# Ventura County Grand Jury
2012 - 2013

Final Report

Moorpark Community College Nursing Program

May 16, 2013

This page intentionally blank

Moorpark Community College Nursing Program

Summary

The 2012 – 2013 Ventura County Grand Jury (Grand Jury) opened an inquiry into the methods and systems of the Moorpark College Associate of Science Degree in Nursing (ADN). This inquiry was conducted on the basis of public reports, various community interests and practices of the program.

The Moorpark Community College's (Moorpark) Registered Nursing (RN) program is a nationally accredited Associate Degree (AS) in Nursing Science. The program is accredited by the California State Board of Registered Nursing. This allows students to take/pass their state examination. Remarkably, the current passing rate of the State Board examination is 100%. The graduation rate for an AS degree is also 100% in this field of study. The Moorpark Nursing Program is accredited by the National League of Nursing Accrediting Commission (NLNAC). These facts led the Grand Jury to commend Moorpark College Associate of Science Degree in Nursing for the outstanding effort in advancing the study of nursing.

The Program's student success is attributed to the faculty dedication, student motivation and the benchmark assessments developed for this program. The educational goals are distinctive in that they afford each student the opportunity to track his or her success. The benchmarks are to:

- complete all science and math pre-requisites
- be admitted to the Moorpark Nursing Program
- successfully complete Nursing Science 1
- successfully complete Nursing Science 2
- successfully complete Nursing Science 3
- successfully complete Nursing Science 4
- have completed all general education requirements for an Associate of Science Degree
- pass the California State Board of Nursing examination

Background

Nursing is one of the top career choices in community colleges nationally, with high expectations of finding work after graduation and the ability to adjust schedules to meet family needs. Professional RNs are concerned with the promotion of health through client teaching and nursing care. The prevention of illness and client-centered care are the focus of nursing via independent and interdependent decision making in collaboration with the client/patient and other members of the healthcare team. The successful nurse has an interest in helping people, communicates effectively, possesses critical thinking and organizational skills, is flexible and has the ability to work cooperatively with other healthcare personnel.

The Associate Degree Nursing Program at Moorpark Community College has been approved by the California Board of Registered Nursing, and prepares students for entry into the practice of professional registered nursing. Students receive experience in a variety of clinical facilities and community agencies in Ventura County. The successful completion of this program can entitle the student to an Associate of Science Degree, and eligibility to take the professional licensing examination through the State of California to become an RN.

Employment opportunities are available in multiple healthcare settings such as surgical centers, doctors' offices, clinics, acute care hospitals, skilled nursing facilities, rehabilitation centers, home healthcare, outpatient settings and volunteer service agencies such as the Peace Corps, the military and other agencies.

Methodology

The Grand Jury reviewed numerous public records with respect to the various subjects of the study, as well as interviewed persons involved with the Moorpark College Nursing Program. The Grand Jury examined the practices and written policies of the RN program as well as public records. Also considered were current and historical documents related to the program's outcomes. In addition, the Grand Jury sought and received best practices information from impartial experts within the academic community and governance and used Internet sources for public records.

Facts

FA-01. The Moorpark RN program is a nationally accredited Associate of Science Degree in Nursing (ADN). The nursing program is approved by the California State Board of Registered Nursing (BRN) and accredited by the National League of Nursing Accrediting Commission (NLNAC). [Ref-01-03]

FA-02. The Moorpark RN program adheres to a self-care concept of nursing as it is consistent with the faculty's beliefs and serves as the unifying framework. [Ref-01-02]

FA-03. Moorpark RN programs theoretical guidelines for student progression and evaluation are modeled after a concept of novice practitioner to expert. [Ref-01-02]

FA-04. Health Sciences literacy and core competencies are identified as student expected competency.   [Ref-01-02] (Att-01)

FA-05. The nursing process is an organizing framework for nursing practice that includes: nursing assessment, nursing diagnoses, planning, writing outcome/goal statements, interventions, implementing care and evaluating care that has been given. [Ref-01-02] (Att-01)

FA-06. The application process is recommended to begin with an appointment with a nursing counselor. [Ref-01-02]

FA-07. Applications to the nursing program are accepted twice a year. [Ref-01-02] (Att:01)

FA-08. The application procedure includes several different documents: application, checklist, supporting documents, if applicable, and official transcripts of academic coursework from high school, colleges, as well as the assessment/readiness test. [Ref-01-02]

FA-09. Application requirements are: high school graduation or General Education Diploma (GED) with a score of 45 or passage of the California High School Proficiency Exam (CHSPE); minimum overall GPA of 2.5 or better; minimum core biology (anatomy, physiology, and microbiology) with a C or better, taken within five years of application; a grade of C or better in college intermediate algebra. [Ref-01-02]

FA-10. Moorpark College ADN program admission criteria are required. [Ref-01-02] (Att-01)

FA-11. All Moorpark ADN students are also required to take the Test of Essential Academic Skills version V (TEAS V) as part of the admission criteria. [Ref-01-02] (Att-01)

FA-12. Remediation may be required as the result of a low score on the TEAS V test, a low score, or as a condition of possible readmission. [Ref-01-02]

FA-13. An application is active for two years. If not admitted within two years of submitting an application, one will need to reapply. While waiting to reapply, there are required, recommended and strongly recommended activities. [Ref-01-02]

FA-14. Out of 156 California State Universities, private universities and colleges and California Community Colleges that offer an ADN program, there are only 14 schools that have a 100% pass rate. [Att:02]

Findings

FI-01. The Moorpark College Associate of Science Degree in Nursing has a 100% passing rate at the California State Board of Registered Nursing. It also enjoys a national accreditation through the National League of Nursing Accrediting Commission. (FA-01–13) (Att-02)

FI-02. The Moorpark College Associate of Science Degree in Nursing enjoys a 100% graduation rate after students complete all RN course work, as well as the required general education courses. (FA-12–13)

FI-03. The Moorpark ADN is one of the 14 schools that have a 100% pass rate out of the 156 nursing programs statewide. (FA-14) [Att-02]

Responses

Copies provided to:

Board of Trustees for the Ventura County Community College District

The Chancellor for the Ventura County Community College District

The President of Moorpark Community College

The Dean of the Health Science Division at Moorpark Community College

The Director of Nursing at Moorpark Community College

Commendations

The Ventura County Grand Jury commends the Moorpark College Associate of Science in Nursing Degree programs; the Dean, Health Sciences Coordinator/Nursing Director, faculty and counselors for the outstanding and tireless efforts in the area of nursing education. The County of Ventura reaps the rewards by providing a source of highly motivated and skilled nurses for our communities.

Philosophy

The philosophy, curriculum, and objectives of the program are designed to develop the intellectual, social, and cultural potential of each student in accordance with Moorpark College's stated beliefs and purposes. The purpose of the program is to prepare a beginning practitioner of nursing to function safely across practice settings.

7A1
7A2
Orem's self-care concept of nursing is consistent with the faculty's beliefs and serves as the unifying framework. Theoretical guidelines for student progression and evaluation are modeled after **Benner's** concepts of novice practitioner to expert. Faculty reason that the nursing student cannot progress to the "expert" practitioner level during their nursing curriculum; therefore, expectations for student progression within the program are to become a proficient practitioner.

Health Sciences Scientific Literacy and Core Competency:

7A3 **The Student will:**   SEE Att. (1)

- Describe the process of scientific inquiry.
- Demonstrate scientific inquiry by evidence gathered through observation (health history, interview, and physical examination).
- Discuss the scientific method to develop reliable knowledge about health promotion and wellness, treatment, and response to illness.
- Apply scientific reasoning and analysis to solve discipline specific problems.
- Utilize critical thinking skills in solving client problems
- Evaluate specific observations about the clients and their bio-psychosocio-spiritual realms and relate them to scientific questions, hypotheses, and theories.
- Apply scientific thinking by critically evaluating real client problems and situations.
- Intervene based on analysis of client assessment data.
- Evaluate client response to interventions and alter plan of care as needed.
- Utilize scientific rationales for interventions and evaluation of client outcomes.
- Utilize scientific/medical terminology in communicating results and evidence gathered through scientific literature, observations, and interventions.
- Report and document results of scientific inquiry (critical thinking process).
- Communicate effectively with clients and the interdisciplinary team.
- Utilize therapeutic communication techniques.
- Demonstrate responsible, ethical, and legal behavior.
- Adhere to professional standards of practice.
- Follow professional code of ethics.
- Practice within legal guidelines.

7A4 **Our Faculty believes...**   SEE Att (2)

Nursing:

- Is a scientific, community-based dynamic profession which is an integral part of health care services; it's practitioners value caring, integrity, ethical practice, diversity, education, service and quality
- Gives assistance to the individual who is unable to meet self-care requirements to maintain, attain and/or regain health or a peaceful death
- Goals are to empower individuals toward self-care and to increase the health; healing and well-being of individuals, families and communities
- Utilizes the nursing process for knowledgeable decision making and judgment, based on critical thinking, clinical competence, collaboration and accountability
- Provides relationship-centered care characterized by caring and inclusive communications
- Roles are provider of care, manager of care, and contributor to the nursing profession

The Individual is:

- A bio-psycho-socio-cultural-spiritual being with dignity, unconditional worth and rational powers
- Viewed within the context of their environment

Health is:

- A changing state on the wellness-illness continuum
- The structural and functional soundness and wholeness of the individual

http://www.moorparkcollege.edu/departments/academic/nursing/philosophy.shtml   10/31/2012

Philosophy - Academic - Departments - Moorpark College   Page 2 of 2

- Determined by the individual's values, beliefs and ability to meet self care requisites or health deviations

Caring for self and others is:

- A basic way of being which is central to nursing
- Enhanced through self-awareness and personal empowerment
- A major theme in becoming a knowledgeable, compassionate individual able to respond to human needs
- Learned by experiencing caring practices between: students and teachers, students and students, nurses and clients and health care team members

7A 5   **The Nursing Process is:**   SEE A++ 3

An organizing framework for professional nursing practice. Components of the process include performing a nursing assessment, making nursing diagnoses, planning, writing outcome/goal statements, determining appropriate nursing interventions, implementing care, and evaluating the nursing care that has been given.

- Assessment and nursing diagnosis identify the client's universal and developmental self-care demands and health deviations.
- Establishment of client outcomes/goals aim to prevent illness, meet the client's self care demand, restore health, move the client toward independent self-care or adaptation to self-care interruptions/decline, and transfer responsibility to family or significant others within the community setting.
- Implementation of nursing interventions can be preventive (educative/supportive) or restorative (wholly/partially compensatory).
- Evaluation of outcomes determines if the goals have been met; if not, the nursing process is begun again, starting with assessment.

Application Process

Application forms can be found under the Forms section of this website.

It is recommended that you make an appointment with a counselor if you have questions regarding course equivalency for prerequisites not taken at Moorpark College. When meeting with a counselor, please complete the Nursing Counseling Appointment Checklist prior to your appointment.

7A7 Applications to the Nursing Program are accepted twice a year: *SEE ATT: 4*

- August 1st - August 31st by 5:00 pm in the Health Sciences Department Office
- January 3rd - January 31st by 5:00 pm in the Health Sciences Department Office

If the application due date falls on a weekend or a holiday, the application will be due in the Health Sciences Department Office by 5:00 pm on the next business day.

It is recommended that applicants hand deliver their applications to the Health Sciences Department Office in HSC 120. Please make sure to include the following items:

7A8
- The Nursing Program Application
- The Nursing Application Checklist
- The Supporting Documentation Form and paperwork if applicable
- Official (sealed) transcripts of required academic coursework from each high school and college attended (including Moorpark, Oxnard and Ventura Colleges)
- All paperwork should be placed in a 9x12 envelope, with your name clearly written on the outside

Processing of applications takes approximately 4 months; you will <u>not</u> be contacted during this time.

Important Dates/Deadlines

Application Period - Applications must be received by 5:00 pm on the due date in the Health Sciences Department Office - HSC 120

- August 1st - August 31st
- January 3rd - January 31st

Save the Dates

TEAS V - Only qualified applicants will be invited via e-mail to take the TEAS V exam.

Note you must have a valid vcccd.edu e-mail address to receive the invitation

- September 28th & October 5th - For August 2012 application period
- February 22nd & March 1st - For January 2013 application period

Welcome to the Nursing Program <u>Mandatory</u> Open House/Tea - Students who are selected to enter the nursing program will be required to attend this event.

- October 29th - For spring semester admissions
- April 1st - For fall semester admissions

7A9 ### Application Requirements

- High school graduation or General Education Development (GED) Exam with a score of 45, or successful passage of the California High School Proficiency Exam (CHSPE)
- Minimum overall GPA of 2.5 or better in all college coursework.
- Minimum Core Biology (Anatomy, Physiology, and Microbiology) with a grade of C or better, **taken within five years of application date.**
- Intermediate Algebra, with a grade of C or better, **taken within five years of application date.**

Moorpark College ADN Program Admission Criteria – Multi Criteria Selection Process

Due to changes in legislation and Education Code, admission criteria to the ADN Program have been changed to a multi-criteria screening and ranking.

Criteria	Point Distribution	Student's points	Required Supporting Documentation
1. Previous Academic Degrees, diplomas or relevant certificates (if any)	**Maximum Points: 10**		
o BA/BS Degree (Or higher)	10		BA/BS Degree Official transcript from regionally accredited U.S. colleges or universities with degree posted. Same for postgraduate degrees.
o AA/AS Degree or Licensed Health Care Worker: LVN, Psych Tech, Rad Tech, Paramedic	8		AA/AS Degree: Requires official transcript for regionally accredited U.S. college or university with degree posted. – OR – Licensed healthcare worker: Requires a copy of your current license with your license number, date of issue and date of expiration
o Certificated Nurse Attendant/Aide	5		Certificate healthcare worker: Requires a copy of your current *California* certificate with your certificate number, date of issue and expiration
2. GPA in relevant coursework –	**Maximum Points for sections 2 A, B, & C: 50**		
2 A. Minimum 2.5 GPA in Science prerequisites (Anatomy, Physiology, Microbiology) 4.0 3.5 – 3.99 3.0 – 3.49 2.5 – 2.99	40 35 30 25		**2 A.** Official transcripts (in original sealed/unopened envelope) for all lower and upper division courses completed at any and all regionally accredited U.S. institutions, regardless of applicability to nursing requirements will be required. Official transcripts are also required for all courses completed at Moorpark College, Ventura College and Oxnard College. . **Failure to submit transcripts with all grades posted will result in disqualification.**
Failure to submit transcripts with all grades posted will result in disqualification of application.			Prerequisite courses completed at other regionally accredited United States colleges or universities must be equivalent to Moorpark College courses. For determination of course equivalency, official transcripts **AND** course descriptions for prerequisite courses will be required. All prerequisite courses must be completed with a grade of "C" or better and the final grade must be posted on the transcript. Course descriptions for prerequisite courses only must accompany the academic transcript for the purpose of determining course equivalency. Course descriptions must come from the specific catalog year in which the course was taken and may be obtained from the college catalog where courses were taken.

Criteria	Point Distribution	Student's points	Required Supporting Documentation
2 B. Minimum 2.5 GPA in remaining prerequisites: Written Composition (Eng 1A and Math M 03 or higher) 4.0 3.5 – 3.99 3.0 – 3.49 2.5 – 2.99	10 8 6 4		The same documentation listed in 2 A will be required for 2 B.
2 C. Repeats (W, D, F, I) in Science, Math and English Prerequisite (Anatomy, Physiology, Microbiology, Math3 or higher, English 1) 1 repeat 2 repeats 3 repeats 4 or more	-3 -5 -7.5 -10		The same documentation listed in 2 A will be required for 2C.
3. Work _or_ volunteer experience in healthcare (if any) –	Maximum Points: 5		➤ *Applicant may have one or more in this category but maximum points awarded is 5.*
o More than 200 hours working in healthcare	5		Work: Letter from current/former employer verifying employment. The letter must be on organization letterhead with an original signature and include the applicant's name (must match name on application), start date and end date (if applicable), employment status (full-time/part-time), number of hours worked per week (or total hours worked from/to date), job title, department if applicable, and examples of duties including patient interaction.
o More than 200 hours volunteering in healthcare	2.5		Volunteer: Letter from current/former organization verifying volunteer service. The letter must be on organization letterhead with an original signature and must include the applicant's name (must match name on application), start date and end date (if applicable), total number of hours volunteered, and examples of duties including patient interaction.
4. Life experiences or special circumstance (if any)	Maximum Points: 2.5		➤ **Documentation is required only for life experience(s) that apply** ➤ *Applicant may have one or more in this category but maximum points awarded is 2.5.*
o **A. Disabilities** (Same meaning used in Section 2626 of the Unemployment Insurance Code) o **B. Low family income**			o A. Documented disability from college Learning Disability Program or Disability Support Programs & Services o B. Proof of Eligibility or receipt of financial aid under a program that may include, but not limited to, a fee waiver from the Board of Governors, the Cal Grant Program, the federal Pell Grant program or CalWORKs)

Orig. Health Science Division November 2009   Education Code Section 78261-78261.5   Revised 4/27/2012 caf

o **C. First generation to attend college** o **D. Need to work** (Need to work means student is working at least part-time while completing academic work that is prerequisite for the Nursing Program) o **E. Disadvantaged social or educational environment** o **F. Difficult personal and family situation/circumstances** o **G. Refugee status** o **H. Veteran Status/Veteran's spouse**		o C. Complete the ADN Admission Supporting Documentation Form explaining situation or circumstances o D. Paycheck stub during period of time enrolled in prerequisite courses or letter from employer (must be on organization letterhead) verifying employment was at least part-time while completing prerequisite courses o E. Participation or eligibility for Extended Opportunity Programs & Services (EOPS) o F. Complete ADN Admission Supporting Documentation Form explaining situation or circumstances o G. Documentation or letter from USCIS o H. Copy of DD-214. Service in the active military, naval, or air service, and discharge under conditions other than dishonorable. Active service includes full-time duty in the National Guard. An eligible spouse would include the widow/er of a veteran that otherwise meets this criteria.
5. Proficiency or advanced level coursework in languages other than English (if any). _Credit for high-frequency languages as identified by the Chancellor's Office but not limited to:_ ➤ **American Sign Language** ➤ **Arabic Chinese** ➤ **Farsi Russian** ➤ **Spanish Tagalog** ➤ **Languages of Indian Subcontinent and Southeast Asia**	**Maximum Points: 2.5**	_Student must be fluent in all aspects of language (reading, writing and speaking) to qualify._ Official transcript from a U.S. regionally accredited college or university verifying two (2) semesters of foreign language – OR – Verification of proficiency – Complete the ADN Admission Supporting Documentation Form

6. Approved diagnostic assessment tool, ATI Test of Essential Academic Skills version V (TEAS V)
 	
Overall Score   ≥80% 6
              ≥75% 5
              ≥71% 4
              ≥68% 3
              ≥65% 2
              ≥62% 1
              <62% **Not Admitted**
	Maximum Points: 30	TEAS V will be offered by Moorpark College on an invitation-only basis to qualified applicants. The dates for the exam follow the application period each semester, and will be posted on the Nursing Department's website. All TEAS V scores must be received by the Nursing Department by the final testing date in order to be considered.
		
		TEAS V taken at Moorpark College – Applicants do not need to submit their results; the results will be accessible.
		
		TEAS V taken at any other location within the past 12 months – you must go to the www.atitesting.com online store and request that your official TEAS V results are sent to Moorpark College.
		
		Minimum adjusted individual score of 62% needed on test for admission

Orig. Health Science Division November 2009   Education Code Section 78261-78261.5   Revised 4/27/2012 caf

[handwritten: FAll] **The Test of Essential Academic Skills (TEAS V)**

[handwritten: See Att: 6]

TEAS V Information

> Applicants are **strongly** encouraged to treat this exam seriously, as it is weighed heavily in the application process. To assist in preparing for the exam, study guides are available through ATI.

All Moorpark College Associate Degree Nursing Program applicants are required to take the Test of Essential Academic Skills version V (TEAS V) as part of the admission criteria. As of January 2011, Moorpark College administers the **TEAS V** due to new regulations by the California State Chancellor's Office.

The TEAS V is part of a statewide initiative to increase the rate of success in California nursing programs. Screening students' academic skills and requiring remediation of weaknesses before beginning nursing classes will increase the likelihood of success in the rigorous academic challenge of nursing school.

Moorpark College offers the TEAS V exam on an invitation-only basis to qualified Nursing Program applicants on several dates each semester. **The TEAS V must be taken by the Nursing Program's final testing date following submission of the application.** The dates that the TEAS V exam will be given at Moorpark College are listed on the **Application Process** page under **"HOLD THE DATES"**. If these dates are not compatible with your schedule, you may take the TEAS V elsewhere (earlier) and have the results electronically forwarded to Moorpark College by ATI. Test results from within 12 months prior to application are also acceptable. These results must also be sent electronically, via ATI. Not taking the TEAS V within this timeframe will result in an incomplete application.

The Chancellor of the California Community Colleges recommends a minimum "Adjusted Individual Total Score" of 62% on the TEAS V. Scoring 62% or above indicates that your academic skills are at a level that will help you succeed in the nursing program. At Moorpark College, those scoring below 62% are required to complete specific remediation to improve their ability to succeed in the nursing program. It is very important to complete the remediation courses in a timely manner. **Deferral of admission is not allowed for incomplete remediation.** Moorpark College Associate Degree Nursing Program also reviews the sub-scores of all applicants' TEAS V results as part of the application process.

For details on how the TEAS V is administered and used at Moorpark College, please refer to the document titled "Administration & Use of the Test of Essential Academic Skills (TEAS V)" located in the Forms, Links and Information section of this site.

The TEAS V is produced by Assessment Technologies Institute, LLC (ATI). Information about the content and format of the test may be found at the company's website: www.atitesting.com

Taking the TEAS V

The TEAS V test is offered by the Moorpark College Nursing Department as a courtesy to qualified applicants to the program. An application must be submitted to the Moorpark College Nursing Program in order to be allowed to test here.

Students that require special testing accommodations related to diagnosed disabilities will have their testing arranged with ACCESS. ACCESS is the program that assures all Moorpark College classes, activities and facilities are accessible to all qualified students. For information on ACCESS, call (805) 378-1461 or go to the ACCESS page on this website, which can be found under the Services for Students tab.

Sending TEAS V results from other testing sites

If a student takes or has taken the TEAS V at a different location, it is the student's responsibility to send his or her results through ATI to Moorpark College. ATI charges a fee for this service, which is the student's responsibility to pay. TEAS V exam scores will be accepted by Moorpark College so long as the exam was taken within the past twelve months. All TEAS V results must be received by the Health Sciences Department before the final TEAS V test date at Moorpark College.

Remediation

Remediation may be required as the result of a low score on the TEAS V test, a low Success Score, or as a condition of possible re-admission. There are several courses of remediation that are recommended depending on the cause. Classes that may be required include, but are not limited to, the following:

* Nursing Science M16: Study Skills for the Nursing Student
* Certified Nursing Assistant (CNA) course
* Math M09 (Pre-Algebra)
* HS 19 Medical Terminology
* HS 15 Pharmacology

Not all of the above classes will be required of all students.

All science and math prerequisites must be completed within **five** years of application date.

If you score below 62% on the TEAS V test and/or have a Success Score $\leq$ 55%, you will be sent a letter by certified mail that outlines your individual remediation plan. Your application will not be considered until all classes have been completed with a grade of C or better. When you complete your remediation, submit all documenting paperwork, such as transcripts, to the Health Sciences office. Documents should be clearly marked "Remediation".

Completion of the remediation process is not a guarantee of admission to the Nursing Program.

While You Wait

An application is active for two years. If not admitted within two years of submitting your application, you will need to reapply.

Required Activities

The activities below are **required** while you wait for possible admission into the program. You may receive a letter including additional requirements.

- Keep your mailing address, phone number, and other contact information up to date. Submit changes both to the Health Sciences Department (in writing), and to Moorpark College (through my.vcccd.edu or at Registration & Records).
- Take your TEAS V test. Information regarding this can be found on the TEAS V Information page.
- Take HS 16N (Basic Skills for the Nurse) or a certified nursing assistant course.

Strongly Recommended Activities

- Work on completing your General Education classes and other graduation requirements. The nursing program at Moorpark College is very demanding, and the clinical schedule is variable. This makes it difficult to attend a standard class, since conflicts in scheduling will most likely occur. Contact an academic counselor for assistance in determining your specific graduation requirements at (805) 378-1400 ext. 1428.
- Become a Certified Nursing Assistant (CNA) and work in a hospital. Please note, Health Sciences 16N (Basic Skills for the Nurse) does not lead to eligibility to take the exam to become a CNA. Full certified nursing assistant courses may be found at other local community colleges and vocational education programs.

Recommended Activities

- To assist you in the nursing program, other courses you may consider taking are as follows:
  - NS M16   - Study Skills for the Nursing Student
  - LS M04   - Reading & Reasoning
  - LS M04L   - Reading & Reasoning Laboratory
  - NTS M05   - Nutrition for the Health Professional
  - HS M15   - Pharmacology
  - HS M19   - Medical Terminology
  - HS M25   - Basic Pathophysiology
- Complete coursework toward earning a Bachelor's degree. Contact an academic counselor for assistance (805) 378 - 1400 ext. 1428.
- Prepare your family and support system for your entry into the nursing program. To help initiate a conversation with your family and loved ones, a Student-Family Activity guide may be found in the Forms section of this website.

Once Accepted

The Acceptance Letter

You will receive an acceptance letter by certified mail one semester prior to entering the program. Someone must be present to sign for certified mail. If no one is available for signature, a note will be left for post office pick up. Take note of the Important Dates handout that is included with your acceptance letter.

Return the enclosed acceptance slip by the due date. Since your place in the program depends on the Health Sciences Department receiving your acceptance slip, it is recommended that you hand deliver it to the Health Sciences office.

Acceptance into the program is contingent on proof of a social security or passport number, clearance of a health appraisal, drug screen, and background check that goes back seven years.

The Mandatory Open House

A Mandatory Open House will be held during the semester prior to your start date. You **must** attend this function. This allows you to meet your fellow classmates and the nursing faculty. During this event you will be given your admission packet, which contains information on all admission requirements. You must attend the Open House to receive your admission packet. Do not start on admission requirements until you have been notified of your acceptance, since these must be done no more than four months prior to starting class.

The Admission Packet includes information on the following:

- Social Security Card or passport if you do not have a Social Security Card
- Health Appraisal (physical exam, immunization record)
- Background and Drug Screen
- CPR Card requirements and providers
- Los Angeles County Fire Safety Card
- Uniform
- Photo ID Badges (obtained at Moorpark College)
- Textbook list
- Classes to register for

Mandatory Orientation

Mandatory Orientation is held during the week prior to the start of class, usually on a Wednesday or Thursday. You **must** attend the New Nursing Student Mandatory Orientation. This event will familiarize you with the ADN Student Handbook, and your first semester instructor will discuss your first week class assignments and requirements.

Students are required to either have a social security number (preferred) or passport to be admitted to the nursing program.

Hospitals are requiring a social security number or a passport number as identification to allow nursing students to access or document in the patient electronic health record.

International students are advised to contact the Moorpark College International Student Office as soon as possible to start the process for securing a social security number so they can be issued a Social Security Card by graduation.

The state of California requires all graduates to have a valid social security number in order to apply for the licensing exam. The Board of Registered Nursing cannot accept applications for the examination and licensure without a U.S. social security number.

You must show proof of possessing a social security number or passport number along with the other mandatory requirements, by New Nursing Student Mandatory Orientation in order to be admitted into the nursing program.

Advanced Placement

Opportunities for Advanced Placement are based on available space. Possible candidates include Licensed Vocational Nurses, transfer nursing students from other accredited colleges, and readmission applicants. Candidates must schedule an appointment with the Nursing Counselor and complete the application for Advanced Placement. All Advanced Placement applicants must meet the ADN program prerequisites and course requirements including an overall GPA of 2.5 or higher and a grade of C or better in English, math, and science prerequisites. As with the ADN applicants, the science and math prerequisites must have been taken within five years of application to the program. Graduate nurses lacking California licensure requirements may be admitted as Advanced Placement students; they may not take single courses.

Advanced Placement is defined as acceptance into the second or third semester of the nursing program at Moorpark College. Applicants are not accepted into the fourth semester. The only exception would be a student who withdrew from the Moorpark College Nursing Program in good standing due to extenuating circumstances and returned within 1 year.

Advanced Placement Application Period

- **For Spring Semester: August 1st - August 31st by 5:00 pm in the Health Sciences Department Office**

- **For Fall Semester: January 3rd - January 31st by 5:00 pm in the Health Sciences Department Office**

It is recommended that applicants hand deliver their applications to the Health Sciences Department Office in HSC 120 during the above application periods. If the application due date falls on a weekend or a holiday, the application will be due in the Health Sciences Department Office by 5:00 pm on the next business day.

Important Dates/Deadlines

Application period - Applications must be received by 5:00 pm on the due date in the Health Sciences Department Office - HSC 120

- August 1st - August 31st
- January 3rd - January 31st

Save the Dates

TEAS V

- September 28th & October 5th - For August 2012 application period
- February 22nd & March 1st - For January 2013 application period

PN Comprehensive Predictor if you are a Licensed Vocational Nurse (LVN)

- October 5th - For August 2012 application period
- March 1st - For January 2013 application period

Note you must have a valid vcccd.edu e-mail address to receive the invitation

The Admission Process

Prior to submitting your application, make an appointment with the Health Sciences Counselor. Submit a complete application with supporting documentation (transcripts, letters of recommendation, TEAS V, or PN Comprehensive Predictor test scores), to the Health Sciences Department (HSC 120). The following items must be submitted with your application in order for it to be considered complete:

All Applicants:

- Advanced Placement application
- Official (SEALED) transcripts from all colleges attended, including Moorpark, Oxnard and Ventura Colleges.
- Official (SEALED) transcripts from high school or GED if no degree is held by applicant

Frequently Asked Questions

When do you accept applications?

There are two application periods each year - January 3rd through January 31st, and August 1st through August 31st .

What is the minimum required GPA to apply into the program?

The minimum required cumulative GPA is 2.5

What are the required prerequisites?

Please refer to the Application Process and Counseling pages on this website.

Do you have time limitations on accepted prerequisite classes?

Yes. The core science prerequisites and Intermediate Algebra must be taken within five years of application to the program.

Can I take Anatomy and Physiology together, as a combined course?

No. (Please contact counseling if you have any questions.)

Do you have a wait list?

No. Please refer to the Application Process page.

Is there a lottery?

No. Please refer to the Application Process page.

When do first semester nursing students start?

A new class of nursing students begins the program each spring and fall.

How many students are accepted each semester?

The first semester class size can vary anywhere between 33 - 50 students.

Is your program full time?

Yes, but hours vary between classroom lecture, labs, clinical, studying, and homework obligations. Lecture is held on Mondays and there are one to two full days of clinical that can vary between Tuesdays - Saturdays.

What is the cost of your program?

Roughly $4950.00 but this is subject to change.

Do you have an LVN-to-RN bridge program?

Yes. Please refer to the Advanced Placement page.

Do you have a RN refresher course?

Not currently.

Do you offer a surgical nursing course?

Not at this time.

I became a nurse in another country. For licensure in California, the BRN is requiring I take a class. Am I able to take it at your college?

Individual nursing classes are not offered by Moorpark College. You will need to apply as an Advanced Placement student. Please contact the Counseling office at (805)378-1428 to schedule an appointment with a counselor.

http://www.moorparkcollege.edu/departments/academic/nursing/frequently_asked_questi...   10/31/2012

Frequently Asked Questions - Academic - Departments - Moorpark College   Page 2 of 2

I've been accepted to the program, but due to extenuating circumstances, I can't enter the nursing program at this time. Can I defer until the following semester?

Yes, a student who is accepted to the nursing program may defer entry one time, for up to a year, but only due to extenuating circumstances. You will not be allowed to defer because of incomplete remediation that was required of you. Request for deferral must be presented to the Health Sciences Department in writing, to the attention of the Health Sciences Coordinator.

I have my ADN already. Do you have any information about getting my BSN?

Yes, Moorpark College works closely with California State University Channel Islands (CSUCI), and encourages students to continue their formal education after obtaining their ADN. CSUCI offers two ADN to BSN options. Information regarding the first option, Bachelor of Science Nursing: ADN to BSN Fast Track can be found at the following link: http://nursing.csuci.edu/programs/ad-bsn.htm

The second option is the RN to BSN Track II Nursing Major. Information regarding this program is available at: http://nursing.csuci.edu/programs/track2.htm

NCLEX Pass Rates

The table below is categorized by academic year (e.g., July 1st - June 30th) and reflects the results of all graduates who have taken the NCLEX examination for the first time within the last five years (including those students who graduated more than five years ago). Due to possible changes in this data, the BRN asks that you contact the individual programs directly for the most accurate and up-to-date information. Please refer to RN Programs for a contact list of all BRN accredited programs.
