About Us

There are 55 Agricultural Commissioners and Sealers of Weights & Measures in 58 counties across California. They are part of a network of regulatory agencies charged with enforcing laws and regulations affecting agriculture, and weights & measures.

The Ventura County Department of Agriculture/Weights & Measures operates under a unique relationship with various governing authorities. It is funded by federal, state, and local sources to regulate the agricultural industry while also collecting fees for services provided.

... Commissioner/Sealer is licensed by the State of California and is ... year term by the County Board of Supervisors.

... Cultural Commissioner ... /meet-the-commissioner/)

Our Mission

Our mission is to protect and promote agriculture and equity in the marketplace, while ensuring the industry and the environment.

We do this by enforcing federal, state and local laws, regulations and ordinances for:

- Agriculture & Consumer Protection
 - Certified Farmers' Markets (CFMs)
 - Organic Certification & Audits
 - Pest Detection & Trapping
- Pest Exclusion
 - High-risk Pest Exclusion
 - Nursery Inspections
 - Phytosanitary Certificates
- Pesticide Use Enforcement
 - Enforcement Response
 - Pest Control Business Registrations
 - Restricted Materials Permitting
- Weights & Measures
 - Measurement & Weighing Device Registration
 - Petroleum Inspections
 - Quantity Control (Price & Packaging Verification)

Our Vision

Our department is dedicated to promoting and protecting agriculture and consumer interests in Ventura County. By collaborating with stakeholders across the county, the office fosters sustainable solutions and builds a foundation for long-term success.

The Agricultural Commissioner/Sealer's Office proactively identifies emerging challenges and implements timely, effective strategies to achieve positive outcomes. Excellence in service and a commitment to continuous improvement are integral to the department's mission and operations.
