)			
				x 25.4 for mm					x 25.4 for mm			
				6	4	3	2		6	4	3	2
	x 25.4 for mm			x 0.0146 for N/mm					x 0.0146 for N/mm

	3/8			150	225	293	383		150	225	293	383
	3/8	1 1/2	8d	165[5]	240[5]	308[5]	398[5]	10d[6]	195	368	368	480
	7/16			180[5]	263[5]	338[5]	439[5]					
	15/32			195	285	368	480					
	15/32	1 5/8	10d[6]	233	345	450	578	–	–	–	–	–
	19/32			255	383	499	653					
			Nail Size (Galvanized Casing)					Nail Size (Galvanized Casing)				
Plywood panel siding in grades covered in U.B.C. Standard 23-2	5/16	1 1/4	6d	105	158	206	270	8d	105	158	206	270
	3/8	1 1/2	8d	120	180	233	308	10d[6]	120	180	233	308

[1] All panel edges backed with 2-inch (51 mm) nominal or wider framing. Panels installed either horizontally or vertically. Space nails at 6 inches (152 mm) on center along framing members for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels installed on studs spaced 24 inches (610 mm) on center and 12 inches (305 mm) on center for other conditions and panel thicknesses. These values are for short-time loads due to wind or earthquake and must be reduced 25 percent for normal loading.

Allowable shear values for nails in framing members of other species set forth in Table 23-III-FF of Division III shall be calculated for all other grades by multiplying the shear capacities for nails in Structural I by the following factors: 0.82 for species with specific gravity greater than or equal to 0.42 but less than 0.49, and 0.65 for species with a specific gravity less than 0.42.

[2] Where panels are applied on both faces of a wall and nail spacing is less than 6 inches (152 mm) on center on either side, panels joints shall be offset to fall on different framing members or framing shall be 3-inch (76 mm) nominal or thicker and nails on each side shall be staggered.

[3] Framing at boundary and panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered for all plywood shear walls with shear values exceeding 300#/ft. Nailing edge distance for 3x boundary and panel edge members shall be 1/2-inch minimum.

[4] The maximum allowable shear for 3-ply plywood, less than 5/8-inch thickness, shall not exceed 200#/ft. when used in shearwalls and framing of Douglas Fir-Larch or Southern Pine.

[5] The values for 3/8-inch (9.5 mm) and 7/16-inch (11 mm) panels applied direct to framing may be increased to values shown for 15/32-inch (12 mm) panels, provided studs are spaced a maximum of 16 inches (406 mm) on center or panels are applied with long dimension across studs.

[6] Framing at adjoining panel edges shall be 3-inch (76 mm) nominal or wider and nails shall be staggered where 10d nails having penetration into framing of more than 1 5/8 inches (41 mm) are spaced 3 inches (76 mm) or less on center.

B6530911-5/99

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 25 - GYPSUM BOARD AND PLASTER

Section 2513 - SHEAR-RESISTING CONSTRUCTION WITH WOOD FRAME.

2513.4 HEIGHT TO LENGTH RATIO. The maximum allowable height-to length ratio for the construction in this section shall be 1 to 1. Wall sections have height-to-length ratios in excess of 1½ to 1 shall be blocked.

ANALYSIS:

Changes to this section are based on the performance evidence of this type of construction from the Northridge Earthquake. These changes are based on local geologic conditions.

TABLE 25-I - ALLOWABLE SHEAR FOR WIND OR SEISMIC FORCES
IN POUNDS PER FOOT FOR VERTICAL DIAPHRAGMS OF
LATH AND PLASTER OR GYPSUM BOARD FRAME WALL ASSEMBLIES[1]

TYPE OF MATERIAL	THICKNESS OF MATERIAL	WALL CONSTRUCTION	NAIL SPACING[2] MAXIMUM (inches)	SHEAR VALUE	MINIMUM NAIL SIZE[3]
	x 25.4 for mm		x 25.4 for mm	x 14.6 for N/m	x 25.4 for mm
1. Expanded metal, or woven wire lath and portland cement plaster	7/8"	Unblocked	7	90	No. 11 gage 1 1/2" long, 7/16" head[4]
2. Gypsum lath	3/8" lath and 1/2" plaster	Unblocked	7	30	No. 13 gage, 1 1/8" long, 19/64" head, plasterboard blued nail
3. Gypsum sheathing board[5]	1/2" x 2' x 8'	Unblocked	7	30	No. 11 gage, 1 3/4" long, 7/16" head, diamond-point, galvanized
	1/2" x 4' 1/2" x 4'	Blocked Unblocked	7 7	30 30	
4. Gypsum wallboard or veneer base[5]	1/2"	Unblocked	7	30	5d cooler (0.086" dia., 1 5/8" long 15/64" head) or wallboard (0.086" dia., 1 5/8" long, 9/32" head)
			7	30	
		Blocked	7	30	
			7	30	
	5/8"	Unblocked	7	30	6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head)
			7	30	
		Blocked	7	30	
			7	30	
		Blocked Two ply	Base ply: 7 Face ply: 7	60	Base ply - 6d cooler (0.092" dia., 1 7/8" long, 1/4" head) or wallboard (0.0915" dia., 1 7/8" long, 19/64" head) Face ply - 8d cooler (0.113" dia., 2 3/8 long, 9/32" head) or wallboard (0.113" dia., 2 3/8" long, 3/8" head

[1]These vertical diaphragms shall not be used to resist loads imposed by masonry or concrete construction. See Section 2513.2. Values shown are for short-term loading due to wind or due to seismic loading in Seismic Zones 0, 1, 2A and 2B. Values shown must be reduced 25 percent for normal loading. The values shown in Items 2, 3 and 4 shall be reduced 50 percent for lading due to earthquake in Seismic Zones 3 and 4.
[2]Applies to nailing at all studs, top and bottom plates and blocking.
[3]Alternate nails may be used if their dimensions are not less than the specified dimensions.
[4]Required minimum nailing shall be No. 11 gage x 1 1/2" long galvanized nails with lath burred to 1/4" from the face of the building paper. Staples and self-barring lath shall not be permitted.
[5]Frame wall assemblies constructed of Portland cement plaster, gypsum sheathing board or gypsum wall board are not permitted to carry shear loads at ground floor of multi-level buildings.

ANALYSIS:

The allowable shear values in this table have been reduced by 25% following the Northridge Earthquake due to actual performance experience. These changes are based on local geologic conditions.

CHAPTER 40 RELOCATED BUILDINGS AND TEMPORARY STRUCTURES

Sec. 40.1. GENERAL REQUIREMENTS. Buildings or structures moved into or within the County shall comply with the provisions of this Code for new buildings or structures except when otherwise permitted by this Code or by State law.

Temporary structures such as reviewing stands and other miscellaneous structures, sheds, canopies or fences used for the protection of the public around and in conjunction with construction work may be erected by special permit from the Building Official for a limited period of time. Such buildings or structures need not comply with the type of construction or fire-resistive time periods required by this Code. Temporary buildings or structures shall be completely removed upon the expiration of the time limit stated in the permit.

Sec. 40.2. PERMIT(S) REQUIRED. It shall be unlawful for any person, firm, or corporation to move or cause to be moved any building or structure excepting a contractor's tool house, construction office, or similar structure which is relocated as construction requires, into or within the County without first obtaining a permit to do so from the Building Official.

EXCEPTION: Buildings moved to the business premises of a house mover for the purpose of temporary storage.

Sec. 40.2.1 NOTIFICATION OF RELOCATED BUILDING. Prior to issuance of relocation permit for any structure and as a part of the application therefor, a Notice of Relocated Building, on a form furnished by the Building Official, shall be posted at the site of the building proposed to be relocated and at the proposed new site location. This public notice shall be maintained for a minimum of 15 days from the date of the application for relocation permit. During this period, interested parties may submit written comments to the Building Official regarding said proposed relocation. (refer to Sec. 40.5 DENIAL OF PERMIT.)

Sec. 40.3. APPLICATION AND INVESTIGATION FEE. To obtain a permit to relocate a building or structure the applicant shall first file an application therefor as required by Section 106.3 in this ordinance. The Building Official may require plans, photographs and other data to substantiate the application.

Each application shall be accompanied by the required investigation fee to cover the costs of processing the application, inspecting the building and premises, and handling other matters connected therewith. Such fee shall be non-refundable. If the building to be moved is located outside the County, the applicant shall pay an additional fee as set forth in the Ventura County Building and Safety Fee Schedule to cover increased costs of inspection and mileage.

40.3.1 The Building Official shall make the following findings prior to issuing the permit:

1. That there is evidence of full compliance with the zoning provisions of Ventura County Ordinance Code, Division 8 - PLANNING AND DEVELOPMENT.

2. That the building shall comply, or shall be altered to comply, with current building, electrical, heating and air conditioning, and plumbing code requirements.

3. That all necessary and required documentation has been submitted for review, including, but not limited to, plans and specifications for all required or proposed improvements at the new location, a soils investigation report, a current termite inspection report, a water "will serve" letter from a recognized water provider or an approved water well certificate, a sewer "will serve" letter from a recognized sanitation district or an approved septic system certificate, and a surety bond in the amount determined by the Building Official as set forth in Sec. 11-16 of this Code.

Sec. 40.4. INVESTIGATION AND REPORT. The Building Official shall cause an investigation to be made of each building or structure for which an application for a relocation permit has been received. A written report shall be prepared based on such inspection, and a copy of the report shall be given to the applicant. This report shall contain the approval or disapproval by the Building Official for relocating the building. If approved for relocation, the report shall list the requirements and corrections necessary for making the building conform to the codes adopted herein.

In granting an approval for relocation, the Building Official may impose such terms and conditions as he may deem reasonable and proper, including time limits for completion of all work, and requirements for whatever changes, alterations, additions, or repairs are necessary to assure that relocation will not be materially detrimental or injurious to public health, safety, or welfare.

The investigation report shall remain valid for a period of 180 days after the building or structure has been inspected, after which time a new investigation and report may be required by the Building Official.

Sec. 40.5. DENIAL OF PERMIT. The Building Official may deny the issuance of a relocation permit for any building or structure which:

1. Is so constructed or is in such condition as to be dangerous.

2. Is infested with pests or is insanitary.

3. Is in such condition in the judgment of the Building Official that it does not admit of practicable and effective repair.

4. Is so dilapidated, defective, or unsightly or is in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the area to which it would be relocated.

5. Because of age, size design or architectural treatment, does not substantially conform to the design, plan and construction of the buildings located in the area to which it is to be relocated so that its relocation would be materially detrimental to the property or improvements in said area.

Sec. 40.6. SECURITY REQUIRED. The Building Official shall not issue a permit to relocate a building or structure unless the applicant therefor shall first post with the Building Official a performance bond executed by the owner of the premises where the building or structure is to be located, listing said owner as principal, and an approved surety company authorized to do business in the State as surety; a cash bond naming the County of Ventura as payee; or an assignment of certificates or shares issued by a lending institution doing business in this state and insured by the FDIC. The Building Official may waive the requirement of security when the owner of the property is a governmental agency.

The performance bond required by this Section shall:

1. Be in form joint and several.

2. Name the County of Ventura as obligee.

3. Guarantee that the required work will be completed or, when ordered by the Building Official, the building or structure will be removed or demolished and the site cleared, cleaned, and restored to its original condition.

4. Be in an amount equal to the estimated cost, plus 10 percent, of the work required to be done in order to comply with all of the conditions of the relocation permit or shall be in an amount equal to the cost of demolition and removal, whichever is greater. Such costs for purposes of the bond shall be as estimated by the Building Official.

5. State therein the legal description or address of the property to which the building or structure is to be relocated.

Sec. 40.7. CONDITIONS OF SECURITY. Every performance bond, cash bond, or assignment of shares required by this article shall be conditioned as follows:

1. Unless otherwise specified in the investigation report, work required to be done pursuant to the conditions of the relocation building permit shall be initiated within 180 days from the date of issuance of the permit.

2. The time limit specified may be extended for good and sufficient cause after written request of the principal or surety, before said time limit has expired. The Building Official shall notify the principal and surety in writing of such time extension and may extend the time limit without consent of the surety.

3. The term of each bond posted pursuant to this Article shall begin upon the date of the posting thereof and shall end upon the completion to the satisfaction of the Building Official of the performance of all the terms and conditions of the relocation building permit.

4. The Building Official and the surety, or the duly authorized representative of either, shall have access to the premises described in the relocation permit for the purpose of inspecting the progress of the work.

5. Upon default by the principal, the surety shall cause all required work to be performed as set forth in the conditions of the investigation report and relocation permit.

6. In the event of default in the performance of any term or condition of the relocation permit, the surety or any person employed or engaged on its behalf, or the Building Official or any person employed or engaged on his behalf, may go upon the premises to complete the required work or to remove or demolish the building or structure, and to clear, clean, and restore the site.

Sec. 40.8. PERMIT ISSUANCE AND FEES. Before a permit is issued for the relocation of a building and its reconstruction, repair, and completion at a new site, all required plan review and permit fees shall be paid. The required permits, together with the investigation report, shall comprise the "relocation permit" for the purposes of this Article.

The value to be used in computing the relocation building permit and plan review fees shall be as set forth in Sec. 107.2 in this Code, based upon the estimated cost of all construction necessary to complete the structure.

Sec. 40.9. EXPIRATION OF PERMIT. Permits for the relocation, reconstruction, and repair of a building or structure shall be null and void in accordance with the provisions of Section 106.4.4 in this Code if the building or structure is not relocated to the proposed site and/or the required work commenced within 6 months of the date of issuance of such permits.

Sec. 40.10. PROCEDURE UPON DEFAULT.

40.10.1 PERFORMANCE BOND. Should the principal fail to comply with the conditions required by the relocation permit, the Building Official shall give notice of default in writing to the principal and to the surety named in the performance bond.

The notice of default shall state the conditions of the bond which have not been complied with and shall specify the period of time the Building Official deems to be reasonably necessary for completion of the work.

Upon receipt of a notice of default, the surety shall cause the required work to be completed within the time specified.

The surety shall have the option of removing or demolishing the building or structure in lieu of completing the required work, in which case the site shall be suitably cleared, cleaned, and restored to the satisfaction of the Building Official.

EXCEPTION: The surety may be granted a release from its obligation to perform under the conditions of the performance bond provided:

1. A written agreement is executed between Surety and the Division of Building and Safety under which the Division assumes responsibility for causing completion of required work or demolition of the structure; and

2. A cash bond is posted by the Surety in the amount of the performance bond, payable to the County of Ventura, to enable the Building official to cause the required work of repair or demolition to be performed in accordance with Section 40.10.2 in this ordinance.

40.10.2 CASH BOND. When a cash bond has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official at his own discretion may proceed without delay and without further notice or proceeding to use the cash deposit or any portion thereof to cause the required work to be completed by contract or otherwise.

40.10.3 ASSIGNMENT OF SHARES. When an assignment of share has been posted the Building Official shall give notice of default to the principal in the manner set forth above. Should the principal fail to comply with requirements within the specified time period, the Building Official may request payment of the assigned certificates or shares or any portion thereof by the lending institution and at his own discretion the Building Official may proceed without delay and without further notice or proceeding to use such assets to cause the required work to be completed by contract or otherwise.

Sec. 40.11 RELEASE OF SECURITY.

40.11.1 PERFORMANCE BOND. When all conditions and requirements of the relocation permit and applicable laws and ordinances have been completed, the Building Official shall notify the surety that the bond has been exonerated.

40.11.2 CASH BOND. When a cash bond has been posted and all requirements of the relocation permit have been completed, the Building Official shall return the cash to the depositor, or to his successors or assigns, except any portion thereof that may have been used, cashed, or deducted as provided elsewhere in this Article.

40.11.3 ASSIGNMENT OF SHARES. When an assignment of shares has been made and all requirements of the relocation permit have been completed, the Building Official shall notify the lending institution and shall do all things reasonably necessary to effect a release of said assignment to the principal or to his successors or assigns, except any portion thereof that may have been used, cashed or deducted as provided elsewhere in this Article.

ANALYSIS:

This entire chapter has been added to deal with moved buildings and to provide the procedures necessary for their proper permitting and installation. This is an administrative change.

CHAPTER 41 SWIMMING POOLS, ORNAMENTAL POOLS, AND APPURTENANT FENCING

SECTION 41.1 - GENERAL

41.1.1 SCOPE. The provisions of this section apply to the design and construction of barriers for swimming pools located on the premises of Group R, Division 3 Occupancies.

4.1.2 STANDARDS OF QUALITY. In addition to the other requirements of this code, safety covers for pools and spas shall meet the requirements for pool and spa safety covers as listed below. The standard list below is a recognized standard. (See Section 3504.)

ASTM F 1346, Standard Performance Specification for Safety Covers and Labeling Requirement for All Covers for Swimming Pools, Spas and Hot Tubs.

SECTION 41.1.3 - DEFINITIONS.

For the purpose of this Article certain terms, words and phrases are defined as follows:

Aboveground/On-Ground Pool. See definition of "swimming pool."

Approved safety pool cover means a manually or power-operated safety pool cover that meets all of the performance standards of the American Society for Testing and Materials (ASTM), in compliance with standard F1346.

Barrier (enclosure) is a fence, wall, building wall or combination thereof that completely surrounds the swimming pool and obstructs access to the swimming pool.

Exit Alarms means devices that make audible, continuous alarm sounds when any door or window, that permits access from the residence to the pool area that is without any intervening enclosure, is opened or is left ajar. Exit alarms may be battery operated or may be connected to the electrical wiring of the building.

Grade is the underlying surface, such as earth or a walking surface.

Hot Tub. See definition of "spa, nonself-contained" and "spa, self-contained."

In-Ground Pool. See definition of "swimming pool."

Public Swimming Pool means a swimming pool operated for the use of the general public with or without charge, or for the use of the members and guests of a private club. Public swimming pool does not include a swimming pool located on the rounds of a private single-family home.

Separation Fence is a barrier that separates all doors of a dwelling unit with direct access to a swimming pool from the swimming pool.

Spa, Nonself-Contained, is a hydromassage pool or tub for recreational or therapeutic use, not located in health-care facilities, designed for immersion of users and usually have a filter, heater and a motor-driven blower. It may be installed indoors or outdoors , on the ground or on a supporting structure, or in the ground or in a supporting structure. A nonself-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Spa, Self-Contained, is a continuous-duty appliance in which all control, water-heating and water-circulating equipment is an integral part of the product, located entirely under the spa skirt. A self-contained spa is intended for recreational bathing and contains water over 18 inches deep.

Swimming Pool, is any structure intended for swimming or recreational bathing that contains water over 18 inches deep. This includes in-ground, aboveground and on-ground swimming pools, and fixed-in-place wading pools. The term "swimming pool," does not apply to plumbing fixtures such as bathtubs or hydro-therapy tubs; nor does it apply to man-made lakes,

reservoirs or farm ponds used primarily for public park purposes, ornamentation, water conservation, irrigation, ground-water recharging basins, or watering of livestock. It shall apply to any water-filled excavation, lined or unlined, within three (3) feet of any structure or property line. (Public pools shall comply also with CCR Title 24).

Swimming Pool, Indoor, is a swimming pool that is totally contained within a residential structure and surrounded on all four sides by walls of said structure.

Swimming Pool, Outdoor, is a swimming pool that is not an indoor pool.

Sec. 41.2. POOL DESIGN AND CONSTRUCTION

41.2.1 GENERAL. Pool design and construction shall be in accordance with accepted engineering practice, shall be in conformity with applicable provisions of the adopted building, electrical, plumbing, and mechanical codes, and shall be structurally suitable for the soil, topographic, and geologic conditions prevailing at the construction site.

41.2.2 EXPANSIVE SOIL DESIGN. Pools constructed below grade shall be designed on the assumption that their construction is to be in an area of moderately expansive soil having an expansion index of 51-90 and an equivalent fluid pressure of not less than 45 pounds per cubic foot (45 p.c.f.).

> EXCEPTION: Where tests indicate that soils at a pool site are non-expansive or have low expansion characteristics from the ground surface to the full depth of the pool, structural design may be based on an equivalent fluid pressure not less that 30 p.c.f.

In highly expansive soils having an expansion index of 91-130, pools shall be designed for not less than 60 p.c.f. equivalent fluid pressure.

In very highly expansive soils having an expansion index over 130, pool design shall be subject to special requirements based on a site investigation, soil testing, and engineering analysis by a registered civil engineer to determine appropriate design parameters for the site.

41.2.3 HYDROSTATIC UPLIFT. In areas of anticipated high water table ~~or moderate or highly expansive soil~~ an approved hydrostatic relief system or device shall be installed.

41.2.4 THERMAL PROTECTION FOR PLASTIC PIPING. Between the inlet of pool water heating equipment and any plastic water piping connected thereto, a check valve shall be installed to prevent thermal damage to such piping due to backflow.

> EXCEPTION: When rapid or high-rate filters are employed a check valve may be omitted.

Between the outlet of pool heating equipment and any plastic water piping connected thereto, not less than five feet of approved metal pipe shall be installed for the purpose of dissipating heat.

41.2.5 SAFEGUARDING SUCTION DRAINS. Bottom drains and suction intakes in pools and spas shall be covered with grates or other protective devices which cannot be removed except with tools. The slots or openings in these covers shall be of such area, shape, and

arrangement as to prevent bathers from being drawn thereto with such force as to constitute a safety hazard.

41.2.6 GRAB BARS. Wherever egress from a pool is restricted by the presence of a vertical wall or other barrier which extends more than 12" above the water surface at the pool edge, permanent continuous grab bars, handrails, or other approved equivalent devices shall be installed within 12 inches above of the water surface. Such devices shall be capable of being securely grasped, and shall be adequate to support the weight of a user of the pool.

Sec. 41.3. DECKS

41.3.1 GENERAL. A deck shall be provided around below-grade swimming pools except when special engineering design is furnished which indicates that such deck is not necessary for the purpose of maintaining the structural integrity of the pool and/or for controlling surface water and moisture content in the soil adjacent to the pool. Decks shall not be required for spas and hot tubs.

41.3.2 DECK DESIGN AND CONSTRUCTION. Required decks shall be constructed of concrete or other approved impervious material and shall be sloped to provide positive drainage away from the perimeter of the pool. Except as provided below, decks shall have a minimum width of four feet and shall be at least 3-1/2 inches in thickness. Reinforcement shall be #3 bars spaced not over 24 inches o.c. each way, or equivalent reinforcing.

Approved joints shall be provided in the deck at corners, at maximum 10-foot intervals, and wherever necessary in order to control cracking, to allow for differential movement, and to minimize damage to the deck from such movement should it occur.

Joints in decks and coping shall be made watertight with an approved permanent resilient sealant.

41.3.3 CUTOFF WALLS. At the outer perimeter of pool decks a cutoff wall of approved material shall be installed below-grade to a depth of at least 15 inches so as to form a permanent and effective vertical moisture barrier.

EXCEPTIONS: 1. A cutoff wall may be omitted when a deck at least six feet wide is installed.

2. Decks less than four feet in width may be installed provided that the required cutoff wall is increased in depth beyond the minimum by an amount equal to the reduction in deck width.

41.3.4 PRE-SATURATION, HIGHLY EXPANSIVE SOILS. When the soil below a deck has an expansion index of 91 or greater it shall be saturated with water to a depth of at least 18 inches prior to installation of the deck.

41.3.5 DECK BONDING. When decks are to be installed, whether structurally required or not, the reinforcing installed therein shall be electrically bonded together with the pool shell reinforcing and metal parts of electrical equipment associated with the pool water recirculating system and with miscellaneous metal accessories, such as pool slides, diving boards and spring boards, in accordance with NEC Sec. 680-22.

Sec. 41.4. DRAINAGE AND DISPOSAL

41.4.1 SURFACE WATER. Surface water from pool decks shall be collected and conducted through non-erosive devices to a street, storm drain, or other approved watercourse or disposal area.

41.4.2 WASTE WATER. Pool waste water shall be disposed of in accordance with the requirements of the Environmental Health Officer.

41.4.3 DRYWELLS. Drywells shall not be employed for pool wastewater disposal except when specifically approved for the purpose and when it has been determined that such installation is not likely to have adverse effects on the structural stability of the pool or other structures on the site. The Building Official may require a percolation test, soils report, and/or geological report to make such a determination.

Sec. 41.5. SPECIAL INSPECTION. Special inspection as required by Section 1701.5.12 in the UBC shall be provided for pneumatically placed concrete (gunite) in swimming pools.

Sec. 41.6. BARRIER REQUIREMENTS.

41.6.1 OUTDOOR SWIMMING POOL. An outdoor swimming pool shall be provided with a barrier that shall be installed, inspected and approved prior to plastering or filling with water. The barrier shall comply with the following:

1. The top of the barrier shall be at least 60 inches above grade measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches measured on the side of the barrier that faces away from the swimming pool. The maximum vertical clearance at the bottom of the barrier may be increased to 4 inches when grade is a solid surface such as a concrete deck, or when the barrier is mounted on the top of the above ground pool structure. When barriers have horizontal members spaced less than 45 inches apart, the horizontal members shall be placed on the pool side of the barrier. Any decorative design work on the side away from the swimming pool, such as protrusions, indentations or cutouts, which render the barrier easily climbable, is prohibited.

2. Openings in the barrier shall not allow passage of a 1 3/4-inch diameter sphere.

   Exceptions:

   1. When vertical spacing between such openings is 45 inches or more, the opening size may be increased such that the passage of a 4-inch diameter sphere is not allowed.

   2. For fencing composed of vertical and horizontal members, the spacing between vertical members may be increased up to 4 inches when the distance between the tops of horizontal members is 45 inches or more.

3. Chain link fences used as the barrier shall not be less than 11 gauge.

4. Access gates shall comply with the requirements of Items 1 through 3. Pedestrian access gates shall be self-closing and have a self-latching device. Where the release mechanism of the self-latching device is located less than 60 inches (1524 mm) from the bottom of the gate, (1) the release mechanism shall be located on the pool side of the barrier at least 3 inches (76 mm) below the top of the gate, and (2) the gate barrier shall have no opening greater that ½ inch (12.7 mm) within 18 inches (457 mm) of the release mechanism. ~~Pedestrian gates shall swing away from the pool.~~ Any gates other than pedestrian access gates shall be equipped with lockable hardware or padlocks and shall remain locked at all times when not in use.

5. Where a wall of Group R, Division 3 Occupancy dwelling unit serves as part of the barrier and contains door openings between the dwelling unit and the outdoor swimming pool that provide direct access to the pool, a separation fence meeting the requirements of Items 1, 2, 3 and 4 of Section 41.6.1 shall be provided.

   Exception: When approved by the building official, one of the following may be used:

   1. Self-closing and self-latching devices installed on all doors with direct access to the pool and the release mechanism located a minimum of 54 inches above the floor.

   2. An alarm installed on all doors with direct access to the pool. The alarm shall sound continuously for a minimum of 30 seconds within seven seconds after the door and its screen, if present, are opened, and be capable of providing a sound pressure level of not less than 85 dBA when measured indoors at 10 feet. The alarm shall automatically reset under all conditions. The alarm system shall be equipped with a manual means, such as a touchpad or switch, to temporarily deactivate the alarm for a single opening. Such deactivation shall last no longer than 15 seconds. The deactivation switch shall be located at least 54 inches above the threshold of the door.

   3. Other means of protection may be acceptable so long as the degree of protection afforded is not less than that afforded by any of the devices described above.

6. Where an above ground pool structure is used as a barrier or where the barrier is mounted on top of the pool structure, and the means of access is a ladder or steps, then (1) the ladder or steps shall be capable of being secured, locked or removed to prevent access or (2) the ladder or steps shall be surrounded by a barrier that meets the requirements of Items 1 though 5. When the ladder or steps are secured, locked or removed, any opening created shall be protected by a barrier complying with Items 1 through 5.

7. Outdoor Swimming Pools with an approved safety pool cover shall not be required to provide other barriers.

8. Other means of protection, if the degree of protection afforded is equal to or greater than that afforded by any of the devices set forth in Items 1 through 7, above, may be approved by the building official of the jurisdiction issuing the applicable building permit.

41.6.2 INDOOR SWIMMING POOL. For an indoor swimming pool, protection shall comply with the requirements of Section 41.6.1, Item 5.

41.6.3 SPAS AND HOT TUBS. For a nonself-contained and self-contained spa or hot tub, protection shall comply with the requirements of Section 41.6.1.

Exception: Spas or hot tubs equipped with a listed safety cover shall be exempt from the requirements of Section 41.6.1.

Analysis:

ENTIRE CHAPTER: This chapter has been rewritten entirely incorporating the requirements of the "Pool Safety Act" passed by the California State Legislature together with requirements from the 1997 UBC Appendix Chapter 4, Division I (Titled "Barriers for Swimming Pools, Spas and Hot Tubs") and local amendments to the chapter carried forward from prior adoptions.

CHAPTER 42 - MOBILEHOMES AND COMMERCIAL COACHES

Sec. 42.1. DEFINITIONS. For the purposes of this Article the terms "mobilehome," "commercial coach," "mobilehome accessory structure," and "foundation system" shall have the meanings set forth in Title 25, California Code of Regulations, and shall also apply to "manufactured housing" and "factory-built housing".

Sec. 42.2. SCOPE. The provisions of this Article shall apply to mobilehomes and commercial coaches installed outside mobilehome parks in all locations where the County of Ventura is the primary enforcement authority for applicable provisions of the State Mobilehome Parks Act, Subchapter 1 of Chapter 2, California Code of Regulations, Title 25.

Sec. 42.3. INSTALLATION PERMIT REQUIRED. No person, firm, or corporation shall install, occupy, or use a mobilehome, mobilehome accessory structure, or commercial coach or cause the same to be done without first obtaining an installation permit therefor. Said installation permit shall be issued subject to compliance with applicable laws and ordinances, including but not limited to:

1. Terms and conditions of a zoning clearance, including time limits established thereby.

2. Requirements for an approved foundation system.

3. Requirements for approved electrical, plumbing, and sewage disposal facilities.

4. Payment of installation permit fees in addition to fees for permits, services or clearances which may otherwise be required.

Sec. 42.4. SPECIAL REQUIREMENTS, COMMERCIAL COACHES

42.4.1 ALLOWABLE AREA. The area of commercial coach units connected in multiple shall not exceed the allowable floor area for the occupancy housed therein and the Type of Construction, in accordance with Section 504 in the UBC.

42.4.2 LOCATION ON PROPERTY. Commercial coaches shall be positioned on a site with sufficient setback from property lines so as to comply with the requirements of Section 503 in the UBC for fire-resistive protection of exterior walls and openings without the necessity for altering the structure or finish materials of the exterior walls of the coach.

42.4.3 STAIRS AND EXITS. Stairs, ramps, handrails, guardrails, landings, and exits shall be provided for commercial coaches as specified in Chapter 10 in the UBC. Such coaches shall also conform to applicable standards of the State of California for making buildings accessible by physically handicapped persons.

42.4.4 SANITARY FACILITIES. Commercial coaches shall be provided with sanitary facilities in accordance with the requirements of this Code which are applicable to the particular occupancy housed therein. Sanitary facilities shall also conform to the applicable standards of the State of California for accessibility to physically handicapped persons.

Sec. 42.5. REQUIREMENTS IN HIGH FIRE HAZARD AREAS. The requirements of Section UBC 607.2 in this ordinance shall be applicable to mobilehomes, mobilehome accessory structures, manufactured or factory-built housing, and commercial coaches installed within High Fire Hazard areas.

Sec. 42.6. SUBSTANDARD OR DANGEROUS MOBILEHOMES AND COMMERCIAL COACHES. All mobilehomes, commercial coaches, or portions thereof, whether permanently or temporarily installed, which are determined to be substandard or dangerous as defined in the Uniform Housing Code or the Dangerous Buildings Code as amended by this ordinance, are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition or removal in accordance with procedures specified in such codes.

Sec. 42.7 RECREATIONAL VEHICLES

42.7.1 DEFINITION

See Section 18010 of the California Code of Regulations, Health and Safety Code which reads as follows:

"Recreational vehicle" means either of the following:

(a) A motor home, travel trailer, truck camper, or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy, which meets all of the following criteria:

(1) It contains less than 320 square feet of internal living room area, excluding built-in equipment, including, but not limited to, wardrobe, closets, cabinets, kitchen units or fixtures, and bath or toilet rooms.

(2) It contains 400 square feet or less of gross area measured at maximum horizontal projections.

(3) It is built on a single chassis.

(4) It is either self-propelled, truck-mounted, or permanently towable on the highways without a permit.

(b) A park trailer designed for human habitation for recreational or seasonal use only, which meets all of the following criteria:

(1) It contains 400 square feet or less of gross floor area measured at the maximum horizontal projections. However, it may not exceed 12 feet in width or 40 feet in length in the traveling mode.

(2) It is built on a single chassis.

(3) It may only be transported upon the public highways with a permit.

(Amended by Stats. 1990, Ch. 765, Sec. 3.)

42.7.2 ALLOWABLE USE

Recreational vehicles may only be used as "temporary dwellings during construction", as long as a building permit for new residential construction or major remodeling is in full force and effect and subject to Zoning Clearance conditions.

Recreational vehicles cannot be used as permanent dwellings or permanent accessory structures on private property, except as specifically allowed under California State law.

ANALYSIS:

This entire chapter has been written identify the requirements for placing mobile homes and commercial coaches on private property. They also coordinate with regulations found in Title 25 of the California Code of Regulations for mobile homes and commercial coaches. These are administrative changes.

CHAPTER 43 - POST-DISASTER RECOVERY AND RECONSTRUCTION

SECTION 43.1 POST-DISASTER SAFETY ASSESSMENT PLACARDS AND SECURITY

43.1.1 SCOPE. This chapter establishes standard placards to be used to indicate the condition of a structure for continued occupancy after any natural or man-made disaster. It further authorizes the Division of Building and Safety as well as authorized representatives, to post appropriate placards at each entry point to a building or structure upon completion of a safety assessment.

43.1.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures, of all occupancies, regulated by the County of Ventura following each natural or man-made disaster.

43.1.3 DEFINITIONS.

43.1.3.1 Building Official is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.1.3.2 Safety assessment is a visual examination of a building or structure for the purpose of determining whether continued occupancy is appropriate following a natural or man-made disaster.

43.1.4 PLACARDS. The following official placards shall be used to designate the condition of buildings or structures following a disaster.

43.1.4.1 INSPECTED - LAWFUL OCCUPANCY PERMITTED may be posted on any building or structure where no apparent hazard has been found. Placement of this placard does not mean that there is no damage to the building or structure.

43.1.4.2 RESTRICTED OR LIMITED ENTRY may be posed on each damaged building or structure where damage has created a hazardous condition which justifies restricted occupancy. The building official who posts this placard will note in general terms the hazard created and will clearly and concisely note the restrictions on occupancy.

43.1.4.3 UNSAFE - Do Not Enter or Occupy may be posted on each damaged building or structure such that continued occupancy poses a threat to life or health. Buildings or structures posted with this placard may be entered only after authorization in writing by a building official. Safety assessment teams are authorized to enter these buildings at any time. This placard shall not be used or considered as a demolition order. The official who posts this placard shall note in general terms damage encountered.

43.1.4.5 SECURING OF UNSAFE BUILDINGS OR STRUCTURES - Buildings or structures that have been determined by the building official to pose a threat to life safety or to be unsafe due to damage may be required by the building official to be secured from entry by fencing or other approved means until such time that the damage or threat to life is removed by repair, reconstruction or demolition. The fencing or security measures shall not be removed without authorization from the building official.

43.1.4.6 REMOVAL OF PLACARDS - Once the placard has been attached to a building or structure, it shall not be removed, altered or covered until authorized by the building official.

43.1.5 VIOLATION. Any violation of Article 3, Chapter 43 of this code is a misdemeanor and shall be subject to punishment according to the provisions of Article 2, Chapter 1, Section 103.

Section 43.2 POST DISASTER ABATEMENT

43.2.1 INTENT. This chapter establishes abatement criteria for all buildings and structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors.

43.2.2 APPLICATION OF PROVISIONS. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura.

43.2.3 DEFINITIONS. For the purpose of the chapter, the following definitions apply:

43.2.3.1 EVENT shall mean any occurrence which results in the declaration of a disaster by the Board of Supervisors, including but not limited to, fires, landslides, wind storms, earthquakes, and floods.

43.2.3.2 HISTORIC BUILDING OR STRUCTURE shall be any building or structure registered with a federal, state, county, or city government, or the register of points of interest. Historic buildings and structures shall also include those buildings and structures within a recognized historic district.

43.2.3.3 STATE HISTORIC PRESERVATION OFFICER (SHPO) is the person appointed by the Governor, pursuant to Section 101(b)(1) of the National Historic Preservation Act of 1966, as amended, to administer the State Historic Preservation Program.

43.2.4 ABATEMENT CRITERIA

43.2.4.1 NOTICE OF DETERMINATION. Except as provided in subsection 43.2.4.2 below, the Building Official shall serve a written Notice of Determination to each property owner as found on the latest available copy of the County Assessor's Role. Said Notice of Determination shall be delivered by hand-delivery, telephone, telegram, facsimile or other reasonable means, and shall clearly indicate that the structure is an imminent hazard and dangerous and that, as such, it constitutes a public nuisance. The notice shall set forth those factors which, in the opinion of the Building Official, make the structure an imminent hazard and dangerous, and shall also include a directive from the Building Official of the specific action or actions to be taken by the property owner. The Notice shall specify that within forty-eight (48) hours from the time of issuance of the Notice of Determination, the owner or other part of record with an equitable or legal interest in said property shall abate the nuisance in accordance with the directives written in the notice of determination by the Building Official.

43.2.4.2 NOTICE OF DETERMINATION EXCEPTION. No prior notice shall be required, when the Building Official, after considering all the facts, determines, in writing, that the structure is an imminent hazard and dangerous, and that it must be abated immediately and that time and circumstances do not permit the giving of prior notice to the owner. In those cases where time and circumstances do not permit the County to give the owner notice prior to abatement, the Building Official may cause the nuisance to be abated by the County with County resources or County contractees.

43.2.4.3 APPEAL OF NOTICE OF DETERMINATION. A Notice of Determination delivered by the Building Official, that a building or structure is an imminent hazard and dangerous and therefore must be abated, may be appealed by the property owner or any other party of record with an equitable or legal interest in said property. Such appeal must be made to the Building Official within 48 hours of delivery of such notice of determination by the Building Official. Such appeal shall be accompanied by a written Hazard Abatement Plan signed by a State of California licensed engineer or architect or by a written report by a State of California licensed engineer or architect stating why the engineer or architect feels the building or structure is not an imminent hazard or dangerous at this time. Such report shall include a recommendation by the engineer or architect as to what should and/or should not be done at this time. If the Building Official accepts the proposed Hazard Abatement Plan in lieu of the Notice of Determination, the Hazard Abatement Plan must be implemented within 24 hours of acceptance

by the Building Official. If the Building Official accepts an engineer's report and agrees there is no imminent hazard, the Building Official shall rescind in writing his former Notice of Determination.

Should the Building Official disagree with the Hazard Abatement Plan, or should the Building Official disagree with the engineer's or architect's report, a hearing shall be conducted within 24 hours by the General Board of Appeals.

43.2.4.4 GENERAL BOARD OF APPEALS HEARING. At the hearing, the appellant shall have the right to call witnesses, submit evidence and to cross-examine the witnesses, submit evidence and to cross-examine the witnesses of the County. All witnesses shall be sworn.

A record of the entire proceedings shall be made by tape recording. Any relevant evidence may be submitted regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions in the courts of this State.

At the close of this hearing, the General Board of Appeals shall act to either uphold, overrule or modify the determination and order of the Building Official . The determination and order of the Building Official shall be upheld, unless the Board of Appeals finds, based upon the evidence in the record, that the Building Official erred in determining that the structure is an imminent hazard and dangerous. The decision of the Board of Appeals, with the reasons therefore, may be given orally on the record. If given orally, the decision shall be memorialized in writing and served upon the applicant within twenty-four (24) hours of the time the oral decision is rendered.

If the General Board of Appeals upholds the decision of the Building Official, the property owners of record shall be ordered to abate the public nuisance within the time set forth in the order. If the structure is determined not to be an imminent hazard and dangerous, the Building Official's determination and order shall be vacated. The decision of the General Board of Appeals shall be final on the date it is rendered.

43.2.4.5 HAZARD ABATEMENT PLAN. If a Hazard Abatement Plan is approved by the Building Official, the owner or other interested party of record shall execute such plan within twenty-four (24) hours of obtaining approval of the plan from the Building Official, or his designee. Within twenty-four (24) hours of completion of the abatement work the owner or other interested party of record shall provide the Building Official with a written certification that the public nuisance, as described in the Building Official's Notice of Hazard, has been abated.

If the work performed pursuant to the Hazard Abatement Plan amounts to temporary abatement, the owner or other party of record, prior to proceeding with permanent repairs, shall obtain required permits and file a damage assessment report with the Building Official. The damage assessment report shall be reviewed and approved by the Building Official before permanent repairs are performed.

43.2.4.6 FAILURE TO PERFORM. In those instances where the property owner or other interested party of record either does not respond to the Building Official's Notice of Hazard or approved Hazard Abatement Plan, responds untimely, or responds timely but fails to abate the public nuisance within the required time period, the imminent hazard and dangerous structure shall be subject to immediate abatement by the Building Official.

43.2.4.7 PUBLIC NUISANCE. All structures or portions thereof which, after inspection by an unauthorized County Official, are determined to be an imminent hazard and dangerous, either to the public, occupants of the subject structure, or to any adjacent structures, are hereby declared to be public nuisances and shall be abated by the owner in accordance with the procedures specified in sections 43.2.4.4 and 43.2.4.5.

43.2.4.8 SUSPENSION OF ABATEMENT OF WORK. Notwithstanding any provisions herein to the contrary, the Building Official is authorized to suspend abatement work by the County, or the County's contractees, and to allow the property owner or other part of legal interest to complete the abatement work.

43.2.4.9 CHANGE OF STATUS. When the conditions making a structure an imminent hazard and dangerous have been abated, the structure shall no longer be considered an imminent hazard and dangerous. However, if the abatement work is temporary in nature, as determined by the Building Official, the structure shall remain subject to the provisions of this Chapter.

43.2.4.10 DEMOLITION PERMIT. If the owner of any building or structure has decided to demolish rather than repair, the owner, or the owner's representative, shall obtain a demolition permit.

43.2.5 HAZARD ABATEMENT OF HISTORIC BUILDINGS OR STRUCTURES.

43.2.5.1 NOTIFICATION OF IMMINENT HAZARD. Within 10 days after the event, the Building Official shall notify the State Historic Preservation Officer that one of the following actions will be taken regarding any historic building or structure determined by the Building Official to represent an imminent hazard to the health or safety of the public, or to pose an imminent threat to the public right of way:

43.2.5.1.1 BRACING OR SHORING. Whenever possible, as determined by the Building Official, the building or structure may be braced or shored in such a manner as to mitigate the hazard to public health or safety or the hazard to the public right of way.

43.2.5.1.2 CONDEMNATION. Whenever bracing or shoring is determined to be an unreasonable alternative, the Building Official may cause the building or structure to be condemned and immediately demolished. Such condemnation and demolition may be performed in the interest of public health or safety without a condemnation hearing as required by the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code.

43.2.5.2 CONDEMNATION PROCEEDINGS. If, ten (10) days after the event and less than 30 days after the event, an historic building or structure is determined by the Building Official to represent a hazard to the health or safety of the public or to pose a threat to the public right of way, the Building Official may initiate condemnation proceedings in accordance with the Uniform Code for the Abatement of Dangerous Buildings as adopted by reference in Article 1, Chapter 7, and as amended by Article 8 of this Code. The Building Official may also notify the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1966, as amended, of its intent to hold a condemnation hearing.

43.2.5.3 REQUEST TO DEMOLISH. If the Building Official and the owner of any historic building or structure agree that such a building or structure should be demolished, the Building

Official shall submit a request to demolish to the Federal Emergency Management Agency, in accordance with the National Historic Preservation Act of 1986, as amended. Said request shall include all substantiating data.

Section 43.3 DISASTER REPAIR AND RECONSTRUCTION

43.3.1 INTENT. This Chapter establishes standards and regulations for the expeditious repair and reconstruction of structures damaged as a result of a disaster for which a local emergency has been declared by the Board of Supervisors. The Chapter does not allow exemptions from the Building, Fire Electrical, Mechanical, Plumbing, other codes, or County Ordinances.

43.3.2 APPLICATION OF PROVISIONS.

43.3.2.1 DECLARATION OF EMERGENCY. The provisions of this chapter are applicable to all buildings and structures regulated by the County of Ventura following each disaster after a local emergency has been declared by the Board of Supervisors.

43.3.2.2 WAIVER FOR ENGINEERING EVALUATION. The requirements of this chapter may be waived by the Building Official subject to an engineering evaluation as defined in Section 43.3.3.

43.3.3 DEFINITIONS. For the purpose of this chapter, the following definitions apply:

43.3.3.1 ARCHITECT is a person licensed by the State of California to practice architecture as prescribed by the State of California Business and Professions Code.

43.3.3.2 CIVIL ENGINEER is a person registered by the State of California to practice Civil Engineering as prescribed by the State of California Business and Professions Code.

43.3.3.3 CURRENT CODE shall mean the edition of the Uniform Building Code published by the International Conference of Building Officials, as adopted by the County of Ventura in accordance with operation of law pursuant to Section 18941.5 of the State of California Health and Safety Code. The edition to be applied shall be that edition in effect at the time of the declaration of a local emergency by the Board of Supervisors, County of Ventura.

43.3.3.4 ENGINEERING EVALUATION is an evaluation of a damaged building or structure, or suspected damaged building or structure, performed under the direction of a structural engineer, civil engineer, or architect retained by the owner of the building or structure. Engineering evaluations shall, at a minimum, contain recommendations for repair with appropriate opinion of construction cost for those repairs. All engineering evaluations shall include the engineer's or architects's stamp, wet-signature and license expiration date.

43.3.3.5 ESSENTIAL SERVICE FACILITY shall mean those buildings or structures designated by the County of Ventura to house facilities necessary for emergency operations subsequent to a disaster.

43.3.3.6 REPLACEMENT VALUE is the dollar value, as determined by a Building Official, for replacing a damaged structure with a new structure of the same size, same type of construction and same occupancy, and located on the same site.

43.3.3.7 STRUCTURAL ENGINEER is a person registered by the State of California to practice civil engineering and to use the title structural engineer as defined in the State of California Business and Professions Code.

43.3.3.8 VALUE OF REPAIR is the dollar value, as determined by the Building Official, for making necessary repairs to the damaged structure.

43.3.3.9 BUILDING OFFICIAL is the officer or other designated authority charged with the administration and enforcement of this chapter, or duly authorized representative.

43.3.4 REPAIR CRITERIA

43.3.4.1 GENERAL. Buildings and structures of all occupancies which have been damaged as the result of a disaster, except as otherwise noted, shall be repaired in accordance with the following criteria:

43.3.4.2 UP TO TEN PERCENT REPAIR VALUE. When the estimated value of repair does not exceed ten percent (10%) of the replacement value of the structure, the damaged portion may be restored to the pre-disaster condition; except that when the damaged elements include suspended ceiling systems, the ceiling system shall be repaired with all bracing required by current code.

43.3.4.3 UP TO FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is greater than ten percent (10%) but less than fifty percent (50%) of the replacement value of the structure, the damaged elements shall be repaired and/or brought into conformance with the structural requirements of the current codes.

43.3.4.4 MORE THAN FIFTY PERCENT REPAIR VALUE. When the estimated value of repair is fifty percent (50%) or more of the replacement value of the structure, the entire structure shall be brought into conformance with the fire and life safety and structural requirements of the current applicable codes.

43.3.4.5 CHIMNEY VALUE EXCLUSION. In group R, Division 3 occupancies, the repair value of damaged chimneys may be excluded from the computation of percentage of replacement value. Damaged chimneys shall be repaired in accordance with Section 43.3.5.

43.3.5 REPAIR CRITERIA FOR CHIMNEYS.

43.3.5.1 GENERAL. All damaged chimneys must be repaired or reconstructed to comply with the requirements of Chapter 31 of the Uniform Building Code. Damaged portions of chimneys shall be removed in accordance with the following criteria.

43.3.5.2 DAMAGE ABOVE THE ROOF LINE. When the damaged portion of the chimney is located between the roof line and the top of the chimney, the damaged portion may be removed to the roof line provided the roof and ceiling anchorage are in sound condition. The reconstruction portion of the chimney shall be braced to the roof structure using an approved method.

43.3.5.3 SINGLE STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a single-story structure in which the damaged portion of the chimney is below the roof line or the damaged

portion extends from above the roof line to below the roof line, the chimney shall be removed to the top of the firebox.

43.3.5.4 MULTI-STORY STRUCTURE DAMAGE BELOW THE ROOF LINE. For a multi-story structure, the damaged portion of the chimney shall be removed from the top to a floor line where anchorage is found.

43.3.5.5 FIREBOX DAMAGE. In any structure where the firebox has been damaged, the entire chimney and firebox shall be removed to the foundation. If the foundation is in sound condition, the firebox and chimney may be reconstructed using the existing foundation. If the foundation has been damaged, the foundation shall be removed and replaced.

43.3.5.6 ENGINEERED ALTERNATE SOLUTIONS. Where existing conditions preclude the installation of all anchorage required by Chapter 31 of the Uniform Building Code, alternate systems may be used in accordance with the alternate methods and materials provisions of the Uniform Building Code when approved by the Building Official.

43.3.5.7 BRACING. Where the portion of the chimney extending above the roof line exceeds two times the least dimension of the chimney, that portion above the roof line shall be braced to the roof structure using an approved method.

43.3.6 REPAIR CRITERIA FOR HISTORIC BUILDINGS OR STRUCTURES.

43.3.6.1 ENGINEERING EVALUATION REQUIRED. Buildings or structures which are included on a national, state, or local register for historic places or which are qualifying structures within a recognized historic district, which have been damaged as a result of a disaster, shall have an engineering evaluation performed.

43.3.6.2 MINIMUM REPAIR CRITERIA. The minimum criteria for repair shall be as included in Section 43.3.4 Repair Criteria with due consideration given to the historical rating and nature of the structures. Additional standards and criteria, as noted in Part 8, Title 24, California Code shall apply.

43.3.7 REPAIR CRITERIA FOR UNREINFORCED MASONRY BUILDINGS AND STRUCTURES.

43.3.7.1 GENERAL. All damaged buildings determined to be bearing wall buildings constructed of unreinforced masonry shall be repaired and strengthened to fully comply with the requirements of the ~~Uniform~~ ~~California Conservation Code~~ as adopted by the County of Ventura.

ANALYSIS:

This entire chapter has been written to address the inspections of damaged property and the placarding of damaged structures, and the permitting requirements for the repair and reconstruction of structures danged by disasters. These changes are administrative and also based on local geologic hazards.

ARTICLE 4 - AMENDMENTS TO THE CALIFORNIA ELECTRICAL CODE (CEC)

CHAPTER 2 - WIRING METHODS AND MATERIALS

Sec. 336.4. USES PERMITTED. Type NM, Type NMC, and Type NMS cables shall be permitted to be used in agricultural buildings, one-family and two-family dwellings, and accessory structures, and in multi-family dwellings, and other structures, except as prohibited in Section 336-5. Cables in such structures shall be protected from physical damage. Where installed in cable trays, cables shall be identified for this use.

(FPN): See Section 310-10 for temperature limitation of conductors.

(a) **Type NM.** Type NM cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

(b) **Type NMC.** Type NMC cable shall be permitted:

(1) For both exposed and concealed work in dry, moist, damp, or corrosive locations.

(2) In outside and inside walls of masonry block or tile.

(3) In a shallow chase in masonry, concrete, or adobe protected against nails or screws by a steel plate at least 1/16-in. (1.59-mm) thick, and covered with plaster, adobe, or similar finish.

(c) **Type NMS.** Type NMS cable shall be permitted for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish Type NMS cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness. Type NMS cable shall be used as permitted in Article 780.

Analysis:

This section has been modified to allow the use of Type NM, NMC, and NMS cables in one and two family dwelling accessory structures. This is an administrative change to clarify which structures may be included as "other" structures already allowed under the code.

ARTICLE 5 - AMENDMENTS TO THE CALIFORNIA MECHANICAL CODE (CMC)

CHAPTER 1 - ADMINISTRATION

Section 102 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Section 115 - FEES

Sec. 115.1. GENERAL. Refer to Article 2, Chapter 1 Section 107 in this ordinance.

Sec. 115.6 FEE REFUNDS. Refer to Article 2, Chapter 1 Section 107.6 in this ordinance.

CHAPTER 8 - CHIMNEYS AND VENTS

SECTION 812 - TYPES OF CHIMNEYS

812.1 FACTORY-BUILT CHIMNEYS. Factory-built chimneys shall be installed in accordance with the terms of their listing, the manufacturer's installation instructions and the applicable requirements of this code. Factory-built chimneys shall terminate as required for unlisted single-wall metal chimneys in Table 8-~~D~~ 4.

Chimneys used with fireplaces or heating appliances in which solid or liquid fuel is used shall be maintained with a spark arrester as required for incinerators.

EXCEPTION: Factory built chimneys for residential-type appliances and fireplaces may terminate three (3) feet above the roof opening and two (2) feet above any point of the building within ten (10) feet.

ANALYSIS:

This section has been modified to deal with specific chimney requirements in areas of high fire risk. This is a change based on local topographic conditions.

ARTICLE 6 - AMENDMENTS TO THE CALIFORNIA PLUMBING CODE (CPC)

CHAPTER 1 - ADMINISTRATION

Section 101.15 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

Sec. 102.2 POWERS AND DUTIES OF THE BUILDING OFFICIAL.

102.2.7 AUTHORITY TO ABATE. Any portion of a plumbing system found by the Administrative Authority to be insanitary as defined in this Code, is hereby declared to be a nuisance.

Where a nuisance exists or a plumbing system is maintained in violation of this Code or any notice issued pursuant to this Section, the Administrative Authority shall require the nuisance or violation to be abated. If such abatement is refused, the Administrative Authority shall have recourse to every remedy provided by law to secure abatement.

Sec. 102.3 VIOLATIONS AND PENALTIES

102.3.2 PENALTIES - See Article 2, Chapter 1, Section 103 in this ordinance.

Section 103.1 - PERMITS

103.1.2 EXEMPTED WORK. A plumbing permit will not be required for the following:

103.1.2.1 The stopping of leaks in drains, soil, waste or vent piping, provided that should any concealed trap, drainpipe, soil, waste or vent pipe become defective and it becomes necessary to remove and replace all or part thereof with new material, the same shall be considered as new work, and a permit shall be obtained and inspections made, as provided in this code.

103.1.2.2 The clearing of stoppages or the repair of leaks in pipes, valves or fixtures, nor for the removal and reinstallation of water closets, or the installation of new water closets on existing drainage connections, providing such repairs or reinstallation do not involve or require the replacement or rearrangement of valves or pipes. If it becomes necessary to remove and replace or rearrange valves, water piping, traps, drainpipe, soil, waste or vent pipes, the same shall be considered as new work, and a permit shall be obtained and inspections made as provided in the code.

103.1.2.3 EXEMPTIONS WITHIN SANITARY DISTRICTS. The provisions of this Code relating to building sewers as defined herein and to permits and fees therefor shall not apply within the boundaries of a sanitary district when the Building Official has determined that such district has adopted and is enforcing ordinances or regulations which are equal to or more restrictive than those contained in this Code.

CHAPTER 2 - DEFINITIONS

Section 202.0 - DEFINITIONS

SEEPAGE PIT. A seepage pit is a rock-filled excavation which receives the effluent from a septic tank and is so designed as to permit such effluent to seep through the bottom and sides of the pit into the surrounding soil.

CHAPTER 6 - WATER SUPPLY AND DISTRIBUTION

Sec. 601.0 RUNNING WATER REQUIRED

Section 601.1.2 REQUIREMENTS FOR WATER WELLS

(a) When the potable water supply for a structure is to be provided by a well, the well must pass the applicable pump and recovery test specified in the Ventura County Water Works Manual, as amended from time to time, for the purpose of demonstrating that the well is likely to remain an adequate source of potable water throughout the expected useful life of the structure.

EXCEPTIONS: A well shall not be required to pass the pump and recovery test if the structure to be served by it:

1. Is connected to a public water system or a state small water system as defined in Section 4010.1 of the Health and Safety Code; or

2. Overlies an aquifer that has been determined by the administrative authority to be adequate to meet all existing and projected demands made upon it for potable water without experiencing overdraft; or

3. Overlies an aquifer that may experience overdrafting but that has nonetheless been determined by the administrative authority, based upon a study and report prepared pursuant to the Ventura County Water works Manual, to be adequate to meet all existing and projected demands made upon it for potable water throughout the expected useful life of the structure.

(b) This section does not preclude the adoption and imposition of additional or more stringent well test requirements and standards in connection with subdivision approvals, conditional use permits, or other discretionary (as opposed to ministerial) permits.

CHAPTER 7 - SANITARY DRAINAGE

Sec. 701.0 MATERIALS OF DRAINAGE SYSTEMS.

701.1 Drainage piping shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, schedule 40 ABS DWV, schedule 40 PVC DWV, extra strength vitrified clay pipe, or other approved materials having a smooth and uniform bore, except that:

701.1.1 No galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches (152.4mm) above ground.

701.1.2 ABS and PVC DWV piping installations shall be limited to residential construction, not more than two (2) stories in height.

701.1.3 No vitrified clay pipe or fittings shall be used above ground or where pressurized by a pump or ejector. They shall be kept at least twelve (12) inches (.3m) below ground.

Sec. 713.0 SEWER REQUIRED

713.4 CONVENTIONAL PRIVATE SEWAGE DISPOSAL SYSTEMS. When the applicant seeks to install a conventional private sewage disposal system, the public sewer may be considered as not being available when such public sewer, or any building or any exterior drainage facility connected thereto, is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.4.1 ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) When the applicant seeks to install an alternate private sewage disposal system and the public sewer or any building or any exterior drainage facility connected thereto is located more than two hundred (200) feet from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer, the public sewer may be considered as not being available when it has been adequately demonstrated to the satisfaction of the Administrative Authority that the total cost of connecting to the public sewer would be at least twice the total cost of the alternate private sewage disposal system.

(b) In all other cases when the applicant seeks to install an alternate private sewage disposal system, the public sewer may be considered as not being available when such public sewer or any building or any exterior drainage facility connected thereto is located more than one-half mile (2,640 feet) from any proposed building or exterior drainage facility on any lot or premises which abuts and is served by such public sewer.

713.7 For the purpose of administering those requirements of Chapter 7 and Appendix K of this Code, pertaining to the approval, permitting and inspection of private sewage disposal systems, the Administrative Authority shall mean the Environmental Health Officer. All other requirements of this Code shall be regulated and enforced by the Building Official.

Section 714.0 - DAMAGE TO PUBLIC SEWER OR PRIVATE SEWAGE DISPOSAL SYSTEM.

714.6 HOLDING TANKS. A holding tank for industrial/commercial waste shall be installed only when it is permitted by and is in conformance with standards and safeguards established by the Administrative Authority and the Health Officer to prevent anticipated surface or subsurface contamination or pollution, damage to the public sewer, or other hazardous or nuisance condition. (Holding tanks for all domestic or residential waste shall be prohibited.)

Section 721.0 - LOCATION

721.1 LOCATION OF SEWAGE DISPOSAL SYSTEMS. Except as provided in subsection 721.2 in the UPC, no building sewer or private sewage disposal system, or parts thereof, shall be located in any lot other than the lot which is the site of the building or structure served by such sewer or private sewage disposal system; nor shall any building sewer or private sewage disposal system or part thereof be located at any point having less than the minimum distances indicated in Table UPC Appendix K-1 in this ordinance. Table 7-7 and Table K-1 in the UPC are hereby deleted in their entirety.

APPENDIX CHAPTER K - PRIVATE SEWAGE DISPOSAL SYSTEM

Sec. K-1. PRIVATE SEWAGE DISPOSAL: GENERAL REQUIREMENTS. (a) Where permitted by Section 305.2 of the UPC, as adopted and amended by this Code, the building sewer may be connected to a private sewage disposal system complying with the provisions of this Code. The type of system shall be determined on the basis of information contained in the soil report concerning location, soil porosity, groundwater, depth of fractured rock or impervious formations, and hillside stability, and shall be designed to receive all sanitary sewage from the property. The system, except as otherwise provided, shall consist of a septic tank with effluent discharging into a subsurface disposal field, into one or more seepage pits, into a combination of subsurface disposal field and seepage pits, into a mound system or into a subsurface sand filtration system.

(d). SEWAGE DISPOSAL EXPANSION AREA. All private sewage disposal systems shall be so designed that additional seepage pits, subsurface drain fields, mound systems or subsurface sand filtration systems, equivalent to at least 100% of the required original system, may be installed if the original system cannot absorb all the sewage. No division of the lot or erection of structures on the lot shall be made if such division or structure impairs the usefulness of the 100% expansion area.

(f). PRIVATE SEWAGE DISPOSAL RESTRICTIONS. When there is insufficient lot area or improper soil or geological conditions for adequate and safe sewage disposal for the building or land use proposed, and the Administrative Authority so finds, no building permit shall be issued and no private sewage disposal shall be permitted. Where space or soil conditions are critical, no building permit shall be issued until engineering data and test reports satisfactory to the Administrative Authority have been submitted and approved. The Administrative Authority may grant exceptions to the requirements of the Code in case of practical difficulty or unnecessary hardship provided that the installation is equivalent to the standards established by this Code and is not inimical to the health, safety or welfare of the general public.

(i). APPROVAL OF ALTERNATE SYSTEMS. Alternate sewage disposal systems as defined in this Code may be installed only by special permission of the Administrative Authority which shall be given only if the Administrative Authority is satisfied that the systems will conform to the following requirements:

1. Treated or untreated effluent shall not be discharged onto the surface of the ground.

2. Wastewater shall be disposed of on the parcel where it is generated, except as provided for in Section 721.2 of the UPC.

3. The reliability of proposed designs for alternate private sewage disposal systems shall be well-documented.

4. The system shall be capable of easy maintenance.

5. Installation and repair shall not require the use of extraordinary materials, parts, or equipment.

6. The system shall require a minimum of mechanical components for its operation.

7. The system shall not be highly energy consumptive.

8. Operation of the system shall not create health hazards, water pollution, or nuisance conditions.

Sec. K-3. AREA OF DISPOSAL FIELDS AND SEEPAGE PITS. The minimum effective absorptive area of disposal fields in square feet of trench bottom, and of seepage pits in square feet of sidewall, shall be predicated on the required septic tank capacity in gallons. The required absorption area shall be as set forth in Table UPC Appendix K-6 in this ordinance for disposal fields, and as set forth in Table K-4 in the UPC for seepage pits. In addition, disposal fields and seepage pits shall conform to the following:

1. When disposal fields are installed, a minimum of one hundred fifty (150) square feet of trench bottom shall be provided for each system exclusive of any hardpan, rock, clay or other impervious formations. Sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption areas. Such increase shall be limited to 50% of the required absorption area.

2. Where leaching beds are permitted in lieu of trenches, the area of each such bed shall be at least 50% greater than the requirement for trenches. Perimeter sidewall area in excess of the required twelve (12) inches and not to exceed thirty-six (36) inches below the leach line may be added to the trench bottom area when computing absorption area.

3. The minimum effective absorption area in any seepage pit shall be calculated as the excavated sidewall area below the inlet exclusive of any hardpan, rock, clay, or other impervious formation. The minimum required area of porous formation shall be provided in one or more seepage pits.

4. No excavation for a leach line or leaching bed shall extend with five (5) feet of the water table nor to a depth where sewage may contaminate an underground water stratum which may be usable for domestic purposes. The applicant shall supply satisfactory evidence of groundwater depth when required by the Administrative Authority.

5. Plastic leaching chambers shall be sized on bottom absorption area (nominal unit width) in square feet. The required area shall be calculated using Table K-6 in this code with a 0.70 multiplier.

Sec. K-4. PERCOLATION TESTS. (a) Disposal fields and seepage pits shall be sized in accordance with the percolation tests or analyses required by subsection (b) of this Section.

(b) In order to determine the absorption qualities of soils, the proposed site shall be subjected to percolation tests and/or hydrometer analyses performed under the supervision of a California-registered environmental health specialist, civil engineer, geologist or engineering geologist. Such tests or analyses shall be performed in accordance with standards established by the Administrative Authority.

(c) Each test shall be made with clear water in an excavation which has been thoroughly soaked prior to the test.

(d) No subsurface disposal field shall be permitted to serve a building if percolation test rates are greater than sixty (60) minutes per inch.

(e) No seepage pit shall be permitted to serve a building if the absorption capacity of the soil surrounding the pit is less than 0.83 gal./sq.ft./day.

(f) Test data shall be submitted on a form provided for that purpose and shall include such information as may reasonably be required by the Administrative Authority to determine the correctness and adequacy of the proposed disposal system.

Sec. K-7. SEEPAGE PITS. (a) The capacity of seepage pits shall be based on the quantity of liquid waste discharging thereunto, and on the character and porosity of the surrounding soil as determined by such tests as may be required and shall comply with Sec. UPC Appendix K-3 in this ordinance.

(b) Seepage pits may be used where conditions are unsatisfactory for the installation of leach lines or beds. In no case shall seepage pits extend more than sixty (60) feet below the surface of the ground.

(c) Multiple seepage pit installations shall be connected through an approved distribution box or diversion valve and watertight piping laid on undisturbed or compacted soil.

(d) Each seepage pit shall be circular in shape and shall have an excavated diameter of not less than four (4) feet. Seepage pits shall be filled with clean rock 3/4 inches to 2½ inches in diameter, free from fines, except when otherwise approved by the Administrative Authority. Effluent shall be conducted to the bottom of the excavation by means of approved perforated pipe extending to the entire depth of the pit. Approval shall be obtained prior to construction for any pit having an excavation diameter greater than six (6) feet.

(e) Where groundwater is encountered, the bottom of the pit shall be backfilled with clean coarse sand at least ten (10) feet above the ground water encountered.

(f) Each seepage pit shall have a minimum sidewall of ten (10) feet below the inlet.

(g) Connections between a septic tank and seepage pits shall be made with approved watertight pipe. Such pipe shall be laid on natural ground or compacted fill.

(h) Rock fill in seepage pits shall be covered with asphalt-treated building paper, and backfilled with a minimum of eighteen (18) inches of earth.

(i) Subsection (i) of Appendix Section K7 in the UPC is hereby deleted in its entirety.

Sec. K-9. SUBSURFACE DISPOSAL OF INDUSTRIAL WASTE. The discharge of industrial waste into a soil absorption system shall be prohibited unless specifically approved by the Administrative Authority.

Subsections (a) through (g) of Appendix Sec. K9 in the UPC and the Recommended Design criteria for commercial/industrial waste disposal are hereby deleted in their entirety.

Sec. K-13. ALTERNATE PRIVATE SEWAGE DISPOSAL SYSTEMS.

(a) DEFINITION. Alternate private sewage disposal systems are specially-designed, engineered, and approved private sewage disposal systems suitable for use in localities where the Administrative Authority has determined that the presence of shallow groundwater, rock, or adverse soil, geologic, or hydrologic conditions makes the use of conventional sewage disposal systems potentially hazardous to public health. Alternate private sewage disposal systems shall be limited to "mound" systems and "subsurface sand filtration" systems as regulated herein.

(b) GENERAL REQUIREMENTS. Designs for alternate private sewage disposal systems may be accepted for review by the Administrative Authority when it has been adequately demonstrated that the character of the soil, geology, or hydrology of the site is such that a conventional private sewage disposal system will not function in accordance with recognized health and sanitation standards. Such systems shall be designed by a California- registered civil engineer or a California-registered geologist, who shall submit written verification upon completion of an alternate private sewage disposal system that the installation is in conformance with the approved design.

Properties served by alternate private sewage disposal systems shall be located within an approved on-site wastewater management district or equivalent governmental agency capable of providing necessary maintenance and repair services for private sewage disposal systems within its boundaries. Such systems shall conform with all applicable rules and regulations adopted by said district or agency.

The design and construction of alternate private sewage disposal systems shall comply with the requirements of this Section and with other appropriate criteria established by the Administrative Authority.

Component parts of alternate private sewage disposal systems shall comply with the applicable setback requirements in Table UPC Appendix K-1 of this Code. The construction and capacity of septic tanks installed as components of alternate systems shall comply with Section K-5 and Table K-2 in the UPC.

Leach lines, leaching beds, and seepage pits which are components of alternate systems shall comply with the applicable requirements of this Code. No portion of a distribution bed or related filter material which is a component of a mound or subsurface sand filtration system shall be installed under a walkway, parking area, driveway, or similar paved surface.

The sizing of mound or subsurface sand filtration systems shall be based upon the average percolation rate of the natural soil at the location and depth of the proposed system, and the number of bedrooms or plumbing fixture units, in accordance with this Code and other applicable standards for sizing conventional leachlines, leaching beds and seepage pits. No alternate private sewage disposal system shall be permitted where the percolation rate exceeds sixty (60) minutes per inch.

(c) MOUND SYSTEMS. A mound system is an alternate private sewage disposal system which utilizes pressurized piping to deliver effluent from a septic tank into an above-ground gravel distribution bed, from which the effluent percolates and is filtered through mounded sand fill into natural soil. Typical components of such systems include a septic tank, lift pump and wet well, pressurized effluent piping, a sand fill mound, a distribution bed composed of gravel filter material and perforated distribution piping, a cover of topsoil over the top and sloped sides of the mound.

The lift pump and wet well shall be designed to handle peak flow from the septic tank. In no case shall pump capacity be less than twenty (20) gallons per minute not shall the pump motor be rated at less than one-half horsepower. The pump shall be approved for use in a sewage environment. The liquid holding capacity of the wet well shall be at least 300 gallons for one or two-bedroom dwelling units. An additional 100 gallons capacity shall be provided for each bedroom in excess of two. Equivalent capacity shall be provided for occupancies other than dwellings based on fixture unit calculations as set forth in this Code.

The wet well shall be fitted with automatic high and low level pump controls. Operation of the lift pump shall not cause surges in the liquid level within the tank. An alarm device shall be installed which will provide audio and visual warning signals to occupants of the property in advance of any overflow from the wet well.

Mounds shall not be installed on a slope greater than 12%. The base of the mound shall be located at least two (2) feet above the highest known seasonal groundwater elevation at the

site and two (2) feet above fractured bedrock, if any. Fill material comprising the mound shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the fill material onto the mound. The slope of the sides of the mound shall be not steeper than 3 horizontal to 1 vertical.

Distribution beds shall be level and shall be located a minimum of five (5) feet above the highest known seasonal groundwater elevation at the site. Filter material comprising the bed shall be clean gravel varying in size from .75 inch to 2.5 inches. The total thickness of the bed shall be sufficient to provide a minimum of twelve (12) inches of filter material below, and at least two (2) inches of such material above all distribution piping within the bed. Distribution piping shall uniformly distribute effluent over the entire area of the bed. Distribution beds shall be of sufficient size to limit the application rate for effluent to not more than 1.5 gallons per square foot per day.

After filter material has been placed over the piping, the distribution bed shall be covered with untreated building paper, straw, or similar porous material to prevent closure of voids when earth covering is added. Topsoil shall be placed to a depth of at least twelve (12) inches over the top of the distribution bed, and shall be placed on the sloping sides of the mound to a thickness of at least six (6) inches.

(d) SUBSURFACE SAND FILTRATION SYSTEMS. A subsurface sand filtration system is an alternate private sewage disposal system which utilizes gravity to deliver effluent from a septic tank to a subsurface gravel distribution bed, from which the effluent is filtered through a bed of sand to reduce organic matter and pathogenic organisms, and thence percolates into natural soil. Typical components of such systems include a septic tank, effluent piping, a subsurface distribution bed composed of gravel filter material and perforated distribution piping, a sand filtration bed, and a leaching bed, leach lines, or seepage pits.

Distribution beds shall be designed and constructed in a manner similar to that set forth for mound systems in subsection (c) above, using approved, perforated gravity-flow piping in lieu of pressurized piping. Sand filtration beds shall extend not less than five (5) feet vertically below and five (5) feet horizontally from the edges of any distribution bed. Filtration material shall be clean sand having a uniform grain size distribution within the acceptable range indicated on Table UPC Appendix K-7 of this Code. Conformance with this grain size standard shall be determined by sieve analysis performed on representative samples taken prior to placement of the filtration material into the filter bed excavation.

Section K-14 NON-HAZARDOUS LIQUID WASTE TRANSFER FACILITIES

Definition: A Non-Hazardous Liquid Waste Transfer Facility is a temporary holding facility for non-hazardous liquid waste from recreational vehicle holding tanks and portable toilets. A Non-Hazardous Liquid Waste Transfer Facility consists of a holding tank, liquid waste loading area with washdown equipment, associated piping, and holding tank liquid level alarm system.

1. Holding tank construction shall be consistent with UPC section K-5, with the exception that baffles are not required and only one access port is required.

2. All piping, including but not limited to materials, cleanouts, and venting, shall be consistent with UPC sections 715.0 through 720.0, inclusive.

3. Minimum setbacks for holding tanks shall be as follows:

Streams and Watercourses	50 feet
Wells	50 feet
Groundwater	5 feet
Structures	5 feet
Property Line	5 feet
On-Site Domestic Water Line	5 feet
Public Water Main	10 feet

4. Minimum holding tank capacity shall be not less than three times the anticipated daily loading to the holding tank and in no case shall be less than 1,000 gallons.

5. An alarm system constructed of durable, corrosion-resistant material shall be installed on each holding tank. This alarm shall give a conspicuous audio and visual indication whenever the tank becomes two-thirds full.

6. The liquid waste loading area shall consist of an impermeable, easily cleanable area designed and constructed in a manner which prevents the formation of insanitary conditions. A ¾ inch water hose connection shall be installed at the liquid waste loading area to allow connection of a hose for area washdown following holding tank pumping. An approved backflow prevention assembly shall be installed in the water service line to the hose connection. Provisions shall be made to store the washdown hose off the ground. A warning sign shall be posted at the water hose connection reading: DANGER - UNSAFE WATER.

7. Holding tanks shall be pumped by a licensed pumper as needed. Quarterly reports of holding tank pumping shall be submitted to the Ventura County Environmental Health Division by March 30, June 30, September 30, and December 31 of each year.

8. Offer to grant an easement to County Service Area 32 is required. A contractual maintenance agreement with a public utility may also be required.

Section K-15 CLUSTERED SYSTEMS

(a) DEFINITION. Clustered systems are comprised of three or more private sewage disposal systems with soil absorption components located in a common area on a single legal lot.

(b) GENERAL REQUIREMENTS. All components of clustered systems shall comply with all applicable requirements of this Code pertaining to private sewage disposal systems and the following additional requirements:

1. The primary (installed) soil absorption components of the clustered system shall provide 200% of the minimum area calculated for each structure connected to the clustered system pursuant to Section K-3 of this Code.

2. Land area providing for complete replacement of the primary soil absorption components of the clustered system shall be set aside for future expansion, and shall conform with Table UPC Appendix K-1 of this Code.

3. a. For residential structures, each private sewage disposal system comprising the clustered system shall be connected to not more than one dwelling unit within a structure.

   b. For non-residential structures, each private sewage disposal system comprising a clustered system shall be connected to one or more structures with a combined daily wastewater discharge not to exceed 1,500 gallons.

4. The soil absorption component of each private sewage disposal system within the clustered system shall be located at least sixteen horizontal feet from the soil absorption component of any other private sewage disposal system within the same clustered system.

5. When a clustered system is (or can become) located on land jointly owned by more than one owner of the structures served (e.g., condominium projects), an easement and agreement approved by the Environmental Health Division providing for access to inspect, maintain, and repair/replace the clustered system shall be recorded in the Office of the County Recorder.

6. A monitoring well, constructed and maintained in conformance with procedures adopted by the Administrative Authority, shall be provided in an approved location.

7. All distribution boxes within the clustered system shall be fitted with risers extending to finish grade elevation.

8. The applicant for each clustered system shall provide a signed statement from a California-Certified Engineering Geologist, certifying the following:

   a. The proposed clustered system site is free against the potential hazard from landslide, excessive settlement and slippage.

   b. Incorporation of geotechnical and geologic recommendations in concert with safe construction practices is anticipated to result in a site which is considered geotechnically and geologically suitable for the intended use and will not adversely affect adjoining properties.

TABLE UPC APPENDIX K-1
(Superscript numbers refer to footnotes (1) through (8) on next page

LOCATION OF SEWAGE DISPOSAL SYSTEMS

Minimum Horizontal Distance in Feet From:	Building Sewer	Septic Tank	Disposal Field	Seepage Pit	Subsurface Sand Filtration System	Mound System
Building or Structures[1]	2	5	8	8	8	20[7]
Property line adjoining private property	Clear[2]	5	5	8	8	10
Water supply well on suction line	50[3]	50	100	150	100[8]	100
Streams, lakes, tidal waters or ocean waters	50	50	50	100	100	100
Large Trees	--	10	--	10	10	--
Seepage pits or cesspools	--	5	5	12	--	--
Disposal Field	--	5	4[4]	5	--	--
On site domestic water service line	1[5]	5	5	5	5	5
Distribution Box	--	--	5	5	--	--
Pressure public water main	10[6]	10	10	10	10	10

NOTE: When disposal fields ~~and~~/or seepage pits are installed in sloping ground, the minimum horizontal distance between any part of the leaching system and ground surface shall be fifteen (15) feet.

When facilities are located near tidal or ocean waters, the horizontal distance shall be measured from the historically most landward location of the beach at the mean high tide elevation. Structures or facilities shall be constructed in accordance with Federal, State and local laws to prevent erosion of the beaches and movement of the mean high tide closer than the horizontal distances specified above.

FOOTNOTES TO TABLE UPC APPENDIX K-1

(1) Including porches and steps, whether covered or uncovered, breezeways, roofed port-cocheres, roofed patios, carports, covered walks, covered driveways and similar appurtenances.

(2) See Section 313.3 of the UPC.

(3) The distance may be reduced to not less than twenty-five (25) feet when approved metallic piping is installed. Where special hazards are involved, the distance required shall be increased as may be directed by the County Health Officer or the Administrative Authority.

(4) Plus two (2) feet for each additional foot of depth in excess of one (1) foot below the bottom of the drain line (see Sec. K6(i) of the UPC).

(5) See Sec. 720.0 of the UPC.

(6) For parallel construction. For crossings, approval by the Administrative Authority is required.

(7) This distance shall be increased to 30 feet when the system is located upslope of the structure.

(8) This distance shall be increased to 150 feet when seepage pits are used as a component of the system.

TABLE UPC APPENDIX K-6
(Letters in parenthesis refer to footnotes below)

ABSORPTION AREA REQUIREMENTS

Percolation Rate (Time in minutes required for water to fall one inch)	Required Absorption Area (Sq. ft. per bedroom using standard leach lines. See notes (a) through (e) below.
1 or less	75
2	85
3	100
4	115
5	125
10	165
15	190
30	250
45	300
60	330
over 60 (e)	---

(a) Sufficient usable land area must be available to provide 100% expansion of required absorption area when/if necessary. See Sec. UPC APPENDIX K-1(d) in this Code.

(b) Absorption area should be sufficient to accommodate increased future use stemming from the addition of bedrooms or conversion of unfinished spaces to bedroom use, whenever such changes can be reasonably be anticipated.

(c) The absorption area for leach lines and leaching beds is calculated as trench bottom area only except as provide in Sec. UPC APPENDIX K-3 in this ordinance. Minimum required area for leaching trenches is 150 sq. ft.

(d) The above table allows for the connection of domestic food waste units and automatic clothes washing machines without further increase in absorption area.

(e) Soil having a percolation rate over 60 min/inch is unsuitable for installation of an absorption system.

TABLE UPC APPENDIX K-7

ANALYSIS:

Changes have been made to the sections dealing with exempted work, water supply and distribution, sanitary drainage, required sewers and private sewage disposal systems. These changes are administrative and based on local topographic conditions.

ARTICLE 7 - AMENDMENTS TO THE UNIFORM HOUSING CODE (UHC)

CHAPTER 1 - TITLE AND SCOPE

Section 104 - APPLICATION TO EXISTING BUILDINGS AND STRUCTURES.

104.2. RELOCATION. Buildings or structures moved into or within the County shall comply with the provisions of Article 2, Chapter 40 in this ordinance.

Section 105 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. APPEALS BOARD.

203.1 - GENERAL The Housing Advisory and Appeals Board, for the purposes of this housing code, shall be the General Board of Appeals as set forth in Article 2, Chapter 1, Section 105 in this ordinance. Appeals to the Board shall be processed in accordance with the provisions contained in Section 1201 in the UHC.

Sec. 204. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

CHAPTER 3 - PERMITS AND INSPECTIONS

Sec. 302 FEES. Refer to Article 2, Chapter 1, Section 107 in this ordinance.

~~CHAPTER 5 - SPACE AND OCCUPANCY STANDARDS~~

~~Section 503 - ROOM DIMENSIONS~~

~~503.2. FLOOR AREA. 1. Every dwelling unit shall have at least one room which shall have not less than 120 square feet of floor area. Other habitable rooms, except kitchens, shall have an area of not less than 70 square feet.~~

~~2. Net floor area, as used herein, shall mean the total number of square feet of floor area in a dwelling unit based upon the interior dimensions of that dwelling unit excluding bathrooms, kitchens, halls, stairwells, closets, storage or utility space, and similar areas.~~

~~No dwelling unit shall be occupied or allowed to be occupied in such a manner that the maximum occupancy of the dwelling unit, as determined below, is exceeded.~~

~~3. Maximum occupancy shall be determined as follows:~~

~~For the first two occupants of any dwelling unit, there shall be a minimum of 220 square feet of net floor area. An additional 100 square feet of floor area shall be provided for every additional occupant of the dwelling unit.~~

~~EXCEPTION: Nothing in this section shall prohibit the use of an efficiency dwelling unit within a structure which complies with the requirements of UBC Section 310.7.~~

CHAPTER 12 - APPEAL

Section 1201 - GENERAL

1201.2. PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 1201 in the UHC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals.

The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a substandard building or the premises on which it is located.

CHAPTER 14 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 1401 - COMPLIANCE

1401.1. GENERAL. After any order of the Building Official or a Board of Appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect, or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor or infraction.

ANALYSIS:

Minor administrative changes have been made to the housing code in regard to enforcement, permits and inspections and appeals. These are administrative changes only.

ARTICLE 8 - AMENDMENTS TO THE UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS (DBC)

CHAPTER 1 - TITLE AND SCOPE

Sec. 104 - GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

CHAPTER 2 - ENFORCEMENT

Sec. 203. VIOLATIONS AND PENALTIES. See Article 2, Chapter 1, Section 103 in this ordinance.

Sec. 205. APPEALS BOARD. The appeals Board for the purposes of the Dangerous Buildings Code shall be the General Board of Appeals as set forth in Article 2 in this ordinance. Appeals

to the Board shall be processed in accordance with the provisions contained in Section 501 in the DBC.

CHAPTER 5 - APPEAL

Section 501 - GENERAL

501.2 PROCESSING OF APPEAL. Upon receipt of any appeal filed pursuant to Section 501 in the DBC, the Building Official shall present it at the next regular or special meeting of the Board of Appeals. The Building Official may, under the applicable procedures set forth in this Code, request and initiate a hearing before the Board of Appeals on any matter related to a dangerous building or the premises on which it is located.

CHAPTER 7 - ENFORCEMENT OF THE ORDER OF THE BUILDING OFFICIAL OR THE BOARD OF APPEALS

Section 701 - COMPLIANCE

701.1 GENERAL. After any order of the Building Official or a board of appeals made pursuant to this Code shall have become final, no person to whom any such order is directed shall fail, neglect or refuse to obey any such order. Any such person who fails to comply with any such order shall be guilty of a misdemeanor/infraction.

ANALYSIS:

Minor administrative changes have been made to the dangerous buildings code in regard to enforcement, violations and penalties and appeals. These are administrative changes only.

~~ARTICLE 9 - AMENDMENTS TO APPENDIX CHAPTER 1 OF THE UNIFORM CALIFORNIA CONSERVATION CODE (U CCC)~~

APPENDIX CHAPTER 1 - SEISMIC STRENGTHENING PROVISIONS FOR UNREINFORCED MASONRY BEARING WALL BUILDINGS

Section A100 - GENERAL

A100.1 PURPOSE. The purpose of this Chapter is to promote public safety and welfare by reducing the risk of death or injury that may result from the effects of earthquakes on existing unreinforced masonry bearing wall buildings.

The provisions of this Chapter are intended as minimum standards for structural seismic resistance established primarily to reduce the risk of life loss or injury. Compliance with these standards will not necessarily prevent loss of life or injury or prevent earthquake damage to rehabilitated buildings.

A100.2 SCOPE. The provisions of this Chapter shall apply to all existing buildings in Seismic Zones 3 and 4 which were constructed or under construction, or for which a building permit was issued, prior to May 10, 1962, having at least one unreinforced masonry wall. Except as provided herein, all other provisions of the Uniform Building Code shall apply.

EXCEPTIONS: This code shall not apply to:

1. Detached one or two story family dwellings, detached apartment houses containing less than 5 dwelling units and used solely for residential purposes, and hotels/motels containing less than 5 guest rooms.

2. Essential Facilities as defined in Table 16K of the Uniform Building Code.

3. Hazardous Facilities as defined in Table 16K of the Uniform Building Code.

This does not require alteration of existing electrical, plumbing, mechanical or fire safety systems.

A100.3 GENERAL AMENDMENTS. See Article 2, Chapter 1 for amendments of general application to this code. Where there is a conflict between the general amendments and specific ones found herein, the more restrictive shall apply.

A100.4 COUNTY ORDINANCE HISTORY. This article together with Article 1, Chapter 8 is a restatement of Ventura County Ordinance No. 3948 which it hereby supersedes. The section numbering has been revised to be consistent with the current numbering sequence found in the U.C.B.C.

Section A101 ADMINISTRATIVE PROVISIONS

A101.1 DEFINITIONS. For the purposes of this Division, the applicable definitions in the Uniform Building Code shall also apply.

HIGH RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of 100 occupants or more as determined by Section 1002.1 and Table 10-A of the Uniform Building Code.

EXCEPTIONS: A high risk building shall not include the following:

1. Any building having exterior walls braced with masonry crosswalls or woodframe crosswalls spaced less than 40 feet apart in each story. Crosswalls shall be full-story height with a minimum height of 1-1/2 times the story height.

2. Any building used for its intended purpose, as determined by the Building Official for less than 20 hours per week.

LOW RISK BUILDING is any building, other than an essential or hazardous building, having an occupant load of less than 20 occupants as determined by Section 1002.1, Table 10-A, of the Uniform Building Code.

MEDIUM RISK BUILDING is any building, not classified as a high-risk building or an essential or hazardous building, having an occupant load of 20 occupants or more as determined by Section 1002.1, Table 10-A of the Uniform Building Code.

A101.2 **Rating Classifications.** The rating classifications identified in Table A-9-A are hereby established and each building within the scope of this Division shall be placed in one such rating

classification by the Building Official. The total occupant load of the entire building as determined by Section 1002.1, Table 10-A of the Uniform Building Code shall be used to determine the rating classification.

EXCEPTION: For purposes of this Division, portions of buildings constructed to act independently when resisting seismic forces may be placed in separate rating classifications.

A101.3 **Compliance Requirements.** 1. The owner of each building within the scope of this Division shall, upon service of an order and within the time limits set forth in this Division, cause a structural analysis to be made of the building by an engineer or architect licensed by the state to practice as such and, if the building does not comply with earthquake standards specified in this Division, the owner shall cause it to be structurally altered to conform to such standards or shall cause the building to be demolished.

2. The owner of a building within scope of this Division shall comply with the requirements set forth above by submitting to the Building Official for review within the stated time limits:

   A. Within 270 days after service of the order, a structural analysis, which is subject to approval by the Building Official, and which shall demonstrate that the building meets the minimum requirements of this Division; or

   B. Within 270 days after service of the order, the structural analysis and plans for structural alterations of the building to comply with this Division; or

   C. Within 120 days after service of the order, plans for installation of wall anchors in accordance with the requirements specified in Section A113 of the UCBC; or

   D. Within 270 days after service of the order, plans for the demolition of the building.

3. After plans are submitted and approved by the Building Official, the owner shall obtain a building permit and then commence and complete the required construction or demolition within the time limits set forth in Table No. A-9-B. These time limits shall begin to run from the date the order is served in accordance with Section A101.4.2, except that the time limit to commence structural alteration or demolition shall begin to run from the date the building permit is issued.

4. Owners electing to comply with A101.3 of this subsection are also required to comply with Items A101.2 or A101.4 of this subsection provided, however, that the 270-day period provided for in Items A101.2 or A101.4 and the time limits for obtaining a building permit and to complete structural alterations or building demolition set forth in Table A-9-B shall be extended in accordance with Table No. A-9-C. Each such extended time limit shall begin to run from the date the order is served in accordance with Section A101.4 except that the time limit to commence structural alterations or demolition shall begin to run from the date the building permit is issued.

A101.4 **Administration.**

A101.4.1 Order - Service. A. The Building Official shall, in accordance with the priorities set forth in Table No. A-9-C, issue an order as provided in this section of other owner of each buildings within the scope of this Division.

B. Prior to the service of an order as set forth in Table No. A-9-C, a bulletin may be issued to the owner as shown upon the last equalized assessment roll or to the person in apparent charge or control of a building considered by the Building Official to be within the scope of this Division. The bulletin may contain information the Building Official deems appropriate. The bulletin may be issued by mail or in person.

A101.4.2 Order - Priority of Service. Priorities for the service of the order for buildings within the scope of this Division shall be in accordance with the rating classification as shown on Table No. A-9-C. Within each separate rating classification, the priority of the order shall normally be based upon the occupant load of the building. The owners of the buildings housing the largest occupant loads shall be served first. The minimum time period prior to the service of the order as shown on Table No. A-9-C shall be measured from the effective date of this Division. The Building Official may, upon receipt of a written request from the owner, order such owner to bring his building into compliance with this Division prior to the normal service date for such building set forth in this Division.

A101.4.3 Order - Contents. The order shall be in writing and shall be served either personally or by certified or registered mail upon the owner as shown on the last equalized assessment roll, and upon the person, if any, in apparent charge or control of the building. The order shall specify that the building has been determined by the Building Official to be within the scope of this Division and, therefore, is required to meet the minimum seismic standards of this Division. The order shall specify the rating classification of the building and shall be accompanied by a copy of Section A101.3, which sets forth the owner's alternatives and time limits for compliance.

A101.4.4 Appeal from Order. The owner of the building may appeal the Building Official's initial determination that the building is within the scope of this Division to the Board of Appeals established by Section 105 of the Ventura County Building Code. Such appeal shall be filed with the Board within 60 days from the service date of the order described in Section A101.4 Any such appeal shall be decided by the Board no later than 90 days after writing and the grounds thereof shall be stated clearly and concisely. Requests for modifications from any other determinations, orders or actions by the Building Official pursuant to this Division shall be made in accordance with the procedures established in Sections 104.2.7 and 104.2.8 of the Uniform Building Code.

A101.4.5 Recordation. At the time that the Building Official serves the aforementioned order, the Building Official shall also file with the Office of the County Recorder a certificate stating that the subject building is within the scope of this Division and is a potentially earthquake hazardous building. The certificate shall also state that the owner thereof has been ordered to structurally analyze the building and to structurally alter or demolish it where compliance with this Division has not been demonstrated.

If the building is either demolished, found not to be within the scope of this Division or is structurally capable of resisting minimum seismic forces required by this Division as a result of

structural alterations or an analysis, the Building Official shall file with the Office of the County Recorder a form terminating the status of the subject building as being classified within the scope of this Division.

A101.4.6 Enforcement. If the owner or other person in charge or control of the subject building fails to comply with any order issued by the Building Official pursuant to this Division within any of the time limits set forth in Section A101.3, the Building Official shall verify that the owner of record of this building has been properly served. If the order has been served on the owner of record, then the Building Official shall order that the entire building be vacated and that the building remain vacated until such order has been complied with. If compliance with such order has not been accomplished within 90 days after the date the building has been ordered vacated or such additional time as may have been granted by the Board of Appeals, the Building Official may order its demolition in accordance with the provisions of Section 102 of the Uniform Building Code.

Section A102 GENERAL REQUIREMENTS

A102.1 **GENERAL.** All buildings shall have a seismic resisting system conforming with Section 1603.3 of the Uniform Building Code, except as modified by this Division.

A102.2 **Alterations and Repairs.** Alterations and repairs required to meet the provisions of this Division shall comply with all other applicable requirements of the Uniform Building Code unless specifically provided for in this Division.

(c) A102.3 **Requirements for Plans.** The following construction information shall be included in the plans required by this Division.

1. Accurately dimensioned floor and roof plans showing existing walls and the size and spacing of floor and roof framing members and sheathing material. The plans shall indicate all existing and new crosswalls and their materials of construction. The location of the crosswalls and their openings shall be fully dimensioned and drawn to scale on the plans.

2. Accurately dimensioned wall elevations showing openings, piers, wall classes as defined in Section A106.3, thicknesses, and heights, wall shear test locations, cracks or damaged portions requiring repairs, the general condition of the mortar joints, and if and where the joints require pointing. Where the exterior face is veneer, the type of veneer, its thickness and its bonding and/or ties to the structural wall masonry shall also be reported.

3. The type of interior wall and ceiling surfaces.

4. The extent and type of existing wall anchorage to floors and roof when utilized in the design.

5. The extent and type of parapet corrections which were previously perform, if any.

6. Repair details, if any, of cracked or damaged unreinforced masonry walls required to resist forces specified in this Division.

7. All other plans, sections, and details necessary to delineate required retrofit construction including those items in Section A113.

ORDINANCE NO. 4274

SUMMARY OF PROPOSED ORDINANCE AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:

All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.

An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.

Chapter 2:

The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.

Chapter 3:

The California Electrical Code is adopted with amendments as shown in Article 2 and Article 4.

Chapter 4:

The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.

ATTACHMENT "B"

Chapter 5:

The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.

Chapter 6:

The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.

Chapter 7:

The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.

Chapter 8:

Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Model Codes

Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.

Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.

The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)

Building Code changes have been made in regards to definitions, high fire hazard areas, structure forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.

Defined words are now shown in bold type to be consistent with the building code and to improve readability.

The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.

The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBC in Appendix Chapter 4, Division 1 - "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.

Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

In Article 4, Amendments to the California Electrical Code (CEC)

Changes to the California Electrical Code have been made centering on administrative powers and duties of enforcement, exempted work, conductors, wiring methods and materials, grounding and emergency systems.

In Article 5, California Mechanical Code (CMC)

Amendments to the mechanical code have been made dealing with local conditions for the installation of factory-built chimneys.

In Article 6, Amendments to the California Plumbing Code (CPC)

Amendments have been made dealing with administrative powers and duties of enforcement, exempted work, definitions, water supply and distributions, sanitary drainage, required sewers and location of sewage disposal systems, and private sewage disposal systems.

In Article 7, Amendments to the Uniform Housing Code (UHC)

Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8, Amendments to the Dangerous Building Code (DBC)

Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)

The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include those dealing with the purpose and scope and administrative provisions.

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

November 5, 2002 at 9:00 a.m.

ORD 4274/206

AMENDING VENTURA COUNTY BUILDING CODE

An Ordinance of the County of Ventura Amending the Ventura County Building Code and Adopting by Reference the Current Editions is presented to the Board at this time, and upon motion of Supervisors Mikels, seconded by Supervisor Schillo, and duly carried, it is ordered that the same be passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 4274.

Board members vote as follows:

Ayes: Supervisors Bennett, Schillo, Long, Mikels and Flynn

Noes: None

Absent: None

All members of the Board present voting on the passage and adoption of said Ordinance, it is hereby declared and ordered that said Ordinance is hereby passed and adopted as an Ordinance of the County of Ventura, to be known as Ordinance No. 4274.

It is further ordered that said ordinance shall take effect and be enforce at the expiration of thirty (30) days from the date hereof, and before the expiration of fifteen (15) days the same shall be published, with the names of the members of the Board of Supervisors voting for and against the same, at least once in the Ventura County Star, A newspaper of general circulation printed and published in the County of Ventura, State of California.

SUMMARY OF ORDINANCE NO.4274 AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.
An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electrical Code is adopted with an amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with amendments as shown in Article 2 and Article 7.
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Mode Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.
Detached one-story animal shade covers less than 1,000 square feet in area have been added to the list of work not requiring a permit.
The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)
Building Code changes have been made in regards to definitions, high fire hazard areas, structure, forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.
Defined words are now shown in bold type to be consistent with the building code and to improve readability.
The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.
The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBS in Appendix Chapter 4, Division I, "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.
Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

SUMMARY OF ORDINANCE NO.4274 AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follows: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Buildings, 1997 edition; California Electric Code, 2001 edition; California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the *Ventura County Building Code.*
An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electrical Code is adopted with an amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published by the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with *amendments as shown in Article 2 and Article 7.*
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references *has not changed, however.*

In Article 2, Amendments of General Application to all the Adopted State and Mode Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permit fees, inspections, and certificates of occupancy.
Detached one-story animal shade covers less than 1,000 square feet in area have been added to the *list of work not requiring a permit.*
The Building Permit Fee Table has been removed as fees are established in a separate resolution adopted by the Board of Supervisors.

In Article 3, Amendments to the California Building Code (CBC)
Building Code changes have been made in regards to definitions, high fire hazard areas, structure forces, foundations and retaining walls, wood sheer walls, gypsum board and plaster, relocated buildings and temporary structures, swimming pools, mobilehomes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing foundations, elevators and escalators, and excavation and grading.
Defined words are now shown in bold type to be consistent with the building code and to improve readability.
The table for the maximum diaphragm dimension ratios for wood diaphragms has been updated to reflect changes in the new code. Footnote 3 in the code has been dropped out in the amendment due to the high seismic activity in the Ventura area.
The swimming pool chapter incorporates the requirements of the "Swimming Pool Safety Act" passed by the California State Legislature together with the requirements found in the 1997 UBS in Appendix Chapter 4, Division 1- "Barriers for Swimming Pools, Spas and Hot Tubs". In addition, former amendments from the Ventura County Building Code have been carried forward where they do not conflict with the other regulations.
Minor editorial changes to capitalize section headings have been made to improve readability and to be consistent with the other sections in the ordinance.

In Article 4, Amendments to the California Electrical Code (CED)
Changes to the California Electrical Code have been made centering on administrative powers and duties of enforcement, exempted work, conductors, wiring methods and materials, grounding and emergency systems.
In Article 5, California Mechanical Code (CMC)
Amendments to the mechanical code have been made dealing with local conditions for the installation of factory-built chimneys.
In Article 6, Amendments to the California Plumbing Code (CPC)
Amendments have been made dealing with administrative powers and duties of enforcement, exempted work, definitions, water supply and distributions, sanitary drainage, required sewers and location of sewage disposal systems, and private sewage disposal systems.

In Article 7, Amendments to the Uniform Housing Code (UHC)
Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8 Amendments to the Dangerous Building Code (DBC)
Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)
The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include those dealing with the purpose and scope and administrative provisions.

Passed and adopted this 5th day of Nov. 2002

SUMMARY OF ORDINANCE NO. AMENDING THE VENTURA COUNTY BUILDING CODE AND RELATED CODES

The following is a summary of the proposed amendments to the Ventura County Building Code and related codes to be considered by the Ventura County Building Code and related codes to be considered by the Ventura County Board of Supervisors on October 8, 2002, at 9:00 a.m., in the Board Hearing Room in the Hall of Administration, County Government Center, 800 S. Victoria Avenue, Ventura, California. The purpose of the amendments is to amend the Ventura County Building Code and adopt by reference the current editions of certain state adopted and other model codes as follow: California Building Code, 2001 edition; Appendix Chapter 1 of the California Conservation Code, 2001 Edition Edition; Uniform Housing Code, 1997 edition; Uniform Code for the Abatement of Dangerous Building, 1997 edition; California Electric Code, 2001 edition California Plumbing Code, 2001 edition; and the California Mechanical Code, 2001 edition together with amendments thereto. Copies of the full text of the proposed ordinance are on file with the Clerk of the Board of Supervisors.

In Article 1, Adoption of the California Building Standards Code and Other Model Codes by Reference.

Chapter 1:
All references to code editions have been updated to refer to the latest editions of the State adopted codes and the other model codes adopted into the Ventura County Building Code.

An editorial change has been made revising the address for the code publishing organization that publishes the mechanical code.
Chapter 2:
The California Building Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 3.
Chapter 3:
The California Electric Code is adopted with amendments as shown in Article 2 and Article 4.
Chapter 4:
The California Mechanical Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 5. The Mechanical Code is now that version published the International Association of Plumbing and Mechanical Officials.
Chapter 5:
The California Plumbing Code and certain appendixes are adopted with amendments as shown in Article 2 and Article 6.
Chapter 6:
The Uniform Housing Code is adopted with amendments as shown in Article and Article 7.
Chapter 7:
The California Code for the Abatement of Dangerous Buildings is adopted with amendments as shown in Article 2 and Article 8.
Chapter 8:
Appendix Chapter 1 of the California Conservation Code is adopted with amendments as shown in Article 2 and Article 9. The California Conservation Code has been renamed from the Uniform Code for Building Conservation because of its adoption by the State. The mode code it references has not changed, however.

In Article 2, Amendments of General Application to all the Adopted State and Model Codes
Administrative amendments of general application have been made to all of the adopted codes, especially in regards to title, scope and purpose of the code, violations, organizations and enforcement, Boards of Appeal, permits, [illegible]
Changes to the Housing Code have been made regarding relocated buildings, enforcement, appeals, violations and penalties and permits and inspections.

In Article 8, Amendments to the Dangerous Building Code (DBC)
Amendments have been made to the Dangerous Building Code dealing with enforcement and appeals.

In Article 9, Amendments to the California Conservation Code (CCC)
The new California Conservation Code has been adopted. It is based on the same 1997 Uniform Code for Building Conservation as was previously adopted. Amendments to that code being carried forward include these dealing with the purpose and scope and administrative provisions.

Passed and adopted this ___ day of __, 2002.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition. Uniform Code for the Abatement of Dangerous Buildings 1997 edition California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor 800 South Victoria Avenue, Ventura, California for reveiw by interested persons.
Dated this 11th day of October 2002.

Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: ADOPTION OF PROPOSED AMENDMENTS TO THE VENTURA COUNTY BUILDING CODE (VCBC) AND RELATED CODES

RECOMMENDED ACTION:

1. Conduct a public hearing, introduce and read in title only the attached Ventura County Building Code Ordinance, waive further reading by a majority vote, and continue the matter, together with the Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing Law, for final adoption on November 5, 2002, at 9:00 a.m.

2. At a second meeting on November 5, 2002, at 9:00 a.m., receive public testimony and adopt the proposed Ventura County Building Code Ordinance to become effective thirty days from the date of final passage, adopt a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law, and direct that the findings be filed with the State Building Standards Commission.

FISCAL/MANDATES IMPACT: None

STATEMENT OF MATTER FOR BOARD CONSIDERATION:

The uniform building codes form the primary basis of authority under which local building departments regulate the construction of buildings and structures. The California Health and Safety Code requires every city or county to utilize virtually the same housing construction standards as those of the State, but with provision for local adjustments to reflect local conditions. The recommended revisions to Ventura County's local ordinance are part of the normal legal process which is prescribed by State law for the adoption of building codes.

The local County building codes which are currently in effect were last amended by the Board in June 1999. This proposed ordinance will update references to the latest editions of the State codes, and will maintain uniformity with nearby city and county jurisdictions, which are completing the same process. Additionally, the proposed ordinance will improve certain of the administrative and regulatory provisions of the Ventura County Building Code (VCBC) to facilitate administration and enforcement of the codes. The VCBC is a compilation of previously-adopted ordinances regulating construction and incorporates State adopted codes and other model codes.

4i12-1.02

Attachment "A" is a copy of the VCBC which incorporates the proposed amendments without strike outs or underlining and has been furnished to the Clerk of the Board for publication as required by law.

Attachment "B" is an abbreviated summary by article of the changes made to the VCBC.

Attachment "C" is a copy of the letter sent out by the Building Official to interested parties requesting their review of the draft VCBC.

Attachment "D" is a Resolution adopting express findings regarding modification of uniform codes which regulate buildings subject to the State Housing law. Adoption of these express findings is required by Health and Safety Code Section 17922. A county may make modifications in the requirements of the State adopted codes which are reasonably necessary because of local conditions. Changes to State construction standards may not, however, result in standards less than State minimums.

Attachment "E" are the express findings required for adoption.

A copy of the proposed Ventura County Building Code and these attachments are available in the Clerk of the Board's office and at the Building and Safety Counters in the Simi Valley Court House and in the Administration Building in Ventura.

Existing amendments that have not changed from the prior code have been simply brought forward without modification. Changes made by the amendments fall into one of the following categories:

1. Editorial changes that either update references, section numbers, chapter and section titles, or add highlighting of definitions, or make grammatical corrections and clarifying language revisions. These are found in various places throughout the code.

2. Administrative changes that modify permit processes or requirements or other administrative provisions in the code. Prominent administrative changes include those dealing with the title, scope and purpose of the code, violations, organization and enforcement, Boards of Appeal, permits, fees, inspections and certificates of occupancy.

3. Technical changes or "building standards", which actually affect the specific design and approval of a structure. Many of the amendments dealing with "building standards" have been reduced or eliminated as they are now found in the State code itself and are no longer necessary to add by amendment.

   Other technical changes have been made to the codes in regard to definitions, high fire hazard areas, structural forces, foundations, shear walls, gypsum board and plaster, relocated buildings, swimming pools, mobile homes and commercial coaches, post-disaster recovery and reconstruction, agricultural buildings, damp-proofing, elevators, excavation and grading, wiring methods and materials, factory-built chimneys and sewage disposal systems.

Beginning on September 25, 2002, an initial draft of the proposed VCBC amendments was sent to interested parties, including engineers, architects and draftspersons, builders and contractors, individual citizens and industry groups such as the Ventura County Contractors Association, Building Industries Association, American Institute of Architects, and the Structural Engineers Association and to members of the County's Building Appeals Boards.

This item has been reviewed by the Chief Executive Office, County Counsel and the Auditor-Controller. A legislative version with strikeouts through deleted words and sentences and underlining under new words and sentences is on file with the Clerk of the Board of Supervisors. If you have any questions, please call me at extension 2787.

NOTICE OF PUBLIC HEARING TO CONSIDER AN ORDINANCE ADOPTING BY REFERENCE THE CURRENT EDITIONS OF CERTAIN BUILDING CODES, TOGETHER WITH AMENDMENTS THERETO; AND ADOPTING CERTAIN OTHER PROVISIONS REGULATING BUILDINGS AND STRUCTURES

NOTICE IS HEREBY GIVEN that a public hearing, as provided by law, will be held by the Board of Supervisors of the County of Ventura to consider adoption of amendments to the Ventura County Building Code.

The proposed ordinance would adopt by reference current editions of the following California and uniform codes, making them applicable in the unincorporated areas of Ventura County: California Building Code 2001 edition, Uniform Housing Code 1997 edition, Uniform Code for the Abatement of Dangerous Buildings 1997 edition, California Electrical Code 2001 edition, California Plumbing Code 2001 edition, California Mechanical Code 2001 edition and the California Conservation Code 2001 edition.

The proposed ordinance would amend certain administrative and regulatory provisions of the Ventura County Building Code.

Said public hearing will be held on Tuesday, November 5, 2002, at 10:00 a.m. in the Board of Supervisors' Hearing Room in the Hall of Administration, County Government Center, 800 South Victoria Avenue, Ventura, California, at which time any interested person may attend and be heard on this matter.

The Board of Supervisors may or may not adopt the proposed ordinance as a result of the public meeting. Final action will be taken at a subsequent meeting of the Board of Supervisors.

The Clerk of the Board of Supervisors will maintain copies of the proposed ordinance and code on file at the Government Center, Hall of Administration, Fourth Floor, 800 South Victoria Avenue, Ventura, California for review by interested persons. Dated this 11 day of October 2002.

Indent major paragraphs no more than one space.

Sec. 105 - BOARD OF APPEALS

105.1 GENERAL. To determine the suitability of alternate materials and methods of construction, and to provide for reasonable interpretations of the provisions of this Code, and to hear the appeals provided for, there shall be and are hereby created Boards of Appeals. Each Board shall consist of five members who are not employees of the County and who are qualified by experience and training to pass upon matters pertaining to the type of construction related to each Board's jurisdiction as hereinafter described. The Building Official shall be an ex officio member and shall act as Secretary of each Board. Each Board of Appeals shall be appointed by the Board of Supervisors and shall hold office at its pleasure. Each Board shall adopt reasonable rules and regulations for conducting its investigations. All decisions and findings shall be rendered in writing to the appellant with duplicate copy to the Building Official. Copies of all rules and regulations adopted by the Board shall be delivered to the Building Official who shall make them accessible to the public. All decisions of a Board of Appeals shall be final.

105.3 SPECIFIC BOARDS OF APPEAL

105.3.1 GENERAL BOARD OF APPEALS. The jurisdiction of the General Board of Appeals shall be all the appealable matters contained in this Code, except those matters expressly placed within the jurisdiction of one of the following Board of Appeals.

105.3.2 BOARD OF GRADING APPEALS. The jurisdiction of the Board of Grading Appeals shall be the appealable matters contained in APPENDIX Chapter 33 of the Uniform Building Code.

105.3.3 BOARD OF MECHANICAL AND PLUMBING APPEALS. The jurisdiction of the Board of Mechanical and Plumbing Appeals shall be the appealable matters contained in the Uniform Mechanical Code and the Uniform Plumbing Code.

105.3.4 BOARD OF ELECTRICAL APPEALS. The jurisdiction of the Board of Electrical Appeals shall be the appealable matters contained in the National Electrical Code.

105.3.5 BOARD OF APPEALS OF ACCESSIBILITY MATTERS. The jurisdiction of the Board of Appeals of Accessibility matters shall be the appealable matters contained in California State Title 24
CCR), the Federal Americans with Disabilities Act and Federal Housing Authority regulations for disabled access.

105.4 APPEALS HEARING FEE. Required fees as set forth in the Ventura County Building and Safety Fee Schedule shall accompany each application for a hearing before any of the appeals boards authorized by this Code.

AGREEMENT BETWEEN COUNTY OF VENTURA AND CITY OF CAMARILLO PERTAINING TO CAMARILLO AIRPORT DEVELOPMENT AND SURROUNDING LAND USE

THIS AGREEMENT is entered into by and between the COUNTY OF VENTURA (hereinafter "COUNTY") and the CITY OF CAMARILLO (hereinafter "CITY") and shall become binding and effective upon the date of the last signature hereupon. The parties make the following recitals:

A. COUNTY has been granted possession of the major portion of the former Oxnard Air Force Base under lease from the Federal Government for use as a public airport facility (which facility is hereinafter referred to as the "Camarillo Airport").

B. COUNTY and CITY anticipate that fee title to the Camarillo Airport will be transferred from the Federal Government to COUNTY in the near future in accordance with COUNTY'S application therefor.

C. COUNTY'S application for transfer of Camarillo Airport calls for the establishment of a joint powers body representing COUNTY and CITY to oversee airport development.

D. Most of the Camarillo Airport and much of the land surrounding the airport is located within CITY.

E. COUNTY and CITY desire to achieve maximum mutual cooperation in the development of Camarillo Airport and to maintain a balanced perspective in fulfilling COUNTY aviation requirements within a framework of continuing community sensitivity.

F. COUNTY and CITY objectives will be realized by a joint exercise of powers by and between COUNTY and CITY to form a joint review body to oversee airport development and surrounding land use planning.

Based upon the foregoing recitals, the parties do hereby agree as follows:

1. COUNTY and CITY do hereby jointly exercise their powers and create the Camarillo Airport Authority (hereinafter "Authority").

2. The Authority shall be composed of two members of the Ventura County Board of Supervisors, which members shall be selected by the Board of Supervisors; two members of the Camarillo City Council, which members shall be selected by the City Council; and a fifth member to be selected by a majority of the other four members.

3. The Ventura County Board of Supervisors shall not give formal approval or otherwise act upon any matter brought before it pertaining to development, operation or any other matter at the Camarillo Airport until the matter shall have first been submitted to the Authority and a recommendation received therefrom.

4. The Camarillo City Council and the Ventura County Board of Supervisors shall not grant any approval or take any other action in respect to any land use matter within the Camarillo Airport Zone until the matter shall have first been submitted to the Authority and a recommendation received therefrom. "Any land use matter within the Camarillo Airport Zone" shall mean actions relating to zoning, master or general planning, use permits and all other exercises

of the police power which regulate the development of the area designated in Exhibit A, attached hereto and incorporated herein by this reference.

5. COUNTY shall operate the Camarillo Airport in a manner consistent with the restrictions specified in Exhibit B, attached hereto and incorporated herein by this reference. The restrictions shall not be modified, except in emergencies, until the proposed modification shall have first been submitted to the Authority and a recommendation received therefrom.

6. COUNTY and CITY shall exercise their police powers so as to maintain the compatibility of the land within the Camarillo Airport Zone with aviation use and shall not allow uses inconsistent therewith.

7. The Authority shall act expeditiously and avoid unreasonable delays in formulating recommendations for the Ventura County Board of Supervisors and the Camarillo City Council. Any matter submitted to the Authority shall be deemed to have been approved following the expiration of sixty (60) days following submission unless a majority of the members of the Authority shall have denied or taken other action on a matter submitted to it.

8. Notwithstanding the provisions of paragraphs 3 and 4, the Camarillo City Council and the Ventura County Board of Supervisors may act on any matter prior to (1) receiving a recommendation from the Authority or (2) the expiration of sixty (60) days, whichever occurs first, to the extent that such action may be required by law. In the event of a requirement for early action on any matter to be submitted to the Authority, such matter shall be submitted to the Authority at the earliest possible date and the Authority shall be given notice of the date by which action must be taken.

9. The Ventura County Board of Supervisors and the Camarillo City Council shall each give full consideration to all recommendations of the Authority and shall not take any action inconsistent therewith unless by at least a four-fifths vote.

10. The Authority shall hold monthly meetings at a time chosen by members of the Authority. Special meetings may be called by the chairman, vice chairman or any three members. The Authority shall promulgate and adopt rules for the orderly conduct of its meetings and affairs.

11. The Authority shall elect from its members a chairman and vice chairman to serve for one year. Elections shall be held in January.

12. COUNTY shall, without cost to CITY, provide staff and secretarial support to the Authority, which said support shall include the taking of minutes at all Authority meetings, the preparation and distribution of agendas for Authority meetings and coordination of Authority business with CITY staff.

13. All additional expenditures which are recommended by Authority shall be paid by COUNTY subject to COUNTY'S prior approval. The provisions of paragraph nine, pertaining to the four-fifths vote requirement, shall not apply to funding approvals. In the event COUNTY fails to approve any proposed expenditure, the expenditure shall not be incurred unless and until the manner of payment is mutually agreed upon between the parties hereto.

14. The debts, liabilities and obligations of the Authority shall be solely the debts, liabilities and obligations of the Authority and neither the CITY nor the COUNTY shall be liable therefor.

15. The term of this agreement shall be for perpetuity; provided, however, that if COUNTY is precluded from operating the Camarillo Airport for public airport purposes, then this agreement shall be of no further force or effect.

16. This agreement may be modified at any time by mutual agreement of the parties.

EXHIBIT B

CAMARILLO AIRPORT RESTRICTIONS

1. The airport shall be operated for general aviation purposes only. General aviation is defined in Attachment 1, affixed hereto and incorporated herein.

2. The airport operating hours will be from 7:00 AM to 10:00 PM.

3. The usable runway length shall not exceed 6,000 feet and shall be the most westerly 6,000 feet of the existing runway.

4. An aircraft weight limitation of 115,000 lbs. (twin wheel) shall be in effect.

5. The airport VFR traffic pattern shall be to the south of the airfield as designated on Attachment 2, affixed hereto and incorporated herein.

6. Airport development shall be guided to ensure that residential areas are not exposed to noise levels greater than 60 CNEL average noise and 90 dBA single event noise.

EXHIBIT A

The "Camarillo Airport Zone" shall consist of the area bounded by the following:

Highway 34 to the south; the southerly extension of Carmen Drive to the east; Highway 101 to the north; the western boundary of the Camarillo sphere of interest, as designated on the 1974 Camarillo General Plan, to the west.

AMENDMENT #1

"AGREEMENT BETWEEN COUNTY OF VENTURA AND CITY OF CAMARILLO PERTAINING TO CAMARILLO AIRPORT DEVELOPMENT AND SURROUNDING LAND USE"

1. WHEREAS, the County of Ventura and the City of Camarillo, in October of 1976, entered into a joint powers agreement pertaining to Airport Development and Surrounding Land Use; and

2. WHEREAS, said agreement provides for the formation of the Oxnard Airport Authority and selection of members thereof; and

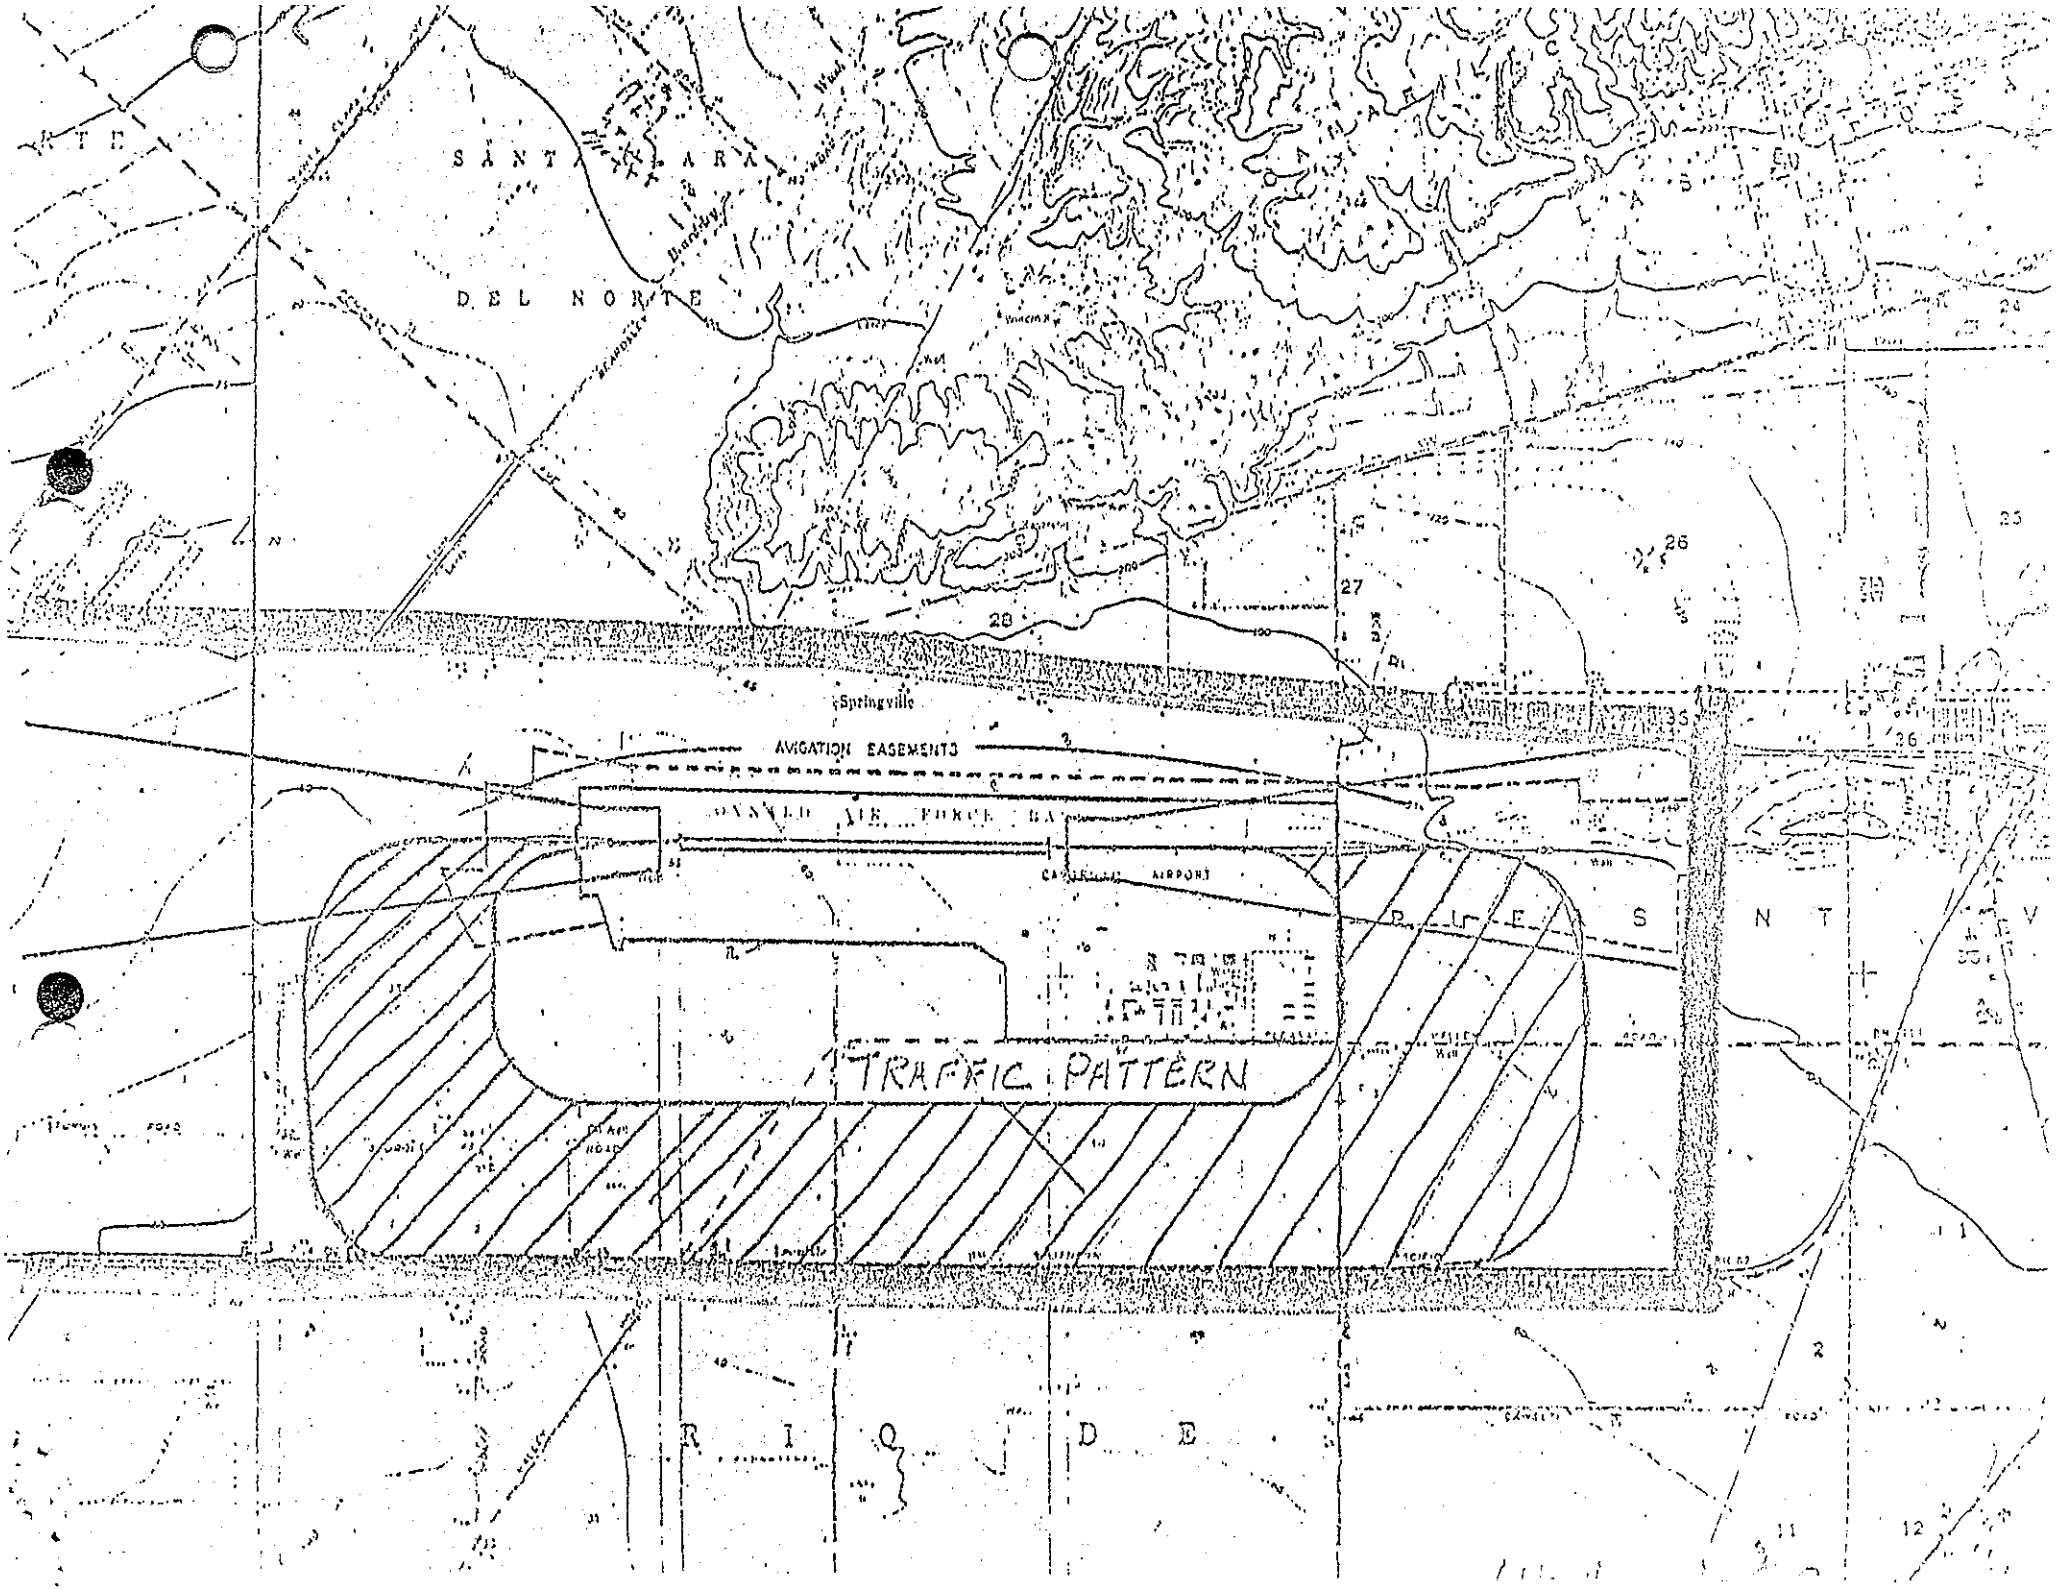
3. WHEREAS, the Authority now wishes to amend the "Agreement" to allow alternate members to be appointed and vested with certain voting authority;

4. NOW, THEREFORE, it is hereby resolved that the "AGREEMENT BETWEEN COUNTY OF VENTURA AND CITY OF CAMARILLO PERTAINING TO CAMARILLO AIRPORT DEVELOPMENT AND SURROUNDING LAND USE" be amended as follows:

pg 2 para 2 "Composition of Authority"

Add: "Members of the Board of Supervisors may be selected by the Board of Supervisors as alternates, and members of the City Council may be selected by the City Council as alternates". An alternate to the fifth member (public member) may be selected by a majority vote of the other four Authority members. "Such designated alternate(s) may be a voting participant(s) at an Authority meeting at such time as the regular member(s) representing his/her jurisdiction is not in attendance".

ATTACHMENT 1



GENERAL AVIATION

General aviation includes all business and commercial, training, personal transportation, proficiency, and sport flying not classified as air carrier. General aviation includes air taxi or charter for revenue on a non-schedule basis (interstate limited to 30 passengers, 7,500 lbs. cargo), and intrastate freight carriers and interstate freight carriers which operate through exclusive long-term contracts (non-common carriers).

Excluded from general aviation are all air carrier operations. Air carrier operations consist of operations which are certificated by the CAB or the PUC and comprise the following:

(a) CAB Certificate of Convenience & Necessity covers all interstate common carriers (services offered to public at large) on a regular schedule and route. CAB also certificates interstate air taxi and charter aircraft with more than 30 seats which operate for revenue on a non-scheduled basis. CAB certificates all interstate common carrier freight airlines also, including air taxi over 7,500 pounds of cargo carried.

(b) PUC certificates all air carrier (people) of any size which operate on a regularly scheduled basis over scheduled routes for revenue. This includes third level carriers such as Golden West. PUC does not certificate intrastate freight air carriers.

STATEMENT OF AMENDED BY-LAWS OF

THE CAMARILLO AIRPORT AUTHORITY

The following provisions shall constitute the By-laws of the Camarillo Airport Authority as amended:

ARTICLE I. CONSTITUTION

The Camarillo Airport Authority, hereinafter referred to as "Authority," was formed pursuant to a joint powers agreement on October 21, 1976, between the City of Camarillo and the County of Ventura, such accord being entitled "Agreement Between County of Ventura and City of Camarillo Pertaining to Camarillo Airport Development and Surrounding Land Use."

ARTICLE II. PURPOSE

The purpose of the Authority is to review and act upon policy matters relating to airport operations and development, and policy matters regarding changes in land use within "Camarillo Airport Zone" as defined in the joint powers agreement.

The Ventura County Board of Supervisors shall not give formal approval or otherwise act upon any matter brought before it pertaining to the development or operation of the Camarillo Airport until it has been first submitted to the Authority and a recommendation received therefrom.

The Camarillo City Council and the Ventura County Board of Supervisors shall not grant any approval or take any other action in respect to any land use matter within the Camarillo

Airport Zone until it has been first submitted to the Authority and a recommendation received therefrom. "Any land use matter within the Camarillo Airport Zone" shall mean actions relating to zoning, master or general planning, use permits and all other exercises of the police power which regulate the development of the Airport Zone.

ARTICLE III. DUTIES AND RESPONSIBILITIES

All matters concerning the Camarillo Airport and Camarillo Airport Zone, or the air transportation system within the County of Ventura requiring Board or Council action shall first be referred to the Authority for its review prior to submission to the Board or Council for action.

The Authority shall act expeditiously and avoid unreasonable delays in formulating recommendations to the Ventura County Board of Supervisors and the Camarillo City Council. Any matter submitted to the Authority shall be deemed to have been approved following the expiration of sixty (60) days following submission unless a majority of the members of the Authority shall have denied or taken other action upon it.

The Department of Airports staff shall provide assistance, including obtaining any necessary legal or other technical assistance required by the Authority in formulating its recommendations. The Department of Airports may request the Authority to review and make recommendations upon matters under its jurisdiction which would have not required Board or Council action or approval. The Authority shall, at all of

its meetings, set aside time for public comment and input on the matters at hand. It shall hear all complaints, suggestions and viewpoints from airport users, lessees and other interested parties. The Authority shall give fair, open-minded consideration to public comment and make its deliberations and dispositions public in all matters brought before it. The Authority may hold public hearings when necessary to serve the public interest. Correspondence containing representations and/or recommendations of the Authority being sent to the Board, Council, members of the general public or other agencies of the County shall first be approved by a majority vote of the Authority, and such materials shall be transmitted under the signature of the Chairman of the Authority or his or her designee. Correspondence containing County and/or City policy or representations which are being transmitted to federal, state or other non-County/City agencies shall be sent to the Board and/or Council as appropriate for approval and signature.

County shall, without cost to City, provide staff and secretarial support to the Authority, which support shall include the taking of minutes at all Authority meetings, the preparation and distribution of agendas for Authority meetings and coordination of Authority business with City staff.

All additional expenditures which are recommended by Authority shall be paid by County subject to County's prior approval. In the event County fails to approve any proposed

expenditure, such expenditure shall not be incurred unless and until the manner of payment is mutually agreed upon by the Authority. The debts, liabilities and obligations of the Authority shall be solely the debts, liabilities and obligations of the Authority; neither the City nor the County shall be liable therefor.

ARTICLE IV. MEMBERSHIP

The Authority shall be composed of two members of the Ventura County Board of Supervisors, which members shall be selected by such Board; two members of the Camarillo City Council, which members shall be selected by such Council; and a fifth member selected by a majority of the other four members. Alternates for the representatives of the Board and the Council may be selected by the respective bodies. An alternate to the fifth member may be selected by a majority vote of the other five Authority members. Any such designated alternate(s) may be a voting participant at an Authority meeting at such time as a regular member(s) is not in attendance. Upon the termination of office of the fifth member prior to the expiration of his or her term, the designated alternate shall succeed to such position, following a majority vote of approval by the five Authority members.

ARTICLE V. TERMS OF OFFICE

Members from the Board of Supervisors and the City Council shall serve at the pleasure of their respective bodies. The term of the fifth member shall be two (2) years,

with no such member holding office for more than four (4) consecutive years or two (2) consecutive terms, whichever period is shorter.

The term of office of the fifth member shall commence on the first of March. Prospective candidates shall complete and return an approved application form to the Airport Authority in compliance with the instructions provided, when so ordered by the Authority. Final selection will be by majority vote of the other four Authority members. The final selection shall be made by the Authority prior to the end of the fifth member's term.

The term of office of the Alternate Public Member shall be the same as that of the Public Member. Prospective candidates shall complete and return an approved application form to the Airport Authority in compliance with the instructions provided. Vacancy in the Public Member position shall be filled by the appointment of the Alternate Public Member upon a majority vote of the five Authority members.

ARTICLE VI. OFFICERS

The Authority shall select from its membership a chairman and a vice-chairman. Each shall serve for one (1) calendar year beginning on the first meeting in January. The chairman shall be responsible for conducting the meetings and shall be guided by Roberts' Rules of Order, Revised. The Airport Administrator for the Department of Airports shall act as the Authority's administrative secretary. The administrative secretary shall be directly responsible to the

chairman and the Authority for the administrative and secretarial needs of the Authority. From time to time the chairman will assign members to committees for purposes of special studies and pursuits. Each committee will be headed by a committee chairman. The committee chairman shall be responsible to the Authority for carrying out its assigned task.

ARTICLE VII. MEETINGS

The Authority shall hold meetings once each month at a time and place selected by the Authority. Meetings shall be open to the public. The administrative secretary shall prepare and publish the agenda for each meeting and have it distributed to Authority members and all interested parties after it has been approved by the chairman or his or her designee. Meetings may be cancelled only on the approval of the chairman. Special meetings may be called by the chairman, vice-chairman or any three members. In the absence or unavailability of the chairman, the vice-chairman shall assume all duties and responsibilities of the chairman. In the absence of both officers, the next most senior member shall assume the duties and responsibilities of the chairman. No action shall be taken except by a majority of a quorum of the Authority. A quorum shall exist when at least three (3) Authority members are present and a quorum must contain one City member, one County member and one public member. Voting shall generally take place by voice vote unless a ballot vote is requested by any one member. The secretary shall poll each member and record his or her vote on all motions acted

upon by voice vote, and record the results of all ballot votes. An accurate record of each regular and special meeting shall be kept and published for all interested parties.

ARTICLE VIII. AMENDMENTS

Amendments to these By-laws may be made by the Authority at any time by a majority vote of the Authority, as long as such amendments are consistent with the joint powers agreement ("Agreement Between County of Ventura and City of Camarillo Pertaining to Camarillo Airport Development and Surrounding Land Use").

ARTICLE IX. EFFECTIVE DATE

These By-laws, as amended, shall take effect upon adoption by the Authority.

Upon motion of Thomas S. Martin, seconded by Michael D. Morgan, and duly carried, the foregoing amended By-laws were approved by the Camarillo Airport Authority on October 13, 1988.

BOARD OF SUPERVISORS, COUNTY OF VENTURA, STATE OF CALIFORNIA

TUESDAY, MAY 8, 2007 AT 9:30 A.M.

ORDINANCE NO. 4361

VENTURA COUNTY CAMPAIGN FINANCE REFORM ORDINANCE

An Ordinance of the Board of Supervisors of the County of Ventura, State of California, Relating to Amendments to the Ventura County Campaign Finance Reform Ordinance at this time, and upon motion of Bennett, seconded by Supervisor Long, and duly carried, it is ordered that the same be passed and adopted as an ordinance of the County of Ventura, to be known as Ordinance No. 4361.

Board of Director members vote as follows:

Ayes: Supervisors Bennett, Long, and Parks.

Noes: Supervisor Foy.

Absent: Supervisor Flynn.

All members of the Board present voting on the passage and adoption of said Ordinance, it is hereby declared and ordered that said Ordinance is hereby passed and adopted as an Ordinance of the County of Ventura, to be known as Ordinance No. 4361.

It is further ordered that said ordinance shall take effect and be enforced at the expiration of thirty (30) days from the date hereof, and before the expiration of fifteen (15) days the same shall be published, with the names of the members of the Board of Supervisors voting for and against the same, at least once in the Ventura County Star, a newspaper of general circulation printed and published in the County of Ventura, State of California.

ORDINANCE NO. 4361

AMENDMENTS TO AN ORDINANCE OF THE VENTURA COUNTY BOARD OF SUPERVISORS, REPEALING AND REENACTING ARTICLE 6, CHAPTER 2, DIVISION 1 OF THE VENTURA COUNTY ORDINANCE CODE, SECTION 1261 ET SEQ., REGARDING LOCAL CAMPAIGN FINANCE REFORM

The Board of Supervisors of the County of Ventura ordains as follows:

Section 1. Repeal of Existing Ventura County Campaign Finance Reform Ordinance

Section 2 of Ordinance No. 4322 of the County of Ventura, which reenacted section 1261 and enacted sections 1262 through 1298 of Article 6 of Chapter 2 of Division 1of the Ventura County Ordinance Code, is hereby repealed.

Ordinance No. 4350 of the County of Ventura, which amended section 1295, subdivision (g) of Article 6 of Chapter 2 of Division 1 of the Ventura County Ordinance Code, is hereby repealed.

Section 2. Intent To Clarify Existing Law

It is the intent of the Ventura County Board of Supervisors in repealing and reenacting this Ordinance to construe and clarify the meaning and effect of existing law by confirming that the limitations set forth in Section 1270 of Article 6 of Chapter 2 of Division 1 of the Ventura County Ordinance Code are to be construed as a limit solely on contributions and not as a limit on the amount of expenditures by Independent Expenditure Committees.

Section 3. Enactment of Ventura County Campaign Finance Reform Ordinance

Sections 1261 through 1298 of Article 6 of Chapter 2 of Division 1 of the Ventura County Ordinance Code are hereby reenacted as follows:

Section 1261. Name of Ordinance

This ordinance shall be known and cited as the "Ventura County Campaign Finance Reform Ordinance."

Section 1262. Purpose of the Ordinance

The purpose of this ordinance is to promote public trust in governmental institutions and the electoral process, reduce the appearance of corruption, and to prevent individuals or organizations from using their financial strength to corrupt Ventura County government by creating political debts through contributions or expenditures that allow them to control or unduly influence elected officials. To further these purposes, this ordinance is written to help individual voters by reducing the potential influence and the appearance of influence resulting from large campaign contributions, to candidates, committees supporting candidates, or independent expenditure committees and thus to promote the integrity of the process of electing Ventura County candidates and the integrity of Ventura County government. Finally, to further these purposes, this ordinance provides full and fair enforcement of all its provisions.

Section 1263. Relationship to the Political Reform Act of 1974

This ordinance is intended to supplement the Political Reform Act as amended. Unless a word or term is specifically defined in this ordinance or the contrary is stated or clearly appears from the context, words and terms shall have the same meaning as when they are used in Title 9 of the California Government Code, in which the Political Reform Act is codified, and as supplemented by the Regulations of the Fair Political Practices Commission as set forth in Title 2, Division 6 of the California Code of Regulations, as well as any amendments to the Act or to the Regulations of the Fair Political Practices Commission.

Section 1264. Definitions

(a) "County candidate" means any individual who is a candidate for Supervisor, Sheriff, District Attorney, County Clerk, Treasurer-Tax Collector-Public Administrator, Auditor, County Superintendent of Schools, or Assessor. The provisions of Government Code 82007 shall also apply to such individuals.

(b) "Elective county officer" means any individual who is a Supervisor, Sheriff, District Attorney, County Clerk, Treasurer-Tax Collector-Public Administrator, Auditor, County Superintendent of Schools, or Assessor.

(c) "County-wide office" means the office of Sheriff, District Attorney, County Clerk, Treasurer-Tax Collector-Public Administrator, Auditor, County Superintendent of Schools, or Assessor.

(d) "Participating candidate" means a candidate who has agreed to limit his or her expenditures pursuant to Section 1265.

(e) "Non-participating candidate" means a candidate who has not agreed to limit his or her expenditures pursuant to Section 1265.

(f) "Commission" refers to the Ventura County Campaign Finance Ethics Commission as created by Section 1295 of this ordinance.

(g) "Candidate pool" means the pool of candidates nominated by the Board of Supervisors from which the Independent Selector will recommend candidates for appointment by the Board of Supervisors.

(h) "Clerk" means the County Clerk or his or her designee.

(i) "Clerk of the Commission" means the County Executive Officer or his or her designee.

(j) "Independent Expenditure Committee" means any committee not controlled by the candidate that contributes to or expends funds for or against a candidate.

(k) "Independent Selector" is the person appointed by the Board of Supervisors pursuant to section 1295 (c) to assist in the selection of the five individuals to be appointed to the Commission.

(l) "Non-benefiting participating candidate" means a candidate who has agreed to limit his or her expenditures pursuant to Section 1265 and who has been opposed by independent expenditures, or whose opponent has been supported by independent expenditures.

(m) "Sponsored Committee" means a committee, other than a controlled committee, which has one or more sponsors.

(n) "Sponsor" of a committee means any person, except a candidate, proponent, or other individual to whom any of the following applies:

(1) The person who directly or whose members, officers, employees, or shareholders provide 80 percent or more of the committee's contributions;

(2) The person collects contributions for the committee by use of payroll deductions or dues from its members, officers or employees;

(3) The person provides, alone or in combination with other organizations, all or nearly all of the administrative services for the committee; or

(4) The person sets, alone or in combination with other persons or organizations, the policies for soliciting contributions or making expenditures of committee funds.

Section 1265. Expenditure Limits

(a) No candidate for the office of Supervisor who voluntarily accepts expenditure limits and no controlled committee of such a candidate shall make

campaign expenditures of more than one hundred fifty thousand dollars ($150,000) per election.

(b) No candidate for countywide office who voluntarily accepts expenditure limits and no controlled committee of such a candidate shall make campaign expenditures of more than five hundred thousand dollars ($500,000) per election.

(c) The Clerk shall adjust the expenditure limits in January of every odd-numbered year to reflect any increase or decrease in the Consumer Price Index. These adjustments shall be rounded off to the nearest one thousand dollars ($1,000) for limitations on expenditures.

Section 1266. Acceptance of Expenditure Limits

Each county candidate shall file with the Clerk a statement of acceptance or rejection of the voluntary expenditure limits set forth in Section 1265 before accepting any contributions. If he or she agrees to the spending limits, the candidate shall not be subject to the contribution limitations in Section 1267, but shall be subject to the contribution limitations in Section 1268.

Section 1267. Contribution Limitations for Non-Participating Candidates

(a) Except as provided in Section 1268, no person shall make to any county candidate, or the controlled committee of such a candidate or elective county officer, and no such county candidate, or controlled committee of such candidate shall accept from a person any contribution totaling more than three hundred and fifty dollars ($350) for each of the following elections for which the individual is a candidate: a primary election or a general (runoff) election.

(b) The provisions of this section do not apply to a candidate's contributions of personal and community property funds to the candidate's own campaign, but shall apply to contributions from the candidate's spouse or registered domestic partner of the spouse's or registered domestic partner's separate property.

Section 1268. Contribution Limitations for Participating Candidates

(a) No person shall make to any participating candidate for elective county office or the controlled committee of such a candidate, and no such participating candidate for elective county office, or controlled committee of such a candidate shall accept from a person any contribution totaling more than seven hundred dollars ($700) per election for each of the following elections for which the individual is a candidate: a primary election, or a general (runoff) election.

(b) The provisions of the section do not apply to a participating candidate's contributions of personal and community property funds to the candidate's own campaign but shall apply to contributions from the candidate's spouse or registered domestic partner of the spouse's or registered domestic partner's separate property.

Section 1269. Contributions to Candidates and Committees that Contribute to Candidates

(a) The combined total amount a person is allowed to contribute to a candidate's election committee and all other committees that contribute to that candidate shall be no more than seven hundred dollars ($700) over the election cycle. A willful or knowing violation of this subdivision shall violate the ordinance and section 1294 shall apply.

(b) No committee shall knowingly accept a contribution in excess of fifty dollars ($50) that will cause this seven hundred dollars ($700) limit to be exceeded by any individual contributor.

(c) If a committee discovers that it has accepted a contribution in excess of fifty dollars ($50) that has caused a contributor's seven hundred dollar ($700) limit to be exceeded, the committee shall return the contribution within 5 business days of the discovery.

(d) An aggregate contribution over the election cycle to a committee that is not controlled by the candidate which is under fifty dollars ($50) shall be exempted from the seven hundred dollar ($700) limit referred to in this section only.

Section 1270. Contributions to Independent Expenditure Committees

(a) Except as provided in subsection (b) below, no person shall make any contribution to an Independent Expenditure Committee, nor shall any person accept any contribution on behalf of an Independent Expenditure Committee which will cause the total amount contributed by such person to such Independent Expenditure Committee to exceed seven hundred dollars ($700) per election cycle.

(b) Notwithstanding the prohibition in subdivision (a), an Independent Expenditure Committee may receive contributions from any contributor that individually or cumulatively exceed seven hundred dollars ($700) if the funds for the committee's contributions to County Candidates and/or independent expenditures are expended from a separate account or accounts funded entirely by contributions which total seven hundred dollars ($700) or less per contributor per county candidate.

(c) On the same dates and in the same manner as required by the Political Reform Act, Article 2 of Chapter 4 of Title 9 of the Government Code (Section 84200 et seq.), any Independent Expenditure Committee that contributes to or expends funds for or against a County Candidate shall disclose each contribution made to it that individually or cumulatively totals fifty dollars ($50) or more per contributor.

Section 1271. Disclosure of Spending by Non-Participating Candidates

(a) If a non-participating candidate's total expenditures are twenty-five percent (25%) or more of the expenditure limits, the candidate shall notify and declare to the Clerk and opposing candidates within twenty-four (24) hours of the time such a total is reached.

(b) The Clerk or the Commission may make their own determination as to whether such expenditures have been made by non-participating candidates.

(c) Upon receiving a declaration or determining that a non-participating candidate has spent twenty-five percent (25%) or more of the expenditure limits, the Clerk shall inform within twenty-four (24) hours the opposing participating candidate(s) that they are no longer bound by the voluntary expenditure limits.

(d) Nothing in this section shall affect or change the contribution limits set forth in Sections 1267 and 1268.

Section 1272. Election Cycles

(a) For purposes of the limits of this ordinance and reporting procedures, if there is a general (runoff) election, contributions or expenditures made at any time from the beginning date a candidate may commence receiving contributions pursuant to Section 1279 to the day before the primary election shall be considered primary election contributions. For the general (runoff) election, contributions made from the date of the primary election through 90 days after the general (runoff) election shall be considered general (runoff) election contributions.

(b) For purposes of the limits of this ordinance and reporting procedures if there is not a general (runoff) election, contributions or expenditures made at any time from the beginning date a candidate may commence receiving contributions pursuant to Section 1279 through 90 days after the date of the primary election shall be considered primary election contributions.

Section 1273. Loans

(a) The provisions of this ordinance regarding loans apply to extensions of credit, including accrued expenses, but do not apply to loans made to a candidate by a commercial lending institution in the lender's regular course of business on terms available to members of the general public for which the candidate is personally liable.

(b) If a candidate makes a loan to his or her campaign or controlled committee, the outstanding loan balance may not exceed twenty thousand dollars ($20,000) after the election. Any excess above twenty thousand dollars ($20,000), which remains outstanding after the election, shall be deemed a non-recoverable contribution made on the date the loan was made. A candidate may not charge interest on any loan made by the candidate to the candidate's campaign.

(c) Extensions of credit, other than candidate loans and loans by commercial lending institutions to a candidate pursuant to subsection (a), for a period of more than 30 days are subject to the contribution limits of this ordinance.

(d) Every loan to a county candidate or elective county officer or his or her controlled committees shall be by written agreement. Each county candidate or elective county officer shall maintain in his or her committee's records a copy of the written loan agreement.

(e) This section shall apply only to loans and extensions of credit used or intended for use for campaign purposes or which are otherwise connected with the holding of public office.

Section 1274. Family Contributions

(a) Contributions made by a husband and wife or by registered domestic partners shall not be aggregated and shall be divided equally for donation tracking purposes.

(b) A contribution of fifty dollars ($50) or more made by a child less than eighteen (18) years of age is presumed to be a contribution from the parent or guardian of the child. For donation tracking purposes, if the parents or guardians of the child are married or have joint legal custody of child, the contribution shall be divided equally between them; if one parent or guardian has primary or sole legal custody of the child then the contribution shall be attributed to that parent or guardian. The committee or candidate accepting a contribution from a child under the age of eighteen (18) shall obtain the information concerning parental attribution.

Section 1275. Independent Expenditures

(a) In addition to any other report required by the Political Reform Act, a committee that makes independent expenditures of one thousand dollars ($1,000) or more during an election cycle for or against a candidate for elective county office shall file a report with the Clerk disclosing the making of each such independent expenditure. The report shall include the name and full street address of the committee, the Secretary of State identification number of the committee, the name of the treasurer of the committee, the names, addresses and occupations of the three largest contributors to the independent expenditure committee during the election cycle, and shall identify the candidate supported or opposed by the expenditure. This report shall disclose the same information required by subdivision (b) of Government Code Section 84204 and shall be filed within twenty-four (24) hours of the time the independent expenditure is made. A copy or transcript of any material published or broadcast shall also be included.

(b) The report to the Clerk shall include a signed statement under penalty of perjury by the person or persons making the independent expenditure identifying the

candidate or candidates whom the independent expenditure is intended to help elect or defeat and affirming that the expenditure is independent and that it is not coordinated with a county candidate. The statement may be on a separate form from the remainder of the report as provided by the Clerk, and will be considered timely if postmarked by the date required for filing the report to the Clerk.
